Our Guarantee

Our Guarantee We guarantee the safe arrival of all seeds and plants you order from us. that they will be as represented and in condition to grow satisfactorily if planted and cared for properly. Any item or items not found to be satisfactory, will be replaced free of charge or we will refund the price you paid us for same. It is agreed that we shall in no case be liable for more than the actual price paid for items found to be unsatisfactory, if any. We do not guarantee fertilizers, insecticides or other manufactured articles.

WHEN DO WE DELIVER? SEEDS. All seeds will be shipped to you as soon as your order is received, as they are not affected by coldest weather. **NURSERY STOCK.** Begonias, Cannas, Dahlias, Lilies, Gladiolus, Summer Flowering Bulbs, Peonies and Iris will be shipped from here, either with seeds or separately, later, if there is danger of freezing. Perennial Plants, Ferns, Chrysanthemums, Phlox, Shrubs, Vines, Roses and Small Fruits will be shipped direct from our Painesville Nursery at proper planting time.

A Personal Message On Our 60th Anniversary

Sixty years is a long time. It is a long time for one firm to do business, especially when this business has been done largely by mail with customers who have never been able to come to our place of business.

It is obvious that the foundations for this business must have been well laid by its founder, Mr. R. L. Templin. It is also obvious that the founder had high ideals not only in his transactions with his customers, but in his transactions with his producers of seeds and plants in the eleven foreign countries and the twenty-two states in this country, who have furnished a steadily improved quality as their experience and familiarity with the habits of plant life increased from year to year.

From 1911 to 1929, a period of eighteen years, I was fortunate in being in close, daily association with our founder, who passed away in Amsterdam, Holland, in 1929, at the age of 76 years, after having spent 53 years serving the interests of gardeners in every state in the Union and in several foreign countries.

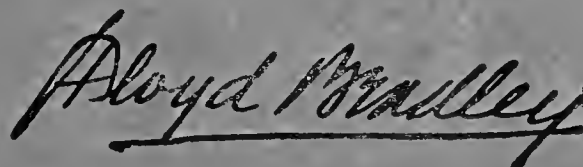

Mr. Templin made his start in the seed branch of our business the year he was married. He had been trained in his father's nursery and greenhouse and it was under Mr. Templin's personal direction that I had all of my training in producing plants on our own property. I never heard him mention how many dollars of sales he hoped we could make. But how many times I heard him say what our customers could do with the different kinds of seeds and plants we offered; the money the customers could make from crops of vegetables and flowers they could sell; the decorative effects in the garden and in the home with the flowers they would grow; the delicious food they would enjoy from the fresh vegetables.

All of the above had a marked influence on me as I grew in understanding of the business in which I am engaged. I know nearly every seedsman and nurseryman in America and I do not compare Mr. Templin with any of them, but I do feel that could I have known all of them when I started as well as I know them now, I would have selected Mr. Templin as my mentor in this, my life work. As it is, I was fortunate in having been brought in contact with him.

Every year, I get thousands of letters from our customers and a remarkably large number of them have been buying their seeds and plants from us for forty and even fifty years. Of this I am proud, for it means that they have been well pleased with the results of their plantings. I look on each satisfied customer as one more assurance that we have been properly thinking of the most important thing in our business relationship with our customers and that is, the interest of the customers. That has guided us in our care to see that stocks are the best available in the whole world, in giving full measure and in keeping prices within the reach of the pocketbooks of all of our customers.

What I am telling you here, is something we do not attempt to put in the seed catalog every year. But on our 60th Anniversary, I feel that you will understand why I feel moved to pay a deserved tribute to Mr. Templin's long life and high standards.

We do not offer you a NEW DEAL in seeds and plants, but just the **60 year old SQUARE DEAL** for which Templin-Bradley has come to be known in the United States.

President.

Vegetable Seeds For Market Gardeners

We are just as careful with our strains of vegetables as with our flowers, and solicit your business on the quality basis.

Prices are as low as possible consistent with quality.

Prices on all small seeds
are postpaid and can be sent by parcel post. All vegetable seeds, except Beans, Peas and Corn, therefore, include transportation.
Prices subject to Market change and unsold.

Prices on Beans, Peas and Corn
are not prepaid, and will be shipped by express or freight at purchasers' expense. You may purchase 5 lbs. at the 10 lb. rate and 50 lbs. at the 100 lb. rate.

Beans weigh 60 lbs. per bushel. Per lb.
10 lb. 25 lb. 100 lb.

BEANS—Not Prepaid

Floyd Bradley and Ernst Roggli, the Pansy Seed grower in Switzerland.

Templin-Bradley has every facility for serving your garden needs, quickly and accurately.

Electric seed germinators of our own design give us accurate results.

Our own Trial Grounds where type tests are conducted.

Our own Nursery assures you carefully grown plants.

A corner in our Seed Department handling 7,500 orders a day in our busy spring season.

U S. Postal clerks, right in our own building cancel stamps and route packages direct to trains.

For Your 1936 Garden

To Our Customers—

You have before you the 60th annual spring seed and nursery catalog issued by our company. With this catalog, we extend our greetings to you for 1936, our best wishes for a successful garden and thanks for the orders you have sent us in the past.

When you begin to plan your garden, you will find this catalog a real help to you. The full page charts on Annual Flowers, Perennial Flowers and Vegetables, give you easily understood information which would require hours of study if you were to find such concise information elsewhere. The descriptions and illustrations will be helpful too and the color plates will show you the true beauty of many items.

The best new things in Annual Flowers which have been introduced recently, are grouped on pages 2, 15 and 16. These are the All-America and other new kinds you have been reading about and talking about in your garden club or wherever gardeners gather.

You will find that our list of seeds and plants will provide you with everything your garden needs. The wide assortment we offer you here, is the result of years of experiencing the varied requirements for seeds and plants for our hundreds of thousands of customers in all parts of the United States.

Prices have been reduced in a great many cases this year, due to two things, first better harvest season last fall, and second, increased sales last year over the previous year. The resulting savings to us are being passed on to you in the form of lower prices on many items.

All of the seeds and plants we offer, have been carefully grown from tested parent stock. All of our growers are men of long experience, always watchful for quality and productivity. Our test gardens in Cleveland and Medina give us further check on quality and habits of the various items.

Located as we are, practically in the center of population in the United States, parcel post, express and freight service is very fast, to every corner of our big country. We are even prepared to ship in emergencies by air mail or express from the Cleveland Airport, for which latter and for heavy freight shipments, only, regular cost of such transportation is added. Everything else is shipped post paid.

We shall be happy to have you send us your order just as soon as you can for the seeds and plants you will need for your 1936 garden.

Floyd Bradley
President.

Founder

Prices Include Delivery On every thing in this catalog except where noted, prices include delivery to your mailbox or express office. This means you have no extras when you buy here.

When Do We Deliver? Seed will be shipped as soon as your order is received. Begonias, Cannas, Dahlias, Gladiolus, Summer Flowering Bulbs, will be shipped from here, either with seeds or separately, later, if there is danger of freezing. Perennial Plants, Ferns, Lilies, Mums, Peonies, and Iris, Phlox, Shrubs, Vines, Roses and Small Fruits will be shipped direct from our Painesville Nursery at proper planting time.

When to Order I am sending this catalog to you early enough so you can make up your order with the least amount of rush. We like to have the orders come in as early as possible so we can spread our work over a longer period than if everyone waited until planting time. But if you cannot order early, send your order in any time and we will take good care of it.

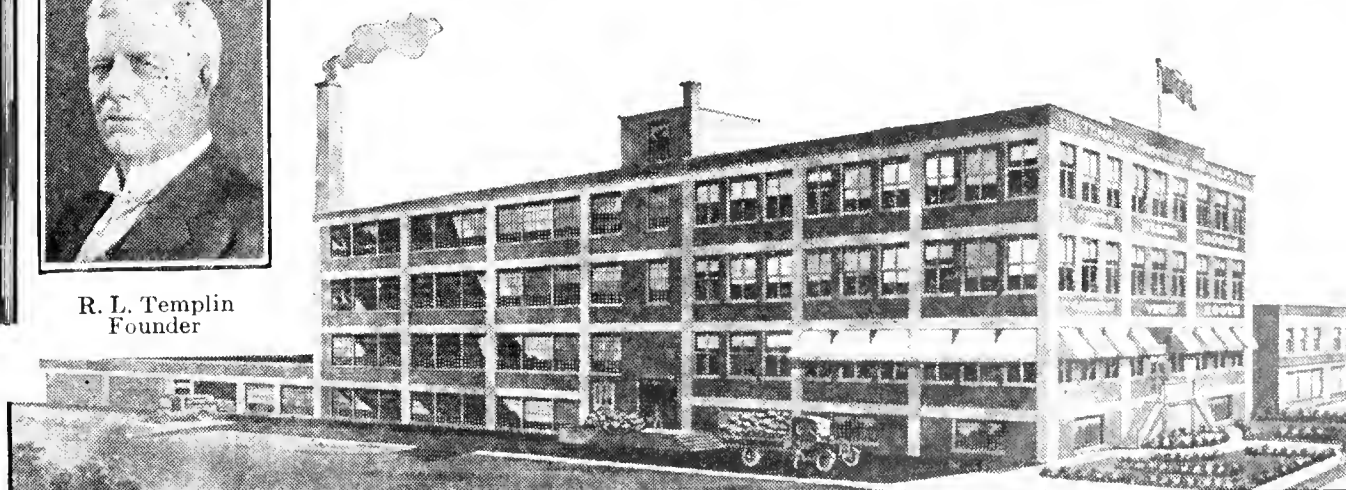

How to Order Two order blanks just alike are bound in this book, perforated, so you can tear them out easily. We like to have you use the order blank in ordering because it insures accuracy in filling your order when we receive it. When you are ready, tear out one of the order blanks—print or write your full name and full address in the spaces provided at the top. Then list all the flower and vegetable seeds you need. Do the same with the bulbs, shrubs and plants you wish to order. You will see a column on the order blank, headed "Variety Number." Every variety in the catalog has a number just in front of the name. If you wish, you only need to fill in those numbers on the order blank instead of writing out the names of varieties. We do like to have you use the numbers, even though you use the names, too, for it speeds things up here when we fill your order and helps us to be accurate. A tough, self-addressed envelope is enclosed with the catalog. Use it when you mail us your order. You may pay by Money Order, Check, or if you must send cash or stamps, be sure to register the envelope.

The Templin-Bradley Guarantee

We guarantee the safe arrival of all seeds and plants you order from us, that they will be as represented and in condition to grow satisfactorily if planted and cared for properly.

Any item or items not found to be satisfactory, will be replaced free of charge or we will refund the price you paid us for same. It is agreed that we shall in no case be liable for more than the actual price paid for items found to be unsatisfactory, if any. We do not guarantee fertilizers, insecticides or other manufactured articles.

The Templin-Bradley Co., 5700 Detroit Ave., Cleveland, Ohio

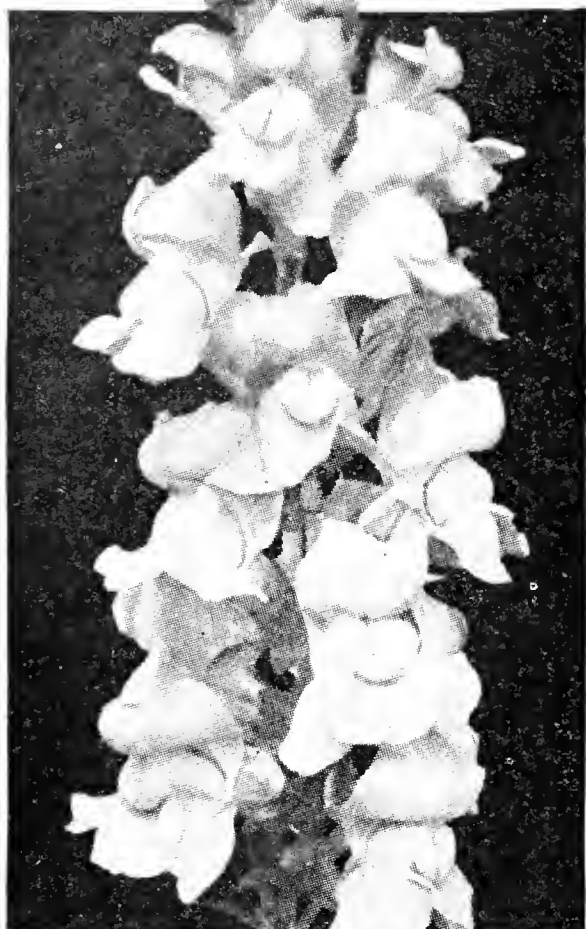

Our Own Modern Buildings at 5700 Detroit Ave., Cleveland, Ohio

All-America Selections

The Meaning of "All-America"

For the past four years, the All-America Selections Committee, of the American Seed Trade Association, has been conducting trials of all new varieties of flowers submitted by plant breeders from all over the world. These trials are located in ten widely scattered test gardens from the Atlantic to the Pacific, in the charge of experts. By voting on the merits of each variety in each location, the best possible judgment of merit can be obtained and all articles bearing the name "All-America," in this catalog have passed the test of these judges. We recommend that you try as many of them as you can, for it is the new things in your garden that add so greatly to its interest. Mr. Bradley has worked very closely with members of the Committee, so this project is very close to The Templin-Bradley Co.

See Color Page 15. Description Page 14.

Asters

292 Super Giant El Monte Color Page 2. 1936

All-America. The only really large-flowered crimson Aster. It is a deep crimson, composed of quantities of daintily interlaced, plume-like petals. The flowers are extremely large and fluffy, borne on heavy non-lateral, basal branched stems. Very early and long lasting blooms. Pkt. 25c; $\frac{1}{8}$ oz. 40c.

286 Aurora Golden Sheaf Wilt-Resistant. The

deepest yellow Aster yet developed. Attractive double flower, with full-cushioned crest-like center supported by several rows of short ray petals. See illustration at lower right. Fully Wilt-Resistant and decidedly pleasing in color and type. Pkt. 15c; $\frac{1}{8}$ oz. 40c.

Calendulas In Color on Pages 15 and 16

427 Orange Shaggy All-America 1935 Gold Medal. Unusual

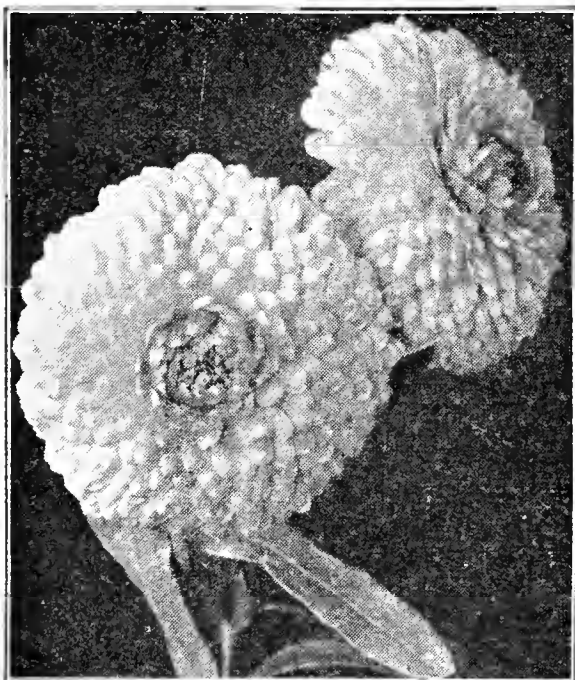

in appearance. Rows of long fringed or laciniated petals, deeply overlapping in irregular fashion, giving the flower a shaggy effect. Deep orange. See color page 16, also listed on page 17. Pkt. 15c; $\frac{1}{8}$ oz. 25c.

428 Jewel A real jewel. The petals are so regular and perfectly formed and overlapped so beautifully and the color of deep orange so sparkling that it resembles a jewel. It is the finest Calendula yet introduced. The plants are semi-dwarf and free-flowering, making it equally desirable for bedding and cut-flower use. See color page 15. Pkt. 10c; $\frac{1}{8}$ oz. 30c.

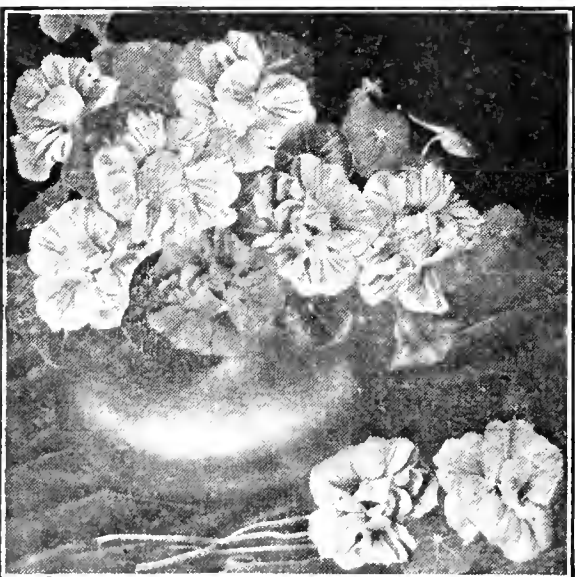

Cosmos In Color On Pages 2 and 16

616 Sensation All-America 1936. The Sensation of the year. A wonderful new Cosmos that far surpasses all existing strains in size of flower. It is a real giant, blooms measure 4 to 6 inches across. It will bloom in eight weeks from sowing, is 4 to 5 feet tall and invaluable for cut-flowers. Sensation Mixture of pink and white. Pkt. 25c.

626 Orange Flare Klondyke Cosmos. All-America 1935. This vivid orange Cosmos has exceeded our expectations in that its beauty of color, new in the Cosmos family, its early and continuous bloom, its attractive bright green foliage, its uniformity in height and size of plant and its abundance of flowers, combine to make it the Outstanding All-America of 1935. Pkt. 15c; $\frac{1}{8}$ oz. 35c.

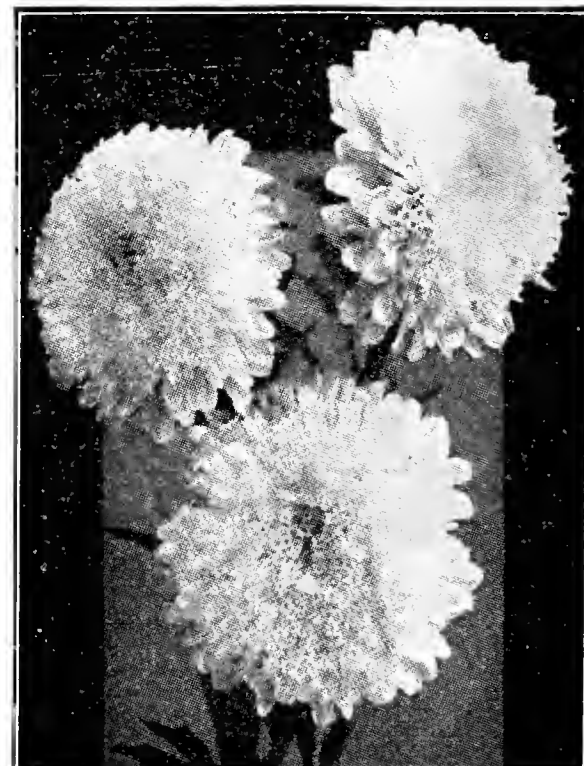

Jewel Calendula In Color Page 15

Gleam Nasturtiums, Color Page 70

Dixie Sunshine Marigold, Color Page 2

Aurora Golden Sheaf Aster

Ipomea See Color Page 15

2395 Heavenly Blue Morning Glory. As blue as the sky. A most outstanding annual vine. The flowers are enormous, averaging 3 $\frac{1}{2}$ inches across. The color is a fixed sky-blue, beautiful beyond words to describe and the abundance of blooms, open from sunrise until late afternoon, make it ideal for covering a trellis or arbor. The vine is a bit late flowering, so it is well to start the seeds indoors in pots. It is a rapid grower and will bloom all summer. Also listed on page 31. Pkt. 10c; $\frac{1}{4}$ oz. 35c.

Marigolds In Color On Pages 2, 15, 16.

1357 Dixie Sunshine All-America 1936. A magnificent Marigold. An entirely new type of Marigold, comes 100% double and is without the familiar Marigold odor. The flowers are brilliant golden yellow, really heads of hundreds of tiny 5-petaled chrysanthemum-like florets, with laciniated effect. Tall, bushy growth, rich green, finely cut foliage, supporting masses of the beautiful flowers which keep 10 days as cut-flowers. Pkt. 25c; $\frac{1}{8}$ oz. 50c.

1359 Yellow Supreme All-America 1935 Gold Medal. This new Marigold is the result of years of careful breeding. It is similar to "Guinea Gold" but of a pure lemon-yellow color, fully Carnation-flowered, nearly 3 inches across, quite early and a very profuse bloomer. For better description, see natural color on page 16. Pkt. 15c; $\frac{1}{8}$ oz. 40c.

1369 Mexican Dwarf Orange Hailing from Mexico, the original home of many of our garden flowers, this handsome new type of Marigold grows 15 to 18 inches tall, and bears large double flowers of a bright orange. The petals are broad, deeply crinkled at ends. The flowers are 4 inches in diameter and so very double that they resemble oranges. Sown indoors in March, and planted outdoors in May, it will bloom from July until frost. Pkt. 15c; $\frac{1}{8}$ oz. 40c.

1375 Royal Scot A most striking color combination in rich gold and mahogany, well-formed double flowers are produced in abundance on plants 24 to 30 inches tall. Very modernistic. See color page 16. Pkt. 10c; $\frac{1}{8}$ oz. 35c.

1381 Tagetes Little Giant Signata Pumila. The highest development yet attained in a neat, dwarf, really compact strain of this type. Very dainty, with slender foliage, plants 4 to 6 inches high, with a spread of 8 to 10 inches, covered with gay, single, deep orange flowers. An ideal edging plant, a perfect mass of gold. Pkt. 10c; $\frac{1}{8}$ oz. 40c.

1364 Orange Alldouble Color Page 15, Listed Page 23.

And Other Flower Novelties

Make a Modern Garden This Year

NOTE. All the items on pages 8 and 9 have been selected and placed here to show you quickly just what is new in the All-America selections and the other outstanding Flower Novelties this year. Plant them and enjoy a modern garden, one that you will be happy to enter in any garden contest, one that will give you an abundance of cut-flowers through summer and fall.

Nasturtiums Color Pages 2 and 70

ALL SWEET-SCENTED

1437 Dwarf Double Golden Globe 1936 All-America.

The first named color variety in the new Gem Type. Well formed, double golden yellow flowers in profusion. Plants 9 to 12 inches high, of compact dwarf form. It is a sport of Golden Gleam and is sweet-scented. See its real beauty in color, page 2. Pkt. 25c; ½ oz. 35c.

1435 Dwarf Double Gem Mixed

Shades of yellow, orange, scarlet, crimson, cerise, cream, maroon and spotted varieties. Compact, gem-like plants, ideal for edging and border use. These lovely, sweet-scented Nasturtiums created a sensation at the California Exposition in San Diego last summer. Pkt. 25c.

New Double Gleam Nasturtiums

Double Gleam Nasturtiums are the result of years of scientific plant breeding and selection. A most remarkable achievement in plant breeding.

See Color Page 70

1438 Golden Gleam. Immense golden yellow. All-America 1933. Pkt. 10c; Oz. 25c.

1439 Scarlet Gleam. Dazzling orange-scarlet. All-America 1935. Pkt. 10c; ½ oz. 85c.

1444 Orange Gleam. Deep glowing golden orange. Pkt. 20c; ½ oz. 15c.

1445 Moon Gleam. Light golden cream. Pkt. 15c; ½ oz. 40c.

1446 Salmon Gleam. Delicate salmon. Pkt. 15c; ½ oz. 40c.

1440 Gleam Hybrids. Magnificent color range. See page 70 for flowers in natural color. All-America 1935. Pkt. 10c; Oz. 30c.

Pansies See Color Page 15

1545 Roggli's Swiss Giants Deluxe Strain

This wonderful strain of Pansies comes from the heart of the Swiss Alps and comprises all the beautiful colors known to the Pansy world. The richest red, deep blue, copper, bronze, gold, yellow. Thick, velvety petals, huge flowers, often measuring 4 inches across. Pkt. 25c; ⅙ oz. \$1.00.

Phlox See Color Page 2

1626B Gigantea Art Shades Phlox Drummondii.

All-America 1935. A fine new strain of Phlox with flowers 1 to 1½ inches across and comes in a wonderful range of art shades. Salmon, apricot, apple-blossom, soft rose, light blue, light mauve, pale violet and all with cream or white eyes. Soft colors blended in beautiful mixture. Plants 9 inches high. Pkt. 15c; ⅙ oz. 40c.

Zinnia Fantasy. See Color Page 16

Petunias Color Pages 2 and 33

1573 Hybrida Flaming Velvet

1936 Gold Medal All-America. Rich brilliant velvety scarlet. Outstanding for its color, type and uniformity. A Holland introduction and one that will brighten any garden. See its color value on page 2. Pkt. 25c.

1592 Rose Gem Dwarf Nana Compacta 1936 All-America. Neat, compact plant, 5 to 6 inches high and smothered with a mass of rich rose colored blooms about 2 inches in diameter. A charming new miniature petunia. See its beauty in color, page 2. Pkt. 25c.

1608 Rose King Improved Hybrida. 1936 All-America. Large and free-flowering rose colored variety. Plants 14 inches tall, flowers 3 inches in diameter, long stems from the base, make it an excellent cut-flower. Pkt. 25c.

1593 Martha Washington All-America 1935. A perfect little ball of beauty, 9 inches tall. Flowers are ruffled, pink, veined wine-red, with violet throat. Resembles a Pelargonium. Pkt. 25c.

Scabiosas Color Pages 15 and 16

1733 Blue Cockade Award of Merit from London Royal Horticultural Society. A lovely azure blue, large, conical, half-hardy. One of the finest flowers for cut-flowers, and one of the most attractive in our Annual Flower Trial Grounds. Pkt. 15c; ⅙ oz. 30c.

1722 New Giant Hybrids The flowers of this splendid new strain are much larger than the old standard Scabiosas, often measuring 2 to 2½ inches across. They are completely rounded and double and come in a wide range of colors. See color on page 15. Pkt. 10c; ⅙ oz. 30c.

Zinnias See Color Pages 15, 16, 33.

2294 Fantasy All-America 1935. A striking Novelty. It is of the curled and crested type with flowers of medium size, in a wide range of colors and shades. Reds, yellows, orange, bronze, gold and the pastel pinks and rich cream. The unusual shaggy, twisted petals give it a dainty beauty that makes it most desirable for cut-flowers. You will enjoy its novel type. Pkt. 15c; ⅙ oz. 35c.

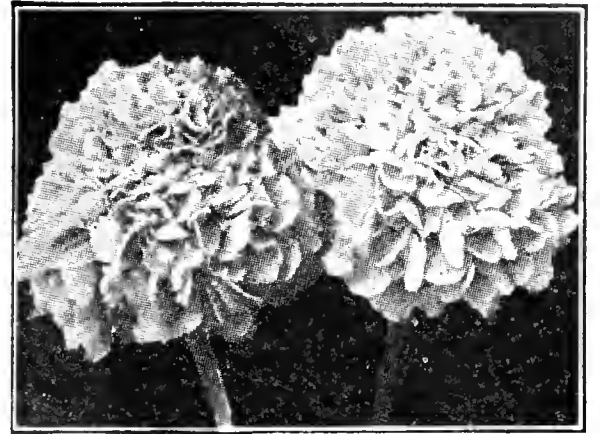

2291 Scabiosa Flowered An odd and attractive Zinnia, resembling a Scabiosa in form. The plants are extremely free flowering, 2 to 2½ feet high, giving a wealth of bloom throughout the summer. The color range includes all the beautiful shades of crimson, scarlet, orange, pink and yellows. These Zinnias are ideal for bouquets, especially in low bowls. See color, page 15. Pkt. 15c; ⅙ oz. 35c.

Verbena See Color Page 16

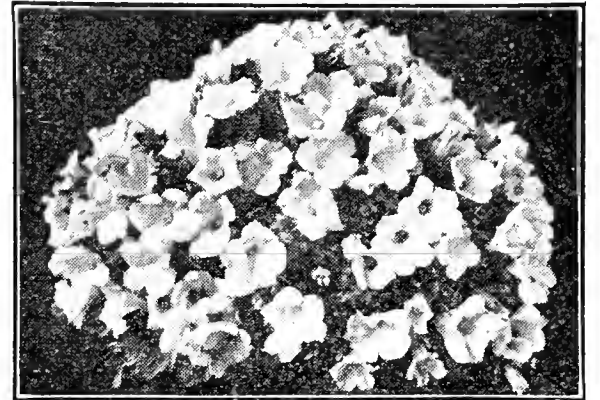

2070 "Eyeful" All-America 1935. Startlingly beautiful. Medium sized flowers of intense, dazzling scarlet with white eye. Compact plants, useful for bedding or borders. Its sparkling color and its genuine beauty, give it the name, "Eyeful." Pkt. 10c; ⅙ oz. 35c.

More Novelties and Unusual Flowers

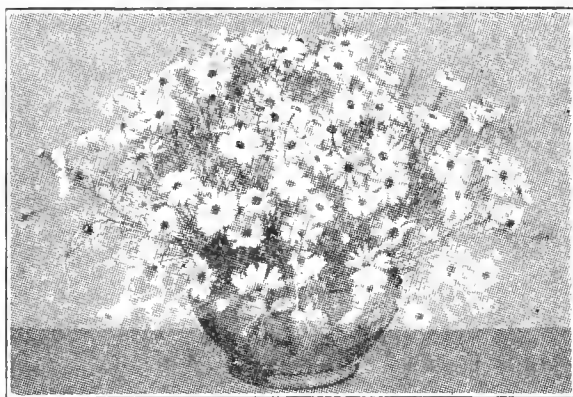

Selected for Their Beauty, Quality and Usefulness

336 Begonia Pendula Basket Type Mixed. **Tuberous Rooted.** See cut. Very desirable for hanging baskets or wall pockets. The pending rose and red, double flowers on graceful stems, make a striking effect. **Pkt. 50c.**

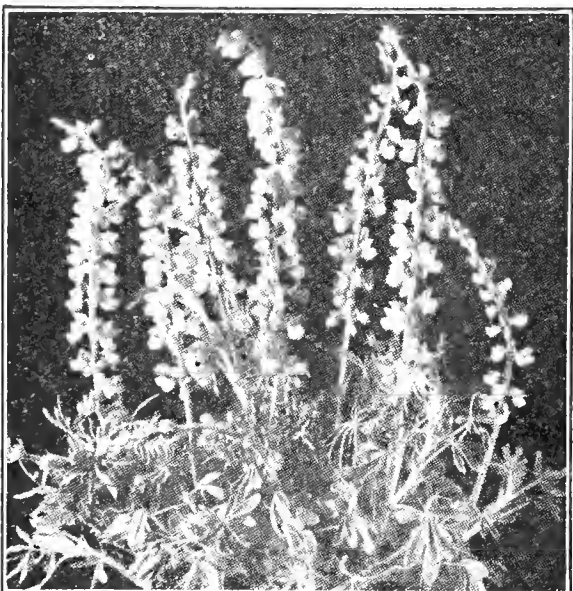

350 Brachycome Swan River Daisy. Makes dainty table decoration. See cut. This a most delightful annual. The lovely little Daisy-like blue flowers are as bright as stars, practically cover the foliage. Plants 9 inches high. **Pkt. 10c; 1/8 oz. 25c.**

470 Calliopsis "Gold Crest" Semi-Double Drummondii. A leading novelty for 1936. The color is a rich golden yellow with a reddish brown zone and comes with a double row of mammoth petals. Attractive coloring for garden and cut-flowers. **Pkt. 15c.**

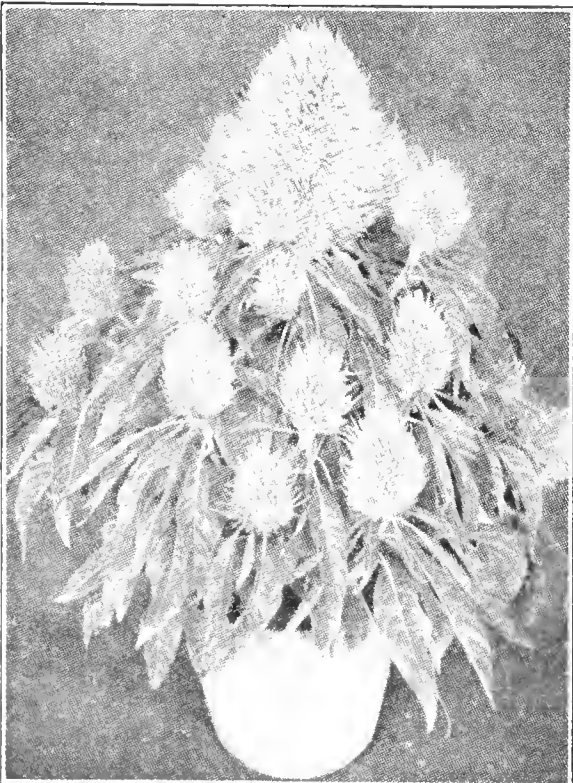

Garden Magic Complete Manual with 12 Monthly Bulletins **\$3.50**
See Page 81.

Brachycome, Swan River Daisy

King Lupines

Celosia, Flame of Fire

A New Perennial 2757 Coreopsis "Double Sunburst"

The flowers are double, large, 1½ to 2 inches across, deep golden yellow, and are excellent for cutting as well as for garden decoration. The blooms keep well and the plants are very easy to grow. A pleasant change from the single form. A fine addition to your perennial garden. **Pkt. 15c; 1/8 oz. 35c.**

514 Celosia "Flame of Fire" Pyramidalis. All-America 1935. See cut below. Decidedly the most dazzling and attractive of all the Celosias. It grows 18 to 20 inches tall, of pyramidal form, carrying a large flame-colored plume on the top, with many smaller plumes below. Strikingly beautiful. **Pkt. 15c.**

659 Dahlia Orchid Flowering. A new Type of Dahlia. Flowers are of a distinctive character, the petals being curled and twisted in graceful form, the stems are good for cut-flowers and the wide range of colors includes everything from white through all the shades and tones known to the Dahlia family. **Pkt. 10c.**

Eschscholtzia, Ramona Strain

Dwarf, compact plants, much neater in appearance than the regular Eschscholtzia. The flowers are beautifully frilled and fluted, (see cut), the petals incurving to form a flower which appears to be double. This is an unusual and lovely California Poppy or Eschscholtzia and comes in four colors and in mixed varieties.

810 GOLDEN BRONZE 812 PINK
811 GOLDEN DAWN 813 WHITE
809 MIXED

Price of any color or mixed. **Pkt. 10c; 1/8 oz. 30c.**

1270 Larkspur, Rosamond All-America 1935. Also Award of Merit by Royal Horticultural Society of London. New pure deep rose, self-colored, fully double. Individual florets are large and closely placed on stems. Distinctly beautiful. **Pkt. 10c; 1/8 oz. 40c.**

Lupines, New Giant or King
See cut at left and full description on page 22.

Petunias

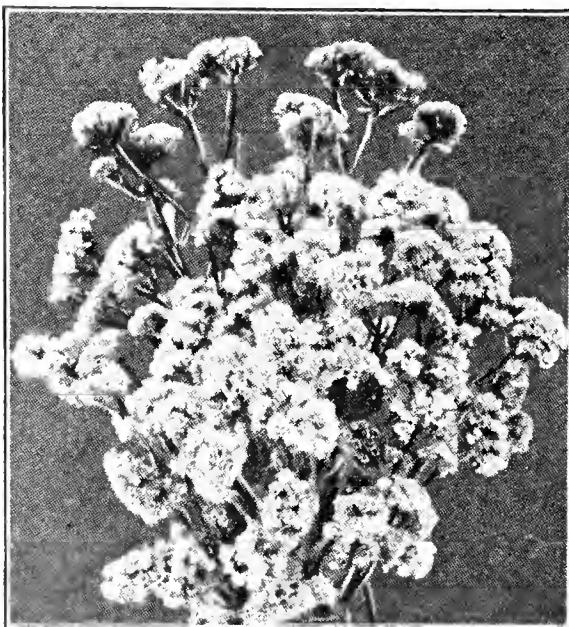

1579 Super-Double Fringed Mixed Colors. In color page 33, described page 26, cut page 9. **Pkt. 60c.**

1591D Erfurt Gaiety Dwarf Fringed. 8 to 12 inches high. Plants covered with daintily fringed and waved blooms of rose and white. See cut, page 9. **Pkt. 25c.**

1591C Erfurt Lace Veil Dwarf Fringed. Pure white. The name describes this dainty, lacy Petunia of great beauty for window-boxes and borders. **Pkt. 25c.**

1580 Hybrida Luminosa Flowers of vivid tyrian rose, with creamy yellow throats. Large and free-flowering and one of the most luminous Petunias. **Pkt. 20c.**

1754 Statice, "True Blue" Sea Lavender. Straw-flowers. This rich deep blue Statice Sinuata makes ideal flowers for winter bouquet. Its color is unusual, the flowers are lacy and dainty in appearance and the stems graceful. See cut below. **Pkt. 10c; 1/4 oz. 25c.**

Statice, True Blue (Strawflowers)

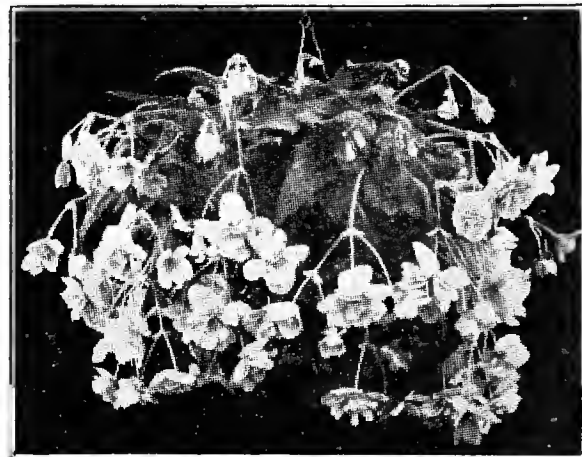

Zinnias Color Pages 16 and 33

2288 "Little Jewels" See Color Page 16. Templin-Bradley's

Darling little miniature Zinnias that will thrill you all summer with their unusual charm and beauty. They come in the most gorgeous colors and combinations of golden, bronze, salmon, rose, mahogany and pink. Some will be single and star-like, others double, all beautifully marked. You will love these "Little Jewels." **Pkt. 10c; 1/8 oz. 30c.**

2293 Desert Gold This mixture contains all the rich golden and yellow shades known to Zinnias. If you like golden flowers, you must plant Desert Gold. They are of the Giant Dahlia Flowered type, flowers often measuring 5 inches across. **Pkt. 10c.**

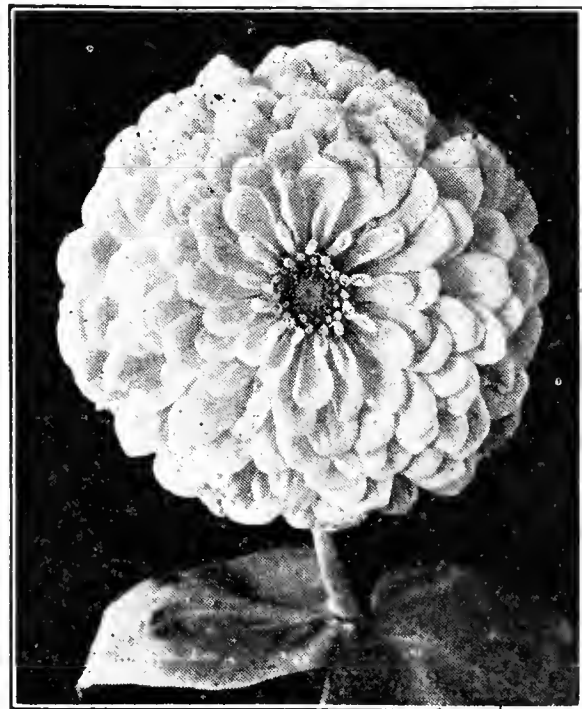

2296 Golden Ray Pumila Picotee Delight. New golden orange, tipped with red at edge of petals, which are ruffled and curled. Novel beauty. **Pkt. 15c; 1/8 oz. 35c.**

Begonia, Pendula Basket Type

Eschscholtzia, Ramona Strain

Zinnia, Desert Gold

Alyssum, Popular Border Plant

Alyssum

The Alyssum is most popular of all for dwarf compact borders and edgings. Quickly in bloom from seed, it is a mass of color all summer. The plants are also useful in porch and window boxes. The flowers have a delicate fragrance.

21 Sweet White *Benthami Maritimum*. This is the popular semi-trailing sort so nice for boxes and hanging baskets. If planted as a border it spreads out 18 to 24 inches. Flowers white and sweet scented. **Pkt. 5c; 1/4 oz. 15c; oz. 35c.**

22 Little Gem *Carpet of Snow*. The best white, of dwarf neat compact habit, the plants running very uniform. The flowers completely cover the plants. Plants only 6 inches high. **Pkt. 8c; 1/4 oz. 25c; oz. 65c.**

23 Lilac Queen Like Little Gem except in color, which is a delicate lilac, the color being more pronounced in cool, moist weather. **Pkt. 5c; 1/4 oz. 25c; oz. 65c.**

24 Procumbens or Dwarf Bouquet A very select, compact sort about 2 1/2 inches high and 12 to 18 inches in diameter. The blooms are thickly massed almost completely hiding the plant. Fine specimen for rock garden. **Pkt. 10c; 1/4 oz. 30c; oz. 85c.**

25 Lutenscens Creamy yellow flowers on compact plants 6 to 8 inches high. **Pkt. 10c; 1/4 oz. 30c.**

3 Abronia

Umbellata Grandiflora also called Sand Verbena because of its Verbena-like flower heads, fragrant bright rose with white centers. A charming little trailing plant that does very well in poor dry sunny soils or in sunny rock gardens. **Pkt. 10c; 1/4 oz. 20c.**

5 Abutilon

Flowering Maple or Chinese Bellflower. A very pretty house plant or summer bedding plant. Grows 3 to 4 ft. tall with very ornamental leaves and lovely bell-shaped flowers. If the seed is started in early spring the plants will bloom the first summer outdoors and can be taken into the house in the fall for winter bloom. **Fine Mixed Colors Pkt. 20c.**

8 Acroclinium

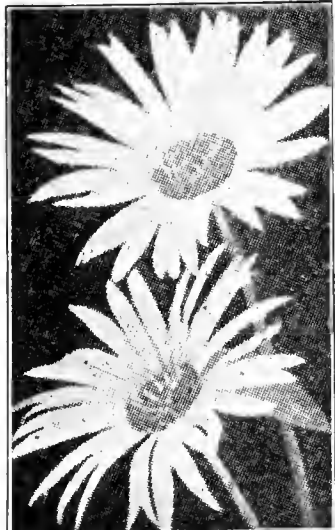

See Everlastings Page 20.

For Your Garden

"The Book of Annuals" by Hottes
180 Pages, 155 Illustrations. Price \$1.60.

9 Adonis, Pheasant's Eye

AESTIVALS, Flos Adonis. R. G. A pretty plant with feathery foliage and rich deep crimson flowers, borne early in the summer. Seed rather slow to germinate. Start in April sowing directly where plants are to stand. **Pkt. 10c; 1/4 oz. 20c.**

Arctotis, Lavender Daisy

Ageratum or Floss Flower

An attractive edging plant easily grown and literally covered with bright blooms from midsummer until frost. Foliage is very dark rich green and forms a pleasing contrast to the bright blue flowers.

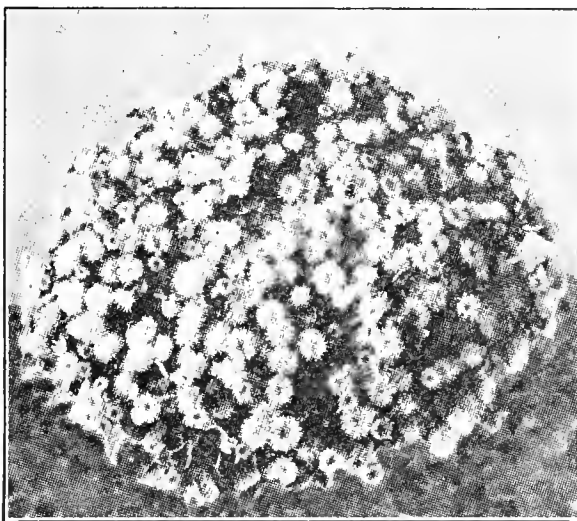

17 Blue Ball Dwarf compact bush covered with bright clear blue flowers. A single plant when in full bloom resembles a big blue ball. 10 to 12 inches, tall not as dwarf as Blue Cap. **Pkt. 8c; 1/8 oz. 35c.**

14 Swanley Blue A very valuable addition to the "Blue" garden. Plants compact and grow 15 to 18 inches high with about same spread, and thickly studded with downy, bright blue flowers. An excellent variety for cutting. **Pkt. 5c; 1/4 oz. 25c.**

18 Imperial Dwarf White Best white flowered Ageratum, very pretty in mixed plantings with the blue. Semi-dwarf plants 15 to 18 inches tall. **Pkt. 5c; 1/4 oz. 25c.**

15 Little Blue Star A good real dwarf variety with small blue flowers with rosy tint. **Pkt. 5c; 1/8 oz. 30c.**

13 Blue Cap The plants are very dwarf, tiny mounds covered with deep blue flowers. It looks to be a great improvement over any other dwarf Ageratum. Only a few inches high like Little Blue Star but has much larger flowers of richer blue. Beautiful for edgings and borders. **Pkt. 15c; 1/8 oz. 40c.**

Ageratum, Blue Cap

Makes ideal edge for bed of Rosy Morn Petunias or Dwarf Marigolds.

Amaranthus Pretty Foliage Plants

28 Molten Fire As the name implies the upper leaves are blazing bright red, the lower leaves maroon. **Pkt. 15c; 1/8 oz. 25c.**

29 Caudatus "Love Lies Bleeding." Long, drooping, blood red panicles. Very easily grown. Height 2 to 3 ft. **Pkt. 5c; 1/4 oz. 20c.**

30 Tricolor "Joseph's Coat." Very brilliant coleus-like foliage the red, yellow and green beautifully blended. **Pkt. 5c; 1/4 oz. 25c.**

32 Pigmy Torch A new Amaranthus exceptionally valuable for low borders or beds, as it grows only 9 to 10 inches high, with rich crimson foliage. **Pkt. 10c; 1/4 oz. 30c.**

33 Collection 1 pkt. each of 4 varieties of Amaranthus for **25c.**

12 Agathea, Blue Marguerite Daisy

Coclestis. Bears clear sky blue daisy-like flowers. Bushy plants 2 to 3 ft. tall that bear profusely if grown on good soil and sunny location. An excellent greenhouse plant. **Pkt. 5c; 1/8 oz. 25c.**

Agrostis Nebulosa

Cloud Grass. See Ornamental Grasses.

19 Alonsoa, Maskflower

Warscewizii. Little, bright scarlet flowers, fine for Rock Gardens and cut-flowers. 18 inches high. Start seed indoors in March, outside in May. Like protection from hottest sun. **Pkt. 8c; 1/8 oz. 20c.**

34 Ammobium

See Everlastings Page 20.

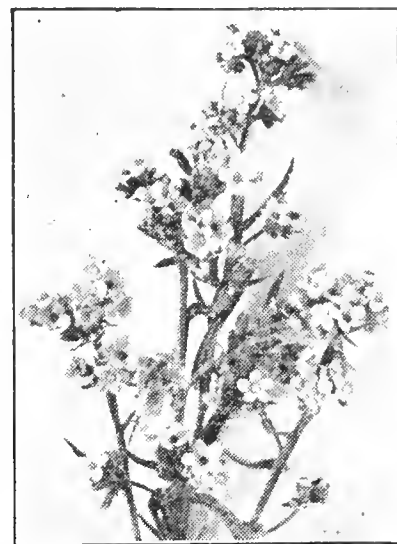

Arctotis, Lavender Daisy

See Flowers in Color on Page 33

One of the loveliest of Daisies, and one of the most desirable annuals for cut flowers as well as for show in the garden. Arctotis is also called the Blue-Eyed African Daisy but it should not be confused with our Golden African Daisy or Dimorphoteca.

129 Grandis Large, showy, daisy-like flowers of bluish white with a central disk of steel-blue, while the reverse of the petal is pale lilac. **Pkt. 5c; 1/4 oz. 20c.**

128 Hybrida Mixed One of the most beautiful novelties offered in recent years. The flowers are like Arctotis Grandis in form but come in rich colors, each with dark centers. Shades of pink, rose, yellow, and orange are all present. Excellent for cutting or garden display. **Pkt. 10c; 1/8 oz. 35c.**

Anchusa, Blue Bird

Annual Anchusa

35 Capenis (Also called Cape Forget-me-not). An annual form of the popular Anchusa, growing 18 to 24 inches high, and bearing a profusion of flowers like Forget-me-nots, though larger. The plants are freely branched, making good cut flower spikes, and the flowers are produced all summer. **Pkt. 8c; 1/4 oz. 25c.**

36 Blue Bird A dwarf compact annual form of Anchusa growing about 18 inches tall and bearing its flowers in a luxuriant bouquet at the top of the plant. The flowers are of a vivid indigo blue and produce a very brilliant effect. **Pkt. 10c; 1/4 oz. 30c.**

PERENNIAL ANCHUSA, See page 36.

40 Anagallis

Grandiflora Blue Pretty little rock or edging plants 6 to 8 inches tall, bearing from July until frost many pretty little turquoise-blue flowers. **Pkt. 10c; 1/4 oz. 25c.**

132 Artemisia, Summer Christmas Tree

Sacrorum Viridis. Forms a very ornamental pyramid shaped tree 3 to 5 feet high, resembling an Evergreen Fir. Foliage is rich dark green. You will find it attractive planted as single specimens or as a border like Mexican Fire Bush. **Pkt. 10c; 1/4 oz. 30c.**

4300—8 oz. Can of Watch-em-Grow only 50c.

Asparagus Ferns

Asparagus Ferns are not hard to grow from seed, though two years is required before the plants are of good size.

137 Sprengerii *Emerald Feather*. An excellent type of fern for hanging baskets, window boxes, etc. **Pkt. 15c; 100 seeds 30c.**

139 Plumosus Nanus *Lace Fern*. A very ornamental pot plant and much used for cutting because of the graceful feathery foliage, which remains fresh for a long time. **Pkt. 15c; 100 seeds 30c.**

Asparagus Plumosus

Plant Templin-Bradley Asters

Asters Satisfy

Do you like to have your garden colorful in the late summer and early fall when the other annuals are beginning to lose their brilliancy? Then plant plenty of our lovely ASTERS. They come in so many colors and shades and in so many types that it is possible to have a real array of beauty. They bloom from July to October.

287 Mixed Wilt-Resistant Asters

A splendid well balanced mixture of wilt-resistant strains containing all the colors and types listed on these two pages. This mixture should give you a continuous supply of wonderful blooms for cut flowers throughout the entire season. You will enjoy studying the types. Pkt. 5c; 1/8 oz. 30c.

American Branching Asters

Wilt-Resistant

These have been the standard of perfection for a long time. They produce great quantities of attractive large double flowers, long stems. Plants 2½ to 3 ft. tall. Blooming in mid-season, the plants are vigorous and well branched. We offer these in the following colors:

142 Purple 143 Crimson 144 Sensation, Scarlet
145 Coppery Rose 146 Dark Lavender 147 Shell Pink
148 White 141 Mixed Colors

Prices on separate colors or Mixed: Pkt. 8c; 1/8 oz. 30c
150 Collection. 1 pkt. each of 7 colors American Branching, 56c value for only 45c.

Early Beauty Asters

Wilt-Resistant

The early Beauty type comes into full bloom at the same time as the American Branching and are unexcelled for cutting. The plants are 2½ to 3 feet tall with many branches and exceedingly long stems. The stems are 15, 18 and even 24 inches long. The flowers are good sized, rather compact with incurved petals, the center petals being somewhat curved and whorled.

Ostrich Feather

Wilt-Resistant Asters

A lovely type of Asters with large, full, fluffy flowers with irregularly twisted petals, resembling Ostrich plumes or feathers. Plants 2½ ft. tall

and of robust growth. Long stems make them fine for cut-flowers. Blooms in mid-season.
182 Purple 183 Light Blue 181 Mixed. Price, Pkt. 10c; 1/8 oz. 35c.

Other Choice Asters Wilt-Resistant

281 **Heart of France** The finest red Aster, as alluring as the richest Ruby and retains its color to the very end. The petals appear changeable, sometimes showing a glow, sometimes a warm velvety texture. Plants 1½ to 2 feet tall. Early. Pkt. 10c; 1/8 oz. 35c.

283 **Ball's Purple** Medium early, large flower, tufted center, branching type. Bright purple. Pkt. 10c.

284 **Ball's White** Same as Ball's Purple except in color. Pure snow-white. Pkt. 10c; 1/8 oz. 35c.

285 **Giant Branching Phlox Pink** Rich clear light rose-pink. Pkt. 10c.

246 **Astermums** Well named Astermums because the shaggy flowers are really more like Chrysanthemums than like Asters. Plants about 2 feet tall, upright branching habit, flowers large, double, well-formed and a little earlier than Giant Comet. Mixed colors. Pkt. 10c; 1/8 oz. 30c.

260 **King or Needle** An American type of distinctive beauty, unlike any other Asters grown. The plants are 1½ to 2 feet tall, strong growers, with long stems crowned with large, double flowers 5 inches across. The petals are long and quilled, resembling a Cactus Dahlia. Our mixture contains all the popular Aster colors. Pkt. 5c; 1/8 oz. 25c.

Improved Crego or Giant Comet Asters

Wilt-Resistant

These are a great improvement over the old Crego or Comet type of Asters. They are like Japanese Chrysanthemums with their long twisted and curled reflex petals. The flowers often measure 3½ to 4½ inches across and very double. The plants are fine, tall, large and well branching, bearing great bouquets of the long stemmed beauties. Bloom mid-season and late. 2½ feet tall.

172 Royal Purple 173 Blue Flame
174 Light Blue 175 Crimson
176 Deep Rose 177 Shell Pink
178 White 179 Salmon Queen
171 Mixed Colors Prices on Colors or mixed: Pkt. 8c; 1/8 oz. 30c.
180 Collection: 1 Pkt. each 8 colors 50c.

California Giants

Large, full flowers of the Crego type with broad, graceful petals, borne on long heavy non-lateral stems. Plants 3 feet tall, blooming from mid-summer until frost.

California Giants are in great demand for cut-flowers, both by the home gardener and the Florist. Try some of these this year.

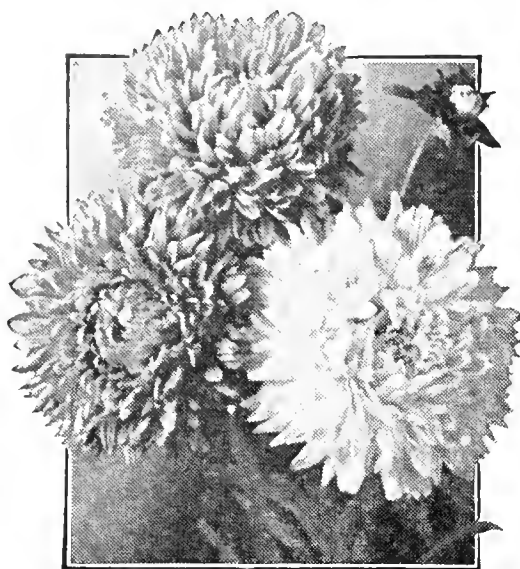

212 Dark Purple 213 Light Blue 216 Deep Rose
217 Peach Blossom 218 White 211 Mixed Colors
Prices on any Separate or Mixed colors: Pkt. 10c; 1/16 oz. 30c.
220 Collection. 1 Pkt. each of 5 above colors for 40c.

304 **Extra Quality Mixed Asters** Very carefully prepared—containing all of the separate types we list, and others as well. It will give you a beautiful Aster collection for the price of one packet—types early, midseason and late, and all the colors known to Asters. Plant a quantity of this mixture and see what delights are in store for you. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

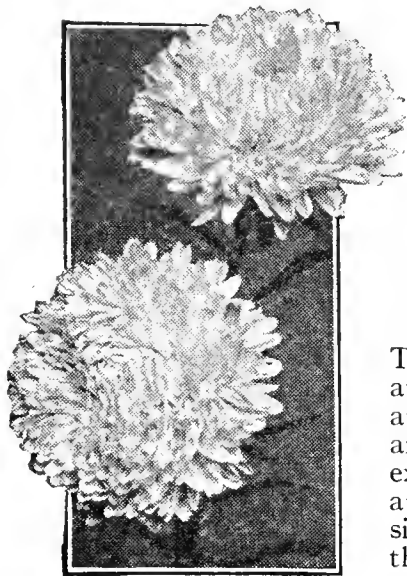

298 **Dwarf Bouquet Asters** These are little gems of flowers, plants 12 inches high, compact little bushes, covered with flowers in a great variety of colors, each plant a bouquet in itself. Fine border plant. Mixed Colors. Pkt. 10c; 1/8 oz. 40c.

293 **Surprise Golden Salmon** Opens pure salmon-yellow, changes to salmon-rose. The blooms resemble the Peony-Flowered Asters, fully double round 3 inches across. Good keeping qualities, making them valuable for bouquets. The plants are long stemmed, fairly tall and are heavy bloomers. Pkt. 10c; 1/16 oz. 35c.

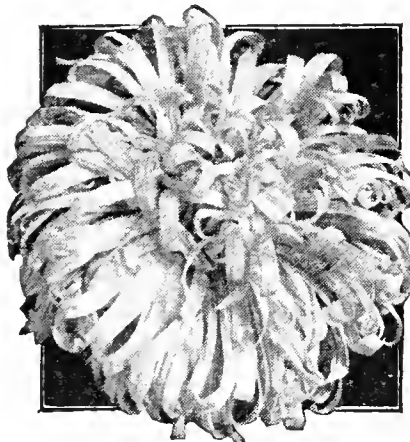

294 **Peerless Yellow** A delicate shade of yellow in beautifully formed flowers of the American branching type. 2 feet tall, good-sized flowers, petals slightly incurved. Pkt. 15c; 1/8 oz. 40c.

Wilt-Resistant Asters Sure To Succeed

For several years our growers have been working on a strain of Asters resistant to the Fusarium wilt disease which has caused so much trouble to both amateur and professional growers in recent years. The plants may be stricken with the wilt at any stage in their growth and yet no method of control of the disease has been discovered. The only assurance of healthy plants and flowers is to plant the Wilt-Resistant strains of Asters.

We are now satisfied with the results of the intensive work that has been put into producing Wilt-Resistant Strains of Asters and offer you here many of them. In every Aster family, we are dropping the old strains in favor of Wilt-Resistant, just as fast as our work has been completed.

Dwarf Bouquet Asters

Two New Asters

299 Lilliput Flowered Areal dwarf small flowered Aster, plants only 15 to 16 inches high, bushy and with medium length stems. Prettily formed, button-like flowers with quilled center petals. This type makes wonderful cut-flowers and are very colorful for the garden border. Mixed colors. Pkt. 10c; 1/8 oz. 35c.

291 Super Giant Los Angeles The last word for size and beauty in Asters. The flowers are really like magnificent Chrysanthemums as the illustration below shows. The color is pure shell pink, a favorite shade in Asters. Pkt. 15c; 1/6 oz. 30c.

Lilliput Aster

Queen of the Market

Wilt-Resistant Asters

These well known early flowering Asters are of the branching habit, about 20 inches tall and come into bloom very early. The flowers are fully double and the stems long.

161 Mixed. Prices on separate color or mixed. Pkt. 5c; 1/8 oz. 30c.
170 Collection. 1 pkt. each of the above 7 colors for 30c.

Mammoth Peony-Flowered Asters

This superb new Aster is of immense size, fully double flowers, borne on long stout stems quite free from laterals. It is an improved Beauty type and is the best keeper of all Asters. All these good qualities make the Mammoth Peony-Flowered Aster a choice flower for cut-flowers both for the home gardener and for the florist. Plants 2 1/2 to 3 feet high, mid-summer until frost.

210 Collection. 1 Pkt. each of the above 7 colors for only 55c.

Aster, Super Giant Los Angeles

Giant California Sunshine

Called the Most Beautiful Aster in the World

This is a most artistic flower with its single row of outer petals and its tufted center of shorter petals. The color harmony is startlingly beautiful, a dual-tone effect being obtained through the contrasting tints of the disc-like center and the outer row or guard petals.

See Color Plate on Page 33

Prices on any separate color or mixed. Pkt. 15c; 1/6 oz. 30c.
230 Collection. 1 Pkt. each of 7 colors of Sunshine Asters for 90c.

Southcote Beauty

Single Ostrich
Plume Aster

Single Asters are exceedingly popular because of their adaptability to cut-flower work. Southcote Beauty has graceful flowers, with long, tapelike, curled petals of the ostrich plume type and are produced on long, stiff stems from 12 to 20 inches in length. Plants grow 2 to 2 1/2 feet tall.

252 Dark Blue 253 Light Blue 254 Rose
255 Scarlet 256 White 257 Beauty Mixed

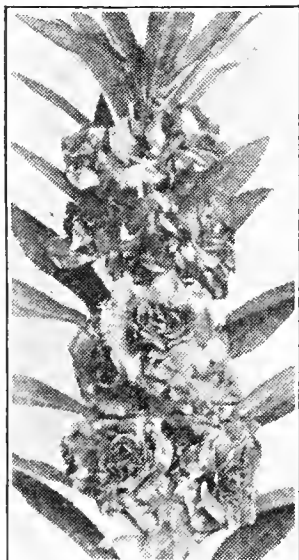

Prices on separate colors and mixed Pkt. 10c; 1/8 oz. 30c.
257 Collection, 1 Pkt. each of 5 colors for 40c.

Southcote Beauty Aster

305 Balsam, Lady's Slipper

A most beautiful annual, forming near symmetrical tree-like plants and a profusion of wax-like flowers, in the most brilliant colors. They are of easy culture, but don't plant the seeds before the soil is warm. Plants 1 1/2 to 2 ft. high. For best development plant in full sun in rich soil. If you sow seed late in the summer the small plants may be potted in the fall and used for winter bloom indoors. We offer you the double Rose and Camellia flowered strains which have beautiful double rose-like flowers in a great variety of rich colors. Pkt. 10c; 1/4 oz. 20c; oz. 60c.

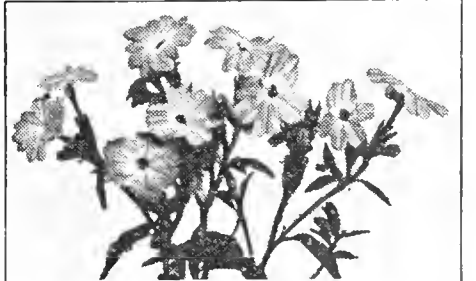

Double Balsam

350 Brachycome Swan River Daisy. A delightful little bush about 9 inches high giving bountifully of its dainty blue flowers all summer. Like violet blue stars the flowers practically cover the foliage. Pkt. 10c; 1/8 oz. 25c.

Browallia

361 ELATA, MIXED BLUE AND WHITE. A favorite annual growing 18 inches high and bearing during the summer and autumn pretty blue or white flowers. Will also bloom nicely in the house if lifted in the fall and cut back. Grows in any good soil. Pkt. 10c; 1/4 oz. 30c.

365 SPECIOSA MAJOR. This variety grows about 18 inches tall with violet blue flowers 1 1/2 to 2 inches across. Pkt. 20c.

Browallia

312 Golden Barton

A fine hardy easy to grow annual. The foot high plants carry masses of golden yellow cup-like flowers from July to September. Nice for cutting, as a border, or a golden bed. Pkt. 10c.

Begonias See Color on Page 83 Also cut at left

Tuberous Rooted. These beautiful bedding plants may be produced from seed, and will produce bulbs that you may keep for years. Started early indoors will produce blooming plants the first year.

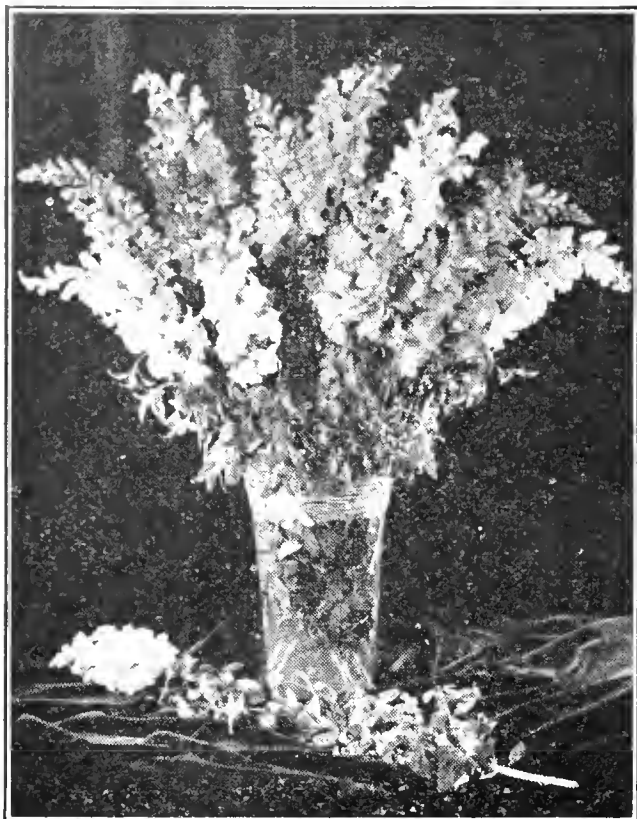

334 SINGLE MIXED COLORS. Includes all available shades. Pkt. 40c.

335 DOUBLE MIXED COLORS. Few plants exceed them in beauty. Pkt. 50c.

321 Begonia Semperflorens Everblooming. Mixed Colors. These are not only splendid House or Pot Plants but are equally desirable for outdoor bedding. Of compact sturdy growth about a foot high, and completely covered with blooms. Pkt. 15c.

355 BRIZAMAXIMA. Quaking Grass. See ornamental grasses Page 21

Like This

Antirrhinum or Snapdragon

Without doubt the Antirrhinums are among the most desirable flowers for general garden culture. With the glorious new varieties that have been recently introduced, there is little left to be desired in coloring and size of plant and flower spike. "Snaps" are not hard to grow. For earliest blooms start seed inside for later transplanting, but you can have good results by planting seed directly outdoors when soil is warm. The seed is fine, so cover lightly and keep moist. You will have more and finer flowers if you pinch back the tops of the plants when they are 3 or 4 inches high.

Rust-Proof Snapdragons

See Color Front Cover
And Page 15

Large Flowers, Long Spikes, Clean, Healthy Broad Foliage, Rust Free.

If you are a lover of Antirrhinum or "Snaps," and have had trouble with rust, you will welcome these new RUST-PROOF Snapdragons, and get a real satisfaction out of the growing of their beautiful flowers.

After a number of years of collaboration with the University of California, our growers were able to produce a strain of Rust-Proof Snaps which we offered to you in mixed colors last year for the first time.

This year, we have something even more wonderful to offer you. This is a real treat for you, for while the University of California Mixture is ideal for those who like mixed colors, there are some who prefer to plant separate colors. We, therefore, take great pleasure and satisfaction in offering you here:

MAXIMUM TYPE Rust-Proof Snapdragons in separate colors.

- | | |
|-------------------------------------------------------------------------------------|-------------------------------------|
| 55C Alaska. Snow White. | 55G Apple Blossom. Dainty Pink. |
| 55D Campfire. Luminous Scarlet. | 55E Canary Bird. Rich Yellow. |
| 55F Copper Shades. Name describes. | 55B Loveliness. Soft Rose-pink. |
| 55H Red Cross. Red and White. | Price of separate colors. Pkt. 25c. |
| 56 Collection of Rust-Proof Snaps. 1 Pkt. each of 7 colors for \$1.50. | |
| 55A Maximum Type Mixed Colors. Made of above named varieties. Pkt. 20c. | |
| 54 University of California Mixture. See Color Front Cover. Pkt. 15c. 1/16 oz. 50c. | |

Maximum or Giant Type

This new type of Giant Flowering is a great advance over the old Snapdragons. They are magnificent in size and coloring, fully twice the size of the old types and with a color range that defies description. Plants 3 feet tall. Do not fail to include some of these in your garden.

- 42 Cerberus. Crimson with white tube.
- 43 The Rose. The most popular rose-pink.
- 44 Canary Bird. A fine clear canary yellow
- 45 Old Gold. A blending of gold and bronze.
- 47 Apple Blossom. Delicate pink and white.
- 48 Cattleya. A rosy lilac.
- 49 Purple King. Deep glowing garnet purple.
- 50 Indian Summer. A rich glossy copper color.
- 51 Snowflake. A pure white variety.

Price, any of above, Pkt. 8c; 1/8 oz. 35c; Any 6 Pkts. for 40c.
60 Collection. 1 pkt. each of 9 above varieties 60c.

41 Maximum Mixed A grand color assortment made up from above and others of the best varieties. Pkt. 5c; 1/8 oz. 30c.

New Majestic Antirrhinums

The Majestic Antirrhinums are the very latest development in this popular Annual. The spikes and individual flowers are extra large like the Giant type, but the plants are semi-dwarf and bushy, 18 to 24 inches tall and a mass of color, making a splendid plant for bedding and borders. They bloom profusely and are fine for cut-flowers. You will like the assortment of rich colors we offer you here.

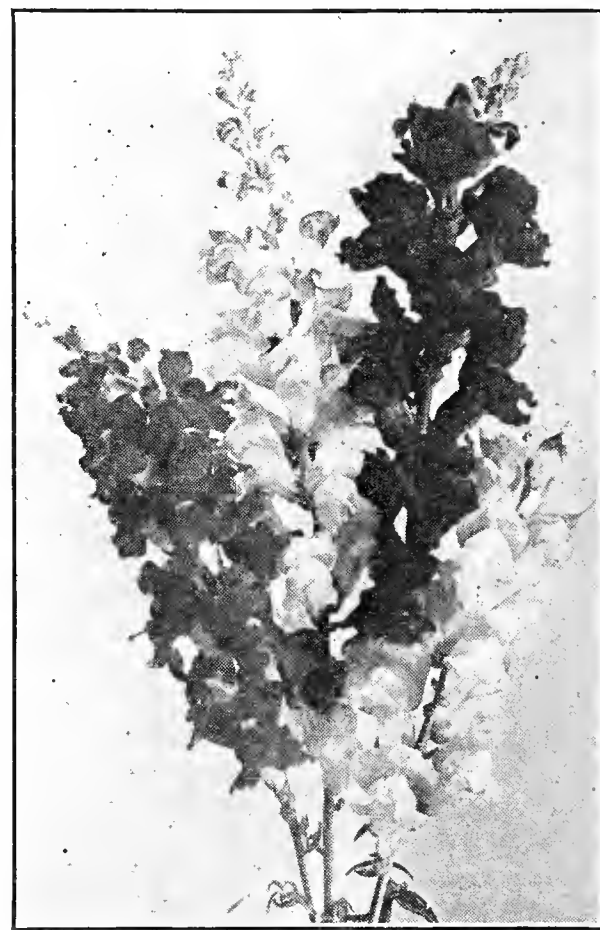

- 110 Orange King. Rich terra cotta shades and orange with contrasting yellow lip.
 - 111 Red Chief. Well named. A bright, rich deep scarlet.
 - 112 Twilight. Delicate Apricot, rose and salmon.
 - 113 Eldorado. A very rich tone of deep golden yellow.
 - 114 Rose Marie. A delightful light salmon rose.
 - 115 Majestic Avalanche. A pure white.
- Prices any of above Pkt. 10c; 1/16 oz. 40c.
108 Collection. 1 pkt. each of above 6 Majestic Snaps 50c.
109 Majestic Mixed. Includes all above colors. Pkt. 10c; 1/16 oz. 35c.

Florists Forcing Strains

For forcing into bloom in the greenhouse during the winter, we have made a mixture of the best florists strains available. This mixture contains all the best shades in pink, rose, gold, bronze, yellow and white. These may also be grown out of doors the same as the other types of Snaps. They produce tall plants and long spikes of large flowers.

123 Florists Mixed Colors. Pkt. 25c; Large Pkt. 75c.

- 72 Tangerine-Medium A very outstanding new variety in brilliant, fiery orange of great intensity of color. The flowers are freely produced on long spikes. An excellent flower for bedding and for cut-flowers. Pkt. 10c; 1/8 oz. 25c.

Improved Early Flowering

Early-Flowering Improved

These beautiful new Snapdragons, while from the tall large flowering group, are so much improved as to be a distinct strain. The plants grow uniformly 2 to 2 1/2 feet tall and they come into bloom 3 weeks earlier than other Snapdragons. In addition, the spikes are exceptionally long and fine, more flowers being open at a time on each spike.

76 Mixed Colors An unusually fine mixture of light pink, deep pink, yellow, scarlet and white. All the colors now available in this type. Pkt. 10c; 1/8 oz. 25c.

117 Rock Hybrids

Early flowering hybrids forming compact little plants suitable for Rock and Alpine Gardens. 8 inches tall, reselected mixed colors of rose, pink, purple and mauve. Pkt. 10c; 1/16 oz. 45c.

Tom Thumb Dwarf Snaps

This delightful dwarf variety of Antirrhinum grows only 8 or 9 inches tall and is especially useful for edging or for beds. Very attractive color mixture containing almost every shade known in Snapdragons.

116 Tom Thumb Mixed Pkt. 8c. 1/8 oz. 25c.

61 Medium, Semi-Dwarf

These are somewhat smaller than the Maximum type both in size of flowers and height of plants. The plants are bushy and compact, about 15 inches tall, very free flowering, bearing long, dense spikes of blooms. We offer you here a mixture of all the best shades and colors available. Mixed. Pkt. 5c; 1/8 oz. 25c.

Calendulas Scotch Marigold

See Calendulas in Color on pages 15 and 16

If you like a gala atmosphere in your garden, plant Calendulas. They have no rivals for brilliant color and will fill your garden and house with their charming beauty all summer and early fall.

By careful plant breeding through the past years, Calendulas have been greatly improved in size and color and we are able to offer you a wonderful selection of varieties in all the gay shades of orange, yellow and lemon. They come in different types too, double, loose and quilled petals.

See Calendula "The Jewell" No. 428, Color Page 15 and Novelty Page 8

421 Sensation or Campfire

A new Calendula of vigorous growth and strong stems needing very little disbudding to produce the finest flowers. The blooms are flat and undoubtedly the largest of any Calendula. The color is brilliant orange with a scarlet sheen, and a full yellow center. Pkt. 10c; 1/8 oz. 25c.

419 Orange King A deep orange with dark center very popular with all who have grown it. A favorite with florists and just as fine for the outdoor garden. Flowers are of very good form, fully double and borne on excellent stems. Excellent for forcing. Pkt. 10c; 1/4 oz. 20c; oz. 35c.

417 Lemon Queen A beautiful clear lemon yellow. Flowers are large, of excellent form, well rounded, fully double and produced on tall strong stems. Pkt. 10c; 1/4 oz. 20c; 1/2 oz. 35c.

441 Ball's Gold A special florist's strain of Calendula by many considered the finest of all. In color a rich golden yellow lighter than Ball's Orange. Pkt. 15c; 1/8 oz. 40c.

443 Ball's Orange

A companion to Ball's Gold with same good form and size, but rich orange in color. Extra long stemmed. Pkt. 15c; 1/8 oz. 40c.

423 Radio Radio Orange. Distinct from other Calendulas with its quilled or comet petals. The flowers are glowing orange and nearly globe-shaped, showing practically no center until old. Pkt. 10c; 1/4 oz. 25c.

424 Radio Golden Beam

A golden yellow form of Radio. Pkt. 10c; 1/8 oz. 25c.

Calendula Radio

427 Orange Shaggy

All-American Gold Medal 1935

New Calendula, unusual form. Overlapping petals deeply fringed. See cut. Deep orange, shading to lighter orange in center. Long stems. Plant 18 inches tall. Pkt. 15c; 1/8 oz. 25c. Also listed on Novelty Page.

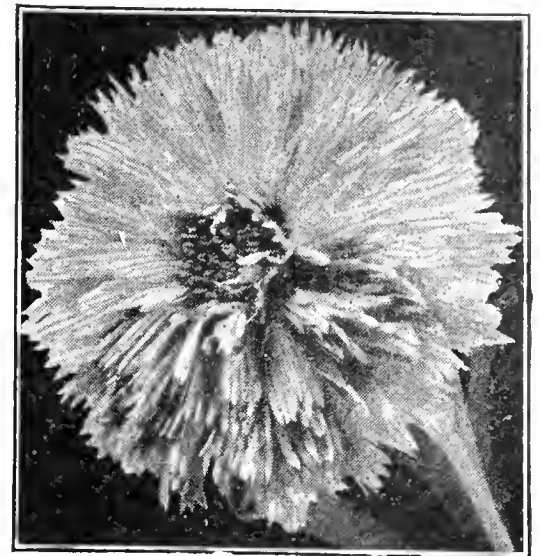

425 Chrysantha or Sunshine

Entirely distinct from other Calendula in form of flower. The flowers are large, of a sunny clear butter-cup yellow with long, loosely arranged petals, giving them the appearance of Chrysanthemums. The long, stiff stems make them ideal for cut-flowers. Lovely when arranged with a blue flower like Delphiniums or Bachelor Buttons. Pkt. 10c; 1/4 oz. 25c.

416 Mixed Calendulas An excellent mixture of orange, yellow, lemon, and striped varieties that will give you much enjoyment, many beautiful bouquets, and a very bright showy bed in the garden. Pkt. 5c; 1/2 oz. 20c.

426 Pastel Shades of Bedding Mixture

As this mixture is made up of the dwarf growing types of Calendulas, it is especially adapted for bedding or border use. It contains many new shades of apricot, salmon, cream and white as well as orange and lemon shades. A very attractive mixture. Pkt. 10c; 1/4 oz. 30c.

Calendula, Orange Shaggy

Calendula, Chrysantha

401 Cacalia, Tasselflower Devil's Paint Brush

A brilliant orange and scarlet flowered annual worthy a place in every garden. While not a large flower its brilliancy of color makes it especially noticeable wherever grown. It is admirable for combining in bouquets and is a splendid rockery subject. The flowers are like small tassels borne on long stems. The plants grow about 18 inches tall and bloom from June to frost. Pkt. 5c; 1/4 oz. 25c.

Calceolaria

Growing Calceolarias from seed is not difficult. Use shallow pans or boxes filled with good garden soil mixed with Peat Moss and some sand. Cover the finer seed very lightly. Water very lightly and keep them only moist. Transplant the small plants into small pots and later into large pots.

404 Dwarf Giant Hybrids They are gorgeous beauties with their odd pouch or pocket shaped flowers, and are indispensable for a complete collection. Our strain produces many of the spotted or "tigré" flowers, and is of compact growth, about 1 foot high. Pkt. 35c.

Cacalia Coccoloba

Cactus From Seed

Growing cactus from seed is a very interesting undertaking. The best soil in which to start these seeds is a thoroughly decomposed sod broken up and screened with an equal amount of sand added. It is most important that good drainage be provided in preparing the pans or pots for the seed. Full cultural directions will be sent with each packet of seed.

403 Mixed Varieties We offer a fine mixture of the many sorts that can be successfully grown with ordinary conditions. Pkt. 25c.

Calceolaria, Slipperwort

Carnations See Dianthus Page 19.

Canterbury Bells

A new strain of this popular biennial flower in which has been developed the ability to bloom in a few months from seed thus making it entirely satisfactory to use as an annual subject. Resembles its biennial parent in flower and plant, except that it grows but 2 to 2 1/2 ft. tall and each plant producing several spikes of bloom.

486 Mixed Colors. Blue shades, rose and pink and pure white. Pkt. 10c.

487 Liberty Bell. Intense violet or deep blue. Pkt. 15c.

488 Angelus Bell. A beautiful art shade of deep rose. Pkt. 15c.

Calliopsis Annual Coreopsis

Calliopsis is one of the finest midsummer annuals to grow in mass planting or in clusters here and there in the garden or border. They are so profuse and continuous blooming that they will furnish much for cutting and still always maintain a wonderful display in the garden.

466 Tall Mixed One of the leading plants for the flower garden, making a very showy border, producing flowers in nearly every shade of yellow, orange, crimson and brown, on long wiry stems, fine for cutting. Pkt. 10c; 1/4 oz. 20c.

467 Golden Wave Drummondii. Grows 18 to 20 inches tall with large flowers golden yellow with brown red ring. Pkt. 10c; 1/4 oz. 25c.

469 Dwarf Drummondii Mixed A fine color mixture of the Dwarf Drummondii type, including yellow, orange, brown, red, crimson, in many shades and color combinations. Pkt. 10c; 1/4 oz. 20c.

Calliopsis

Canna, Indian Shot

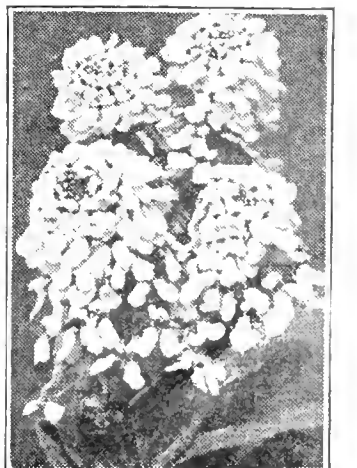

481 Crozy's Hybrids. Did you know that Cannas will bloom in less than four months from the seed? The colors do not come quite true from seed, but our strain has been selected from the best hybrids. The seed is very hard shelled, so file or nick the coat and soak in warm water a few hours before planting. For quickest results start inside, transplanting out when weather is warm. Pkt. 15c; 1/4 oz. 30c.

Candytuft

One of the most useful and popular annuals. Completely covered all summer with neat clusters of flowers well suited for bouquets; of dwarf spreading habit making it especially desirable as a border or edging plant. Very easily grown and thrives in nearly any soil, although a sandy loam is most desirable. They bloom profusely and their fragrance especially commends them as cut flowers.

471 Giant Hyacinth Very large bold elongated heads of pure white florets. The most desirable for cut flower use and a very fine variety for use as edging plant. Will grow to 12 or 15 inches in height. Pkt. 10c; 1/4 oz. 30c; oz. 85c.

475 Umbellata Mixed An excellent bedding or border variety of Candytuft of dwarf compact growth. Free flowering in shades of white, lavender, rose and crimson. Pkt. 10c; 1/2 oz. 25c.

Gt. Hyacinth Candytuft

Chinese Woolflower

The Finest Celosias

The Celosias include some of the finest and showiest flowers than can be grown in the outdoor garden. They are easily raised from seed, either planted directly outdoors or started inside for later transplanting. The Celosias make beautiful cut flower bouquets.

Chinese Wool Flower

Celosia Childsi. Distinct forms of plumed Celosia. Plants average 2 feet in height, branching freely, each shoot bearing beautiful ball-shaped flower-heads, resembling a ball of wool.

501 CELOSIA CHILDSI MIXED COLORS. Pkt. 10c; 1/8 oz. 30c.

515 Celosia Trio Collection of 1 pkt., each Cockscomb, Woolflower and Ostrich Plume. Catalog numbers—491, 501 and 507.

30c Value for 20c.

Celosia Plumosa

The plants are of pyramidal form, bearing many graceful feathery like plumes of brilliant reds and yellows, 3 ft. tall. They are easy to grow in any fair garden soil.

514 Flame of Fire Celosia Pyramidalis. This attractive new Celosia grows 18 to 20 inches tall, with pyramidal form, carrying large blaze-colored combs on the top. It is very branching and each branch has a proportionately sized comb. The entire plant looks like a "Flame of fire." Every plant grows to the exact size and shape, making it unusual and desirable for effective planting. See picture and description on Novelty page 10. Pkt. 15c.

507 PLUMOSA MIXED, Thompsonii Magnifica. Pkt. 10c; 1/4 oz. 35c.

513 Plumed Knight Celosia

One of the most wonderful flowers ever grown the result of over 20 years of patient toil. Produces waving plumes in dozens of color shades—rose, silvery pink, salmon, red, purple, orange and yellow. Special packets 25c.

Celosia Plumosa

Cockscomb

Cockscomb

491 Celosia Cristata Dwarf Large Flowering.

This type forms large heavy combs or heads as illustrated. Our strain is dwarf, 12 to 15 inches, with extra large flowers of crimson, rose or yellow. Pkt. 10c; 1/8 oz. 30c.

492 Dwarf Empress Purple Leaved. Improved type of Dwarf Cockscomb. Dark crimson, 15 to 18 inches tall. Pkt. 10c; 1/8 oz. 35c.

493 Miracle Tall Cockscomb

Tall unbranching stems, 24 to 30 inches tall, bearing immense solid heads or combs of unusual size and coloring. Colors range from creamy white thru yellow, orange, pink, red, scarlet and purple. Extra fine mixed. Pkt. 15c

The New Dwarf Feather Celosias

A new dwarf type of this beautiful flower which grows but 15 to 18 inches tall and produces a mass of brilliant colored feathery plumes. This new type is excellent for bedding or bordering and supplies unlimited quantities of most excellent material for cutting. These attracted more attention and admiration in our trials last summer than any other flower.

511 DWARF FIERY FEATHER. Beautiful plumes of brilliant fiery red. Pkt. 15c; 1/8 oz. 75c.

510 DWARF GOLDEN FEATHER. Large plumes of rich golden yellow. Pkt. 15c; 1/8 oz. 75c.

512 Mixed Colors. Pkt. 10c; 1/8 oz. 50c.

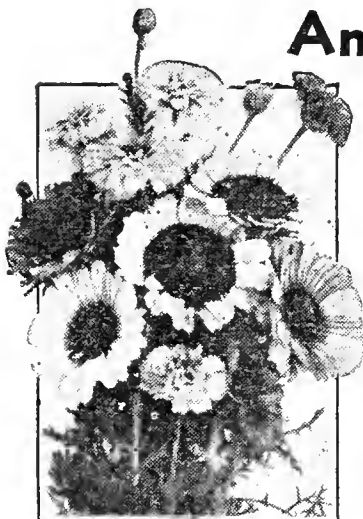

Castor Beans

Strong, sturdy growing tropical like plants, having ornamental greenish-bronze foliage, desirable as center plants for canna beds and to hide unsightly places.

1694 Zanzibarilensis. The largest and freest growing of this family. Foliage from bright green to bronze. Pkt. 10c; oz. 25c.

1695 Red Spire. A very showy variety with large bronze leaves and bright crimson seed pods. Grows quickly 6 to 8 ft. high. Pkt. 10c; oz. 40c.

Annual Chrysanthemums

Annual Chrysanthemum

Annual Chrysanthemum or Painted Daisy. Easy growing annuals forming pretty bushy plants with a profusion of showy flowers, excellent for cutting. For best results plant in rich soil and space the plants well apart so that they do not crowd each other.

516 SINGLE MIXED. Includes all the showy varieties such as Morning Star, Eastern Star, Evening Star, Northern Star and many others in shades of golden yellow, pink, red and white. Pkt. 5c; 1/4 oz. 20c.

517 DOUBLE MIXED. These make splendid bedding or cut flower plants. Pkt. 10c; 1/4 oz. 25c.

515 SINGLE AND DOUBLE MIXED. An excellent mixture for the garden, containing both single and double flowered sorts. Pkt. 5c; 1/4 oz. 20c.

560 Eldorado A beautiful big golden yellow daisy with dark center. Excellent for cutting. Received special mention by the All American Committee of Selections. Pkt. 10c; 1/4 oz. 25c.

Cineraria

561 Giant Dwarf Mixed What we offer is the large flowered type in dwarf compact plants not over a foot high. Sow the seed from May until September. Pkt. 20c.

562 Multiflora Nana A very distinct type of Cineraria, more dwarf and compact with a great profusion of small flowers in endless variety of shades. Pkt. 20c.

Clarkia Elegans

The Clarkias are splendid annuals easy to grow and should have shade from the sun at least in the hottest part of the day. Seed may be started directly outdoors in spring. Plants about 2 ft. high, bearing leafy racemes of double flowers which all open up when cut and placed in water.

582 Apple Blossom **584 Salmon Queen**

585 Vesuvius **586 Dorothy**

581 Elegans Double Mixed Colors

Prices on Separate Colors and Mixed Clarkia. Pkt. 10c; 1/4 oz. 30c.

591 Cleome "Spider Plant." Giant Rose. A vigorous plant 3 to 4 feet tall and bearing clusters of rose colored flowers of a curiously attractive appearance. The flower stamens resemble spider legs. Cleome is much used as bee pasture. Pkt. 5c; 1/4 oz. 25c.

601 Coleus Exhibition. Coleus is a plant with richly colored leaves of maroon, green, crimson and yellow. It is the most popular bedding foliage plant grown from seed. The large variegated leaves of this strain are beautiful. Sow indoors, March or April. Pkt. 25c.

Cynoglossum Summer Forget-Me-Not. A very desirable annual that blooms in a few weeks from seed. The bushy little plants about 18 inches high are covered with a mass of dainty deep blue flowers, similar to the spring Forget-Me-Nots. Blooms profusely from June through September. It thrives in hot, dry locations where few flowers grow. Makes choice cut-flowers for dainty bouquets. **650 Amabile Blue,** Pkt. 5c; 1/4 oz. 20c. **651 Amabile Pink,** Pkt. 10c; 1/8 oz. 30c.

Centaureas

Cyanus Bachelor's Button

Also called Cornflower, Ragged Robin and Blue Bottle.

These are among our most popular old fashioned garden annuals and deservedly so, as they are easy to grow, make very pretty bouquets and boutonnières, and they go very well with other flowers. Florists grow many of the double varieties for working in their flower pieces. We offer the double flowering in the following colors:

517 DOUBLE BLUE. A favorite in the Blue Garden and a rich deep blue.

518 DOUBLE WHITE. Fully double. Florist's strain.

519 DOUBLE ROSE. A very attractive shade.

520 DOUBLE MAROON. A new shade, deep rich red.

521 DOUBLE MAUVE QUEEN. A new and attractive shade.

522 DOUBLE RUBY. Very rich and beautiful. New variety.

Price: Any above. Pkt. 10c; 1/4 oz. 25c.

524 COLLECTION BACHELOR BUTTON. One pkt. each 6 colors for 50c.

516 TEMPLIN-BRADLEY'S BEST MIXED BACHELOR BUTTONS. Includes all shades of the double flowered. This mixture will certainly give you some pretty bouquets. Pkt. 10c; 1/4 oz. 25c. See Color Plate, page 33.

Double Bachelor's Button

See Color Page 33.

Giant Sweet Sultans

Centaurea Imperialis

These beautiful long stemmed flowers with their soft velvety heads make very enchanting bouquets. They measure 2 to 2 1/2 inches across while the entire plant stands about 2 1/2 to 3 ft. tall. You can grow them readily in any fair garden soil, and your friends are sure to admire them.

526 SNOWFLAKE. Pure White.

527 ROSE. Brilliant shade.

528 YELLOW. (Suaveolens.)

529 DELICATE LAVENDER.

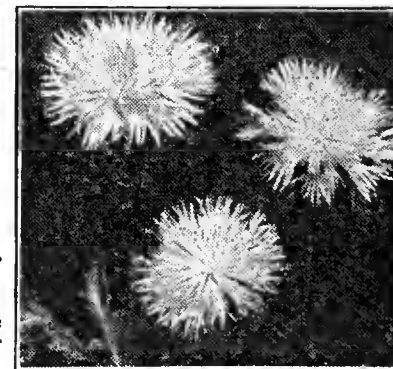

530 AMARANTH RED.

531 PURPLE.

Price any of above, pkt. 10c; 1/4 oz. 30c.

537 COLLECTION. One pkt. each, 6 colors for 50c.

525 Imperialis Mixed The above and other shades, a splendid mixture of these beauties. Pkt. 10c; 1/4 oz. 25c.

Imperialis, Sweet Sultan

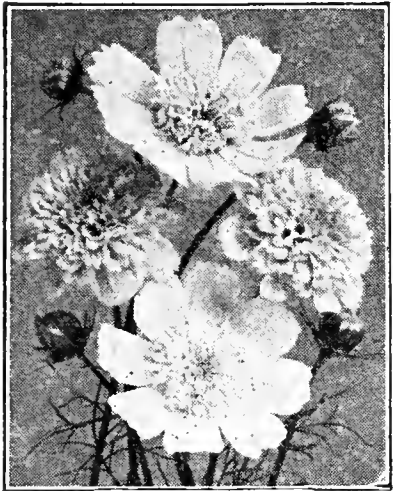

541 Centaurea Americana American Lilac, Basket Flower. The largest of all Centaureas. A native variety, bearing large thistle-like blooms of delicate rosy-lilac. The flower heads are 3 to 4 inches across, the plants 3 feet tall. It produces a great display of gorgeous blooms in July and August. Pkt. 5c; 1/4 oz. 25c.

538 Centaurea Gymnocarpa

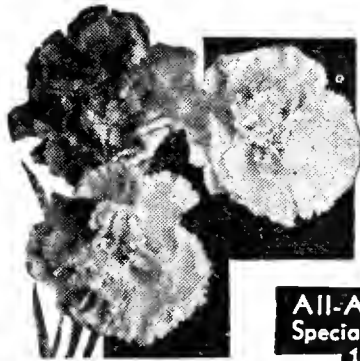

Listed Page 19 as Dusty Miller

Large Early Flowering Cosmos

Cosmos, Double Crested

Double Carnations

686 China and Japan Pinks One of the most popular and most satisfactory annuals grown. Of easy culture, comprising a large variety of types and brilliant colors, many of them deeply fringed. Our mixture contains many varieties of Chinese and Japanese double and single types. **Pkt. 5c; 1/4 oz. 25c; oz. 40c.**

697 Tom Thumb Brilliant A very bright scarlet, fully double flower, that will make a brilliant display. Grows 5 to 6 inches tall. **Pkt. 10c; 1/8 oz. 40c.**

China and Japan Pinks

595 Collomia Coccinea. Small plants 9 inches to 1 ft. tall producing large heads of bright scarlet red flowers. Grow as a hardy annual. **Pkt. 10c.**

605 Cosmidium Burrigeianum. Flowers quite like Calliopsis, velvety brown each petal with a broad tip of golden yellow. Blooms continuously all summer. Plants 2 ft. tall. **Pkt. 10c; 1/4 oz. 20c.**

Datura

Horn of Plenty,
Cornucopia,
Trumpet Flower

661 Fastuosa Double Mixed Bushy plants growing 2 to 3 feet tall bearing large trumpet or cone-shaped delightfully fragrant flowers, often 6 inches long, in several colors, white, purple and yellow. Many flowers are double. **Pkt. 5c; 1/4 oz. 25c.**

Cosmos

Cosmos are one of the most popular tall growing annuals used for backgrounds and screens. The plant formation and the foliage is pretty—and the flowers in Red, Pink, Rose and White make excellent mass bouquets. For earliest results start seed indoors, though the plants will flower in late summer and fall from sowings made outdoors. They grow 4 to 6 ft. tall, and may be spaced 3 to 4 ft. apart.

See 1936 All-America Cosmos "Sensation" No. 616 Color Page 2.

Early Mammoth Single

Large flowering. The best type for the North as it blooms earlier than the late Giants. The flowers are large, in shades of crimson, pink and white. There is no other of the tall annuals that serve their purpose as well as the Cosmos. They are graceful and attractive during all stages of their growth.

607 MAMMOTH SINGLE WHITE

608 MAMMOTH SINGLE PINK

609 MAMMOTH SINGLE CRIMSON

Price, any above. **Pkt. 5c; 1/4 oz. 25c.**

610 COLLECTION. 1 Pkt. each color for 25c.

606 MAMMOTH SINGLE MIXED. **Pkt. 5c; 1/4 oz. 20c.**

618 Double Crested Cosmos

The flowers are unique and exceedingly pretty. Center double with a row of broad outer petals. We have the earlier flowering strains of doubles, the best strain obtainable. In this the flowers are frequently entirely double or else the disk-florets become tufted or crested. The foliage of this type is less finely divided. The seed of the Double Crested should be started indoors early.

Mixed Colors. Pkt. 10c; 1/8 oz. 35c.

624 Miniature Yellow Cosmos

Bidens Humulus. Quite different from the ordinary Cosmos in that plants are only 18 to 24 inches tall. The foliage is fernlike and the flowers bright yellow, 1 to 1 1/2 inches in diameter. A nice novelty for you. **Pkt. 5c; 1/4 oz. 20c.**

Orange Flare

Klondyke Cosmos

All-American
Gold Medal
1935

626 Orange

Flare is one of

the most start-

lingly beautiful

novelties of today. The color is a vivid orange and the foliage a light green, making an unusually attractive flower for show. The stems are long and wiry and the flowers so brilliant that it is especially desirable for cut-flowers. It grows 3 to 4 feet tall and blooms from late July until frost. **Pkt. 15c; 1/8 oz. 35c.**

See Orange Flare In color page 16

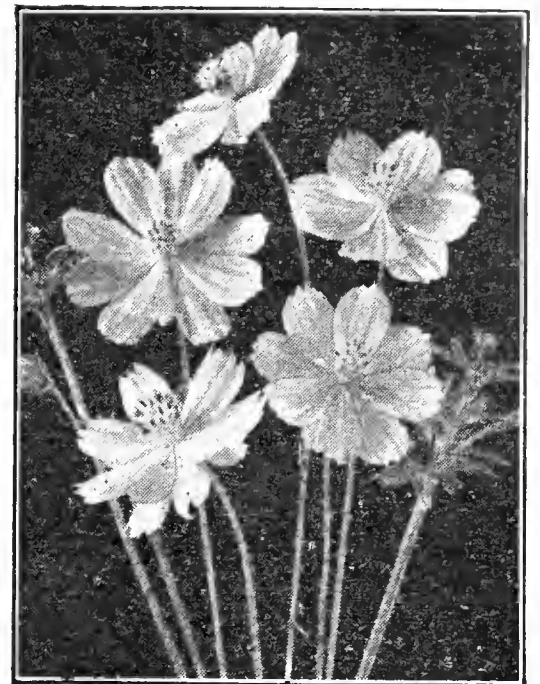

Early Express Cosmos

In Early Express Cosmos, we have a variety that will bloom in from 45 to 50 days after the sowing of the seed and will bloom continuously from then until frost. The flowers are of medium size and the colors good. Plants 2 1/2 to 3 feet tall.

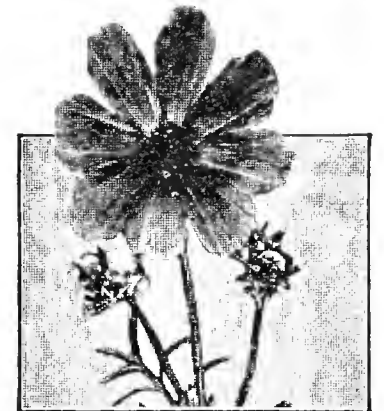

611 Express Pink 613 Express Crimson

614 Express White 612 Express Mixed

Price on separate colors or mixed. **Pkt. 10c; 1/8 oz. 20c.**

Klondyke Orange Flare

Early Express Cosmos

Carnations Dianthus, Pinks

681 Double Marguerite Carnations

These lovely, fragrant Carnations produce fine double flowers from seed sown in the garden early in the spring, blooming in about four months. When well started transplant to stand 12 inches apart. They are quite hardy, flowering until late fall and can be potted for winter blooming. **Mixed. Pkt. 5c; 1/8 oz. 30c.**

687 Laciniatus Splendens

The most striking Dianthus ever offered. The flowers are very large, over 2 inches across, in a brilliant crimson, with a large, bold white eye. Free flowering and easily grown. **Pkt. 15c; 1/8 oz. 35c.**

All-American
Special Mention
1935

African Daisy Dimorphoteca Aurantiaca

716 Golden Star Rare showy annual from South Africa and yet a flower easily grown in any fairly good soil. The little plants make a fine, low border, almost hugging the ground, and spreading out to a width of 8 to 10 inches. The large daisy-like salmon orange flowers glisten in the sun like molten gold. **Pkt. 5c; 1/8 oz. 30c.**

721 Pluvialis Ringens A beautiful new form of the Dimorphoteca or African Daisies. Compact plants 8 to 10 inches high, bearing daisies of a most attractive color combination. The petals are pure glistening white, the center bluish brown, and right around the center at the base of the petals is a zone of bright blue. **Pkt. 10c; 1/8 oz. 25c.**

717 Mixed Hybrids A very beautiful assortment of colors is produced by these new Hybrids. Shades of golden yellow, orange, salmon, pink, white and others run riot in a bed of this variety. Produces an abundance of most excellent cut flowers. **Pkt. 5c; 1/8 oz. 35c.**

African Daisy

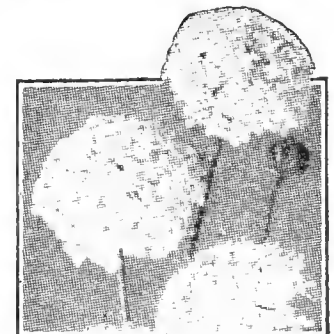

706 Didiscus Queen Anne's Blue Lace Flower

Coerulus. This is a shade of heavenly blue that has decided value in the cut flower bouquet or in the open garden. Flower is almost ball-shaped, a compact mass of dainty individual florets, the whole charming and graceful. Plant the seed early in a cool rather moist part of the garden. **Pkt. 5c; 1/4 oz. 35c.**

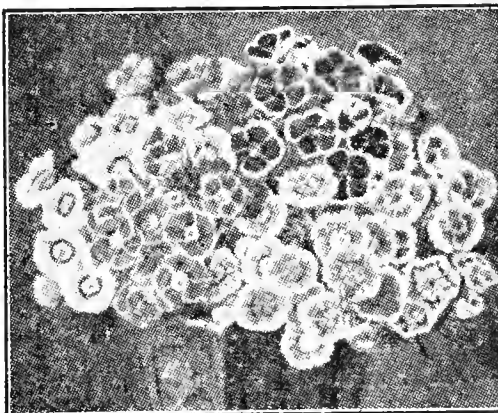

Dusty Miller

538 Centaurea Gymnocarpa

Extensively used for edgings and borders for taller plants, especially Cannas, Salvias and Geraniums. The leaves are silvery white and fern-like. Dusty Miller is also very desirable for hanging baskets and porch boxes. The plants grow 12 to 15 inches tall. **Pkt. 5c; 1/4 oz. 25c.**

Didiscus Queen Anne's Blue Lace Flower

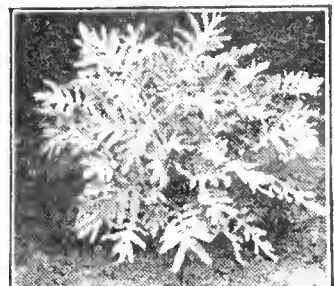

Dianthus Sweet Wivelsfield

Other Centaurea

On Page 18

628 Cyclamen

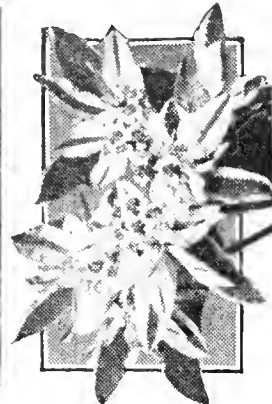

One of the most charming house plants, blooming freely during the winter and spring. The flowers are fragrant and richly colored. Our strain will give you a mixture of the best colors. **Mixed. Pkt. 20c.**

Dusty Miller

Dahlia Grown from Seed

Euphorbia
Snow on the Mountain

Grow Dahlias from Seed

Dahlias are easily grown from seed and although they do not come true to color of the parent many new and fine varieties are seedlings. Seed started early in the house will bloom the same season.

Each plant will produce tubers which should be taken up in the fall and planted out again the following spring. The flowers of seedling dahlias improve each year for three or four years.

656 DOUBLE MIXED. Seed taken from the finest double flowers of Cactus, Decorative and Peony types. The seed should grow some wonderfully colored varieties for you. Pkt. 10c; 1/8 oz. 35c; 1/4 oz. 55c.

660 SUPERFINE SELECTED. This seed has been hand-selected from cross-pollinated blooms of the best named varieties of Decorative and Cactus types, the highest quality possible to secure. Pkt. 30c; Large Pkt. 75c.

657 Dwarf Mignon. A beautiful class of Dahlia with sturdy compact little plants only 12 to 15 inches tall. They bloom from seed much more quickly than the large types, and bear large single flowers in a great variety of colors. Pkt. 8c; 1/8 oz. 25c.

658 Templin-Bradley's Dwarf Hybrids. The bushy plants are 18 to 24 inches high and are remarkably free flowering, in a wide and most charming color range. The flowers are good sized and semi-double. They are early blooming, producing flowers in four months after the seed is started. Pkt. 10c; 1/8 oz. 40c.

659 Orchid Flowering Dahlia A new type of Dahlia, flowers of a distinctive character, graceful form and in all the colors known to Dahlias. Mixed colors. Pkt. 10c; 1/8 oz. 60c.

Chinese Delphinium Butterfly Varieties

The Chinese Delphinium or Delphinium Chinensis are perfectly hardy perennials but are sometimes classed as Annuals because if the seed is sown early they will fully develop and bloom the first year. Their flowers are borne as loose sprays rather than in spike form. They are fine for garden display or cutting.

2781 CHINENSIS, BLUE AND WHITE. A distinct type with plants 3 ft. tall, and graceful stems with flowers loosely arranged. Develops to full size the first year from seed started early indoors. Blue and White. Pkt. 10c; 1/4 oz. 30c.

2782 DWARF BLUE BUTTERFLY, R. G. A brilliant blue variety of dwarf compact habit, flowering readily from seed the first year. 15 in. tall. Pkt. 10c; 1/8 oz. 30c.

2783 CHINENSIS CAMBRIDGE BLUE. A most excellent "Belladonna Blue" form of the Chinensis type. A rich clear blue of fine brilliancy, flowering to a great extent the first year if started early. Grows 2 to 3 feet tall. Pkt. 10c.

8 Acroclinium

An everlasting flower of much merit. Plants 2 feet tall bearing many semi-double daisy-like flowers in pink and white shades. Petals of distinctly strappy texture but very silky in appearance. Flowers are easily dried for winter bouquets and are excellent addition to any collection. Pkt. 5c; 1/4 oz. 20c.

34 Ammobium, Winged Everlasting *Alatum Grandiflorum* called the "Winged Everlasting" because of its airy silvery white, yellow centered flowers. One of the strawflowers so pretty when dried for winter bouquets. Pkt. 10c; 1/4 oz. 25c.

1016 Helichrysum Mixed

The most popular Everlastings. The best known and most desirable because of the great improvement in recent years. This Monstrosum or large double is the best type. The plants grow 2 to 3 ft. high and are literally covered with these large double brilliant flowers. In all the gay colors and shades. Mixed Colors. Pkt. 5c; 1/4 oz. 25c.

Eschscholtzia, California Poppy

The state flower of California and one of the most attractive low growing annuals. The foliage is finely cut, fern-like, and silvery green in color. They start to bloom a few weeks after the seed is sown.

801 Golden Yellow Flowers bright golden-yellow shading darker at the base of petals. The original California Poppy. Pkt. 5c; 1/4 oz. 15c; oz. 35c.

802 Grandiflora Hybrids Large flowering varieties in the most exquisite shades of gold, copper, bronze, scarlet, purple and crimson. Pkt. 8c; 1/4 oz. 30c.

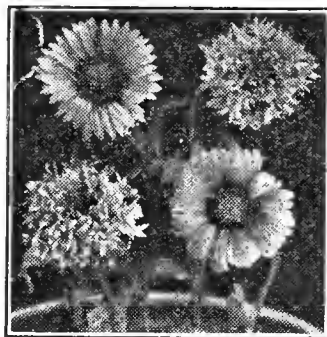

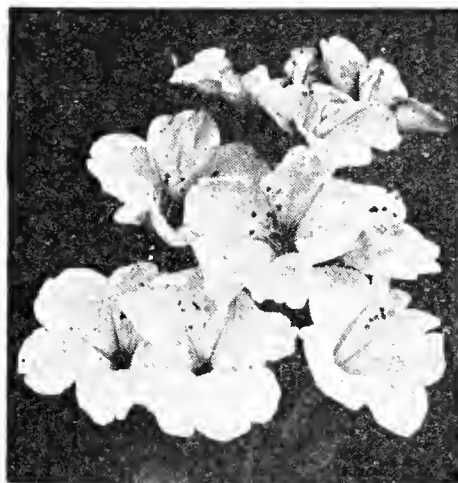

808 Ramona Hybrids A new strain containing many lovely shades. The plants grow compact and upright, with flowers beautifully frilled. Pkt. 8c; 1/8 oz. 25c.

809 Double Eschscholtzia The flowers are like little silken flags, beautifully fluted and crinkled, double and semi-double. The colors are rich yellow, orange and salmon. Mixed Colors. Pkt. 10c; 1/8 oz. 25c.

Everlastings Strawflowers

Grow Your Own Gay Winter Bouquets

971 Gomphrena Globe Amaranth

Very showy bush plants, bearing attractive clover-like flowers in rose, purple and white. Another good flower to be dried for winter bouquets. Pkt. 5c; 1/4 oz. 20c.

1693 Rhodanthe, (Everlasting)

Mixed Colors. One of the prettiest of the everlastings, the flowers star like and dainty with their silken petals, in shades of pink and white. Height 1 ft. Easily grown in a good soil and sunny place. Pkt. 10c; 1/4 oz. 25c.

841 Mixed Everlastings

We have made a very special mixture of all kinds, types and colors of Everlastings, all those listed here as well as many others. You will enjoy this mixture for it will give you many winter bouquets of great variety. Pkt. 10c; 2 pkts. 15c.

Two Fine Euphorbias

831 Snow on the Mountain *Euphorbia Variegata.* Bushy plants growing 2 to 3 ft. high, surmounted with broad fleshy green leaves, veined and margined with white. Pkt. 5c; 1/4 oz. 20c; oz. 60c.

832 Annual Poinsetta *Euphorbia Heterophylla.* In plant growth similar to Snow on the Mountain but the upper foliage is marked with red instead of white. About the middle of summer the top central leaves turn to a rich orange scarlet, giving the appearance of the wonderful greenhouse plant the Poinsetta. Pkt. 5c; 1/4 oz. 25c.

Annual Gaillardia

Blanket Flower. Very showy annuals of easy culture.

Blooms from early summer to frost. Flowers on long stems.

915 DOUBLE AND SINGLE MIXED. A grand assortment of both singles and doubles in many shades of orange, bronze, maroon and crimson. A mixture that will delight you. Pkt. 5c; 1/4 oz. 20c.

902 INDIAN CHIEF. A rich bronzy red single flowering variety, beautiful for cutting. Pkt. 8c; 1/4 oz. 25c.

917 Gamolepis Tagetes

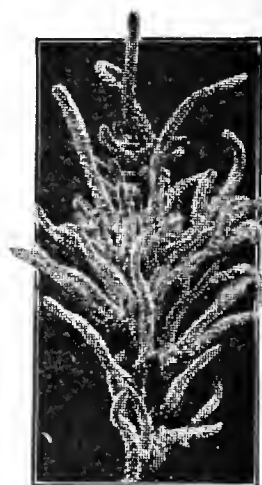

A pretty annual 8 to 10 inches high, producing many bright yellow and orange flowers, daisy like in form. Excellent for sunny border or rock garden and easily grown. Pkt. 10c; 1/4 oz. 30c.

921 Geranium

Zonale. We have an extra nice strain of the largest and finest colored varieties in mixture. They will bloom the first year from seed started in the early spring inside for transplanting outdoors in June. Pkt. 15c.

Helichrysums Mixed

Statice Suworowi

Statice Limonium

Not only as a beautiful flower for the garden but one of the best for drying for winter bouquets, as when dry it retains its true colors which is a rare thing among the everlasting flowers.

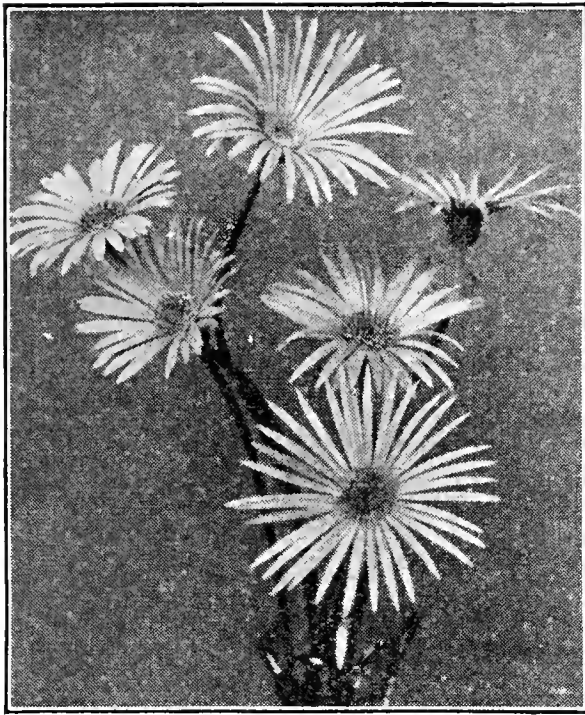

1753 SINUATA MIXED. An excellent variety for cut-flowers. Three colors, bright blue, rose and white. Pkt. 10c; 1/4 oz. 20c.

1759 BONDUELLI. Strong growing variety producing many heads of bright lemon-yellow. Pkt. 10c; 1/4 oz. 25c.

1760 SUWOROWI. Russian or Rattail Statice. A nice type of Statice with graceful spikes of soft rose flowers. Easy to grow and attractive. Pkt. 10c; 1/8 oz. 30c.

1751 SINUATA TRUE BLUE. A beautiful clear deep blue. For further description and picture, see Novelty Page 10. Pkt. 10c; 1/4 oz. 25c.

2130 Xeranthemum A very charming everlasting flower. Plants grow 2 feet tall and produce many bright and pretty flowers of silky texture. Rose, white and purple mixed double. Pkt. 10c; 1/4 oz. 25c.

Gerbera, Transvaal Daisy

928 Gerbera Transvaal Daisy

Jamesoni Hybrids. The Gerbera is a half hardy perennial and we recommend growing it as an annual by starting seed indoors very early or grow it entirely as a house plant. The blossoms are daisy-like, often 3 inches across and borne on excellent stems for cutting, and in a variety of beautiful colors—pure white to orange, salmon, rose, ruby red and violet. **Pkt. 25c.**

Gilia, Thimble Flower

A very graceful annual with fine feathery foliage and nice stems for cutting. Very charming in the garden as it is very free blooming and of very attractive colorings. May also be dried as an everlasting flower.

941 CAPITATA, Lavender Blue. Erect plants $1\frac{1}{2}$ to 2 ft. high. The flowers are globe-shaped and of a delicate lavender blue. **Pkt. 10c; ¼ oz. 25c.**

942 TRICOLOR. Also called **Bird's Eyes.** Grows about 1 foot high. Flowers violet, pale lilac or rosy with dark purple throats and yellowish tubes. A fine rockery plant. **Pkt. 5c; ¼ oz. 20c.**

981 Grevillea—Silk Oak

Robusta. A very graceful and pretty foliage plant used for table decoration and in the outdoor garden in the summer. It grows rapidly from seed and is pretty in all stages of growth. We have seen some excellent specimens in fern dishes. **Pkt. 10c; ¼ oz. 25c.**

Grasses—Ornamental

11 Agrostis Nebulosa Cloud Grass. Produces airy graceful heads so pretty for mixing with flower bouquets. 18 to 20 inches tall. **Pkt. 5c; ¼ oz. 25c.**

358 Briza Maxima Quaking Grass. The prettily shaped seed clusters are carried on such slender graceful stems that they wave in the slightest of air currents. Valuable for winter bouquets. About 1 foot high. **Pkt. 10c.**

1172 Job's Tears (Coix) A very interesting ornamental grass. The seed is frequently used as an old-fashioned remedy for sore throat and teething babies. The seed is strung on a linen thread and worn around the neck as a chain. **Pkt. 5c; oz. 20c.**

1565 Pennisetum Ruppelianum "Fountain Grass." Exceptionally fine ornamental grass for borders around Canna and Caladium beds or pools. Grows $2\frac{1}{2}$ feet tall. **Pkt. 10c. ¼ oz. 25c.**

Hunnemannia Buttereup Poppy

1075 Sunlite A new strain with semi-double flowers of clear canary yellow, as bright as the sunlight. The extra row of petals adds greatly to the beauty of the flowers. **Sunlite** received the **Award of Merit** from the All American Selection Committee. Sow the seed when the soil is warm and it will grow and bloom quickly. **Pkt. 10c; ¼ oz. 25c.**

1074 Golden Buttercup Poppy Bush Eschscholtzia. Imagine great long stemmed buttercups over attractive lacy foliage and you have a picture of this Poppy, the only poppy suitable for cutting. They bloom all summer and make such pretty bouquets that if you once try them you will want them always in your garden. **Pkt. 5c; ¼ oz. 25c.**

1396 Ice Plant See Mesembryanthemum Page 22

1121 Impatiens

Sultans Balsam. Best Hybrids. A charming plant for the house, blooming almost continuously. The flowers range in color from light pink to reds, and purple violet. The plants are about 18 inches tall. Impatiens is a very satisfactory outdoor bedding plant if placed in partial shade. **Pkt. 15c.**

Godetia, Satin Flower

962 TALL DOUBLE AZALEA FLOWERED. Double Schamini Type. This splendid type of Godetia grows about 2 ft. tall, providing fine long stemmed cut flower spikes. The flowers are like Azaleas in beautiful shades of crimson, rose, and pinks. **Pkt. 10c; ¼ oz. 25c.**

Godetias, Dwarf Double Azalea Flowered

The dwarf double Godetias are beautiful plants for growing in pots, porch boxes or in the garden. Their colors are brilliant and when blooming they are simply a mass of color as may be seen in the illustration. They are dwarf and compact and while they do well in partial shade in the garden they are at their best as a pot plant.

958 CARMINEA. Delicate pink with crimson blotched center.

959 BRILLIANT. Glowing dark crimson.

960 CORNELIA. Lively bright salmon shade.

961 DWARF MIXED.

Price any color or mixed. **Pkt. 10c; ¼ oz. 30c.**

955 Godetia, Sybil Sherwood

A new and outstanding introduction to the Godetia list, Sybil Sherwood is a beautiful single flowering variety of most exquisite color, a glorious shade of bright salmon pink softened by an undefined edging of white. Plant is robust, growing 18 to 20 inches tall, has strong stems for cutting and so free flowering that the foliage is practically hidden by the bloom. **Pkt. 25c.**

Godetia, Satin Flower Tall Double Azalea Flowered

971 Globe Amaranth See Everlastings Page 20

946 Gloxinia

Exhibition Mixture. A mixture, unrivalled for variety and color, of this splendid house plant. Large bell shaped flowers in beautiful colors. **Pkt. 25c.**

Gypsophila, Annual Baby's Breath

One of the most popular Bouquet Flowers. Very easily grown annuals, 12 to 15 inches high. Always useful for combining with other flowers in bouquets or small vases. Make several plantings to have the flowers always in the best condition.

991 GRANDIFLORA WHITE, PARIS MARKET STRAIN. The flowers are pure white, very small, star-like, and produced in feathery sprays. We have an extra Select Large Flowering Strain. **Pkt. 5c; oz. 25c.**

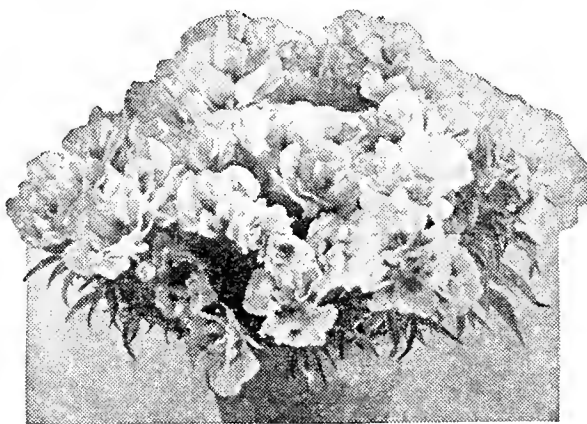

992 ELEGANS CRIMSON. Similar to Common White except in color, which is a pretty rosy-crimson. **Pkt. 5c; ¼ oz. 15c; oz. 40c.**

993 MURALIS ROSE. A dwarf variety growing only 6 inches high, with delicate rose-pink flowers. Fine for rock gardens or edgings. **Pkt. 10c; ¼ oz. 20c; oz. 50c.**

1016 Helichrysum See Everlastings Page 20

1031 Heliotrope, Giant Mixed

The delightful perfume of this plant makes it great for bouquets. Also it is a very pretty house or summer bedding plant, being in bloom all season. Will bloom in the summer from seed started indoors, or the seed may be sown right outdoors in May. **Large flowered mixed colors. Pkt. 10c; ¼ oz. 35c.**

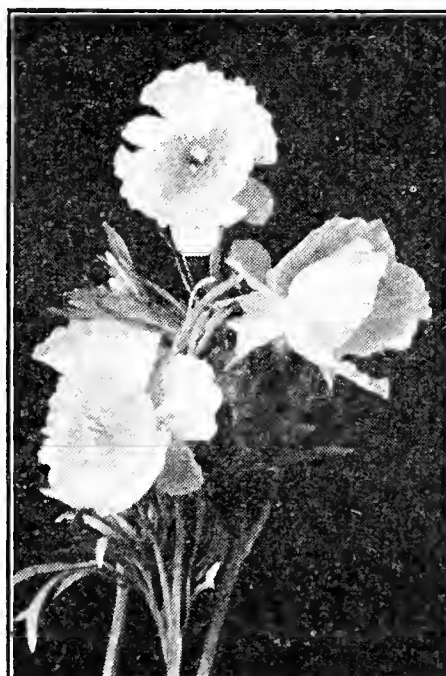

Godetia Dwarf Double Azalea Flowered

1134 Ionopsidium ACAULE Violet Cress or **Diamond Flower.** A delightful miniature plant very rapid growing and free blooming. Flowers are violet in color, small but freely borne and early. Season of bloom may be prolonged by keeping flowers cut. Plant grows about 3 inches tall, forming dense tufts of foliage which is fairly smothered with the dainty little blooms. An unusually fine plant for rockeries or ground cover. **Pkt. 15c.**

1228 Kochia or Fire Bush

Giant Summer Cypress. A charming and most effective decorative plant, with a habit resembling one of the compact evergreen shrubs. It has light green feathery foliage, which changes to crimson in the fall. May be grown as single specimens or as an ornamental hedge. The plants grow 2 to $2\frac{1}{2}$ feet high with a spread of about 15 to 18 inches. You may plant the seed when soil is warm, just where the plants are to stand and thin them out later. Or you may start the seed indoors transplanting outdoors later. **Pkt. 5c; ¼ oz. 20c.**

Hunnemannia, Sunlite

BE SATISFIED With Your Seed Results

READ THIS LETTER

Buskirk, N. Y.
Templin-Bradley Co.,
Cleveland, Ohio.

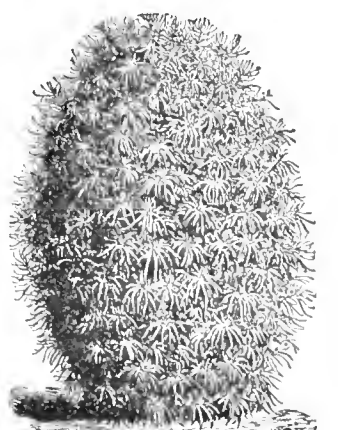

Gentlemen:

I have exhibited flowers at the Floral Dept. of the County Fair for the past seven years.

Last year I won 14 first and 4 second prizes out of 22 entries with flowers grown from Templin-Bradley seeds.

I have tried other seedsmen but none have given such good satisfaction as you.

Yours truly,
Mrs. Allan Russell

Fire Bush

Larkspur, White Spire

Annual Larkspurs

The annual Larkspurs are beautiful free flowering annuals. The flowers come in many colors and are produced on long spikes, the plants growing normally about 2 1/2 to 3 1/2 feet tall. They make lovely bouquets and garden displays.

Being hardy annuals, the seed may be planted in the late summer or fall to hasten next seasons bloom.

Giant Imperial or Delphinium Type

In this class of Larkspurs, the plants grow upright though freely branched at the base, producing many fine long stemmed branches for cutting. Their type of growth allows closer planting without influencing the amount of their bloom. The plants grow 3 to 4 feet tall.

1280 Blue Bell A new shade of deep Sky-blue.

1276 Blue Spire Intense deep oxford blue.

1279 Carmine King Carmine rose, deepest of the pinks.

1272 Exquisite Pink Improved Light delicate Pink.

1282 Miss California Deep pink on salmon ground.

1274 Los Angeles Improved Brilliant rose on salmon ground.

1275 White Spire Beautiful glistening pure white.

Price any of above varieties. Pkt. 10c; 1/8 oz. 30c.

1271 Mixed Colors A fine mixture including all the above and other rare colors. Pkt. 10; 1/8 oz. 25c.

Dwarf Emperor Larkspur

Tall Double Stock Flowered

The plants grow 3 to 4 feet high and bear long cutting spikes of beautiful double flowers.

1270 Rosamond Beautiful pure rose, a shade entirely lacking in Larkspurs up to this time. Plants uniform in height, individual florets are large and very double, closely placed on the stems. Comes into bloom two weeks earlier than other Stock-flowered Larkspurs. Pkt. 10c; 1/8 oz. 40c.

1261 Mixed Colors Includes a great variety of colors, blues, reds, pinks and white of the tall double flowered type, considered the best of all. Pkt. 5c; 1/4 oz. 25c; oz. 60c.

1257 Lantana, Dwarf Mixed This pretty plant carries Verbena-like heads of flowers in white, rose, orange and intermediate shades. It is constantly in bloom so an excellent house or bedding plant. Our dwarf strain produces compact plants 10 to 12 inches high. Pkt. 10c; 1/4 oz. 25c.

1311 Lavatera Annual Mallow. Very attractive plants growing about 2 1/2 ft. tall and producing large cup-shaped flowers most of the summer. The flowers resemble Mallows or small Hollyhocks. Sow in the garden in May and thin out to stand a foot apart. Mixed colors, rose and white. Pkt. 10c; 1/4 oz. 25c.

1319 Leptosiphon, French Hybrids

A pretty little edging plant growing only a few inches high, forming dense cushions of foliage, surmounted by flowers in many colors; cream, yellow, orange to brown, lilac and purple. Pkt. 10c; 1/8 oz. 25c.

1318 Leptosyne Stillmani A daisy-like flower related to Coreopsis. Flowers, golden yellow, 2 to 3 inches across, borne on good long stems, and the flowers last well in water. Plant 18 inches tall with finely cut foliage. Plants grow quickly, blooming in about 6 to 8 weeks from seed. Pkt. 10c; 1/8 oz. 25c.

Linaria

1327 Fairy Bouquet Awarded a gold medal by the All American Selections Committee. Fairy Bouquet is a little beauty. The plants are about 8 inches high covered with the pretty airy flowers, like miniature snapdragons, in a great mixture of shades. Blooms quickly from seed and is ideal as a filler for bouquets or for bedding or potting. Pkt. 10c.

1326 Maroccana Hybrida Excelsior Mixed. A hardy annual with small dainty flowers like miniature Snapdragons, colors ranging through crimson, gold, pink, rose, maroon, dark blue and chamois. Plant 12 to 18 inches tall and blooms in about 8 weeks. Pkt. 8c; 1/4 oz. 20c.

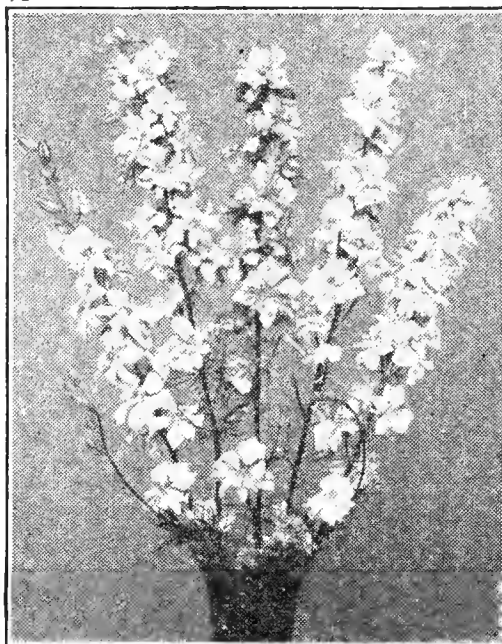

Lobelia, Dwarf and Trailing

For best results sow Lobelia seed indoors in boxes or pots covering the seed very lightly and keeping the surface moist.

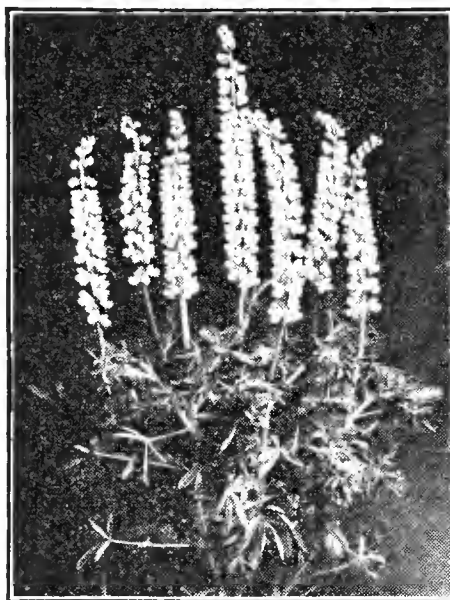

1335 Crystal Palace Compacta This is the best strain of dwarf Lobelia, the plants only 5 or 6 inches high, fairly covered with rich deep blue dainty flowers. A fine little border or pot plant, and it is used also for porch boxes and baskets. Pkt. 5c; 1/8 oz. 25c.

1336 Sapphire Trailing A beautiful new strain of trailing Lobelia, so useful for porch boxes and baskets. The plant is strong growing and the flowers extra large, a rich deep blue with a white eye. Pkt. 10c; 1/8 oz. 30c.

1340 Blue Stone A dwarf compact variety with large gentian blue flowers without the white eye. A very fine strain. Pkt. 10c; 1/8 oz. 30c.

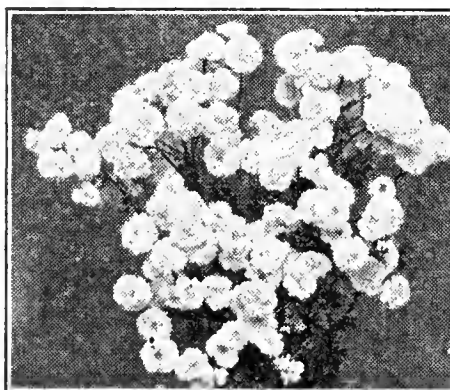

Annual Larkspurs—Stock Flowered

New King or Giant Lupines

Matthiola

1391 Bicornis Evening Scented Stocks. Bears lilac color flowers, which in the morning evening or after a shower emit most delicious perfume. Plants 15 to 18 inches high. Pkt. 5c; 1/2 oz. 25c.

Matricaria Capensis

Dwarf Larkspurs

1301 Emperor An improved class, more dwarf and compact in growth, making a fine bedding variety. Plant grows about 2 feet tall, producing an abundance of spikes, bearing double flowers of the stock flowered type. Mixed Colors. Pkt. 5c; 1/4 oz. 20c.

1302 Enchantress A beautiful new variety of the Dwarf Emperor class. The compact, bushy plant is literally covered with soft, salmon-pink flowers. A splendid variety for potting or bedding. Pkt. 10c.

1328 Linum, Flax

Scarlet Annual Grandiflorum. A brilliant flowered annual plant 1 to 1 1/2 ft. high, carrying rosy crimson flowers. They make pretty beds or borders. For continuous display make several plantings. Pkt. 5c; 1/4 oz. 20c.

Annual Lupines Hardy Lupines on page 41

Easily grown, free flowering annual, with long, graceful spikes of pea-shaped flowers, richly and variously colored. Fine, dark, glossy foliage. Prefers some shade. Height 2 feet.

1344 Mixed Colors Blue, pink, rose and white. Pkt. 5c; 1/2 oz. 20c.

New Giants or King Lupines

A new and improved sort, growing 3 to 4 feet tall and branching from the ground with four to six spikes to a plant. A big advance in size and beauty over the standard Annual Lupines.

1342 King Blue Rich oxford blue with a white stripe in the standard of each flower. Pkt. 10c; 1/8 oz. 35c.

1343 King White Very sweet scented, glistening white. Pkt. 10c; 1/8 oz. 35c.

1349 King Sky Blue Clear light Blue. Pkt. 15c; 1/8 oz. 40c.

1351 King Heliotrope Rosy purple with white stripe. Pkt. 15c.

1350 King Mixed Shades of blue, rose and white. Pkt. 10c; 1/8 oz. 30c.

Malcomia See Virginia Stocks page 28

Matricaria Double Feverfew

The small double flowers resembling button Chrysanthemums are produced in showy clusters.

1384 CAPENSIS, DOUBLE WHITE. Plants grow from 2 to 3 feet high, almost completely covered with pretty, small, double white flowers. Very well adapted for bedding or mixed border. Pkt. 10c; 1/4 oz. 20c.

1385 EXIMEA, GOLDEN BALL. The dwarf compact little plants grow 9 to 10 inches high, producing an abundance of fully double golden yellow flowers. This dwarf variety makes an unusually fine edging or border plant for taller annuals. Pkt. 10c; 1/8 oz. 40c.

Mesembryanthemums

1396 Ice Plant Crystallinum. The foliage and stems are covered with crystal-like formations that glisten in the sun. Nice for hanging baskets, porch boxes and for rockeries, being trailing in growth. Pkt. 5c; 1/4 oz. 20c.

1399 Livingstone Daisy Criniflorum. An ideal carpet or Rock Garden plant. Daisy-like flowers of golden, buff, apricot, crimson, 2 inches across. Pkt. 15c.

Mimosa—Sensitive Plant

1410 Pudica A curious little plant 12 to 15 inches tall, bearing small pinkish white flowers. Foliage fern-like. The leaves when touched, close up but if undisturbed for a short time again regain their natural form. Pkt. 10c; 1/4 oz. 25c.

Mimulus—Monkey Flower

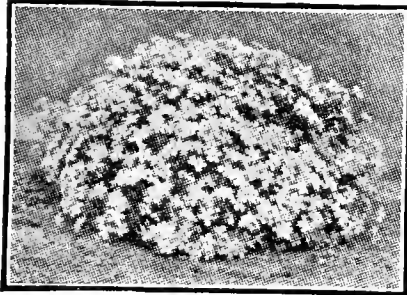

1412 Queen's Prize Tigrinus Grandiflorus. Plants dwarf and bushy about 10 inches tall and bear large flowers. Range in color through white, yellow, golden, rose, crimson and maroon blotched and striped. Pkt. 10c; 1/8 oz. 25c.

Dwarf French Legion of Honor

same size as Legion of Honor, but the flowers are in a variety of shades of reddish-brown and golden-yellow. Some are like golden balls, others are mahogany with the daintiest fringe of yellow. Pkt. 5c; 1/4 oz. 25c.

1366 DWARF DOUBLE AFRICAN MIXED. Much more dwarf and compact than the tall sorts. Therefore, not as liable to fall over. The flowers are large, ball shaped and in shades of lemon, yellow and orange. Pkt. 5c; 1/4 oz. 25c.

Border of Gold Tagetes

1380 Border of Gold

This sunny little flower belongs to the marigold family, growing 12 to 15 inches high and making a compact plant. The foliage is fern-like and dainty. Planted in a row all during the summer and fall you will have a golden stripe of bloom. This plant always attracts a great deal of attention from visitors to our Trial Grounds, as the brightest golden yellow stands out so that it actually compels attention and admiration. Pkt. 5c; 1/8 oz. 35c.

1381 Tagetes Little Giant **1359 Yellow Supreme** **1369 Mexican Dwf. Orange** **1357 Dixie Sunshine** Listed on Novelty Page Color Pages 2, 15 and 16.

Mignonette

Mignonette

Reseda Odorata. This annual is an old time favorite and with the introduction of new types is one of the most universally grown flowers for fragrant bouquets, bedding plants and pot culture.

1401 LARGE FLOWERING. A highly improved strain of the common variety, producing an abundance of very fragrant flower heads. Pkt. 5c; 1/2 oz. 25c.

1402 GOLDEN GOLIATH. Immense spikes of golden yellow. Of strong yet compact growth, the giant trusses of flowers borne on erect strong stalks, excel all others. Pkt. 10c; 1/8 oz. 25c.

1403 NEW YORK MARKET. A select strain desirable for florists. Under favorable conditions plants will grow to 2 or 2 1/2 feet tall, producing long compact flower spikes. Flowers red. Pkt. 10c; 1/8 oz. 60c.

1405 BISMARCK. Improved Machet. A large flowered variety of reddish shade with dense spikes. Distinct crinkly foliage. Heavy delicious fragrance. Excellent for potting. Pkt. 10c; 1/4 oz. 25c.

1456 Nemesia **Templin-Bradley Hybrids.** A splendid little plant of compact growth about 1 foot high. Nemesia may also be used as winter flowering plants by starting the seed in the fall. This is the best strain of Nemesia with large flowers and many rich and rare colors, from creamy white through orange to carmine. Pkt. 10c; 1/16 oz. 30c.

1463 Nemophila "Baby Blue Eyes." **Insignis.** A cute little Annual growing about 8 inches high and producing an abundance of bright blue, cup-shaped flowers in clusters. Very dainty for cut-flowers. Pkt. 10c; 1/4 oz. 15c.

1490 Nigella or Love-in-a-Mist

Also called Devil-in-a-Bush. Compact, free flowering, with pretty light blue flowers, nestled in feathery foliage, resembling a mist. The seed pods are curiously shaped and attractive. Plants grow 15 to 18 inches high. Very easy to grow. Pkt. 5c; 1/4 oz. 20c.

1498 Nycteria **Capensis.** The charming white flowers open at night and are very fragrant. The plants are 9 to 12 inches high and are nice for edgings, rockwork or for potting. Pkt. 10c; 1/8 oz. 25c.

1508 Oenothera, Afterglow

Evening Primrose. Evening Primroses should be in every garden because of their enchanting habit of opening their flowers in the evening and allowing you to enjoy their delicious fragrance. Afterglow is a pretty new variety with large flowers of buttercup yellow each with bright red calyx. 18 to 24 inches high. Pkt. 10c; 1/4 oz. 25c.

Oenothera Afterglow

1624 Phacelia **CALIFORNIA BLUE** **BELL.** Campanularia or Harebell Phacelia. Grows neat little bushes, 9 to 12 inches tall, and bearing all summer pretty gentian bell-shaped blue flowers with white stamens. Very easy to grow, nice for blue borders and rockeries. Pkt. 10c; 1/4 oz. 25c.

Tall Varieties

24 to 30 Inches Tall

1355 TALL DOUBLE AFRICAN AND FRENCH MIXED. The African type has large flowers of a uniform color, yellow or orange and the double are more or less globe shaped. The French Marigolds are combinations of mahogany, brown, yellow and gold. They are single and semi-double. Mixed. Pkt. 5c; 1/4 oz. 20c.

1375 Royal Scot The most striking Marigold yet introduced. See Novelty Page and Color Page 16 for description. Pkt. 10c; 1/8 oz. 35c.

1362 Orange Prince A tall double African variety. Bears large, perfectly double flowers of a rich deep golden-orange, a single plant often having 50 or more splendid flowers. Pkt. 10c; 1/8 oz. 25c.

1364 Orange Alldouble A new and improved strain of African Marigold in which the flowers are practically 100% double. The plant growth and habit is identical with Orange Prince, but the form and doubleness of the flower in this new strain has just about reached perfection. Pkt. 10c; 1/8 oz. 35c. See Color Page 15.

1365 Lemon Alldouble Similar in characteristics to Orange Alldouble except in color, which is bright lemon yellow. Pkt. 10c; 1/8 oz. 35c. See Color Page 15.

1360 Primrose Queen A delightful shade of creamy primrose, with a tone of gold. Large double quilled flowers. Pkt. 10c.

1378 Guinea Gold All-America Gold Medal 1933. Brilliant orange, double and semi-double, ruffled, with loose petals. Plants 2 to 2 1/2 feet tall of pyramidal growth. A very popular Marigold. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 45c.

Tall African, Orange Prince

Nicotiana

Flowering Tobacco. A lovely class of fragrant annuals that bloom freely throughout the summer and fall. Plants are bushy, 2 to 3 ft. high and branching. They open towards evening emitting a very pleasant odor.

1483 AFFINIS WHITE or tuberos flowered tobacco. A very continuous and profuse bloomer, with waxy white flowers. Plants of branching, bushy habit, starting to bloom a few weeks after sowing. 2 1/2 to 3 ft. Pkt. 10c; 1/4 oz. 25c.

1484 AFFINIS HYBRIDS. Like above in growth, a splendid mixture of rose, red, white, and blue. Pkt. 10c; 1/4 oz. 25c.

1482 CRIMSON KING. A compact growing variety with rich crimson flowers. Pkt. 10c; 1/4 oz. 25c.

Nicotiana

Annual Phlox

This splendid genus of plants is unrivaled for richness of color, profusion of bloom, duration of bloom and general compactness, and whether in clumps or masses looks equally beautiful. It is one of the finest annuals in cultivation, and should occupy a prominent place in every garden.

Drummondii Grandiflora Phlox 12 to 15 Inches Tall

See All-America Phlox "Art Shades" Color Page 2, Described Page 9

1625 ALBA. Pure White. **1627 ATROPURPUREA.** Very rich deep maroon.

1628 SPLENDENS. Rich red with white eye.

1629 CHAMOIS ROSE. Beautiful pink with deeper rose eye.

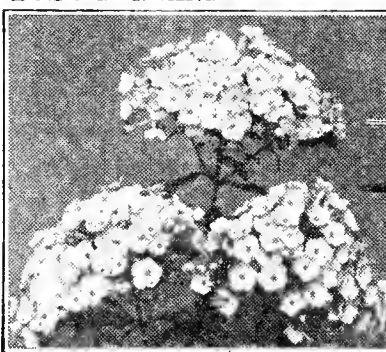

1630 CINNABAR SCARLET. Very bright orange scarlet.

1631 ISABELLINA. Chamois shade of yellow.

1632 LILAC. Lavender, white eye. **1637 ATROVIOLACEA.** Deep purple.

Price any color, Pkt. 10c; 1/8 oz. 25c.

1626-A GRANDIFLORA MIXED. All colors mixed. Pkt. 10c; 1/8 oz. 20c.

Grandiflora Phlox

1633 STARRED AND FRINGED. This beautiful type is quite distinct. The flowers are either star-shaped or fantastically fringed, really two distinct types. Many bright colors. Pkt. 10c; 1/8 oz. 25c.

1634 BRILLIANT DWARF MIXTURE. The dwarf Phlox grows only 4 to 6 inches tall. Our mixture contains a grand display of brilliant as well as soft rose and cream tones. Pkt. 10c; 1/8 oz. 35c.

1635 DWARF FIREBALL. Bright scarlet, brilliant as a border. Pkt. 10c; 1/8 oz. 35c.

1636 DWARF SNOWBALL. Pure white. plant with Fireball. Pkt. 10c; 1/8 oz. 30c.

1638 Poinciana, BIRD OF PARADISE. Gillies. State-ly tall growing plant reaching up 8 to 10 ft. The flowers are large, bright and yellow and borne in trusses. They are made even more beautiful by the rich crimson stamens and pistils which are long and incurving. Pkt. 10c; 1/8 oz. 30c.

Tall Nasturtiums

1426 Mixed Colors

1436 FANCY LEAVED DWARF. Very dwarf compact plants but the foliage is distinct and curious—variegated and marbled silvery white, and including the waved emerald green leaves. Flowers are showy. Mixed colors. Pkt. 10c; oz. 20c.

Nasturtiums

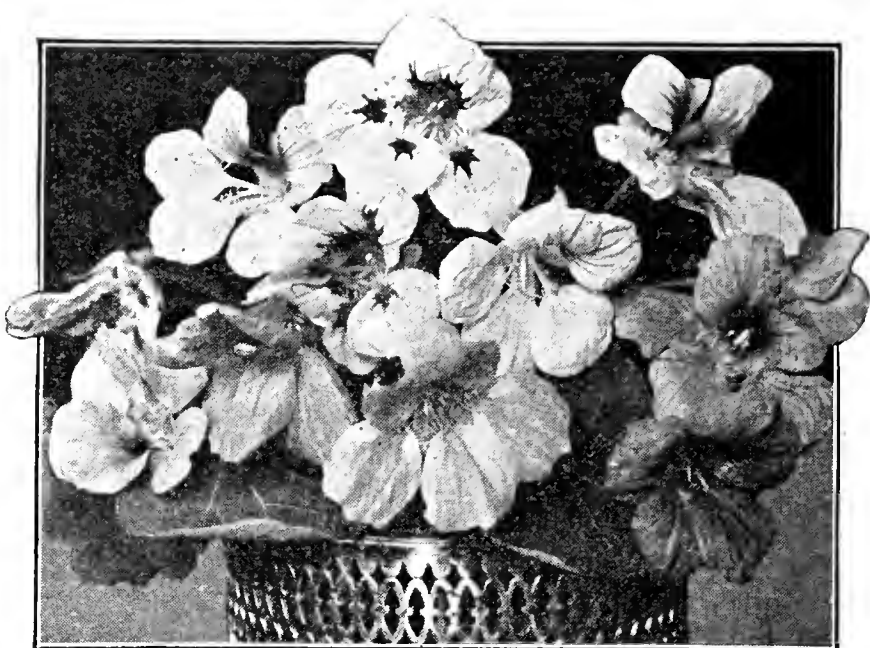

Flowers in Color on pages 2 and 70. For summer display in large or small beds, nothing can surpass Nasturtiums. They start to bloom early and keep up a continuous display of bright colored flowers until hard frost in fall. You can grow them in practically any garden soil. Plant the seed after soil is warm, covering an inch deep and dropping a couple of seeds every 3 inches. They should not be transplanted. Cut the Nasturtiums freely and they will bloom better. Do not pull them from the vines but snip them off.

Dwarf Nasturtiums

These are especially desirable for borders and beds forming neat compact plants 1 to 1½ ft. across. The more you pick the more they will bloom.

- 1427 King Theodore.** Rich Dark Red.
1428 Yellow. Bright.
1429 Empress of India. Scarlet.
1430 Ruby King. Bluish Rose.
1431 Crystal Palace. Rich yellow blotched with red.
1432 Pearl or Moonlight. Very light yellow.
 Price any of above. Pkt. 5c; oz. 20c; ¼ lb. 60c.

1435 Collection. 1 pkt. each above 6 varieties 50c.
 A splendid mixture. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$1.00.

Nasturtiums Add Color to Your Home

Tall Nasturtiums

1441 BEST TALL OR CLIMBING. For trailing over porch lattice or arbors, or for covering old fences or unsightly places, also for vases, we consider the tall varieties most desirable. There is also a greater variety in colors, including the brilliant Lobbianum type. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$1.00.

1442 TALL IVY AND VARIEGATED. Combining two desirable new climbing types, the Ivy with bright green foliage, veined light, and the Variegated with green leaves mottled with creamy-white. Flowers brilliant mixed colors. Pkt. 10c; oz. 20c.

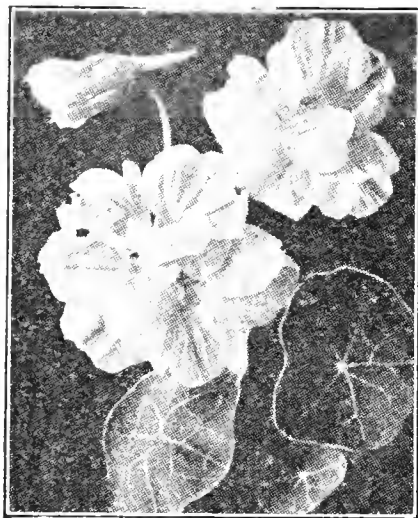

1443 TRAILING TOM POUNCE. The best Nasturtium for porch boxes because of its trailing habit (vines 2 feet long.) At times you hardly see the foliage because of the wealth of flowers. Flowers are a little smaller than the ordinary Nasturtium, very bright yellow and scarlets. Pkt. 10c; oz. 20c.

New Double Gleam Sweet Scented Nasturtiums

Double Gleam Nasturtiums are the result of years of scientific plant breeding and selection. A most remarkable achievement in plant breeding.

See Color Page 70

- 1438 Golden Gleam.** Immense golden yellow. All-America 1933 Pkt. 10c; Oz. 25c.
1439 Scarlet Gleam. Dazzling orange-scarlet. All-America 1935 Pkt. 10c; ½ oz. 85c.
1444 Orange Gleam. Deep glowing golden orange. Pkt. 20c; ½ oz. 45c.
1445 Moon Gleam. Light golden cream. Pkt. 15c; ½ oz. 40c.
1446 Salmon Gleam. Delicate salmon. Pkt. 15c; ½ oz. 40c.
1440 Gleam Hybrids. Magnificent color range. See page 70 for flowers in natural color. All-America 1935 Pkt. 10c; Oz. 30c.

See Novelty Page 9 for All-America Dwarf Golden Globe and Gem Mixture

Annual Poppies

Poppies will grow most anywhere and you should scatter seed wherever there is any space in your garden, they are so bright. Make several plantings to have fresh flowers throughout the summer. They will not stand transplanting.

Shirley Poppies

The Shirley Poppies are all very attractive because of their good sized, beautiful silken flowers.

1651 SWEET BRIAR. Double Shirley. The color is a deep rose-pink, like a wild rose, and formed like a large double begonia. It is much larger than the standard Double Shirley varieties. Pkt. 10c; ½ oz. 25c.

1652 THE DAZZLER. Double Shirley. A new Double Shirley Poppy of fine size and form. The color is a rich orange-scarlet, very attractive and unusual. Pkt. 10c; ¼ oz. 35c.

Shirley Poppies

1651 SINGLE SHIRLEY MIXED. Silk or Ghost. The effect of this mixture of these new Poppies, is what you would expect to see in a Chinese garden, where vivid, glistening, still artistic harmonizing colors hold sway. Pkt. 5c; ¼ oz. 20c; oz. 60c.

1655 DOUBLE SHIRLEY MIXED. Eldorado. Same mixture of brilliant shades as the single mixed but the doubles last longer. There will be some singles and some semi-doubles. Pkt. 5c; ¼ oz. 25c.

Other Annual Poppies

1649 PEONY FLOWERED. Double. The flower heads are very double and often measure 3½ to 4½ inches across. The petals are shaggy and Peony-like. All colors Mixed. Pkt. 5c; ¼ oz. 20c.

1650 TALL SALMON SHADES, IRRESISTIBLE. Double. A new strain of Annual Poppies. The flowers are larger than the Peony and Carnation flowered Poppies. The salmon shades are particularly pleasing and worthy enough to draw the Award of Merit from the Royal Horticultural Society. Pkt. 10c; ¼ oz. 25c.

1653 FLANDERS FIELD. Single. The beautiful native Poppy that covers the war fields of France and Belgium. A glorious scarlet Poppy. You must have some of them in your garden. Pkt. 5c; ¼ oz. 25c.

1648 TEMPLIN-BRADLEY BRILLIANT MIXTURE. For a brilliant and gaudy effect, plant large quantities of this mixture, containing all the bright colors known to Poppies. Pkt. 5c; ¼ oz. 15c; oz. 30c.

1674 GOLDEN BUTTERCUP POPPY. Hunnemannia, Eschscholtzia. See Page 20.

Double and Single Poppies

Ornamental Fruits

1751 Jerusalem or Cleveland

Cherry Ornamental pot plant bearing large, bright red cherries. A lovely house plant. Pkt. 10c; ½ oz. 25c.

1752 Ornamental Peppers

Capstem. Interesting little bushy plants bearing brilliant and curious fruits in many shapes and colors. Pkt. 10c; ¼ oz. 25c.

Rose Moss Portulaca Sun Plant

For brilliant coloring, nothing can excel a bed of Portulaca, with its silky flowers glistening in the sunlight. No bedding plant equals the Portulaca for places exposed to the hot sun.

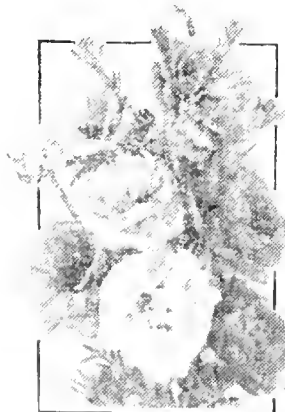

1641 Double Comprising many brilliant colors. Seventy-five per cent should produce perfectly double flowers resembling small, fully open roses. Pkt. 10c; ½ oz. 40c; ¼ oz. 65c.

1640 Paris Beauty Larger flowered than the old fashioned, and one of the brightest, showiest low border flowers in existence. Colored with the gayest purple. Pkt. 10c; ½ oz. 25c.

Single Flowering

The single-flowering Portulaca is unsurpassed for carpet bedding where a brilliant effect is desired. Our strain contains white, yellow, pink and scarlet.

1642 Single Mixed Portulaca. Pkt. 5c; ¼ oz. 25c.

Double Portulaca

Floyd Bradley "How" Book
Garden Helps. 25c per Copy

Primulas

1661 PRIMULA OBCONICA. One of the most beautiful Primulas for pot plants and also for the summer border. Fine large flowers in many colors. Start the plants in a light window, using a porous loam but one containing no leaf mold or peat. **Giant Mixed.** Pkt. 25c.

HARDY PRIMULAS. Hardy varieties of this desirable garden plant are listed on page 42.

Pyrethrum

1688 PYRETHRUM AUREUM. Golden Feather. A dwarf growing little plant only a few inches high, with golden foliage, which makes it an attractive border or formal bedding plant. Though half-hardy, it is best treated as an annual. Pkt. 10c; ¼ oz. 25c.

Pyrethrum Plants See Page 70

Pansies

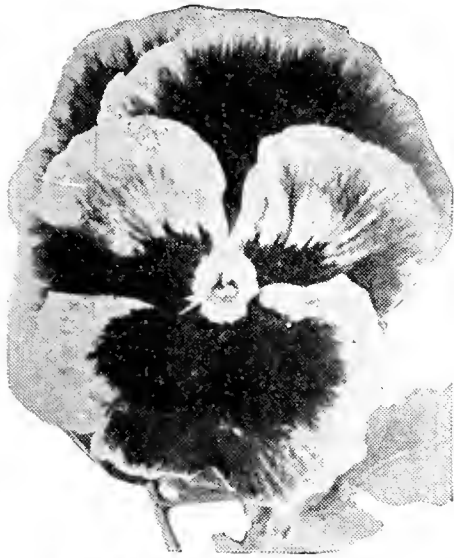

Roggli's Swiss Giants

Pictured in Color on Page 15.

Deep down in the heart of everyone is the desire to see Switzerland, the country of beautiful lakes, flowers and snow-capped mountains. Few have the opportunity to spend days in the heart of the Swiss Alps, but all of us can bring a bit of Switzerland into our houses and gardens if we but plant these lovely Swiss Pansies.

Roggli's Swiss Pansies are the result of years of intensive plant breeding, developing this wonderful strain of Giant Pansies with the immense size, 3½ to 4 inches in diameter, and seemingly, embodying all the rich golds, reds and blues that are to be found in the lakes and mountains of Switzerland.

The separate colors are descriptive of their homeland and the mixture contains a very fine range of colors, with a large percentage of rich dark shades.

Roggli's Swiss Giant Pansies
Are Unexcelled

1546 ALPGLOW. Rich garnet red, darker markings.

1548 RHEINGOLD. Golden yellow, brown blotches.

1545 Roggli's Swiss Giants

Prices on all Roggli Pansies. Pkt. 25c; ⅛ oz. \$1.00; ¼ oz. \$1.75.

1547 TIJUNERSEE. Deep blue.

1549 BERNA. Violet-blue, darker markings.

See Pansies
Color Page 15.

Giant Flowering Pansies

The largest of the American grown Pansies. We offer you eight varieties, in colors that will give you a fine selection if you too follow a color scheme in your garden planting.

1532 SNOW WHITE. Pure glistening white.

1533 GOLDEN QUEEN. Bright golden yellow.

1534 CARDINAL. Brilliant red, black blotches.

1535 KING OF BLACKS. Rich velvety, near black.

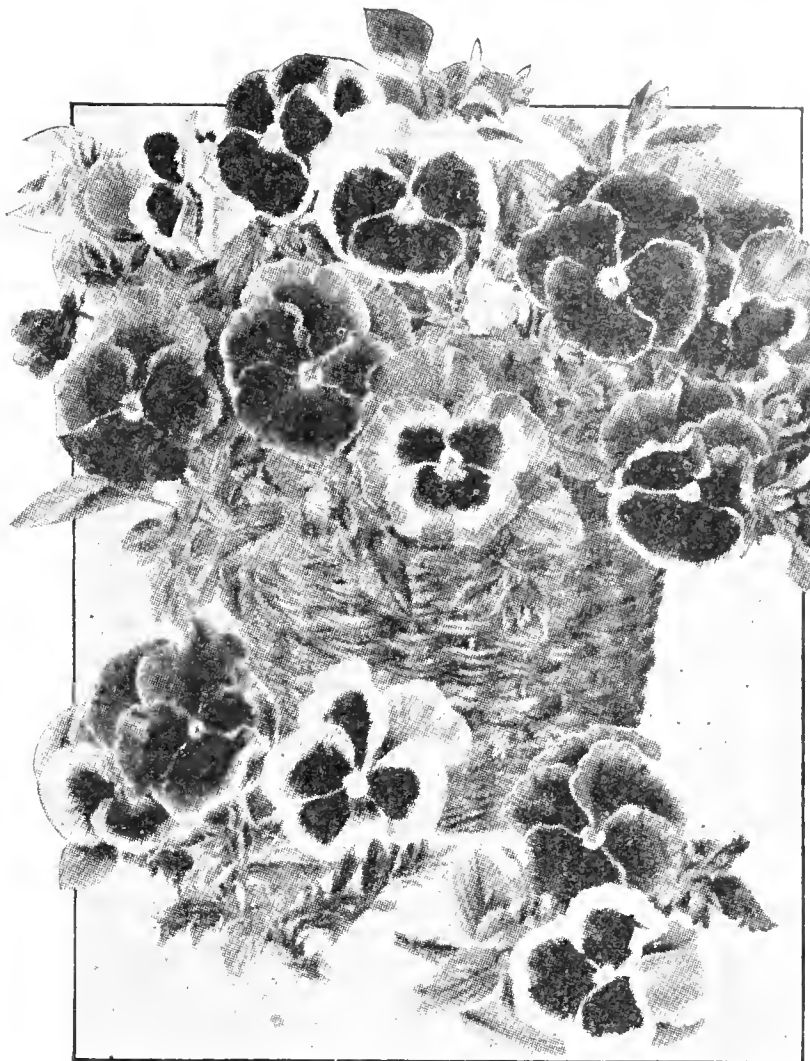

1536 LORD BEACONSFIELD. Purple, white, lavender.

1537 PRINCE HENRY.

1538 PRINCE BISMARCK. Bronze shade, black eye.

1539 ADONIS. Light blue with white eye.

Prices on any above 8 Kinds. Pkt. 10c; ⅛ oz. 30c.

Templin-Bradley's Supreme Mixture
A Basket Full of Beautiful Thoughts

1529 A New Strain of Pansies

Templin-Bradley's Rainbow Mixture

This strain has a greater range of color than any other strain we have ever offered. Furthermore, the flowers are enormous in size, when properly grown you will find flowers 4 to 5 inches from top to bottom. The plants are compact but of vigorous growth, producing good length of stems.

And the colors are marvelous. You will find those of bronze and reddish tinge, many with distinct rings, deep blues, purples and the light gold and yellow shades as well. Pkt. 25c.

1527 Miracle Pansies

American Strain of Mastodon Mixed. This pansy strain was developed by Steele's Pansy Gardens and is considered the best of the American strains. The plants are hardy, very early flowering, bear huge blooms on long stems and the colors are beyond description. Pkt. 20c; ⅛ oz. 75c.

1552 Winter-Blooming Giant Pansies

Sometimes called World's Record. A very early flowering hardy strain. They will bloom several weeks earlier than other pansies so are invaluable for spring bedding. The flowers are of good size and include a splendid assortment of colors. They are delicately fragrant, indicating the violet strain. Pkt. 10c.

Templin-Bradley's 1526 Giant Exhibition Pansies

The Giant Exhibition is a wonderful mixture of Pansies. It is our own blend of which we sell a great quantity to the most critical pansy lovers and to those who grow for market. In order that you may have the pleasure of growing some of the very best pansies in existence at a nominal expense, we are searching each season—almost to the ends of the earth, among pansy specialists for the very best of their new strains. Included are the ruffled types, the striped and mottled, the blotched as well as solid colors are mixed together to make our Giant Exhibition. Price, pkt. 15c; 3 pkts. 40c.

1528 Popular Bedding Mixture

These are the popular saucy-faced beauties that everybody loves, comprising the finest varieties in all colors. Just what you want for a pretty bed. You will be delighted with this mixture. Pkt. 5c; ⅛ oz. 25c; ¼ oz. 45c.

CULTURE—Pansies do best in a rich loamy soil, moist but not wet. Beds should be worked up loosely 8 inches deep and humus, or well-rotted manure worked in. Seed may be sown in the garden as early as the ground can be worked up fine or may be started inside in boxes for earlier plants. After sowing cover very lightly with fine soil or sand and keep moist, this is important for pansy seed if allowed to dry out during the first 15 or 20 days will invariably die. Pansies may be sown in the same manner in July or August and carried through winter by mulching with straw or leaves.

Templin-Bradley's 1540 Supreme Mixture

"Pansies for Thoughts" is an age-old saying but in this case we have reversed the words and have given "Thoughts for Pansies." In this mixture we have thought out the best mixture of Pansies in all the finest types, colors, sizes, markings and substances available.

Let's make this a Pansy summer and fill our gardens, baskets and homes with the adorable little faces of these colorful Pansies. Their beauty will thrill you. 1540 Supreme Mixed Pansies. Pkt. 30c; Large Pkt. 75c.

Rudbeckia

1697 My Joy A delightful new and desirable variety of this popular annual. The attractive flowers are of rich orange yellow often over five inches in diameter and having a much smaller central cone. Plants are vigorous and strong-growing, furnishing fine strong stems for cutting. Pkt. 10c; ⅛ oz. 35c.

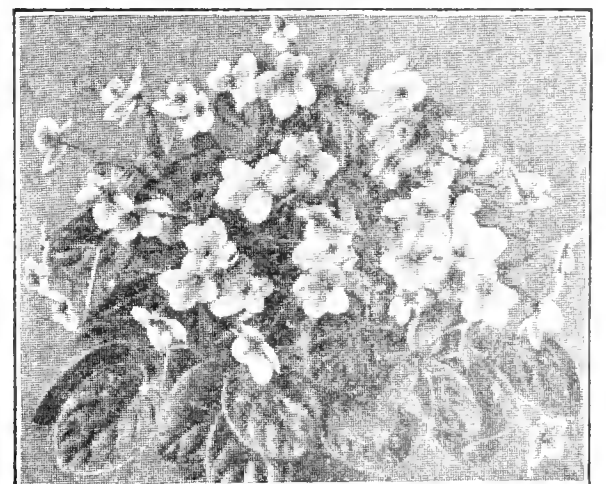

1698 Kelvendon Star A half-hardy annual and a rampant grower, 3 feet in height and should be planted 18 inches apart. Sow seeds indoors in February or March. Plant seedlings outdoors as soon as ground is warm. Will bloom from July until frost. Flowers of golden yellow with brown central disc, surrounded by shining mahogany. Pkt. 15c; ⅛ oz. 30c.

Salpiglossis Velvet Flower

Most attractive annuals, large petunia-like flower in richest color display. The flower coloring is rich indeed—purples, crimson, and each flower veined with a glint of gold. The plants grow 2 feet tall and bear long stems. There is no other flower that has the same purple and gold color combination. Visitors at our Trial Grounds always remark about the magnificent beauty of these flowers.

Saintpaulia, African Violet
1701 Saintpaulia African Violet

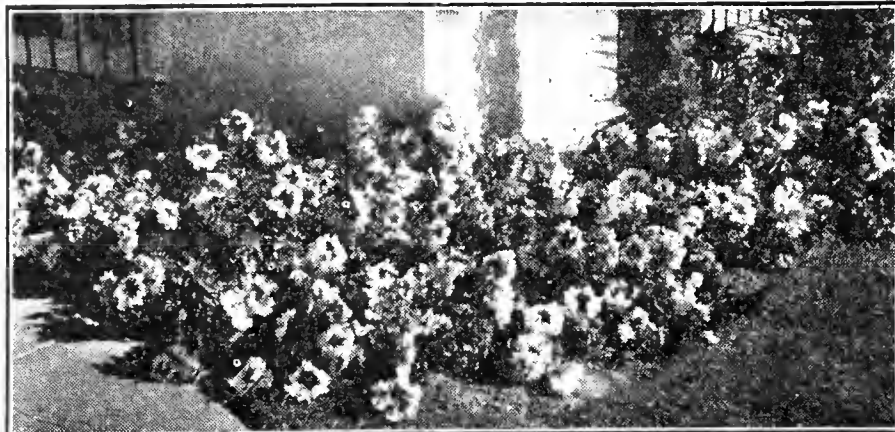

Ionantha. A very useful and charming pot plant that is now in very popular demand. Flowers resembling violets of a very rich violet-blue color enhanced by the golden anthers, which lend a beautiful contrast. Foliage is similar to the Gloxinia. Very easily grown from seed, flowering in six months and continuing all winter. Pkt. 35c.

Beautiful Petunias

See Petunias in color on Pages 2 and 33.

Petunia, Double Fringed

An effective planting of Dwarf Giant Petunia Rosie.

Petunia, Rose Gem, 1936 All-America

Giant Flowering Double Fringed

The finest Double Petunias. Immense blooms, ball-shaped and 4 inches across. Selected strains, producing practically 100% true doubles.

Make showy bedding plants. Tall, spreading with fairly long stems.

1566 Rose Pink and White New Double Giant Fringed. This is a beauty. Imagine a great big ball of double Petunia of bright pink having each petal edged with a frill of pure white. The effect is charming. It comes quite true as to color and doubleness. Pkt. 50c.

1579 Super Double Fringed We believe this strain is as near 100% perfect as has yet been attained. It produces a very large number though not 100% of great big doubled and fringed flowers. There will also be a few semi-double and singles. On page 33 in color is a sample of the kind of blooms you may expect, and certainly that is beautiful. The seed is worth many times its weight in gold. A wonderful assortment of colors. See Color page 33. Mixed Pkt. 60c.

1576 Standard Double Fringed Mixed As lovely as Double Hollyhocks. Many colors; large, yet delicate and fluffy. Pkt. 40c.

1567 Victorious All Double Dwarf Giant Mixed Colors. A new strain, more dwarf and compact than the other double varieties. Every plant in our trials produced double flowers, the larger percent being of the Giant Ruffled type and in most beautiful assortment of colors. Pkt. 50c.

Large Flowering Single Fringed

These have large flowers, though not as large as the Giant Ruffled. The flowers are very prettily fringed and ruffled and are freely borne. The group includes all colors, both light and dark. As a general rule the varieties come very true to color.

1581 Heliotrope Blue Heliotrope or steel-blue with veinings of purplish black. Pkt. 20c.

1582 Theodosia Rose The brightest rose-pink, the beauty being enhanced by the yellow throat, veined brown. Pkt. 20c.

1588 Viola cea An immense flower of deep, violet blue with beautifully waved velvety petals. Very desirable. Pkt. 20c.

1593 Martha Washington All-America Award of Merit 1935. Plant 9 inches tall, a perfect ball, covered with ruffled pink flowers, veined wine-red, violet throat. Pkt. 25c.

1585 Templin - Bradley's Large Fringed Mixed A very fine color mixture of the above varieties, from bright lively pinks to deep purples. Pkt. 20c; 3 pkts. for 50c.

Dwarf Single Fringed

Distinct from the other fringed and ruffled Petunias, especially in the habit of growth. This type grows bushy, compact plants only about 12 to 15 inches tall, and they are prolific of medium sized prettily fringed flowers. The dwarf compact growth makes them obviously better adapted for beds or borders, or as pot plants.

1591 Setting Sun Bright rose pink. Pkt. 40c.

1599 Nana Erecta Tyrian Rose 1934 Novelty. Color is bright Tyrian Rose, the flowers measure 2 to 2½ inches across, free-flowering, giving a continual array of the most brilliant rose. Pkt. 15c; ½ oz. 40c.

1594 Dwarf Single Fringed Mixed Colors Pkt. 25c.

Small Flowering or Lilliput Double Fringed

As the name implies, the flowers are comparatively small, normally 2 to 2½ inches across, but they run a large percent double. The plants are quite dwarf and compact which makes them very desirable for bedding and for potting.

1577 Double Rosy Morn "Rosa Bonheur." The flowers are like rosy-pink Carnations. Fine for porch boxes. Pkt. 30c.

1578 Lilliput Double Mixed A mixture of shades of pink, crimson, striped and blotched red and white. Pkt. 30c.

Balcony Petunias

The plants of this group are very free flowering. They are well adapted to bedding as well as for boxes or hanging baskets, but the long pendulous branches make them especially fine for porch or window plantings. Richly colored, with large plain petaled flowers.

1602 Balcony Rose **1604 Balcony Blue**
1603 Balcony White **1605 Balcony Crimson**
Price of any above colors. Pkt. 10c; ½ oz. 30c.

1607 Balcony Netted Blue Gem Steel blue with attractive netting of deep violet. The flowers are large and freely borne on long branches. Pkt. 15c.

1601 Balcony Mixed A well balanced mixture of lovely colors. Pkt. 5c; ½ oz. 30c.

Petunia Setting Sun

Single Bedding Petunias

More generally planted than any other class of Petunias, because of their free flowering habit and their ability to do well under practically all conditions. In this group are found all attractive colors known to Petunias. The normal height is 18 to 24 inches.

1595 Elk's Pride Royal Purple Darkest Petunia Pkt. 15c.

1611 General Dodds Atropurpurea. Velvety blood red. Pkt. 10c; ½ oz. 40c.

1610 Howard's Star, Improved Maroon, white star. Pkt. 10c; ½ oz. 50c.

1609 Hybrida Mixed A mixture of pleasing shades. Pkt. 5c; ½ oz. 25c; ¼ oz. 45c.

1612 Templin-Bradley's Special Hybrid's Mixed A select mixture, an improvement over common Hybrida. Pkt. 15c; ½ oz. 35c.

Giant Flowering Single Ruffled

The largest flowered of all Petunias, the immense blooms often measuring 5 to 6 inches across. The petals are ruffled and in most varieties the throats of the flowers are beautifully netted or veined. The plant growth varies, the original types being tall and spreading, but as described below, recently dwarf compact strains have been developed.

These ruffled giants are rare and lovely and every garden should have one or more varieties. These varieties do not usually come 100% true to color, some colors being especially difficult to fix.

1572 Dwarf Giant Rosie A dwarf variety with mammoth flowers of rosy lavender, beautifully netted. See large picture at top of page. Pkt. 30c.

1583 Giants of California Mixed Many fine shades of rose, pink, lavender, purple with veined throats of different colors. Pkt. 15c; Large pkt. 75c.

1586 Ramona, Mixed Dwarf Giants. Similar to Giants of California except in growth. The dwarf strain making more bushy and compact growth. Pkt. 25c.

1570 Ruffled Monsters Mixed The flowers are very large and ruffled. Mostly colored in the desirable red and dark shades, neatly marked and veined. Half dwarf and erect in growth. Pkt. 25c.

Dwarf Bedding Compacta

These varieties have been selected for a more compact and dwarf plant growth than the Hybridas. While the different colors vary somewhat, the plants normally are very free flowering, bushy and about 9 to 12 inches tall. As low borders or ribbon beds, they are unexcelled. Suitable for the Rock Garden also.

1616 Bluebird Deep blue. Pkt. 10c; ½ oz. 50c.

1621 Cockatoo Deep velvety purple. Pkt. 10c; ½ oz. 40c.

1617 Rosy Morn Best bright rose-pink. Pkt. 10c; ½ oz. 50c.

1619 Rose of Heaven Lively rose-pink. Pkt. 10c; ½ oz. 50c.

1620 Silver Blue Heavenly blue, silvery sheen. Pkt. 10c; ½ oz. 50c.

1618 Dwarf Inimitable Many colors, mostly blotched and striped. A fine mixture. Pkt. 5c; ½ oz. 35c.

1622 Pink Gem A little gem of a Petunia, literally covered with rich deep pink flowers, 5 to 6 inches high with 25 to 30 blooms to each plant, flowers 2 inches across. The first real dwarf or miniature Petunia. Pkt. 15c; ½ oz. 60c.

1600 Nana Compacta Mixed For the time we are able to give you a splendid mixture of many distinct colors in the true Dwarf or Nana Compacta class. 8 to 10 inches tall and one foot in diameter. A ball of growth. Pkt. 15c; ½ oz. 30c.

Lovely Sweet Peas

Most Desirable Varieties Of Finest Quality

For distinctive beauty and exquisite fragrance the Sweet Pea has no rival. We sell more packets of Sweet Peas annually than any other flower. You can have Sweet Peas in your own garden just as fine as those of the florist. Pick the flowers frequently for abundant bloom. One ounce will plant a single row 25 feet long.

CULTURE OF SWEET PEAS. Prepare a deep trench, removing top soil and loosen subsoil, working into it some well rotted manure, replace top soil, leaving it 4 to 5 inches deep. Sow Sweet Pea seed in bottom of trench, 12 to 15 seeds to the foot for each row, then cover seed with 2 or 3 inches of soil and as vines grow, gradually fill up to the level. Sweet Peas must be sown early in the spring to get the best results, just as early as you can possibly work your soil.

1807 Templin-Bradley's Medal Mixture

If you have a limited amount of space for your Sweet Peas and yet wish to have the best named varieties in the most colorful and gorgeous display of Sweet Pea beauty and daintiness, plant this Templin-Bradley Medal Mixture.

We have combined thirty or more choice named varieties of the Butterfly or Orchid Flowering Spencer Sweet Peas into the finest mixture to give you the best known in the Sweet Pea world. This will give you an unlimited supply of beautiful flowers for dainty bouquets. **Pkt. 15c; Oz. 35c; 1/4 lb. 75c; Lb. \$2.25.**

Giant Spencer Summer Flowering Sweet Peas

Thrifty, vigorous, large waved or frilled flowers

1856 Color Collection 7 Varieties Sweet Peas See Color Page 34, 70c Value 50c.

Blue

1840 **Reflection** Clear corn-flower blue. English variety of lovely blue. Remarkable purity of color. Long stems.

Lavender and Mauve

1841 **Powerscourt** Clearest lavender. British National Sweet Pea Society had classed this as the best lavender for the past seven years.

1851 **Chieftain** Pure satiny mauve or deep lavender.

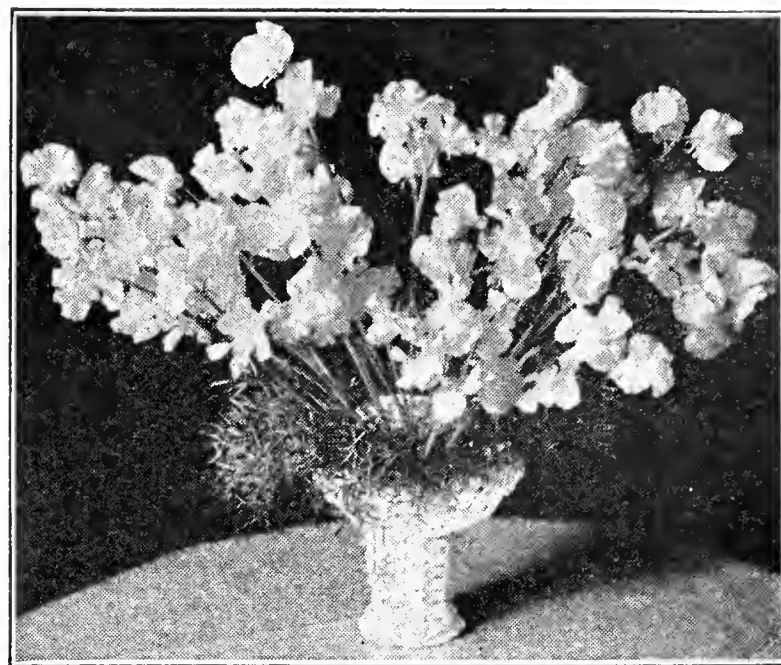

Purple

1850 **Olympia** Lovely large blooms of gloriously rich royal purple. An unusual color in Sweet Peas.

Picotée

1835 **Youth** Exceptionally large, pure white, edged soft pink. Very fragrant.

1836 **Sunkist** Clear rich cream, edged deep pink. A real beauty.

Grow Your Own Beautiful Bouquets

Cream and White

1810 **Model** Elegant, large, pure white. For the lover of white flowers.

1811 **What Joy** A charming tone of rich primrose yellow, shading to cream. Nearest approach to a yellow Sweet Pea.

Pink and Cream Pink

1825 **Mary Pickford** "America's Sweetheart," an overwhelming favorite, as lovely as its namesake. It is rich creamy pink, suffused with salmon.

1826 **Magnet** Delicate cream-pink, keeps well in water.

1827 **Fluffy Ruffles** Light cream-pink with a sheen of bright lilac. Fluffy, ruffled petals.

1828 **Pinkie** Large and adorable Sweet Pea. Clear, deep rose-pink.

Rose and Carmine

1820 **Rosabelle** Large clear rose. Great depth of color.

1821 **Doreen** Strong growing, bright carmine. Unusual shade.

1822 **Damask Rose** Exquisite flower of beautiful rosy carmine. Large and well formed.

Prices on Any Named Varieties of Above Spencer Sweet Peas.

Pkt. 10c; Oz. 25c; 1/4 lb. 75c.

1806 Butterfly Spencer Mixed Sweet Peas

Our mixture contains many choice varieties, the best in their respective colors. They are all large and wonderfully frilled and waved and will give you a splendid assortment of shades and colors in this delightful class of Sweet Peas. **Pkt. 10c; Oz. 20c; 1/4 lb. 50c; Lb. \$1.50.**

Early Flowering Spencer Sweet Peas

A new race of Sweet Peas with the large waved flowers of the Spencers but coming into bloom 3 to 4 weeks earlier than the above varieties.

Excellent for greenhouse planting. Fine for garden planting when mixed with the later kinds, giving a long blooming season.

1930 **ANNIE LAURIE.** Rich tone of pure rose-pink.

1901 **AVIATOR.** Bright glowing crimson.

1874 **BALL'S BLUE.** Bright mid-blue. Good color.

1921 **BALL'S ORANGE.** Best clear, deep orange.

1876 **BLUE BIRD.** Pure violet-blue.

1906 **COLUMBIA.** Salmon-rose standards, white wings.

1891 **GLITTERS.** Deep fiery orange. Gorgeous.

1862 **HOPE.** The best standard black-seeded white.

1936 **MAJESTIC ROSE.** Immense deep brilliant rose.

1910 **MRS. CALVIN COOLIDGE.** Salmon-pink.

1915 **SATIN ROSE.** Lovely soft satiny rose.

Prices on above. **Pkt. 10c; 1/2 oz. 35c.**

1887 **Lavanda** Fine clear, pure lavender. Extremely large and well waved, with long stems. Produces more than the usual blooms per plant. **Pkt. 10c; 1/2 oz. 35c.**

1861 **EARLY FLOWERING MIXED.** A splendid mixture of the above named varieties and many others, giving you a great variety of colors and tones. If you wish a fine lot of Sweet Peas with little space and a limited expenditure, plant this mixture with our **Butterfly Spencers Mixed**, **Pkt. 10c; 1/2 oz. 30c; oz. 50c.**

1960 **Grandiflora Mixture** A fine well balanced mixture of the plain petalled type of Sweet Peas. Large and free flowering. An excellent assortment of colors that will give you beautiful flowers and a continuous supply of cut-flowers all summer. **Pkt. 5c; Oz. 15c; 1/4 lb. 35c; lb. \$1.00.**

1967 Dwarf Cupid Spencers Mixed

An entirely distinct type, growing only 6 to 8 inches high, forming a dense mass of green and a profusion of flowers in many colors. The flower is similar in form to the regular Spencers and the colors are equally beautiful and varied. Fine for bordering walks or beds and are often planted in front of the standard Sweet Peas to add mass effect. **Pkt. 5c; 1/2 oz. 25c; Oz. 40c.**

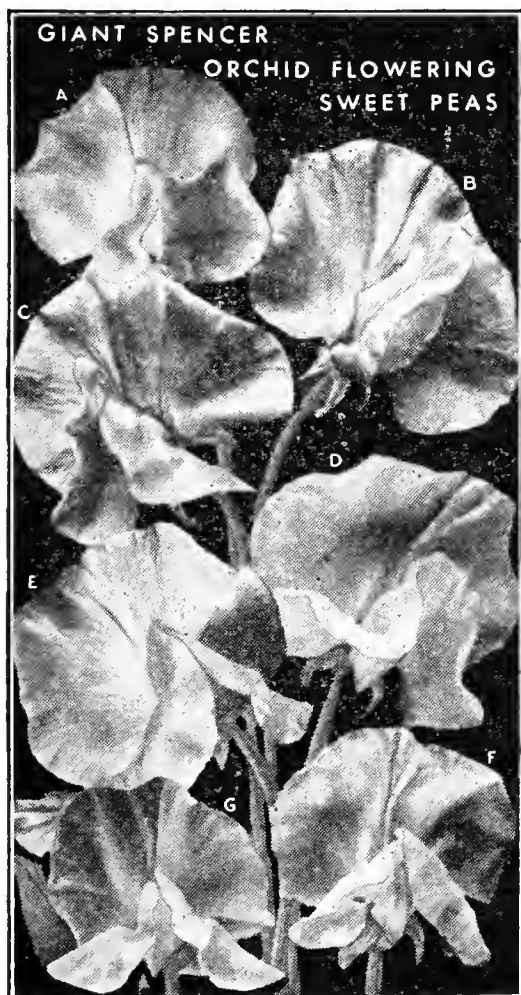

Inoculate Sweet Peas With Nitragin

Nitragin is an old reliable Inoculator. It is well known and used by Agricultural Colleges. Packed in a rich soil-like granular medium easy to mix with your seed. Contents are always fresh. Use on Sweet Peas, Beans and Garden Peas. Directions on package.

1310 **GARDEN PACKAGE.** (For several lbs. of seed) **25c.**

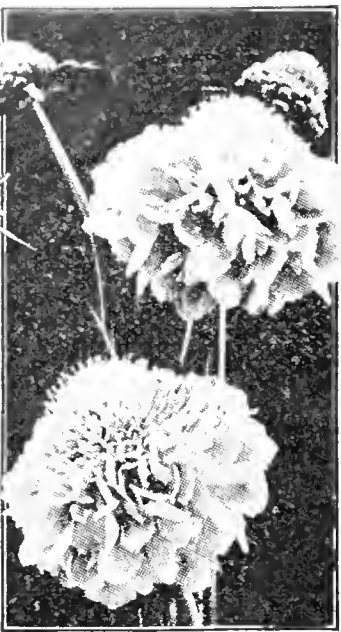

1341 **20 POUND SIZE.** (For 20 lb. of seed) **50c.**

(A) Mary Pickford, (B) Reflection, (C) What Joy, (D) Gold Crest, (E) Pinkie, (F) Ruddigore (G) Sybil Henshaw. Any Pkt. 10c.

1856 7 Pkts. 70c Value for 50c

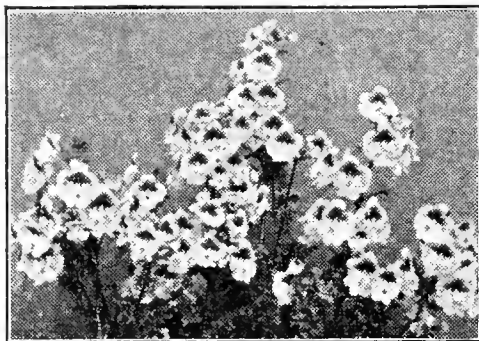

Plant enough Sweet Peas to have fresh flowers on your table every day.

Scabiosa Loveliness

Ursinia

Salvia Butterfly Flower

Salvias

Salvia is too well known as one of the best bedding and border plants to need description here. Start the seed indoors. With a little effort you can raise many plants from a packet of seed.

1711 Harbinger One of the finest Salvias. Will bloom early and continue till frost. About one foot tall, compact, with rich green foliage and vivid scarlet flowers, freely borne. **Pkt. 20c; 1/8 oz. 60c.**

1707 Bonfire Clara Bedman. Plant of globular form, 1 1/2 to 2 feet tall, upright spikes of dazzling flowers. Uniform growth, profuse bloomer. **Pkt. 10c; 1/8 oz. 45c.**

1706 Splendens Scarlet Most popular bedding variety. A scorching scarlet. **Pkt. 10c; 1/8 oz. 30c.** These are tender perennials but are best treated as annuals. Start the seed early indoors or in hotbed.

Blue Salvias

1713 Farinacea Blue This beautiful variety is fine for cutting or for bedding. Tall graceful spikes. **Pkt. 10c; 1/8 oz. 45c.**

1715 Blue Bedder Strain of Farinacea Blue but more dwarf and compact, free bloomer and deeper in shade. **Pkt. 20c.**

Sanvitalia

Creeping Zinnia
See Page 30

Saponaria, Bouncing Bet

1720 ROSE AND WHITE. A pretty plant growing 2 feet high and covered with small pink and white flowers, somewhat like large Baby's Breath. Very pretty in the garden and desirable as cut flowers. **Pkt. 10c; 1/4 oz. 20c.**

Scabiosa, Mourning Bride

These lovely flowers are sometimes called "Sweet Scabious" and "Pin Cushion Flowers." Their delicate coloring and their dainty form with their long graceful stems make them especially adapted for cut-flowers on the dining table. They also look attractive in mixed bouquets.

The flowers are 1 1/2 to 2 inches across and the plants 2 to 3 feet tall. Owing to the delicious sweetness of Scabiosas, they attract the most beautiful types of butterflies to your garden.

LARGE FLOWERING TALL DOUBLE

- | | |
|---------------------------------|---------------------------------|
| 1724 Peach Blossom. | 1725 Shasta, Pure white. |
| 1726 Azure Fairy. | |
| 1727 King of Blacks. | 1728 Sulphur Yellow. |
| 1729 Crimson, Fire King. | 1730 Rose. |
| | 1723 Mixed Colors. |

Prices on above varieties and mixed. **Pkt. 10c; 1/4 oz. 25c.**

1737 Collection. 1 Pkt. each of 7 varieties, 70c value for only 50c.

NEW TALL DOUBLE

1733 Blue Cockade See natural color on page 2. Received an Award of Merit from the Royal Horticultural Society. This outstanding novelty is the purest deep azure blue that can be found in any annual. It is absolutely devoid of even a suggestion of rose. The formation of the flower is far ahead of existing varieties, it has great depth, almost conical. An excellent cut-flower. Half-hardy. Height 3 feet. **Pkt. 15c; 1/8 oz. 30c.**

1731 Loveliness Varying tones of delicate salmon - rose. Delightfully fragrant. **Pkt. 10c; 1/4 oz. 25c.**

1732 Cattleya The color is a rich rosy lilac of the beautiful orchid tone, a new shade in Scabiosas. **Pkt. 10c; 1/8 oz. 25c.**

1722 New Giant Hybrids The flowers in this new strain are much larger than the standard Scabiosas, often measuring 2 to 2 1/2 inches across, completely rounded and double. An unusual range of lovely colors. **Pkt. 15c; 1/8 oz. 30c.**

Dwarf Scabiosas

Only 8 to 9 inches tall—Fine for Rock Gardens

1734 Coral Rose Neat and compact in growth. Color is rose, with salmon over-tone. **Pkt. 10c; 1/8 oz. 20c.**

1735 Tom Thumb Mixed Lovely colors. **Pkt. 10c; 1/4 oz. 25c.**

Sunflower Stella

Salvia Splendens Scarlet

Schizanthus Butterfly Flower

A charming and dainty annual. Plants are compact and branching, 1 1/2 to 2 feet high, with delicate, fern-like foliage. The flowers are bright, in a bewildering range of colors, all blotched and marked with contrasting shades. Sown in the spring for garden decoration and in pots in the fall for the house. Seed germinates quickly.

1738 CHOICE MIXED. A fine strain of this excellent annual flowers containing many beautiful contrasting colors. **Pkt. 10c; 1/4 oz. 25c.**

1742 EXCELSIOR COMPACTUS FINEST MIXED. Best for pot plants. 6 inches tall, pyramidal in form, free flowering. Colors, pink, rose, cream, white and all pastel shades, as well as darker colors. **Pkt. 15c.**

1739 GIANT FLOWERING HYBRIDS. An excellent strain for greenhouse growing but also fine for garden use. Wonderful color assortment. **Pkt. 15c; 1/8 oz. 60c.**

Garden Sunflowers

1801 Red Like immense Gaillardias. Height 5 to 6 feet, flowers 4 to 7 inches across, in shades of brown, red, yellow. **Pkt. 5c; 1/4 oz. 20c.**

1802 Double Chrysanthemum While many come single, a proportion of them will come fully double like big Chrysanthemums. **Pkt. 10c; 1/4 oz. 25c.**

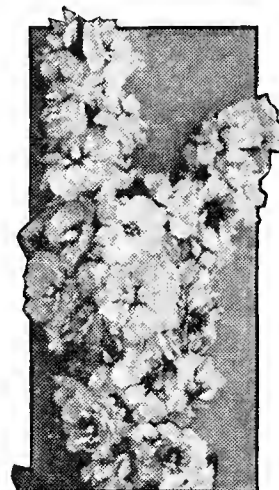

1803 Stella The best of the miniature type. A wealth of golden yellow, single flowers all summer. Fine for cut-flowers. See above picture. **Pkt. 5c; 1/4 oz. 20c.**

1804 Sunflower Collection 1 pkt. each of the above 3 varieties, 15c.

Tall Sunflowers

4077 Sunflower Mammoth Russian The large flowered tall growing variety. **Oz. 5c; 1/4 lb. 10c; 1 lb. 25c; 3 lbs. 60c.**

1984 Tithonia Mexican Sunflower. See Page 30.

Double Stocks

Salvia Farinacea Blue

Stocks, Gilliflower

These popular old hardy annuals have been greatly improved during the past few years. The varieties we list below will give you a fine selection for bedding and potting.

They come in a great variety of soft colors and are very attractive for cut-flowers both by the florist and the home gardener. They bloom in late summer, fall and winter.

1765 Ten Weeks Dwarf, Large Flowered Mixed Colors. The favorites for outdoor bedding because of their dwarf, compact growth and large double flowers. Our strain shows only a few singles. **Pkt. 10c; 1/8 oz. 30c.**

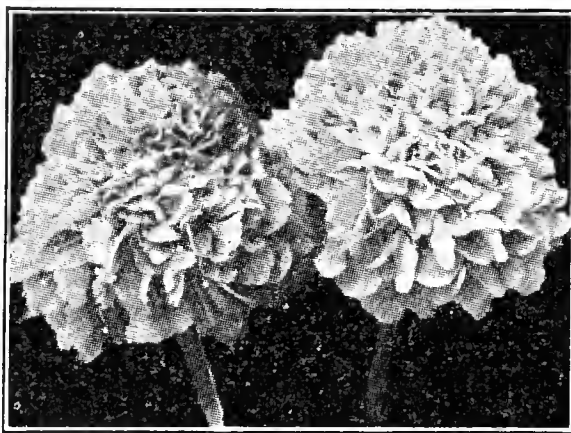

1767 Giant Imperial Improved Bismarck. A fine variety for greenhouse use, the plants growing large and branching, with long flower stocks, 2 1/2 feet tall. **Double. Mixed Colors. Pkt. 10c; 1/8 oz. 35c.**

1791 Giant Excelsior or Column In contrast to the branching types, these Excelsior Stocks produce one large flowering spike 3 feet long on each plant. **Double. Mixed Colors. Pkt. 20c.**

1353 Virginian Stocks Malcomia Cheiranthus French Forget-me-nots. Dwarf plants 8 to 12 inches tall, bearing petaled rose or white flowers, somewhat resembling ordinary stocks. Useful for rock gardens, edgings, massing or naturalizing. **Pkt. 10c; 1/4 oz. 20c.**

Ursinia

2036 Anethoides A native of Africa, a novelty in American gardens. Plants form tufts of leaves, flowers borne above on long wiry stems. Daisy-like flowers 1 1/2 inches across, of rich yellow, with purple center. (See cut above left.) Flowers remain open all day. Plants 1 foot high. **Pkt. 10c; 1/8 oz. 25c.**

See Natural Color, Page 16.

1410 Sensitive Plant Mimosa. See page 22.

2442 Smilax Climbing Vine. See page 31.

Statice Everlastings. Strawflowers. See page 20.

Strawflowers Everlastings. See page 20.

1761 Stevia Serrata

Form nice bushy plants about 2 ft. tall and bearing numerous fragrant pure white flowers. Grow outdoors in summer and indoors in winter, and have the flowers for cutting and mixing with bouquets of other blooms. **Pkt. 10c; 1/8 oz. 30c.**

**Giant
Dahlia
Zinnias
Make Gay
Bouquets**

Giant Dahlia Zinnias

See Flowers in Color on Page 34.

The Dahlia Flowered Zinnias are immense in size, often 4 to 5 inches and more in diameter. They are borne on tall strong plants with long stems, the flowers resembling Decorative Dahlias.

The separate colors of this type are not quite 100% true, there being a little variation in shade. We believe our strains are the finest on the market.

2212 Luminosa. Shades of bright deep pink with a light suffusion of salmon.

2213 Golden State. Very rich orange yellow. Yellow in the young flowers turning to orange.

2202 Canary Bird. A delicate shade of primrose.

2203 Crimson Monarch. The best rich red.

2204 Exquisite. The favorite Rose Pink.

2205 Oriole. Rich Orange and Gold Shades.

2206 Polar Bear. The best White flowered.

2207 Lavender Dream. Lavender, turning to purple.

2208 Old Rose. A real old rose shade.

2210 Purple Prince. A deep rich intense purple.

2211 Golden Dawn. A beautiful shade of yellow.

2214 Scarlet Flame. Bright scarlet-orange.

2216 Illumination. Deep, rich rose.

Price any above Pkt. 10c; 1/8 oz. 35c; 1/4 oz. 50c.

2219 Color Plate Collection. Page 34.

Six 10c Pkts. for 50c.

2201 Gold Medal

Dahlia Flowered Zinnias Mixed

A very fine color assortment of the above varieties in well balanced color proportion, a mixture that will give you a beautiful array of these beautiful bright colored flowers. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

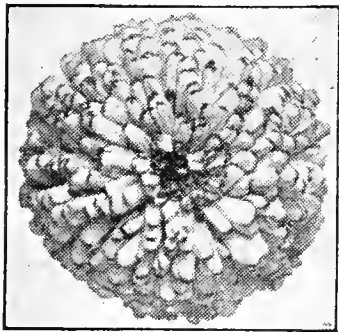

2287 Pumila Picotee Delight

This is the result of crossing Pumila Salmon Rose with Giant Picotee, presenting a very distinct and desirable type. Delight is a vigorous and floriferous Pumila type. The petals of the flowers are ruffled and curled, many have fringed petals, edged with gold tips. The color ranges through the most pleasing shades of salmon, cream, buff, yellow and lavender.

Mixed colors. Pkt. 10c; 1/8 oz. 30c.

2290 Pumila Picotee Salmon Rose. Most popular separate color of the Delight class. Rich salmon Rose. Pkt. 10c; 1/8 oz. 30c.

2296 Pumila Picotee Golden Ray. See Novelty Page 10

Pumila Picotee Delight

A Plant of California Giant Zinnias

Giant Zinnias

Old Garden Favorites and yet New Kinds Every Year

Zinnias, the historical flowers of Old Mexico, have been favorites in every garden for as long as there have been home gardens.

In our grandmother's day, Zinnias were gay and colorful but only the common type, small flowers and a few primary colors were to be had. Today, we have Zinnias of huge size, of medium size and the tiny little baby types. Through years of scientific work and intense study, our growers have developed Zinnias that are almost beyond belief in size and beauty of color.

We have classified on these two pages, the many types of Zinnias so that you may order the height and color particularly suited to the spot you wish to plant with these colorful flowers.

Zinnias Bloom from July Until Frost

Mammoth Giant or California Giant Zinnias

A newly developed type which carries the same robust habit as the Dahlia Flowered Type. When the flowers are half grown they make a very fine cut flower and when in full bloom they reach enormous size with a flatness that gives them a most graceful appearance.

2212 MISS WILMOTT. A pleasing shade of pink.

2213 ORANGE KING. Cadmium or burnt orange.

2214 SCARLET GEM. A rich glowing scarlet.

2215 CERISE QUEEN. Cerise rose.

2218 VIOLET QUEEN. Rich violet purple.

2219 GRENADIER. Bright dark red.

2250 DAFFODIL. Canary yellow.

2251 BRIGHTNESS. Bright deep rose pink.

2252 PURITY WHITE. Best white zinnia.

2253 SALMON QUEEN. Salmon rose.

Price any above. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

2241 MIXED COLORS. A fine color assortment containing all the above varieties and other shades. Pkt. 5c; 1/8 oz. 25c; 1/4 oz. 40c.

Various Large Flowered

2291 Scabiosa Flowered Zinnia

A new and very distinct type of Zinnia growing about 30 inches tall and producing an abundance of flowers in many colors. The outer petals are long and flat while all the inner petals are short tubular florets forming a crest or crown somewhat resembling the Scabiosa. Pkt. 15c; 1/8 oz. 35c.

2282 Victory Quilled This type has petals quilled like the Cactus Dahlia. The flowers are large on tall plants. **Mixed Pkt. 10c; 1/8 oz. 30c.**

2283 Picotee The petals are tipped with a contrasting color giving the flower a very pretty and unusual effect. **Mixed. Pkt. 10c; 1/8 oz. 30c.**

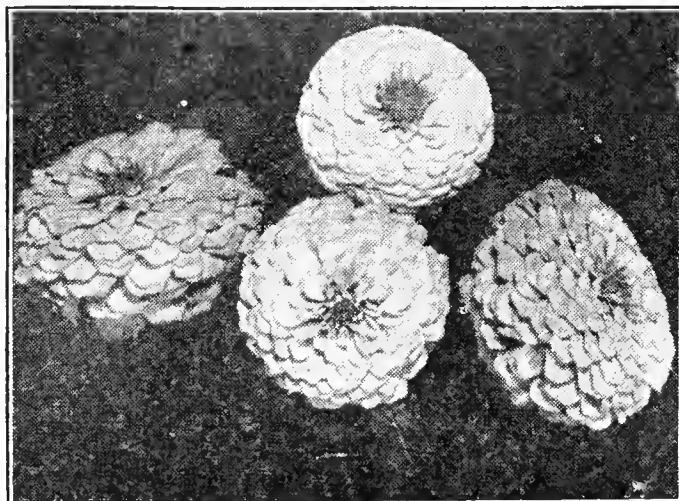

2292 Crown O'Gold Mixture

A new development in the Giant Dahlia Flowered Zinnias in which each petal of the flower is overlaid with a deep golden yellow at the base while carrying out the individual flower color at the tip. The colors include old rose, cream, yellow, carmine red, pink, etc.

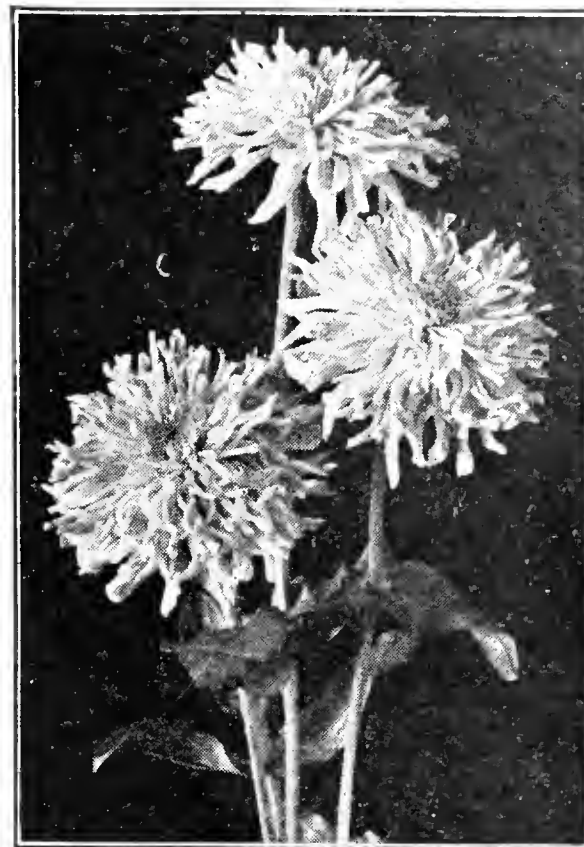

Mixed Colors: Pkt. 10c; 1/8 oz. 35c.

2221 Giant Double Zinnias Mixed

This type though not quite as large flowering as the Dahlia Zinnias still are "Giants" borne on plants 2 1/2 to 3 ft. tall. The flower is deeper than the Dahlia Flowered with petals more formally placed. They are great favorites for cutting or garden display. **Mixed Colors. Pkt. 5c; 1/4 oz. 20c; Oz. 50c.**

Giant Double Zinnias Mixed

Fantasy Mixed Zinnias—Color Page 16

Some Real Beauties

2294 Fantasy Mixed See Color page 16.

The most fascinating new type of Zinnias introduced to the flower world in many years. The very informal, shaggy appearing flowers are graceful and interesting, quite distinct from the stiff, formal Zinnias to which we are accustomed. The cuts show the type of flower. The ranges includes the brightest shades of red, yellow and orange as well as the popular pastel pinks and cream. This should be the sensation of the year. **Mixed colors. Pkt. 15c; 1/8 oz. 35c.**

2293 Desert Gold For the lover of gold colored flowers, here is a real addition to your gold garden. This Desert Gold contains all the rich yellow and golden shades of the Crown O'Gold Mixture that we have been listing in the past. Our grower has segregated all the golden flowers and we are able to give you Zinnias that will thrill you with their beauty by daylight and under artificial lighting. For flower description, see Novelty page 10. **Pkt. 10c; 1/8 oz. 40c.**

2288 Templin-Bradley's "Little Jewels"

These Little Jewel Zinnias are reproduced in natural color on the inside front cover. Did you ever see such a gay and gorgeous display of color? Truly the real flower is just as much brighter as nature is brighter than printer's ink. See Color Page 16.

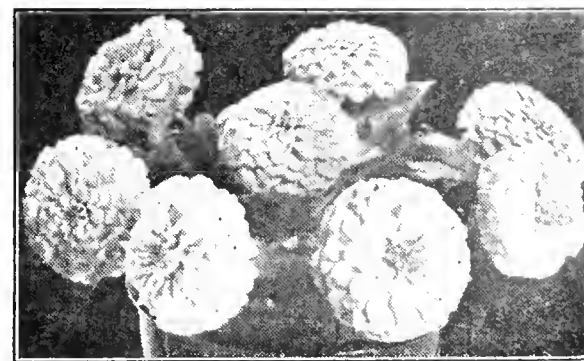

These small flowered Zinnias have a charm all their own. They lend themselves to bedding where a brilliant array of colors is needed. The stems are long enough to make the most wonderful bouquets, whether you wish just a tiny vase of flowers or a huge bowl of them. The mixture contains many combinations of colors in red, mahogany, rose, yellow, salmon and gold. **Height 18 inches. Mixed colors. Pkt. 10c.; 1/8 oz. 30c.**

ZINNIAS—Easy To Grow

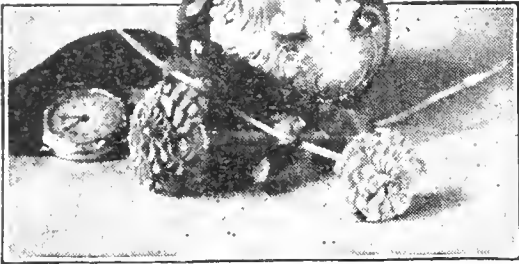

CULTURE—Zinnias can be planted in the garden where they are to grow but for early bloom they should be started inside in boxes earlier than they could be put outdoors. One or two transplantings is beneficial to them for it induces more root growth and produces a stronger plant. Zinnias will do well in nearly any soil but too rich a soil will cause more plant growth and fewer blooms.

Hood

Lilliput or Pompon

12 To 15 Inches Tall

This type has been so improved lately that gardeners everywhere are becoming more fond of it each year. The plants are quite dwarf and compact, but they bear very profusely. The flowers are small, about the diameter of a quarter, fully double and borne on good stems.

2272 Canary Gem 2273 Golden Gem
2274 Salmon Gem 2275 Scarlet Gem
2276 White Gem 2277 Crimson Gem
2278 Flesh Pink 2279 Rose Bud
Price, any of above colors. Pkt. 5c; 1/4 oz. 30c.
2280 COLLECTION. One packet each of above 8 colors for 50c.
2271 MIXED COLORS. Pkt. 5c; 1/4 oz. 30c.

Lilliput and Baby Zinnias

2286 Red Riding Hood 12 inches tall, of compact form and covered the entire season with little button-like double scarlet flowers, not over 1 inch across. Highly effective as a border plant. Brilliantly beautiful. Pkt. 10c; 1/8 oz. 30c.

2289 Early Wonder Mixed 12 to 15 inches tall. A new race of dwarf early flowering Zinnias, bearing many flowers on long stems. The stems start from the ground, have no laterals and very few leaves, making them fine for cut-flowers. The colors are shades of salmon, pink, cerise, orange, red and lavender. Plant these for your early Zinnias. Pkt. 10c; 1/8 oz. 35c.

2295 Tom Thumb or Baby Zinnias Only 4 to 6 inches tall. Cute little Zinnias that are suitable for Rock Garden, edging or for pot plant use. The plants are covered with perfect little double flowers of red, orange, yellow, pink, rose and other pastel shades. See cut at right. Pkt. 10c; 1/8 oz. 30c.

1717 Dwarf Creeping Zinnias Sanvitalia Procumbens. A low growing, trailing plant about 6 inches tall and producing a wealth of small double yellow flowers all summer. Very compact. Perfect for Rock Gardens, edgings and stone wall crevices. Pkt. 10c; 1/8 oz. 30c.

Tom Thumb or Baby Zinnias

Pumila Double Zinnias

This is the best type for bedding, growing compact plants 1 1/2 ft. tall with a multitude of good sized perfectly double flowers.

2262 Fireball, Bright red.

2263 Golden Ball, Golden Yellow.

2264 Snowball, White.

2265 Salmon Rose. A beautiful shade.

2266 Canary Yellow, Light yellow.

2267 Pinkie, Light rose pink.

Price, any of above, Pkt. 5c; 1/4 oz. 30c; oz. 55c.

2270 Collection. 1 Pkt. each, 6 Colors, 35c.

2261 Mixed Colors. Pkt. 5c; 1/4 oz. 25c. Oz. 75c; See Color Plate on Page 33.

1995 Torenia Fournieri

Grandiflora. Bushy plants about 12 inches high, bearing curious but very pretty flowers during late Summer and Fall. Fine for beds or for potting and porch boxes. This variety has blue flowers with bright yellow in the throat. Pkt. 10c; 1/8 oz. 25c.

1984 Tithonia Speciosa

Golden Flower of the Incas or Mexican Sunflower. A tall shrubby plant, useful in the border or among shrubs, bearing large bright single Zinnia like flowers of dazzling orange scarlet. Blooms over a long period. Pkt. 10c; 1/8 oz. 30c.

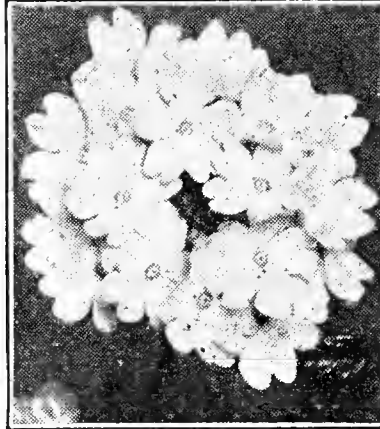

2130 Xeranthemum Everlastings See Page 20

Verbena Beauty of Oxford

2071 Verbena Hybrida Grandiflora

This Hybrida Grandiflora Mixture contains a riot of gay and lovely colors. It will make a brilliant bed and will provide cut-flowers for your house from July until frost. They are not quite as large as the Mammoth flowered but of good size and larger than the common Hybrids. Mixed Colors. Pkt. 5c; 1/8 oz. 30c.

Verbena Large White

Verbena Fireball

Verbenas Wonderful for Bouquets

Very free flowering annuals of low spreading growth, forming a carpet of bright colors when in bloom, from July to frost. For best results, seed should be started early inside and transplanted to the garden in early May.

2059 Beauty of Oxford Hybrids

A beautiful new hybrid, a cross between Verbena Luminosa and Beauty of Oxford. The individual florets are large and arranged in mammoth heads. The color shades from clear rose-pink to rose-red, with a touch of salmon-pink. Pkt. 10c; 1/8 oz. 35c.

Mammoth Flowering Giants

This is the largest flowering class of Verbenas.

2052 Luminosa Shades of flame, salmon and coral pink.

2053 Lucifer Intense deep cardinal-scarlet.

2054 Mammoth Blue Light to deep blue with white eye.

2055 Rosea Stellata Vivid rose-pink with white eye.

2056 Mammoth White Pure white and fragrant.

2057 Salmon Pink Lovely shade of salmon pink.

2058 Etna Geranium red with creamy eye. One of the prettiest. Price on above varieties. Pkt. 10c; 1/8 oz. 35c.

2060 Helen Willmott One of the finest of all Verbenas. While not quite as large flowering as the others of the Mammoth group, it comes very true to color in bright deep pink. The growth is more compact, less spreading, so it is beautiful as a border. Pkt. 10c; 1/8 oz. 35c.

2051 Mammoth Giants Mixed A n excellent mixture of Giant Verbenas, of all colors listed above and other distinctive colors. Pkt. 5c; 1/8 oz. 30c. See Color Page 33.

Various Verbenas

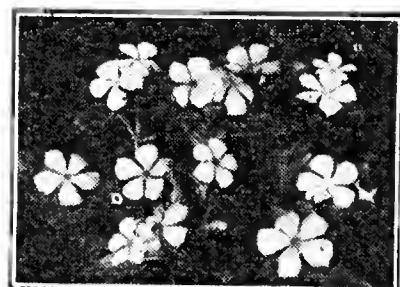

2065 Erecta, Royal Bouquet A new strain of Verbenas of robust compact habit and free blooming. Plants rather upright, 15 to 18 inches tall. Flowers in mixed colors. Can be used for cutting as well as for bedding display. Pkt. 10c; 1/8 oz. 30c.

2061 Verbena Venosa A splendid bedding type, plants quite erect, one foot high. It is a luxuriant grower and the plants are well covered with bright flowers of purple and heliotrope. Very effective used with Alyssum as a ground cover and back-ground for the Verbenas. Pkt. 5c; 1/8 oz. 30c.

2062 CITRIODORA. ALYOSIA Lemon Verbena. A favorite in old fashioned gardens. Has fragrant lemon scented foliage. A tender plant which may be grown in the outdoor summer garden and then potted for indoor garden in the winter. Pkt. 10c; 1/8 oz. 50c.

2063 ERINOIDES LILAC. Moss Verbena. Spreading bushy plants with pretty finely cut foliage, bearing flowers of purplish-rose or deep lilac. Pkt. 5c; 1/8 oz. 25c.

2081 Vinca, Periwinkle

Vinca

One of the finest border plants imaginable. Grows 1 1/2 feet tall, compact and bushy with dark shiny foliage, making an effective back-ground for flowers. White, pink and with crimson eye. Pkt. 5c; 1/4 oz. 30c.

Dwarf Compact Verbenas Hybrida Compacta Erecta

This new class of Verbenas is entirely distinct from the older forms. The plants are bushy and compact as the illustration of Fireball shows. They are wonderful for borders or bedding. Height 6 to 8 inches.

2066 Cameo Pink Attractive flowers of clear flesh-pink.

2067 Crown Prince Deep garnet with white eyes.

2073 Dark Blue Rich deep blue. Lovely shade of blue.

2064 Fireball Scarlet, as bright as a ball of fire.

2072 Ruby Beautiful ruby-red. A valuable color for display and bouquets.

2068 Violet Bouquet Rich violet, tinged purple.

2069 Mixed Colors Made of the above choice varieties.

Price of any above colors or mixed. Pkt. 10c; 1/8 oz. 30c.

2070 Verbena "Eyeful"

On Color Page 16 and Novelty Page 9.

Venidiums

2046 Fastuosum A gorgeous Daisy of brilliant orange from Africa. Plants 3 feet high, flowers 3 to 4 inches across. 90 days from seed. These orange flowers with purple-black center make a striking display. Pkt. 15c. 1/8 oz. 30c.

Canary Bird Flower

Beautiful Climbing Vines

Annual Varieties Nothing adds more to the attractiveness of the home grounds than a well chosen selection of Climbing Vines. They grow rapidly and are indispensable for covering arbors, old fences and for hiding unsightly buildings.

2367 Balsam Apple, Momordica

Growing quickly to a height of about 10 ft., this vine bears ornamental fruits of golden yellow, resembling an apple. When the fruit is ripe it opens revealing a bright red interior. Pkt. 10c; 1/4 oz. 20c.

2366 Balloon Vine, Love-in-a-Puff

A rapid growing climbing vine, having pretty, light green foliage, with inconspicuous flowers. The seedpods are like miniature balloons. Vines grow 8 to 10 ft. high. Pkt. 5c; 1/4 oz. 15c.

2447 Black Eyed Susan *Thunbergia*. A delightful slender growing vine from Africa. Can be easily trailed to a trellis and is very attractive when grown in this way. Unusually good as a trailing vine for hanging baskets, vases, porch boxes, or rockeries. Large single flowers in white, yellow and orange with distinct black eye. Blooms from July to October. Pkt. 5c; 1/4 oz. 25c.

2372 Canary Bird Vine A pretty and rapid growing climbing vine. The charming little canary yellow flowers remind you of a canary bird with wings half extended. Very useful on trellises or as a screen to cover old fences or other unsightly objects. Flowers appear in sprays early and continuously during the season. Pkt. 5c; 1/2 oz. 15c.

2373 Cardinal Climber A very showy, distinct and valuable rapid climber with dark green, fern-like, deeply lacinated foliage and clusters of fiery cardinal-red flowers 1 1/2 inches in diameter. The vines grow 10 to 20 feet and bloom all season long. Very ornamental. Pkt. 10c; 1/4 oz. 25c.

2378 Cobea Scandens *Cup and Saucer Vine*. This rapid growing vine is very attractive and useful. Although not an annual it should be treated as such in the North. The vine grows to a height of 15 to 20 feet, flowers large and bell shaped, color ranging from pink to purple, blooms followed by plum-shaped fruits. Best started early indoors. Pkt. 10c; 1/4 oz. 25c.

2380 Cypress Vine One of the daintiest of vines having fern-like foliage and pretty star-like flowers, scarlet and white mixed. Very desirable for covering small ornamental trellises. Also a good climber to grow in pots during winter. Grows 15 to 20 feet. Pkt. 5c; 1/4 oz. 20c.

2442 Smilax One of the prettiest of all vines for baskets, porch boxes, or conservatory where its graceful twining glossy green foliage is unsurpassed. Also much used for cutting as it lasts several days when used for bouquet trimming. Vine grows about 6 ft. Pkt. 10c; 1/4 oz. 25c.

2376 Climbing Mixture You surely get your money's worth in this package as it contains a general mixture of most of the varieties of Annual Vines that we list. Pkt. 10c; 1/4 oz. 25c.

2399 Hyacinth Bean, Dolichos

Of extra rapid growth, making a dense and attractive screen, flowering freely in racemes or upright spikes not unlike Hyacinths. Pkt. 5c; oz. 25c.

2395 Ipomea Heavenly Blue

A trellis, arbor, or doorway covered with this vine is one of the most beautiful sights imaginable. Bright sky blue flowers, almost as big as saucers, are freely borne on the rapidly climbing vines. The vine is late flowering and the seed should be started in pots indoors. Pkt. 10c; 1/4 oz. 35c.

2405 Ipomea Double Rose Marie

A beautiful new addition to the annual climbing vines. This new Ipomea is vigorous and rapid growing, producing beautiful double flowers of a delightful shade of deep rose. Rose Marie is early and free flowering and promises to become extremely popular. Pkt. 10c; 1/8 oz. 30c.

2397 Japanese Hop Vine *Humulus*. A beautiful rapid climbing vine for verandas, arbors, or screens. Foliage mottled green and yellow. Once planted the seed will come up each spring. Pkt. 10c; 1/4 oz. 25c.

2416 Maurandia Vine A beautiful slender growing climber, which blooms first season from seed started early. In the South it is hardy but in the North, use as an annual or take up and transfer to the house, where it will be very pretty. A fine variety for window boxes or hanging baskets. The foliage is pretty and the flowers tube shaped in mixed colors, purple, blue, white, rose. Pkt. 10c.

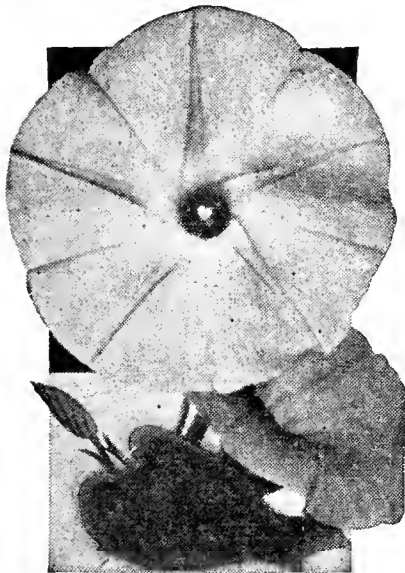

2418 Mina Lobata A very pretty climber or luxuriant growth. Foliage is rich green, leaves heart shaped, large and deeply lobed. Flowers are borne in sprays and are rich scarlet when in bud turning to an orange color as they mature. A rapid grower quickly covering a trellis. Pkt. 10c; 1/8 oz. 35c.

2419 Moonflower Large dense foliage and rapid grower, climbing 20 to 30 feet. Immense pure white flowers often 5 to 6 inches in diameter, open in the evening and on cloudy days. A very rapid covering can be obtained with the Moonflower. Pkt. 10c; 1/4 oz. 20c.

2392 Ornamental Gourds Very novel and interesting annual climber with ornamental foliage, and singular fruits of many shapes and colors that are attractive for decorations. When ripe, shells can be hollowed out and dried, and are useful. Many varieties mixed. Pkt. 10c; oz. 20c.

2368 Scarlet Runner Bean

This ornamental grows 8 to 10 ft. high, and bears sprays of bright red pea-like flowers, which are followed by pods of edible beans. Beans when ripe are dark red blotched with purple. Pkt. 5c; oz. 15c.

Ipomea, Heavenly Blue

Four Excellent Morning Glories

2421 Common Tall Very easily grown and should be included in every garden. They climb rapidly, bloom freely all summer and will thrive in nearly any location. Make an excellent screen on a trellis or fence. A mixture of many colors. Pkt. 5c; oz. 20c.

2422 Imperial Japanese Without doubt the handsomest of all Morning Glories. They quickly cover a large area, and bloom profusely. Foliage very desirable and interesting on account of its varied forms and good color. Blooms immense and in many colors from white to dark purple, solid colors, striped, flaked and spotted. Pkt. 5c; oz. 25c.

2423 New Giant This is a recent introduction from Japan, with immense flowers in a splendid variety of bright colors. Flowers are twice the size of the common morning glories. Pkt. 10c; 1/4 oz. 20; oz. 50c.

2424 Rochester Blue A very pretty quick growing variety with beautiful flowers 4 to 5 inches across, deep violet blue in the throat blending to an azure blue and margined with a broad white band at the edges. One of the prettiest varieties. Pkt. 10c; 1/4 oz. 20c.

2426 Morning Glory Collection 1 pkt. each of the above 4 varieties for 25c.

See Ipomea Heavenly Blue in Color, Page 15.

These Hardy Vines Can Be Grown From Seed

2362 Allegheny Vine

Mountain Fringe Adlumia. A very graceful climber with fine feathery foliage like Maiden Hair Fern. The plant is really a biennial but re-seeds itself. It likes a shaded sheltered situation, and moist soil. The flowers are numerous, in form like the Bleeding Heart and in colors—white and purple. About 15 ft. high. Pkt. 10c; 1/8 oz. 30c.

2364 Ampelopsis Veitchii

Boston Ivy. The best vine to grow on stone or brick walls, because it adheres to the surface so closely. During the summer the leaves are rich green and form a dense mat overlapping themselves. After fall frosts the leaves change to bright tints of scarlets, orange and yellow. Pkt. 10c; 1/4 oz. 20c.

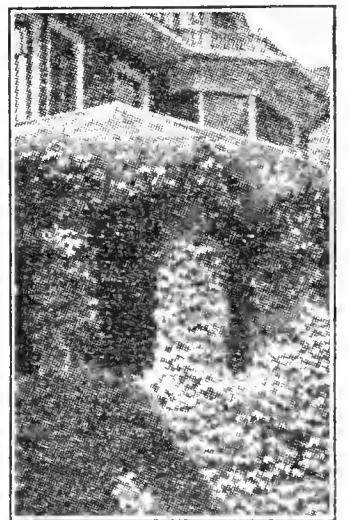

2413 Kenilworth Ivy *Linarla Cymbalaria*. A trailing vine, free flowering and very nice for baskets, window boxes or rockeries. The flowers are borne throughout the summer and are of dainty lavender and purple. Vines 3 to 6 ft. Pkt. 5c; 1/8 oz. 30c.

2410 Japanese Kudzu Vine

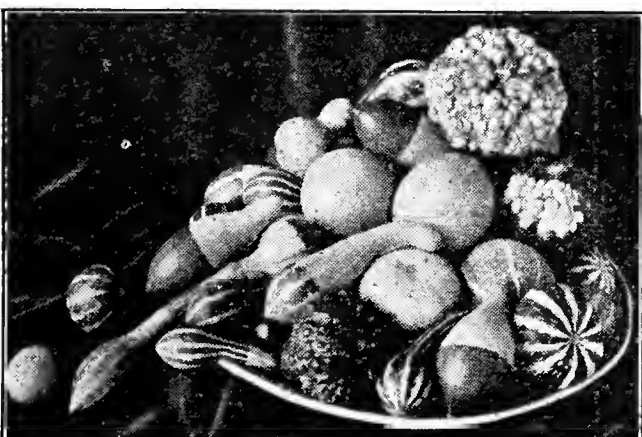

Pueraria, "Jack-and-the-Bean-Stalk." The fastest growing hardy climbing vine in existence. Often growing 8 to 10 ft. the first year from seed and later sometimes as much as 50 ft. in a single season. Perfectly hardy everywhere. The foliage is dense, making good shade. The flowers are in small racemes of rosy purple, borne in August. Pkt. 10c, 1/4 oz. 20c.

2498 Collection Hardy Vines

1 pkt. each 1 varieties 25c.

Ampelopsis Veitchii Boston Ivy

Ornamental Gourds Make Gay Decorations They are very popular right now.

Choice Varieties of Hardy Vine Roots Are Listed on Page 68

See Ipomea "Heavenly Blue" in Color on Page 15.

Annual Flower Chart

The greatest degree of success with flowers is acquired by knowing the likes and dislikes, the natural habits and the best treatment of each individual variety. We hope this chart will help you to this knowledge.

(D) 1605 Crimson. Any Pkt. 10c. See page 26.

LARGE FLOWERING
FRINGED OR RUFFLED PETUNIAS

1582 Theodora Rose. Pkt. 20c. See page 26.
A splendid variety for bedding or porch boxes.

A Mighty Fine Lawn established by the use of Templin-Bradley's Seed. You can have such a lawn if you prepare the soil well and use Templin-Bradley's Lawn Mixtures; correctly blended by experts and conveniently packed for you. For more lawn seed information and complete prices see page 78.

Watch-Em-Grow Plant Food Grows Healthy Plants

Watch-em-Grow is Easy to Use. Watch-em-Grow is a clean, odorless powder that readily dissolves in water. It can be easily applied to plants just as you would water them. Complete instructions are printed on each can, both for house plants and for all other uses.

4300 Big 8-Ounce Can for only 50c.

Templin-Bradley's Best New Sweet Peas

No garden is complete without some of these beautiful Sweet Peas that are so fine as cut flowers, especially these seven marvelous colors, most of them new varieties. Not only will they add much color and interest to your garden but they will also supply cut flowers for a surprising number of beautiful bouquet arrangements throughout the summer.

The seven varieties in color are:

1. Red Boy. Glowing Crimson.
2. Powerscourt. Lavender.
3. Model. Pure White.
4. Rosabelle. Rose Pink.
5. Smiles. Glistening Salmon.
6. Magnet. Delicate cream pink.
7. Campfire. Vivid Scarlet.

Any one of above 10c per packet. Collection No. 1856. One packet each of all seven for only 50c.

Other Sweet Peas

In separate colors and fine mixtures are offered on Page 27.

The First Step to a Successful Garden is the Selection of Good Seed

Dahlia Flowered Zinnias

The largest and most gorgeous of all Zinnias are included in the Dahlia Flowered Type. Six of the most popular and distinct colors we picture in color here.

1. Canary Bird, Bright yellow.
2. Lavender Dream, Lavender and purple.
3. Polar Bear, best white variety.
4. Oriole, rich orange and gold.
5. Exquisite, most popular rose pink.
6. Crimson Monarch, best deep red.

Prices: Any of the above varieties Pkt. 10c; 1/8 oz. 35c.

Collection No. 2219. One pkt. each of the above 6 color plate Dahlia Zinnias, regular value 60c; for 50c; postpaid.

2201 Gold Medal Dahlia Zinnias Mixed. An extra fine mixture of the above and many other shades. Pkt. 10c; 1/8 oz. 30c.

Quality Zinnia Seed

We are offering you the finest Zinnia seed obtainable. Seed carefully grown so that it will produce beautiful, true to type blooms. See page 29.

This Catalog Contains Hundreds of Good Varieties of Seeds, plenty at 5c per pkt.

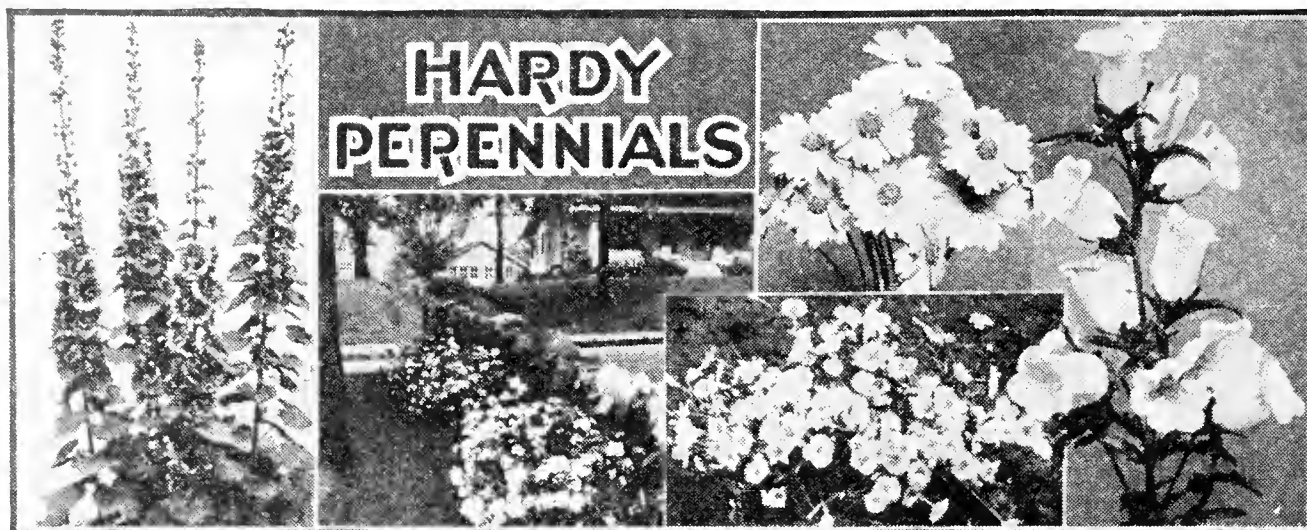

Perennial Flower Chart

Because of the increased interest in perennial plantings we have compiled this chart in the hope that it will be of help to you in making better plantings of this valuable class of flowers.

Hesperis

Hardy Pinks

Corcopsis (above) Campanula

The term Hardy Perennial is used to distinguish that class of plants whose life cycle is not completed within one or two years, but grow year after year, increasing in beauty and size and are hardy enough to withstand the severe weather of the winters.

Great Horticulturists and Plant Breeders in many parts of the world have spent their lives developing and improving many varieties of these lovely flowers. Not until our trial grounds have proven that we are giving you something that will benefit your garden, do we offer you a new variety or strain. The Perennial Seeds we offer to you on the following pages will please you and will make your garden a thing of beauty for many years.

Perennials from Seeds (See Roots on pages 71-75)

The simplest and most commonly used method of growing Perennial plants is by making a small seed bed right in the corner of your garden.

Early in May, select a rich light soil, raise the bed above the surrounding ground by slightly trenching

around it, thus insuring drainage.

Work the soil fine, sow the seed in rows 2 inches apart, cover lightly. Shade the soil by covering the bed with paper or burlap, remove it when plants appear. Never let the bed become dry.

When plants have three leaves, transplant to three inches apart. Let them grow again until large enough to place in their future homes in the garden. Try a few Perennials each year and eventually have a lovely Perennial Garden.

The letters R. G. after the name means the variety is especially fine for Rock Gardens.

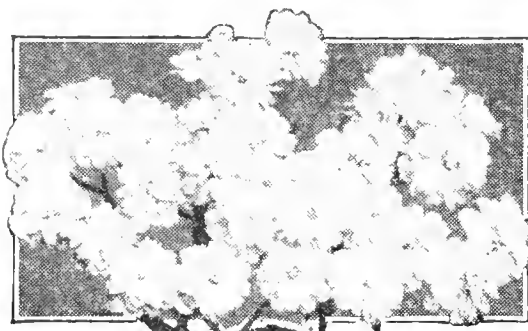

Achillea, Milfoil

2505 THE PEARL. Ptarmica Double. If sown early Achillea will bloom the first season. When established it gives you quantities of fully double pure white flowers like little snowballs, all season from spring until fall. Fine for cutting. 2 ft. Pkt. 10c; $\frac{1}{8}$ oz. 30c.

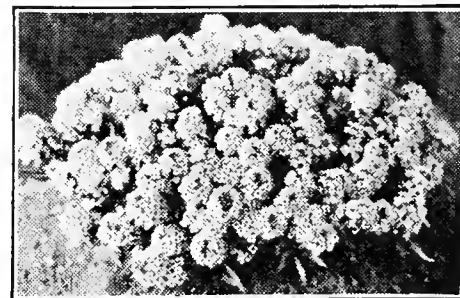

2506 AGERATUM YELLOW. R. G. Yellow, sweet scented flowers and Ageratum-like leaves. 1 $\frac{1}{2}$ to 2 ft. Pkt. 10c; $\frac{1}{8}$ oz. 30c.

2507 MILLEFOLIUM ROSEA. Rosy red flowers in dense heads and finely cut, deep green foliage. Does well even in adverse conditions, blooming fully in June and to some extent for balance of Summer. 1 $\frac{1}{2}$ to 2 ft. Pkt. 10c; $\frac{1}{8}$ oz. 35c.

2508 TOMENTOSA YELLOW. R. G. A dwarf variety growing 6 to 8 inches tall, with mats of fern-like foliage and umbels of golden yellow. Bloom July to September. Pkt. 15c; $\frac{1}{8}$ oz. 50c.

Achillea

Alyssum Saxatile

Aconitum, Monkshood

Carry tall spikes of hooded flowers, valuable for cutting and garden display. Thrive best in rich moist soil in partial shade. The seed is slow to germinate.

2510 NAPELLUS DARK BLUE. Flowers of rich deep blue produced July and August. 4 to 5 ft. Pkt. 10c; $\frac{1}{8}$ oz. 30c.

2512 WILSONI. Producing its violet-blue flower in September. Strong grower and very hardy. 5 to 6 ft. Pkt. 15c; $\frac{1}{8}$ oz. 45c.

2516 Adonis Vernalis

These bright yellow flowers like large Buttercups are out in April and May. The plants grow 15 to 18 inches tall, and carry attractive fern-like foliage. After blooming the plants die down to the ground. Best to sow seed in summer or early fall. Pkt. 10c; $\frac{1}{8}$ oz. 30c.

Agrostemma

Agrostemma, Mullein Pink

2521 CORONARIA, ROSE OF HEAVEN, Atrosanguinea. R. G. Has brilliant blood red flowers like small single pinks, open from June to August. Early sown seed will bloom the first year. A fine cutting flower, and a clump in the border is very showy. 2 ft. Pkt. 5c; $\frac{1}{4}$ oz. 20c.

Anchusa, Bugloss

2533 ITALICA GRANDIFLORA. Dropmore. Lovely deep blue flowers which are trumpet shaped and borne freely from May until mid July. You can plant in partial shade. 3 to 4 ft. Pkt. 5c; $\frac{1}{4}$ oz. 25c.

Anemone, Windflower

2541 CORONARIA, ST. BRIGID. R. G. The Anemones are among the prettiest of perennials and the St. Brigid strain with large, double and semi-double flowers, with their wide color range are called the best of all. The flowers are 1 to 1 $\frac{1}{2}$ inches across. Flowering in May and June. 1 ft. Pkt. 10c; $\frac{1}{8}$ oz. 30c.

Aubretia Deltoides

The Aubretias are beautiful low growing spring flowering plants, very valuable in rock gardens or as edgings and borders. Transplant in fall where they are to bloom the following spring.

2607 LILAC BLUE. R. G. Charming lilac-blue or lavender blooms on dwarf compact plants. Blooms freely during April and May. 6 inches. Pkt. 15c.

2606 LARGE FLOWERED HYBRIDS. R. G. Plants 6 inches tall producing a wide range of colors. Pkt. 10c; $\frac{1}{8}$ oz. 10c.

Aconitum Napellus

Hardy Alyssum

2528 SAXATILE COMPACTUM. Basket of Gold. R. G. Well named as the plants are masses of golden yellow flowers in May. Plant and flowers quite similar to annual Alyssum. A fine border plant. 9 to 12 in. tall. Pkt. 5c; $\frac{1}{4}$ oz. 30c.

2529 ARGENTEUM. R. G. Pretty yellow flowers and silvery foliage. An excellent rock garden variety of dense growth and blooming all summer. June to August. 12 to 15 in. tall. Pkt. 10c; $\frac{1}{8}$ oz. 50c.

2530 SERPYLLIFOLIUM. R. G. A most desirable variety for the rock garden. Producing tiny plants only a few inches high with silver gray foliage and bright yellow flowers. One of the earliest blooming. Pkt. 15c; $\frac{1}{8}$ oz. 50c.

2531 ROCK GARDEN SPECIES MIXED. R. G. A mixture of the rarer dwarf varieties such as Montanum, Rostratum, Corymbosum, etc. Bloom from April to August. Pkt. 10c.

Anthemis, Golden Marguerite

2548 KELWAYI. Bright golden yellow, daisy-like flowers on long stems with finely cut foliage. Blooms June to September. 2 ft. Pkt. 10c; $\frac{1}{4}$ oz. 25c.

2549 MONTANA. White flowers, very fine blooming, nice for massing in the border. Blooms all summer, one foot high. Pkt. 10c.

Arabis, Rock Cress

2581 ALPINA. R. G. These flowers will greet you in April and May, a sheet of pure white fragrant flowers over low carpet-like plants. A fine flower for edging or for covering bare spaces as it will grow in any sunny place. 6 in. tall. Pkt. 10c; $\frac{1}{4}$ oz. 25c.

2582 ROSEA. R. G. A lovely variety of Arabis only an inch or two taller than Alpina with flowers of vivid rose. Pkt. 20c.

2586 Arenaria, Sandwort

Montana. A very desirable trailing sort of nearly evergreen foliage forming a dense carpet of green foliage covered with large white flowers in Spring. A fine subject for the rock garden. Pkt. 10c.

Armeria, Sea Thrift

2591 FORMOSA. Attractive dwarf plants that will succeed in most any soil, forming evergreen tufts of bright green foliage. Many rose-pink flowers appear in June and July. 24 in. tall. Pkt. 10c; $\frac{1}{4}$ oz. 30c.

2592 MARITIMA SPLENDENS. R. G. A dwarf variety growing 6 inches high and producing beautiful bright rose flowers in May and June. Pkt. 15c.

2593 LAUCHEANA, DWARF THRIFT. R. G. Best of the Armerias for Rock Gardens. Grows only 6 inches high with heads of Rosy crimson flowers in July and August. Pkt. 15c.

2594 MAURITANICA. A new strain of Armeria in clear pink. Flowers measure 2 to 3 inches across on stems 18 to 24 inches tall. Heaviest bloom in June and July, later blooms also. Pkt. 15c.

2601 Asperula, Sweet Woodruff Odorata. An herb, the leaves used for making beverages, or when dried to lay among linens. Nice for carpeting shady places, growing 6 to 8 inches high. From May to July the plants bear heads of sweet scented snowy-white flowers. Pkt. 10c; $\frac{1}{4}$ oz. 30c.

Aquilegias or Columbines

You are all familiar with these graceful beauties which bloom in spring and early summer. They are excellent for cutting or massing in clumps in the border. Will succeed in partial shade. 2½ to 3 ft.

2556 Templin-Bradley's Long Spurred Hybrids

See Cut at Right. A selection of the finest long spurred Columbines including the famous strain known as Mrs. Scott Elliotts, which has received many awards wherever exhibited. Many rare and pleasing color shades and combinations. Pkt. 15c; ½ oz. 25c; ¼ oz. 45c.

2565 DOBBIE'S IMPERIAL HYBRIDS. A very fine strain of English origin, sure to charm you with the excellence of the color assortment, of the long spurred beauties. Pkt. 15c; ½ oz. 45c.

2564 Crimson Star A new long-spurred variety having deep blood-crimson sepals and spurs and white petals, a very delightful and attractive color effect. Plants are erect and vigorous, 2½ feet tall and very free flowering. Pkt. 20c.

Long Spurred Hybrids

Separate Colors

2557 BLUE SHADES. Very beautiful.

2558 ORANGE and SCARLET. Brilliant.

2559 PINK SHADES. Very delicate.

2560 ROSE QUEEN. Rich darker pink.

2561 SNOW QUEEN. Very fine pure white.

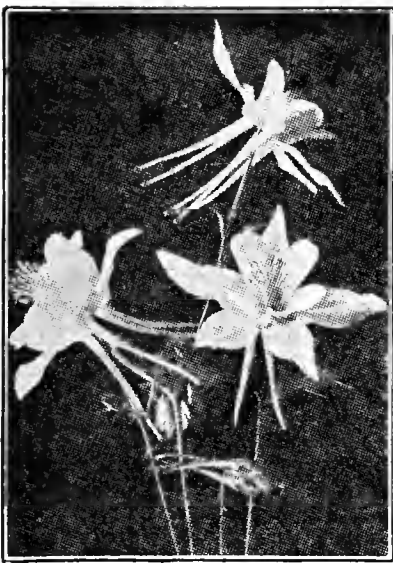

Price any above Pkt. 15c; ½ oz. 60c.

Rock Garden Varieties

2569 AQUILEGIA ALPINA BLUE. R. G. A dwarf variety of much value and charm. Plants grow from 12 to 18 inches tall quite compact and branching. Flowers of beautiful clear blue, are freely produced and are unusually fine for cutting. Pkt. 10c; ½ oz. 30c.

2570 AQUILEGIA COMPACTA ERECTA EDELWEISS. R. G. Beautiful snow-white blooms borne in profusion on neat compact plants. An excellent variety both for the garden and for use as a cut flower variety. Pkt. 15c; ½ oz. 40c.

2573 FLABELLATA NANA, Dwarf White. R. G. A very early flowering variety, growing one foot high. Pure white flowers. Pkt. 25c.

Dobbie's Imperial Hybrids

2555 COERULEA. The Rocky Mountain Columbine. The beautiful long blue spurred Columbine native of our Western States. Pkt. 5c; ½ oz. 25c.

2566 CHRYSANTHA YELLOW. Large canary yellow flowers with long spurs. Blooms from May to August. 3 to 4 ft. Pkt. 15c; ½ oz. 25c.

2567 RED SPURRED (Jaetschul). A lovely large flowered yellow with most attractive Peach Red long spurs, an extra good new variety. Pkt. 10c; ½ oz. 40c.

2571 FINE MIXED. A lovely mixture of all colors single and double short spurred varieties. Pkt. 5c; ¼ oz. 25c.

Asclepias

2596 Butterfly Weed *Tuberosa*. A native plant bearing during July and August very showy umbels of bright orange flowers. Flowers are followed by long curious pods containing white feathery seeds. The opened seed pods may be dried for winter decorations. Easy to grow, but start where plants are to stand as plants have long tap roots and dislike moving. 2 to 2½ ft. Pkt. 15c; ½ oz. 40c.

Asphodeline, Jacob's Rod

2600 LUTEA. Stately plants 3 to 4 feet tall, with beautiful foliage, producing large spikes of golden yellow fragrant flowers in June and July. A very striking and attractive plant for the perennial border. Pkt. 10c; ½ oz. 30c.

Hardy Asters

Michaelmas
Daisy

2602 Warburg Star, Subcoeruleus. A spring flowering aster of bright lavender-blue with yellow centers. Plants 2 to 2½ feet high, flowers 3 to 3½ inches across. Blooms May and June. Pkt. 15c.

2605 SUBCOERULEUS BLUE, R. G. A distinct variety bearing daisy-like azure blue flowers with golden centers. Flowers often 2½ to 3 inches across on long slender stems well above the foliage. Blooms during June and July, 15 inches. Pkt. 10c; ½ oz. 25c.

2603 LARGE FLOWERED MIXED. The hardy Asters are among the best of the late summer and fall flowering plants. They do much to lighten up the perennial and shrub borders, with their graceful masses of bright flowers. Excellent for cutting. Pkt. 10c; ½ oz. 30c.

2604 ALPINUS MIXED. R. G. Excellent species for rock gardens, growing 12 to 15 inches high and bearing light airy flowers of rose, lavender, and blue shades. Contains many of the early May and June flowering varieties. Pkt. 15c; ½ oz. 30c.

2613 Baptisia, Wild Indigo

Australls. This is a good blue flower for June and July. The plants reach up 2 to 3 ft. high, carrying racemes of pretty pea-shaped indigo blue flowers. Pkt. 10c; ½ oz. 30c.

2626 Bocconia, Plume Poppy

Cordata Japonica. Great handsome plants 5 to 8 ft. tall with attractive foliage and large plumes of small pinkish-white flowers. A mass of color in July. Fine as a background. Pkt. 10c; ¼ oz. 20c.

Hardy Candytuft, Iberis

2701 Sempervirens R. G. One of the prettiest of the hardy low border plants. In April and May the low compact plants are covered with white flowers, resembling the annual Candytuft. Excellent for rock garden, naturalizing, or as a border to taller plants. It does well in sun or shade and on practically all soils. The foliage is evergreen. 8 inches tall. Pkt. 10c; ½ oz. 35c.

Hardy Aster

Bellis, Monstrosa

Bocconia, Plume Poppy

2702 Gibraltarica R. G. A lilac white flowering variety, blooming in April and May. 10 to 12 inches high. Pkt. 10c; ½ oz. 25c.

2731 Cerastium Snow in Summer

Tomentosum. The foliage is a pretty silvery white; the stems rather creeping, loaded with small single snow-white flowers in May and early June. Ideal for a ground cover. 4 to 6 in. tall. Pkt. 10c; ½ oz. 35c.

sired for cutting ¼ oz. 30c.

Cheiranthus

See Wallflower, page 43

Crucianella, Crosswort

2764 STYLOSA. R. G. Trailing plant producing masses of elegant bright green foliage, making an unusually fine rock garden subject. Flowers are rosy-red and produced in clustered heads above the rich foliage. Blooms June to September. Pkt. 10c; ¼ oz. 25c.

Aquilegia, Long Spurred Hybrids

Bellis, Double English Daisy

The double, ball-shaped flowers of white, pink, rose and red show their faces in spring—April to early June. Perhaps the most popular for low edgings in cool shady spots. For best results raise new plants from seed each year. Good rock garden subjects.

2617 MONSTROSA DOUBLE MIXED. Large flowered strain, All shades. Pkt. 10c; ½ oz. 40c.

Boltonia, False Camomile

The *Boltonias* grow 6 to 8 feet tall and are a showy perennial, excellent for a tall border or for a background planting. They bear great quantities of star or daisy-like flowers in August and September. Easy to grow.

2632 LATUSQUAMA. Lavender-pink. Pkt. 10c; ½ oz. 20c.

2634 Calamintha

Alpina. R. G. A splendid dwarf rock plant about 6 inches high with small blue flowers in June, and spreading tufts of foliage. Equally good for the front of the border. 6 in. tall. Pkt. 15c.

Callirhoe, Poppy-Mallow

2635 INVOLUCRATA. R. G. A trailing perennial with bright attractive foliage and bearing saucer-shaped rosy crimson flowers almost all summer and fall. Very useful in the rockery where it enjoys creeping about among the rocks. Pkt. 15c.

Hardy Centaureas

The hardy *Centaureas* are showy perennials with large thistle-like flowers on stems 2½ ft. tall. They are easy to grow and are not particular as to soil.

2715 MONTANA BLUE. Large flat flowers 2 inches in diameter, called Perennial Cornflower or Blue Bottle. June to September. 2 ft. Pkt. 10c; ¼ oz. 30c.

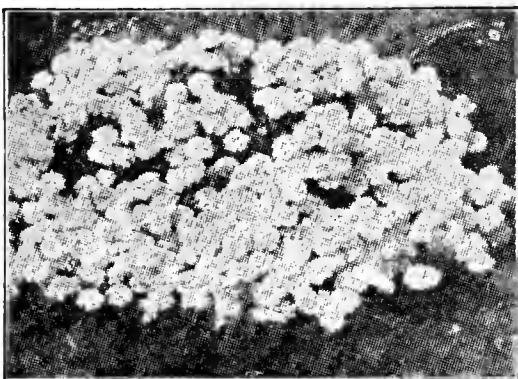

2719 MACROCEPHALA. Has very large, globular, bright yellow flowers often 3 or more inches in diameter. One of the most showy *Centaureas*, in bloom during July and August. 4 ft. Pkt. 10c; ¼ oz. 35c.

2720 DEALBATA Persian Centaurea. Bears striking rose pink flowers. July to September. Graceful silvery foliage. 1½-2 ft. Pkt. 10c; ½ oz. 30c.

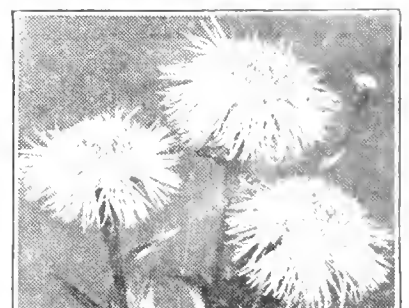

Chelone Turtlehead Shellflower

2736 BARBATUS TORREYI. This variety has slender, tube-like, deep scarlet red flowers on graceful branching stems. Foliage rich dark green and very attractive. July and August. 2 feet. Pkt. 10c; ¼ oz. 25c.

2737 HYBRIDA PRAECOX. An early flowering variety which produces large flowers in great profusion and in a great variety of rich color shades of pink, rose and red. The flowers are greatly desired because of their beauty and gracefulness. 3 to 3½ ft. Pkt. 10c;

Hardy Candytuft

Hardy Centaurea Montana

Popular Campanulas

There are few groups of plants which possess such beauty as do the Campanulas. Some are perennials, other biennials. They like sunny situations and the seed may be sown any time from spring until August. Sow seed of the biennials each season. To prolong blooming season, cut off flowers as they fade. Give protection over winter.

Canterbury Bells

Campanula Medium

Very showy plants growing 2 to 3 ft. high and bearing quantities of large bell shaped flowers, popularly known as "Canterbury Bells."

2637 Dark Blue **2639 Pink**
Price either color: Pkt. 5c; ¼ oz. 25c.

2636 Medium Single Mixed. Pkt. 5c;
¼ oz. 25c.

2641 Medium Double Mixed. Pkt. 10c;
¼ oz. 30c.

2660 TEMPLIN-BRADLEY'S PRIZE MIXTURE. A splendid mixture of Medium and Calycanthema, both singles and doubles in all available shades. Pkt. 10c; ¼ oz. 25c.

Cup and Saucer

Campanula Calycanthema

The flowers are tubular bell-shaped with a saucer-like petal fringed at the base, giving the appearance of a cup and saucer. They bloom in June and early July on plants 2½ ft. tall. Biennials blooming the second year from seed sown in June.

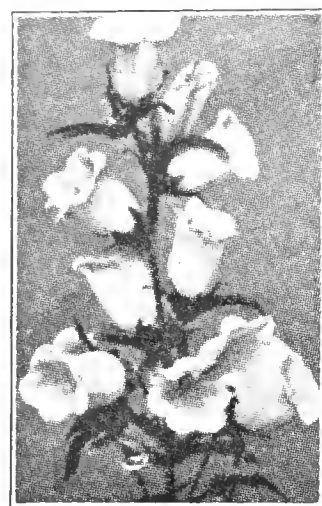

2652 Dark Blue **2654 Pink**
Price either color: Pkt. 10c; ¼ oz. 30c.

2651 Campanula Calycanthema Mixed.
Pkt. 10c; ¼ oz. 25c; ¼ oz. 35c.

Campanula Rotundifolia Olympica

Campanula Carpatica, Harebells

Campanula Medium

Campanula Persicifolia, Peach Bells

One of the finest Campanulas with large handsome bell-shaped flowers of blue or white. A delightful addition to the garden. 2 ft. June and July.

2666 Campanula Persicifolia Mixed. Pkt. 15c;
¼ oz. 50c.

Hardy Carnations

Every garden should have room for some of these fragrant beauties which rival in charm, the greenhouse sorts. They like some protection over winter if left in the open, or winter them in the cold frames. You may also pot them for indoor bloom.

2708 CHABAUDS. Produces large double and semi-double flowers on stems 16 to 20 inches long and in a great variety of colors. A tender Perennial which for outdoor growing in northern states, must be treated as an annual. An excellent greenhouse strain. Pkt. 10c; ¼ oz. 35c.

2709 EARLIEST DWARF VIENNA. An early strain of dwarf growth, 12 to 15 inches high. The color range is magnificent, including the lightest pink, yellows, rich reds and purples. Flowers are large and a great proportion double. Pkt. 10c; ¼ oz. 35c.

Carnation, Chabauds

A valuable class of Carnations blooming the first year from seed sown early. Large double flowers, with good stems and rich colors. Grow 18 to 20 inches tall.

Carnation Grenadin

A new variety of soft yellow shade. It produces a large percentage of full size, perfectly double flowers. Pkt. 15c; ¼ oz. 40c.

2711 WHITE GOLD.

A new variety of soft yellow shade. It produces a large percentage of full size, perfectly double flowers. Pkt. 15c; ¼ oz. 40c.

Grenadin in Separate Colors

2703 HARDY ROSE-PINK SHADES

2705 SCARLET

2710 GRENADIN MIXED COLORS

Price on any above; Pkt. 10c; ¼ oz. 35c.

2704 HARDY YELLOW. Pkt. 15c; ¼ oz. 60c.

Hardy Chrysanthemums Shasta Daisy, Leucanthemum

See Shasta Daisy, Page 42

Chrysanthemum Japonica JAPANESE MOUNTAIN OR CASCADE CHRYSANTHEMUMS

2747 JAPONICA SINGLE AND DOUBLE MIXED. White, yellow, bronze, pink, rose, red and crimson. Single, semi-double and double flowers 2 to 2½ inches across on drooping stems. Fine for hanging baskets as well as for garden display. Not absolutely hardy so are best treated as annuals. Pkt. 10c; ¼ oz. 25c.

Doronicum, Leopardbane

Very early blooming perennial producing large yellow daisy-like flowers on long wiry stems. While the Doronicums begin to bloom with the earliest bloomers in the spring, they continue to produce their flowers until mid-autumn.

2831 CAUCASICUM. A semi-dwarf variety growing 1½ to 2 feet tall and producing its large yellow flowers in profusion. See color plate on page 51. Pkt. 25c.

Campanulas For The Rock Garden

2693 TURBINATA BLUE. R. G. One of the best of the rock garden or border species of Campanula. Bushy compact plants 15 to 18 inches tall, bearing erect cup shaped lavender blue flowers. June to August. Pkt. 10c; ¼ oz. 40c.

2694 PUSILLA BLUE. R. G. Very dwarf or miniature plants only 3 to 4 inches high. Makes dense mats of fine foliage with little lavender blue bell flowers. Excellent for rock gardens. Blooms June and July. Pkt. 25c.

2696 ROTUNDIFOLIA BLUE. Blue Bells of Scotland. R. G. A very fine border or rock garden Campanula about 1 ft. tall. Flowers of pendant nature, clear blue, and borne from June to August. Pkt. 15c.

2697 ROTUNDIFOLIA OLYMPICA. R. G. An Alpine species of most deserving merit. Plants grow to 10 inches and are fairly covered all summer with pretty light blue bells. Pkt. 25c.

2688 GLOMERATA SUPERBA. R. G. Compact plants growing 15 to 18 inches tall bearing large clusters of long bells of a deep rich violet. A very attractive plant either in the border or rock garden. Blooms June and July. Pkt. 15c; ¼ oz. 40c.

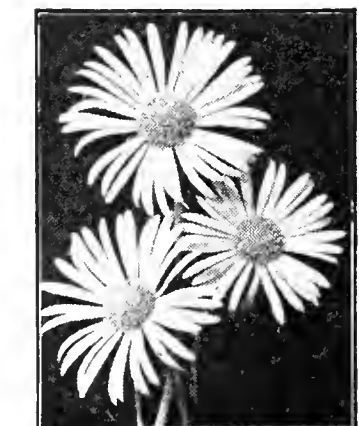

2690 Fragilis. R. G. A trailing variety with long flower branches, carrying very pretty light blue flowers. Fine for Rock Gardens or hanging baskets. Pkt. 25c.

Bleeding Heart, Dicentra

Double Coreopsis

Doronicum

A dwarf Campanula forming compact clumps only 8 to 10 inches high. The flowers are dainty, cup-shaped, 1½ inches across and evident from June to October.

2682 Blue. **2683 White.**

Either color: Pkt. 10c; ¼ oz. 35c.

2681 Campanula Carpatica Mixed. Pkt. 10c;
¼ oz. 35c.

Coreopsis Lanceolata Tickseed

Large golden yellow fringed flowers on long wiry stems fine for cutting, and blooming practically all summer. One of the showiest and best of all perennials, and you should plant several masses of them in your border. They grow about 2 ft. high.

2756 Mayfield Giant A splendid new strain growing 3 to 3½ ft. tall and bearing masses of extra large golden yellow flowers on long firm stems. Superior to original semi-double.

2754 GRANDIFLORA SINGLE. Large single yellow flowers fine for cutting and a fine addition to the garden. Pkt. 10c; ¼ oz. 15c.

2757 Double Sunburst If you want something to give real brilliance to your garden and house, plant some of these new Coreopsis. The flowers are 1½ to 2 inches across and of deep golden yellow and about 80% double. Pkt. 15c; ¼ oz. 35c.

2755 GRANDIFLORA DOUBLE. Improved. Similar to Grandiflora single, except that each flower has double row of petals. Pkt. 15c; ¼ oz. 35c.

Corydalis CHINESE BLEEDING HEARTS

2761 CHEILANTHIFOLIA. A dainty little plant related to the Bleeding Heart, with yellow flowers in terminal racemes and with fernlike foliage. Plants 10 to 12 inches high, growing easily in rich, well drained soil. Does well in shade, Blooms April to June. Pkt. 20c.

Dicentra DIELYTRA BLEEDING HEART

See Color Plate on Page 52

OLD FAVORITES, with their long graceful racemes of beautiful heart shaped rose and white flowers. Excellent for the perennial border and do well in the shade.

2812 SPECTABILIS. These beautiful flowers are at their best in May and June. Hardy and easy to grow. Bloom from April through June. 2½ to 3 feet tall. Pkt. 20c.

2813 EXIMEA—Plumy Bleeding Heart. The flowers are rosy-pink and bloom from June to September. Very lovely foliage, much dwarfer than Spectabilis, growing only 10 to 15 inches tall. Pkt. 20c.

2810 Dictamnus, Gas Plant

FRAXINELLA. Forming bushy plants bearing long showy spikes of flowers which are suitable for cutting. The foliage is fragrant. The seeds are slow to germinate, but once established the plant is practically permanent. The pink and white flowers are borne in June and July. In still hot weather the leaves give off a lemon scented gas which will ignite in a puff of flame from a match. 3 ft. Pkt. 10c; ¼ oz. 35c.

2826 Dodecatheon, Shooting Star

Clevelandi. R. G. Sometimes called the American cowslip, bearing umbels of drooping flowers, formed like small cyclamen. Flowers are of a delicate lilac tint and borne from April to June. They like cool moist soil and a shady location. 1 foot. Pkt. 15c.

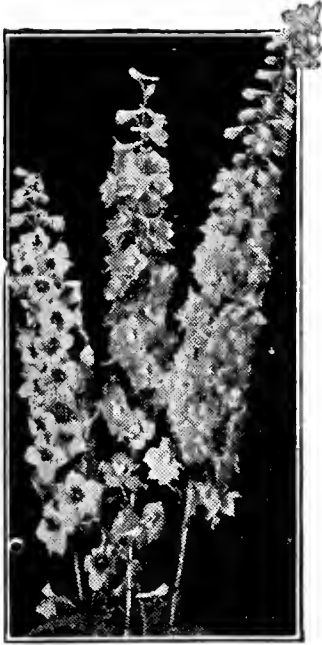

Edelweiss, Alpine Snowflower

2854 LEONTOPODIUM, Alpinum. R. G. This is the famous Edelweiss of the Swiss Alps. Silvery gray leaves almost flat on the ground. Stalk, spring up from the center, bearing 3 to 4 starlike flowers. Plants easy to grow in any good sandy garden soil. 4 in. tall. Pkt. 20c.

Euphorbia Flowering Spurge

2879 COROLLATA. A branching plant 2 feet tall, with fine stems and foliage. Bears loose umbels of pretty white flowers from June to August. Very lovely for cut-flowers by itself or with mixed flowers. Pkt. 15c.

Delphinium, Hardy Larkspur

Regal Hybrid Delphinium

Their popularity is growing each year because of the stately magnificence of the flower spikes, and their beautiful shades of coloring. Belladonna, Bellamosa, and Hybrids with good culture grow 3 to 6 ft. tall, bloom in June and July, and if cut back and fertilized after bloom, will give more flowers in late summer or early fall.

2775 Templin-Bradley's English Hybrids

BLACKMORE AND LANGDON'S PRIZE STRAIN DELPHINIUM

This strain is the product of many years of patient hybridizing and selection by one of the outstanding horticulturists of England. It is the best strain seen in Europe's wonderful Delphinium plantings, on a personal trip by Mr. Bradley. The recipient of many gold medals and awards, a real prize strain. The shades of coloring and the size and refinement of the flowers are unexcelled. **Pkt. 25c; 1/2 oz. 40c.**

2774 Hollyhock or Wrexham Strain Delphinium

A distinct new type of Delphinium with massive yet refined spire-like spikes that taper to the tip. The individual florets are very large and closely arranged on the stems. The flowers are in the most beautiful shades of blue, lavender and purple, singles, semi-doubles and doubles. **Pkt. 20c; 1/2 oz. 40c; 1/4 oz. 75c.**

WREXHAM TYPES IN SEPARATE SHADES.

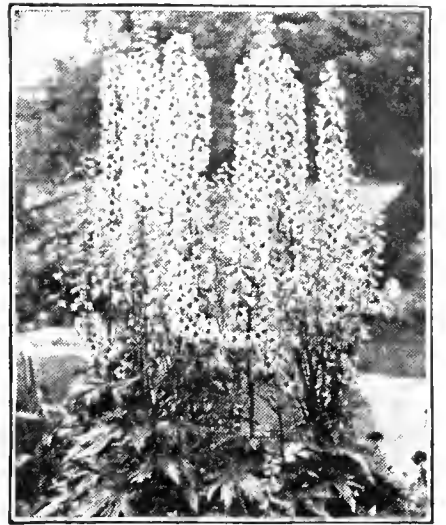

We offer this splendid strain this year in separate shades for the discriminating grower.

2776 ART SHADES.

2777 BLUE SHADES.

2778 DARK BLUE SHADES.

Price, any of above shades. **Pkt. 25c.**

English Hybrids Delphinium

Separate Shades

2770 BELLADONNA. The most continuous blooming of all, blooming from early June until frost. The clear turquoise-blue flowers are very delicate and beautiful and are most popular. **Pkt. 10c; 1/8 oz. 35c.**

2771 BELLADONNA IMPROVED. A very carefully selected strain of the popular Belladonna type giving excellent uniformity of type and color. **Pkt. 15c; 1/8 oz. 35c.**

2772 BELLAMOSA. Similar to Belladonna in form and habit but with a color of much deeper and richer blue. **Price 10c; 1/8 oz. 35c.**

2773 Gold Medal Hybrids

A good strain at a low price. These hybrids embrace a nice collection of hybrid Delphiniums. The shades range from pale lavender to deep indigo blue, a glorious mixture. **Pkt. 10c; 1/8 oz. 30c.**

Perennial
Chart on
Page 35

2780 Regal Hybrids

A new and outstanding strain of hybrids which we believe is the equal of many of the very high priced strains. Large double flowers of the richest color tones and of the finest flower forms, yet achieved in the Delphiniums.

Plants are vigorous and hardy growing to 6 feet in height. We inspected the field of blooming plants from which this seed was harvested and assure you it was one of the finest displays of Delphiniums we ever saw. If you buy this seed you will certainly have a strain of the finest parentage. **Pkt. 15c; 1/8 oz. 45c.**

Chinese Delphinium, Butterfly Varieties

The Chinese Delphinium or Delphinium Chinensis are perfectly hardy perennials but are sometimes classed as Annuals because if the seed is sown early they will fully develop and bloom the first year. Their flowers are borne as loose sprays rather than in spike form. They are fine for garden display or cutting.

2781 CHINENSIS, BLUE and WHITE 2782 DWARF BLUE BUTTERFLY 2783 CHINENSIS, CAMBRIDGE BLUE. **Pkt. 10c.** See Also Annuals Page 17.

2779 Iceberg THE WHITE DELPHINIUM

A new perennial variety of Delphinium producing lovely white bloom on spikes 18 to 20 inches long and growing 3 to 4 feet tall. Plants are of strong healthy growth and will produce by their second year tall heavy spikes of bloom. **Pkt. 25c; 1/8 oz. \$1.00.**

2787 YELLOW ZALIL. Yellow Delphiniums are rare and Zalil is worth trying. About 3 ft. tall, with flower formation quite similar to the blue kinds. Seed germinates slowly. **Pkt. 15c; 1/8 oz. 60c.**

2788 SCARLET CARDINALE. Having bright scarlet flowers, but dwarfier plants than the other strains, about 2 to 2 1/2 ft. tall. Germinates slowly. **Pkt. 15c; 1/8 oz. 40c.**

Dianthus, Hardy Garden Pinks

Rock Garden Pinks

Spice or
Clove Pinks

Every garden should contain at least a few clumps of these old fashioned fragrant pinks. Excellent for border, blooming in June. 15 to 18 inches tall.

2798 DOUBLE MIXED COLORS. A very fine mixture of all shades. **Pkt. 10c; 1/8 oz. 25c.**

2796 SEMPERFLORENS (Florist's Perpetual Pinks). R. G. These beauties are almost everblooming and come in a nice variety of colors, in double, semi-double and single blooms. 15 in. tall. **Pkt. 10c; 1/4 oz. 35c.**

2802 SCOTICUS, DOUBLE SCOTCH MIXED. Large double fringed flowers profusely borne during spring and early summer. Flowers are very fragrant. A very fine color assortment. **Pkt. 20c.**

2801 HIGHLAND QUEEN. R. G. One of the most brilliant of all Dianthus, bearing an abundance of dignified beauty. Blooms over a long period, June to November, so exceptionally good for bedding, borders, and the rock garden. **Pkt. 20c.**

2791 ALLWOODI MIXED. Large and for the most part fully double, almost like carnations. Splendid clusters of bloom borne in June and throughout the summer, splendid color assortment. 15 inches. **Pkt. 25c.**

The following varieties of Hardy Pinks are especially well fitted for use in the Rock Garden and they seem to give their best results in such a situation.

2793 CAESSIUS, CHEDDAR PINKS. R. G. A dwarf compact form producing very dense green mats of foliage. The bright rosy-pink fragrant flowers are produced freely in May. 6 in. tall. **Pkt. 10c; 1/8 oz. 30c.**

2794 DELTOIDES BRILLIANT. R. G. A delightful small compact plant with narrow leaves producing an abundance of glowing crimson red flowers during May and June. 4 in. tall. **Pkt. 10c; 1/8 oz. 35c.**

2800 NEGLECTUS, or Glacier Pinks. R. G. Bearing in May and June very attractive cherry red flowers. Splendid for your rockery. 6 in. tall. **Pkt. 25c.**

2805 GRANITICUS. R. G. Very lovely dwarf variety with deep red flowers 4 to 5 inches across. Blooms May and June. **Pkt. 10c; 1/8 oz. 40c.**

2799 ROCK GARDEN PINKS MIXED. R. G. A mixture of the species best adapted for rock garden plantings. Suitable for border plantings also of course. **Pkt. 10c; 1/8 oz. 40c.**

2792 ALLWOODI ALPINUS. R. G. A most excellent hybrid of the Allwoodi type producing diminutive plants useful in rockery. Fine color assortment and free blooming. 9 inches. **Pkt. 25c.**

Echinops Globe Thistle

2846 RITRO. Globe shaped bristly flowers of metallic-blue, borne in July and August. Popular for drying for winter bouquets. Grow 2 to 3 feet tall. **Pkt. 10c; 1/4 oz. 20c.**

Erinus, Liver-Balsam

2859 ALPINUS. R. G. In May and June these little plants with their rosettes of leaves, bear pretty rosy-purple flowers. Fine for planting in the crevices of old walls or between steps or in the Rock Garden. Grow 4 to 6 inches high. **Pkt. 15c.**

Erigeron, Fleabane

2856 SPECIOSUS GRANDIFLORUS. Bright purple Aster-like flowers, freely produced all summer. Fine for cut-flowers, desirable for the perennial border. **Pkt. 15c; 1/8 oz. 35c.**

Gentiana, Gentian

Beautiful low edging plants that produce their welcome flowers in the spring. They are also among the best plants for rockeries. They like moist shady location and light loam soil, and are rather difficult to establish and once established they should not be disturbed. Use no lime in the soil.

2896 ACAULIS, Blue Gentian. R. G. Best variety of rich gentian blue. 4 in. tall. **Pkt. 15c; 1/8 oz. 40c.**

Digitalis or Foxglove

Foxgloves are biennials, so after blooming cut down and sow more seed each season. Wherever planted Foxgloves give the appearance of dignified beauty. Bloom June and July.

2815 The Shirley It is agreed among experts that this is the finest strain of Digitalis ever introduced. Of the same form as common types but with still longer and larger flower spikes, the flower head often being 3 ft. long, covered with big bell-shaped flowers. The color assortment is rich indeed, from white and shell-pink to deepest rose, many dotted with crimson or chocolate. 5 to 6 feet tall. **Pkt. 10c; 1/4 oz. 25c.**

2816 Good Mixed A good mixture of white, pink, rose and mottled colors. **Pkt. 10c; 1/4 oz. 20c.**

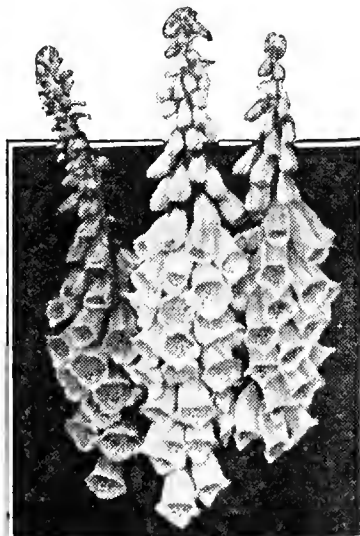

2817 Salmon Hybrids (Lutzii). Attractive salmon shades. 4 ft. tall. **Pkt. 15c; 1/8 oz. 30c.**

Eupatorium

Hardy
Ageratum

Dainty little flowers produced in dense heads at the top of the branches. Make adorable cut flowers.

2877 COELESTINUM. Light blue flower heads, bloom during September and October. 3 feet. **Pkt. 15c.**

Digitalis, Shirley

Hedysarum French Honeysuckle

2923 CORONARIUM. Attractive shrubby border plant, bearing in July, racemes of deep red, fragrant flowers. Does best in well drained soil in full sun. Grows 2 feet tall. **Pkt. 15c; 1/8 oz. 40c.**

Helleborus

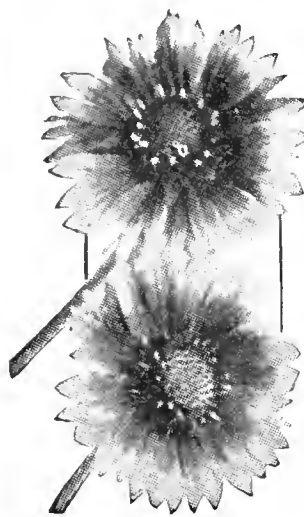

Christmas Rose

2948 NIGER. A delightful perennial with pure white flowers that bloom early, often blooming in the snow and continuing through March. Grows 9 inches high and prefers a location that is partially shaded in the summer. 9 in. tall. **Pkt. 15c; 1/4 oz. 30c.**

Echinops Ritro

Hardy Gaillardias

Gaillardia Dazzler

Easily grown, very showy, fine for cut-flowers and almost perpetual bloomers, July to November. If sown early, will bloom the first year. 1½ to 3 feet tall.

2890 BURGUNDY. Solid maroon except slight tips of yellow. Grandiflora type. Pkt. 20c; ¼ oz. 35c.

2891 MAXIMA. Flowers of solid color in yellows and golds. 2½ to 3 feet tall. Pkt. 10c; ¼ oz. 35c.

2889 TANGERINE. Beautiful tangerine orange flowers of good size. Pkt. 15c; ⅛ oz. 30c.

2887 DAZZLER. An improved strain with immense flowers of bright, golden yellow with rich maroon center. Pkt. 10c; ⅛ oz. 30c.

2888 PORTOLA HYBRIDS (In color, page 19). Extra large flowers, often 3½ inches across. The petals are broad and overlapping. Brilliant scarlet, tipped yellow 2¼ to 3 feet tall. Pkt. 10c; ⅛ oz. 25c.

2886 GRANDIFLORA MIXED. Combinations of yellow and maroon-red. Rich for garden display. Pkt. 5c; ¼ oz. 25c.

Gypsophila Hardy Baby's Breath

A class of hardy perennial flowers that is almost indispensable to the garden from which cut-flowers are gathered. Gypsophila gives a daintiness to all bouquets.

2914 PANICULATA SINGLE. See picture. Immense panicles of white gauze-like flowers. 2 ft. Pkt. 10c; ¼ oz. 25c.

2915 DOUBLE FLOWERING, "Snow White." Popular for winter bouquets. Showier than the single. Pkt. 20c; ⅛ oz. 45c.

2919 PACIFICA. Tall Bushy plants with tiny pink flowers. Blooms after Paniculata so prolongs cutting period. Pkt. 15c; ⅛ oz. 40c.

Gypsophila for your Rock Garden

2916 REPENS, Prostata, R. G. Grows 6 inches tall, prefers a dry open place. Graceful white flowers. Pkt. 10c; ⅛ oz. 30c.

2917 REPENS ROSEA. Pink flowers of dwarf trailing habit. Beautiful for Rock Gardens. Pkt. 15c; ⅛ oz. 30c.

Heleniums

Heleniums are large, Daisy-like flowers in shades of yellow, bronze and orange with conspicuous centers. Grand for cutting or for garden display.

2932 AUTUMNALE HYBRIDUM PRAECOX. Highly developed strain of hybrids producing beautiful shades of yellow, bronze, crimson and brown. 3 feet. Pkt. 15c.

2933 RIVERTON GEM. Old gold, suffused with terra-cotta, changing to Wallflower-red. August to October. 3 to 4 feet. Pkt. 15c.

Helianthemum, Sun Rose

2936 MUTABILE HYBRIDS, R. G. An excellent ground cover and rock garden plant for dry sunny slopes and terraces. Tolerates very hot dry soil. A shrubby plant growing 12 inches high with evergreen foliage. Flowers of pale rose, lilac, and white—pretty with their yellow stamens. Blooms June and July. 1 ft. Pkt. 10c; ¼ oz. 35c.

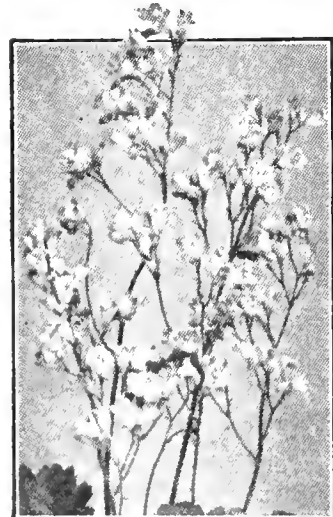

Helenium

Helianthus Hardy Sunflower

2939 AUGUSTIFOLIUS or Autumn Glory. Excellent for back ground, clump in the border, with its branches bearing masses of clear golden yellow flowers in October and November after most flowers are past. 5 to 6 ft. Pkt. 10c; ¼ oz. 35c.

2954 Hesperis Sweet Rocket

2954 MATRONALIS MIXED. One of the old-fashioned hardy perennials that have always remained in favor. A very useful plant for naturalizing among shrubs or planting in the permanent border. Bears multitudes of very fragrant flowers of white violet and purple in loose spikes or heads similar to Phlox. Blooms May and June. 2 to 3 ft. Pkt. 10c; ¼ oz. 20c.

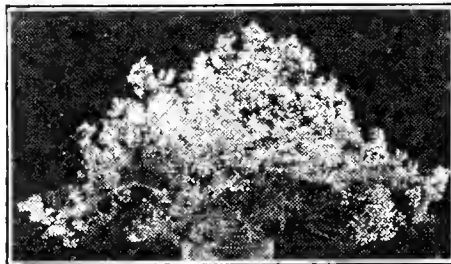

Heuchera

Geums Color Page 51

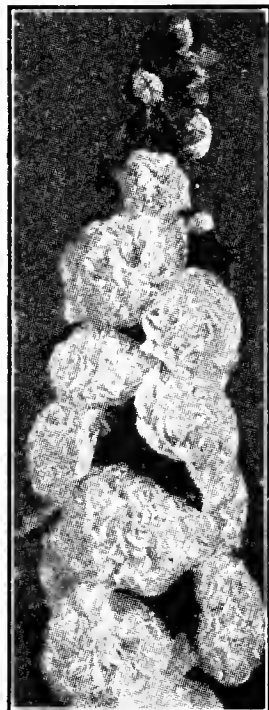

The Geums are becoming more popular each year, for their free flowering and attractive plants are a valuable addition to any hardy garden. Very easily grown from seed and produce a continuous supply of flowers for cutting.

2901 MRS. BRADSHAW. This variety bears double bright red flowers 1½ inches across during May and June on stems about 18 inches tall. The foliage is at the base. Pkt. 10c; ⅛ oz. 35c.

2902 LADY STRATHEDEN. A beautiful new variety similar to Mrs. Bradshaw in growth, but bearing bright golden yellow flowers. Pkt. 10c; ⅛ oz. 35c.

Gypsophila Paniculata

Double Hollyhocks

Insecticides and Fungicides
To make Healthy and Vigorous Plants
See Page 79

Heuchera Coral Bells

2961 SANGUINEA SPLENDENS, R. G. Very desirable plants, the foliage in compact masses 8 to 10 inches high. The flower stems reaching up 18 to 24 inches bear graceful spikes of the showiest bright coral red flowers. Excellent for the hardy border and especially good for the rock garden. Blooms fine for cutting, borne during July and August. 2 ft. Pkt. 15c; ⅛ oz. 40c.

2962 SANGUINEA GRANDIFLORA HYBRIDS. Includes all the attractive shades known to Heuchera, white, pink, scarlet and crimson. 2½ ft. Pkt. 15c; ⅛ oz. 40c.

Hibiscus, Mallow

Large free growing shrub-like plants forming clumps 4 to 5 ft. high, with handsome green foliage bearing throughout the late summer immense single flowers 4 to 6 inches across. Plants are easily grown from seed.

2972 MALLOW MARVELS MIXED. Produces giant flowers in August and September, white, pink and crimson. Mixed Pkt. 10c; ¼ oz. 25c.

2971 GIANT GOLDEN BOWL or SUNSET. Very large flowers of rich cream yellow with maroon center. Pkt. 10c; ¼ oz. 25c.

Iberis Handy Candytuft

See Page 37

Incarvillea Hardy Gloxinia

Comparatively new in American gardens, but it well deserves a place as it produces many showy fine flowers throughout the summer. The flowers are trumpet-shaped, attractive and gloxinia-like.

3007 VARIABILIS HYBRIDS. Colors ranging from white and yellow to deep pink. 2½ to 3 ft. Pkt. 15c; ⅛ oz. 35c.

3008 DELAVAYI. Bright rosy purple flowers borne freely in June and to a less extent throughout the summer. Likes sun and need light protection over winter. 2 to 2½ ft. Pkt. 15c; ⅛ oz. 35c.

Lavendula Sweet Lavender

3026 A shrubby perennial about 1½ ft. high with grayish green foliage, and bearing during July, August and September whorls of small blue flowers. The leaves have a very pleasant aromatic odor, much sought for. The plant requires some winter protection in most Northern States. Pkt. 10c; ¼ oz. 30c.

Leontopodium See Edelweiss Page 38

Lewisia

3030 HOWELLII, R. G. A rare and lovely creeping plant forming a rosette of narrow crinkled leaves. Flower stems 6 inches above foliage, carry star-like flowers of apricot, streaked rose. Spring sown seeds will bloom the following year. Give the seedlings a well drained, sunny place and do not over-water them. Pkt. 25c.

Helianthus

Hollyhocks

These stately, majestic, handsomely colored flowers, growing 5 to 7 feet tall are attractive for screens and backgrounds and are one of the most popular of all the hardy garden flowers. They are necessary for the old-fashioned garden and with their colossal spikes of rose-like blooms, produce bold and showy effects. They are easily grown from seed but it is best to treat them as biennials, sowing fresh seed early each spring. They bloom July and August.

Lovely New Hollyhocks

3003 TRIUMPH DOUBLE FRINGED. New, of branching habit, waved and fringed flowers in shades of crimson, pink, white, yellow and purple. Early bloomer. 4 to 5 feet tall. Pkt. 15c; ⅛ oz. 40c.

3002 IMPERATOR. Color ranges through shades of pink to salmon. Flowers 6 inches across, frilled and fringed with central double rosette. Pkt. 10c; ⅛ oz. 35c.

3001 EXQUISITE FRINGED MIXED. Contains the most artistic shades of pink, rose and red. Striking semi-double variety. Pkt. 10c; ⅛ oz. 35c.

Standard Double Varieties

Chaters Strain

2992 WHITE **2993 SCARLET**

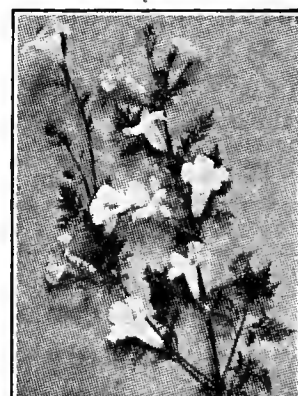

2994 MAROON **2995 YELLOW**

2996 NEWPORT PINK **2997 SALMON**

Price of any above. 1 Pkt. 10c; ⅛ oz. 30c.

3000 COLLECTION. 1 Pkt. each, 6 colors for 50c.

2991 DOUBLE MIXED. Flowers fully double, huge rosettes of rich colors. 5 to 7 feet tall. Pkt. 10c; ⅛ oz. 30c.

Incarvillea

Lathyrus Latifolius

Also called **Blazing Star**. Showy and beautiful when massed in the perennial border. Leaves are slender and grass-like, thickly covering the stems, tall graceful spikes of flowers.

3034 PYCNOSTACHYA. Brightest rosy-purple, bloom in July and August. Grow 6 feet tall. Pkt. 15c; 1/8 oz. 35c.

Lathyrus Hardy Sweet Peas

Latifolius Hardy perpetual blooming Sweet Peas, fine for covering old stumps, fences, etc. Perfectly hardy, increasing in beauty each year. Bloom June to August.

3017 WHITE PEARL 3018 PINK BEAUTY 3019 SPLENDENS RED Price each any of above colors. Pkt. 10c; 1/4 oz. 20c.

3022 COLLECTION. 1 Pkt. each of above three colors 25c.

3016 HARDY SWEET PEAS MIXED. A mixture of the above. Pkt. 5c; 1/4 oz. 20c.

Liatris Kansas Gay Feather

3017 MACEDONICA. Speciosa Hybrids. R. G. Spikes 3 feet tall, bright yellow flowers resembling Snapdragons. Foliage of silvery tint. Will bloom the first year if seed is sown early. Pkt. 10c; 1/8 oz. 30c.

3018 ALPINA. Alpine Toadflax. R. G. A trailing plant, bearing flowers of violet-blue, blotched orange, in July and August. 6 inches tall. Pkt. 15c.

2413 CYMBALARIA. Kenilworth Ivy. R. G. A trailing plant or vine with foliage throughout the summer and an abundance of small lavender flowers in the fall. Pkt. 5c; 1/8 oz. 30c.

Linaria Toad Flax

3055 PERENNE BLUE. R. G. Small flat flowers of azure blue, borne in May and June. Erect plants with branching leafy stems. 1 1/2 to 2 feet tall. Pkt. 10c; 1/4 oz. 20c.

3056 FLAVUM, GOLDEN FLAX. R. G. Masses of yellow bloom in July and August. 15 to 18 inches tall. Pkt. 10c; 1/8 oz. 25c.

3058 FLAVUM NANUM COMPACTUM. R. G. A new dwarf strain only 6 inches high with golden yellow flowers in June and July. Pkt. 15c.

3057 NARBONENSE. R. G. Azure blue flowers with white eye, freely borne in May. Spreading clumps of foliage. 2 ft. Pkt. 15c; 1/8 oz. 30c.

Lobelia Cardinal Flower

3061 CARDINALIS. A native perennial used frequently for naturalizing in swampy spots. Flowers are intense cardinal red, slender about 1 inch long, borne in spikes on erect leafy, unbranching stems. Blooms July to September. Grows 2 to 2 1/2 feet tall. Pkt. 15c.

Lythrum, Loosestrife

3092 ROSEUM SUPERBUM. Tall erect plants producing graceful spikes of bright red flowers during July and August. An excellent cut flower. 4 to 6 ft. Pkt. 10c; 1/4 oz. 25c.

Lychnis Maltese Cross Campion

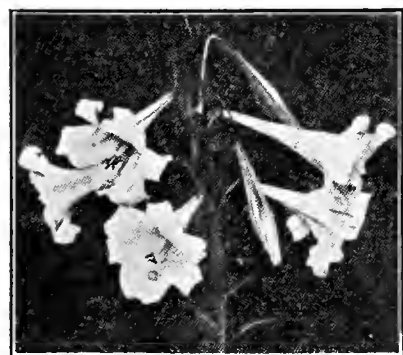

3086 CHALCEDONICA, Scarlet Maltese Cross. From June until the middle of July the plants are covered with the most fiery scarlet flowers, and it is sometimes called Burning Star. Each individual flower forms a small Maltese Cross. The plants will bloom the first year from early sown seed. 2 ft. Pkt. 10c; 1/4 oz. 20c.

3085 CHALCEDONICA SALMON QUEEN. Large flower of glowing salmon, a new shade in Lychnis. Pkt. 10c; 1/8 oz. 30c.

3087 ARKWRIGHT HYBRIDS. A valuable variety the result of a cross of Chalcedonica with Lychnis Haageana. These hybrids attain a height of 2 ft. and produce in midsummer an abundance of large flowers of brilliant colors, varying from orange scarlet to soft salmon pink. Pkt. 10c; 1/8 oz. 30c.

3088 VISCARIA SPLENDENS. R. G. Also called Viscaria and German Catchfly. The bright rose flowers are most useful for cutting. The large clumps of foliage are attractive and almost evergreen. Blooms in May and June. 15 in. tall. Pkt. 10c; 1/4 oz. 30c.

3089 ALPINA. R. G. In April the tufted little plants with attractive olive green foliage bear clusters of pretty rose pink flowers. 6 in. tall. Pkt. 15c.

Lillium Philippiense

Lillies To Grow From Seed

3041 LILIUM REGALE, Regal Lily. See this Lily in color on the back cover. Easily grown from seed, blooms the third year. One of the loveliest of all lilies. Pkt. 10c; 1/8 oz. 25c.

3042 PHILIPPINENSE FORMOSANUM. A wonderful new lily grows easily from seed. At the Arnold Arboretum seed produced flowering plants in seven months. Similar to the Easter lily, white trumpet-shaped flowers, slightly marked with reddish brown on base of petals. Perfectly hardy. 2 to 3 feet. Pkt. 15c; 1/8 oz. 30c.

3045 PRAECOX WHITE QUEEN. A beautiful lily of the Longiflorum family, producing long snow-white trumpets. Under good conditions will bloom in 12 months from seed. Pkt. 30c.

3044 TENUIFOLIUM, Coral Lily. Bears quantities of small, glossy scarlet flowers with recurved petals. Perfectly hardy, blooming in June and July. Seed is sometimes slow to germinate but well worth patience as it is beautiful. 2 ft. Pkt. 15c; 1/4 oz. 35c.

Hardy Lupines

Hardy Lupines produce long spikes of softly colored flowers, the individual flowers resemble Sweet Peas, the spikes grow 3 to 4 feet tall. The leaves are palm-like and form thick ornamental clumps of light green. Bloom May and June.

Inoculate Lupine Seed with Nitrugin. By treating Lupine seed before planting, you will get better growth of plants. Garden size pkg. Postpaid, 25c.

3080 New Hybrids Mixed. Wonderful new strain. Long beautiful spikes. Colors range through blue, rose, buff, flesh, salmon to white. Pkt. 10c; 1/4 oz. 30c.

3083 Downers Hybrids. Early and perpetual blooming, fine range of colors, bold spikes. Sometimes bloom first year from seed if sown early. Pkt. 10c; 1/4 oz. 25c.

3081 Polyphyllus Sunshine. Bright yellow. Pkt. 10c; 1/8 oz. 25c.

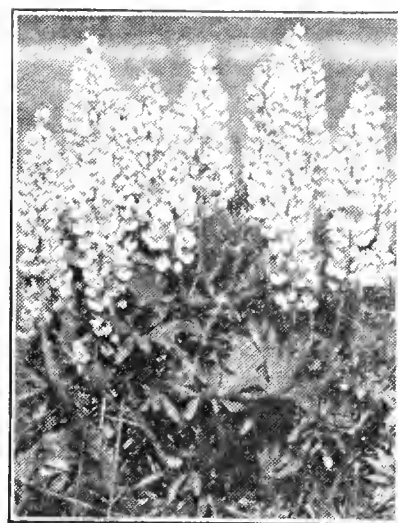

3076 Polyphyllus Blue.

3077 Polyphyllus White.

3078 Polyphyllus Rose.

3079 Polyphyllus Mixed Colors.

Prices on Above 3 Colors and Mixed, Pkt. 10c; 1/4 oz. 20c.

A Clump of Lupines

Lunaria St. Peters Penny

3068 BIENNIS. This is grown for the beautiful silver pods which are used for winter decorations. Purple flowers are borne in the summer and the plant is a biennial which self sows. It may be grown as an annual. 2 ft. Pkt. 10c; 1/4 oz. 30c.

Matricaria See listing with Annuals, Page 22

Although Matricaria is a perennial, it is best grown as an annual and is listed under annuals.

Meconopsis Blue Poppy

3098 BAILEYI. This beautiful blue perennial Poppy from Tibet, throws from its root stock, half a dozen leafy stems 3 feet high with broad sea-green leaves. The flowers are four-petaled and a glorious sky-blue with golden yellow anthers. Awarded Certificate of Merit from the Royal Horticultural Society. Blooms in July. Pkt. 15c.

CULTURE. Being rather difficult to grow, we will give you a leaflet on Culture of Meconopsis free, if you ask for one.

Monarda-Bergamot

3106 DIDYMA HYBRIDA MIXED. Bee Balm, Oswego Tea. Flowers of brilliant scarlet-crimson, rose or purple, born on coarse stocks 3 feet high. Makes a showy display, excellent for massing and for naturalizing. Pkt. 15c; 1/8 oz. 10c.

Myosotis, Forget-me-not

3126 Isolde Krotz Bright, heavenly blue with yellow eye. 1 foot high and semi-trailing. Though it is a perennial, it needs slight protection over winter. A lovely flower for a ground planting for Spring-flowering bulbs. Sometimes grown as an annual. Pkt. 15c.

3120 Everblooming Palustris Semperflorens. Blooms all summer. Small bright blue flowers, borne in clusters on half creeping stems. Fine for carpeting shady and moist places. The best Forget-Me-Not for naturalizing. Pkt. 10c; 1/8 oz. 30c.

Nepeta

Mauve Catmint

3146 MUSSINI R. G. Dwarf edging plant with blue-gray foliage and pale mauve flowers during practically the whole summer. Very delightfully effective. 9 to 12 inches tall. Pkt. 10c.

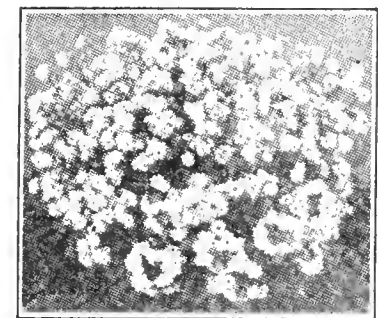

Oenothera Evening Primrose

3161 YOUNGII. Fragrant, bright lemon yellow flowers 1 1/2 to 2 inches across, borne in clusters. Sturdy plants 1 1/2 to 2 feet tall. This variety blooms in the daytime except in bright sunlight, as well as in the evening. Pkt. 10c; 1/8 oz. 40c.

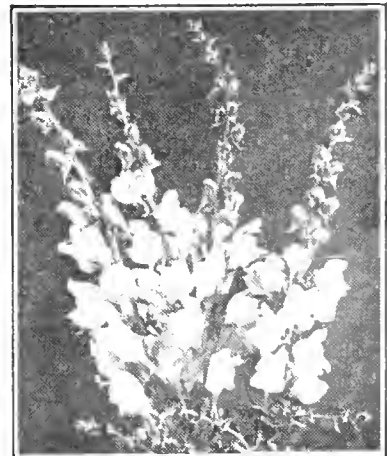

3163 MISSOURIENSIS R. G. Dwarf species, only 10 inches tall, solitary flowers, often 5 inches across from June to August. Pkt. 10c; 1/8 oz. 30c.

Phlox

3197 DECUSATA GRANDIFLORA MIXED. Lovely colors taken from named varieties of Hardy Phlox. Large blooms on 3 foot stems. Seeds slow to germinate but worth waiting for. Pkt. 10c; 1/8 oz. 30c.

Myosotis, Everblooming

Linaria Macedonica

Oriental Poppy

Hardy Poppies

Papaver

For a gorgeous display, few flowers can compete with the brilliant Poppies in June and July. Immense silken cups of glowing colors with black blotch at base of petals.

If, after blooming, the tops are carefully taken off, not to injure the crown, they often bloom again in the fall. Height 2½ to 3 feet.

3176 ORIENTAL SCARLET. Tremendous cup of brilliant scarlet, with purple-black blotches. Pkt. 10c; ⅛ oz. 25c.

3178 BEAUTY OF LIVERMERE. Deep oxblood-red with black throat. 3 ft. Pkt. 15c; ⅛ oz. 30c.

3179 THE FELTHAM. New distinct strain with various colors, scarlet, orange, apricot and salmon but with no black blotches. Pkt. 15c.

3180 MRS. PERRY. Shrimp pink or apricot. The best of the pink Orientals. Pkt. 15c.

3177 ORIENTAL HYBRIDS. Some brilliant new shades have been developed, running through orange, salmon to scarlet. Pkt. 10c; ⅛ oz. 25c.

Alpine Poppy, Papaver Alpinum

3187 ALPINUM MIXED. R. G. A charming miniature Poppy in brilliant shades of scarlet, orange, yellow, apricot, pink and white. Rock Garden Poppy. 6 inches high. Pkt. 15c; ⅛ oz. 45c.

Nudicale, Iceland Poppy

Neat little tufts of attractive foliage, Rock Garden favorites. Flowers of tissue-paper appearance, on stems 1 foot long. Fine for cut-flowers.

3185 COONARA PINK. New variety in shades of pink, salmon and apricot. Pkt. 10c; ⅛ oz. 25c.

3183 EL MONTE. Extra large flowers of rich tangerine orange. Pkt. 15c; ⅛ oz. 30c.

3186 FAKENHAM HYBRIDS. Gorgeous new Poppies, twice the size of other Iceland Poppies. Bloom later. These Hybrids cover every known Poppy color and many new shades and tints. Pkt. 15c; ⅛ oz. 35c.

3189 GARTREF STRAIN. Reselected from the range of art shades. Unusually large flowers with dark edges on petals, making pleasing contrast of colors, from shell-pink to carmine, creamy yellow to gold tones and amber and apricot shades. Pkt. 15c.

3181 SUNBEAM GIANT MIXED. Lovely mixture of white, yellow, orange and scarlet. Pkt. 10c; ⅛ oz. 25c.

3184 SINGLE MIXED. Variety of colors. Pkt. 5c; ⅛ oz. 25c.

3182 DOUBLE MIXED. Selected strain. Large percentage will produce double flowers. Pkt. 10c; ⅛ oz. 35c.

Penstemon

3192 SENSATION GLOXINOIDES. Resembles. Gloxinias and comes in lovely shades of pink, rose, red, lilac and purple. Grows 2 feet tall. Pkt. 10c; ⅛ oz. 35c.

3194 BLUE GEM. A dwarf or prostrate form, excellent for the Rock Garden. Rich shade of blue. Pkt. 10c; ⅛ oz. 25c.

3195 GRANDIFLOUS MIXED. One of the showiest Penstemons, with its leathery leaves and stems that rise up 2½ to 3 feet with spikes of pretty lilac and pink flowers during May and June. Fine for cutting. Pkt. 10c; ⅛ oz. 30c.

Polemonium, Jacobs Ladder

3236 COERULEUM GRANDIFLORUM BLUE. Produce during May, June and July, erect stems bearing terminal heads of attractive violet blue flowers. The leaves are clustered mostly at the base of the stem. They like partial shade and considerable moisture. 2 ft. tall. Pkt. 10c; ¼ oz. 25c.

Pyrethrum

Low compact growth with lace-like foliage of bright green, quantities of Daisy-like flowers. They bloom during June and July.

3261 SINGLE MIXED. White, rose and pink. Pkt. 5c; ⅛ oz. 30c.

3262 DOUBLE MIXED. (See illustration.) They are not all double flowers but percentage increases as plants become older. White, pink and rose. Pkt. 15c; ⅛ oz. 50c.

3264 HYBRIDUM GRANDIFLORUM. Single. Large flowered, fine for cutting. Very attractive. Pkt. 10c; ⅛ oz. 25c.

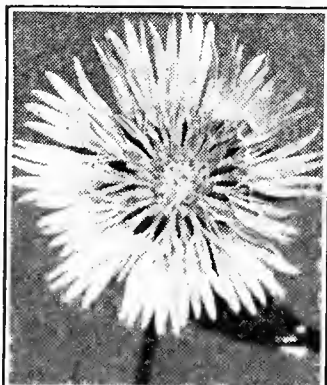

3263 ATROSANGUINEUM. Select strains of dark, blood-red. Excellent quality. Pkt. 10c; ⅛ oz. 30c.

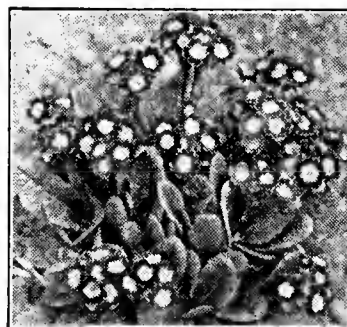

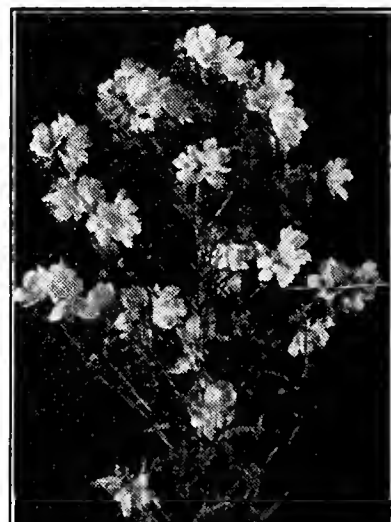

Ranunculus, Buttercup Daisy

Perennial Plants
Pages 71-75

Single Pyrethrum

Stokesia

Polyanthus Perfection
Primula

Sidalcea

Primulas—Hardy Primroses

Delightful little flowers in all the brilliant colors that mean so much to your garden in April and May. They have few rivals for planting along shady paths or in the Rock Garden. Seed germinate slowly and fall planting is preferable. You will enjoy their beauty.

3251 AURICULA ALPINA MIXED. Combinations of yellow, brown and red. Early, 6 inches tall. Pkt. 15c.

3252 JAPONICA MIXED or Japanese Primrose. Sometimes called "Queen of Primroses," very showy, blooms in June. Mixed colors, purple, lilac and pink. 18 to 24 inches tall. Pkt. 15c; ⅛ oz. 40c.

3253 CASHMIRIANA. Large lilac, 1 foot tall. Pkt. 20c.

3255 LITTONIANA. Large spikes, similar to Red Hot Poker. Heads before opening are bright red, opening to lilac and purple shades. 2 feet tall. Pkt. 20c.

3250 VULGARIS. The True English Primrose. Fragrant canary-yellow, 6 to 8 inches tall. Pkt. 10c; ⅛ oz. 40c.

Polyanthus Primulas

3248 PERFECTION MIXED. Select strain of large flowering Polyanthus, containing all available colors and combinations of white, pink, rose, crimson, yellow and gold. Pkt. 10c; ⅛ oz. 40c.

3247 GIANT MUNSTEAD. Large flowered variety, early blooming and includes pleasing shades of yellows and white. Pkt. 15c; ⅛ oz. 40c.

Physostegia, False Dragonhead

An attractive flower for the Perennial border. Long blooming season, rich foliage, easy to grow and lovely spikes of delicate rosy pink flowers. Excellent for cut-flowers. Prefers rich soil and sunshine.

3208 VIRGINIA PINK. July and August. 3½ feet tall. Pkt. 10c; ⅛ oz. 35c.

3210 COMPACTA ROSEA. R. G. Compact, deep pink. 12 to 18 inches tall. Pkt. 10c.

Physalis, Chinese Lantern

3204 FRANCHETI. An interesting plant with its pods of bright orange-red. They greatly resemble Chinese Lanterns and make gay and colorful winter bouquets. Pkt. 10c; ¼ oz. 30c.

Ranunculus, Buttercup Daisy

3278 ASIATICUS SUPERBISSIMA. Large semi-double and double flowers. Brilliant colors, the center often differing from the balance of the red and yellow of the flowers. May and June. Like partial shade. 1 to 1½ ft. tall. See illustration. Pkt. 10c; ¼ oz. 30c.

Romneya, Bush Poppy

3283 COULTERI. Also called California Tree Poppy. Shrubby growth, woody stems and large Poppy-like white, fragrant flowers. Satiny in texture, golden yellow stamens. June and July. 4 to 5 feet tall. Pkt. 10c; ⅛ oz. 35c.

Rudbeckia, Cone Flower

3287 PURPUREA (Echinacea) Purple Cone Flower. Rosy purple with dark central disk. Blooms in September. 3 feet tall. Pkt. 10c; ⅛ oz. 35c.

Hardy Scabiosa

Perennial Scabiosa are quite like the Annuals, though a little more graceful in form. Long blooming season, June to September. In the extreme Northern states, give a slight mulch for winter protection.

3297 CAUCASICA BLUE. Blue Bonnet. Single row of broad petals, center consisting of many tiny florets. Clear lavender-blue, very dainty. Extra long stems. 2½ to 3 ft. Pkt. 10c; ⅛ oz. 30c.

3306 JAPONICA. This Japanese variety forms bushy plants 2 feet high and bears beautiful lavender-blue flowers on long wiry stems. Long blooming season. Pkt. 5c; ¼ oz. 25c.

3300 ISAAC HOUSE HYBRIDS. See these in color on page 51. An improved Caucasica, having longer stems and larger flowers, in lovely shades from light lavender to deep heliotrope-blue. Petals are ruffled and fringed. Attractive. Pkt. 10c; ⅛ oz. 40c.

3301 COLUMBARIA PINK. A South African Scabiosa, dwarfier than Caucasica. Short, compact flowers 2 to 2½ inches across on long stiff stems. Pkt. 10c; ⅛ oz. 30c.

Sidalcea

A desirable hardy perennial that is very little known. Well worth a place in every garden. Produces spikes 2½ to 3 ft. in height, densely covered from July to September with pretty single rosy-pink flowers. Each flower about an inch across.

3327 ROSE QUEEN. Bright Rose. Pkt. 5c; ⅛ oz. 30c.

3328 Hybrids. Many shades. Pkt. 10c; ⅛ oz. 15c.

Sweet Williams, Dianthus Barbatus

Sweet Williams need no long description, they are so well known and popular. Easy to grow, splendid for massing in perennial border, make a gorgeous display during May and June. Plants are normally 15 to 18 inches high.

3372 SINGLE MIXED. Pkt. 5c; ¼ oz. 20c.

3373 DOUBLE MIXED. Pkt. 10c; ¼ oz. 30c.

Single Giant Sweet Williams in Separate Colors.

3366 DARK CRIMSON. 3364 SCARLET BEAUTY. 3365 WHITE.

3362 HOLBORN GLORY. Giant flowering in many colors with white eye.

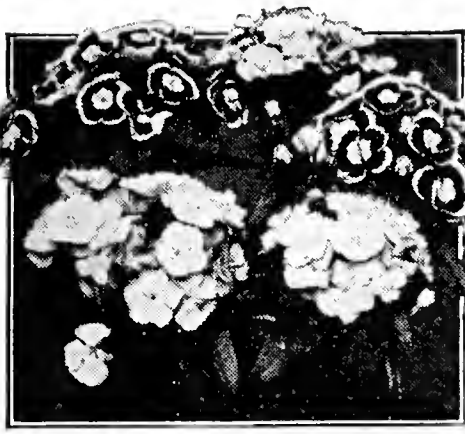

3363 PINK BEAUTY or NEWPORT PINK. Watermelon or rosy-pink. Large trusses.

Price any of above varieties. Pkt. 10c; ¼ oz. 25c.

3370 Sweet William Collection One packet each of five separate colors of Single Giants listed above. A 50c value for only 10c.

3361 Single Giant Mixed Sweet Williams

Fine mixture of brightest colors and shades, not present in other mixtures, and Margined and Auricula varieties. Pkt. 10c; ¼ oz. 25c.

A Few Heads of Templin-Bradley's Giant Sweet William

Statice

Statice Sea Lavender

Sedum, Stone Crop

Sedums are excellent for Rock Gardens and for border plants. They prefer sandy soil.

3316 ACRE. R. G. Gold Moss or Wall Pepper. Leaves of bright green and peppery in taste. In June the plants are covered with small bright yellow flowers. This variety makes a splendid ground cover as it grows only 2 to 3 inches high. Pkt. 10c; ¼ oz. 50c.

3317 SPECTABLE. R. G. Showy Stoncrop. Fine tall variety. Bears flat clusters of rosy-red flowers in August and September. Leaves are thick and ornamental. Fine for barren spots. 1 ½ to 2 ft. Pkt. 20c.

Sempervivum

3321 HEN AND CHICKENS. Perennial Species Mixed. Very useful border and Rock Garden Plants. A mixture of a great many sorts which will enable you to raise a fine collection of plants at low cost. Grow 4 to 6 inches high. Pkt. 25c.

Silene, Catchfly

Charming rock plants, blooming nearly all summer. Easy to grow under ordinary conditions.

3338 SCHAFTA. R. G. Masses of bright pink double flowers from July to October. Very easily grown from seed. 4 to 6 inches tall. Pkt. 10c; ¼ oz. 40c.

3339 ASTERIAS GRANDIFLORA. Globular heads of carmine scarlet flowers. 1 ½ ft. tall. Pkt. 10c; ¼ oz. 30c.

Stokesia, Stoke's Aster

3354 CYANEA BLUE. Another very fine subject for the blue garden, the plants bearing large flowers (3 to 4 inches) of lavender blue that resemble the Aster and also the Cornflower. The long blooming season of Stokesia (July to October) is rare in perennials. Plants of erect growth. 1 to 2 ft. high. Pkt. 10c; ¼ oz. 30c.

Thalictrum Meadow Rue

Stately plants with foliage resembling Maiden Hair Fern, fine for bouquet trim. Dainty flowers in terminal clusters. Protect slightly for winter as they are not extremely hardy.

3396 DIPTEROCARPUM. Rosy-purple, in August and September, 4 to 5 feet tall. Pkt. 10c; ¼ oz. 30c.

Veronica, Speedwell

A beautiful and desirable family of plants at home anywhere in your garden but exceptionally fine for the border or Rock Garden. Thrive well in a well drained soil in an open location where they receive plenty of sun.

3441 LONGIFOLIA BLUE. R. G. Graceful, slender spikes of lavender-blue from July to September. Naturalize well, make beautiful cut-flowers and grow 2 to 3 feet tall. Pkt. 10c; ¼ oz. 25c.

3442 SPICATA MIXED. R. G. Smaller type, 1 to 1 ½ feet tall, blooms in July. Bear pretty spikes of blue, rose and white flowers. Pkt. 10c; ¼ oz. 40c.

3443 TEUCRIUM BLUE. R. G. Delightful dwarf variety only 1 foot high and one of the finest blue plants for the Rock Garden. Beautiful Gentian Blue with ornamental foliage. Pkt. 10c; ¼ oz. 35c.

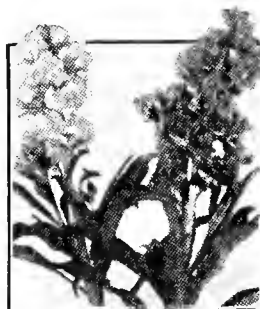

3444 REPENS. R. G. Creeping Speedwell. Fine carpet, bedding or Rock Garden plant with its attractive trailing stems and small white flowers, blooming July and August. 4 inches tall. Pkt. 15c; ¼ oz. 40c.

Trollius See Color Page 52

Chinese Lantern Physalis

Wallflowers Cheiranthus

Veronica

Viola

Tritoma, Red Hot Poker See Color Page 83

Thymus or Thyme

3399 SERPYLLUM. Mother of Thyme. R. G. A tiny Rock Garden plant with creeping purple scented foliage. Fine for stepping stones. Violet, white and rose. 2 to 3 inches tall. June and July. Pkt. 15c.

Trollius Globe Flower or Golden Ball

See Color Plate, Page 52. Beautiful gold and yellow perennials. Stems 18 inches long, flowers large double globe-shaped, usually 1 ½ inches across. Bloom in May and June, sometimes a second crop is produced in the fall. Like moist, cool spots in partial shade. Seed slow to germinate, sometimes not starting until the year following the sowing.

3404 FINEST HYBRIDS. Rich shades of yellow, gold and orange. Pkt. 15c; ¼ oz. 45c.

3405 EUROPEUS GOLDEN BALL. Large globular flowers of soft, rich yellow. 20 inches tall. Pkt. 10c.

3403 LEDEBOURI. Deep orange. 2 ft. Pkt. 15c.

Tunica, Coat Flower

3410 SAXIFRAGA. R. G. A neat little plant producing small light pink flowers all summer. It somewhat resembles Gypsophila and if started early will bloom the first season. It is suitable for edgings in almost any location and for rock gardens. 5 to 6 inches tall. Pkt. 10c; ¼ oz. 25c.

Hardy Violas

Viola Cornuta, Hardy Tufted Pansy

Hardy Violas combine the free blooming habits of the Pansy with the hardy character of the Violets. Plants will not run out like the Pansy nor are the flowers as large, but are produced in profusion during the entire season.

3449 JERSEY GEM, CORNUTA HYBRID. Compact plant, flowers of deep violet-blue with an occasional variation in tint. Continuous bloom over long period. 8 inches. Pkt. 25c.

3452 APRICOT. Cornuta Hybrid of rich yellow, suffused orange. Very showy. Pkt. 15c; ¼ oz. 30c.

3457 ARKRIGHT'S RUBY. Beautiful Viola of bright ruby-crimson with terra cotta shadings can now be produced true to color from seed with only a slight variation in shade. Pkt. 15c; Large Pkt. \$1.00.

3450 ADMIRATION. Rich rosy-purple. Pkt. 10c; ¼ oz. 35c.

3453 ROSE QUEEN. Beautiful rose. Pkt. 15c; ¼ oz. 50c.

3448 Viola Cornuta Mixed A splendid assortment of all available colors in the large flowering varieties. Pkt. 10c; ¼ oz. 35c.

3460 Viola Bosniaca A very lovely small growing variety, very desirable for the border or Rockery. Small deep purple flowers freely produced all summer. 3 inches. Pkt. 10c; ¼ oz. 30c.

New "GEM" Violas

These are the Jersey Gem type of flower as shown in the illustration. Free and long blooming.

3465 Lavender Gem. Brilliant lavender blue.

3466 Rosy Gem. Rich deep rose.

3467 White Gem. Pure white.

3468 Yellow Gem. Bright pure yellow.

Price of any variety, 25c. Any 3 packets 60c.

3346 LATIFOLIA BLUE. See illustration above. Graceful panicles or sprays of light purplish-blue that cover the plants in July and August. Prized for winter bouquets, lovely for the Rock Garden. 2 ft. tall. Pkt. 10c; ¼ oz. 30c.

3347 DUMOSA. Bushy plants, carrying cushions of silvery gray flowers. Provide a wealth of cutting material and fine for winter bouquets. Stiff, wiry stems. 2 ½ ft. tall. Pkt. 15c; ¼ oz. 25c.

3348 CASPIA. Long graceful sprays of delicate minute flowers of lilac-blue. Desirable for cut-flowers for summer or winter bouquets. 2 to 2 ½ feet tall. Pkt. 15c; ¼ oz. 35c.

Tritoma, Red Hot Poker See Color Page 83

Flame flower or Torch Lily. Tritomas are really perennials but the roots are tender and in the Northern States should be taken up and stored like Dahlias.

3406 HYBRIDA MIRABILIS. 3 ft. Bright yellow, will bloom the first year from seed sown in February or March, transplanted out in May. They will bloom August to late Autumn. Pkt. 10c; ¼ oz. 25c.

3407 ELEGANS MULTICOLOR. Early flowering Hybrids in a rich variety of shades flaring orange, yellow and scarlet. Pkt. 10c; ¼ oz. 45c.

Valeriana, Garden Heliotrope

3426 OFFICINALIS. Charming hardy plants, producing quantities of rose tinted white flowers in showy heads on tall strong stems. Delightfully fragrant with strong heliotrope odor, borne freely during June and July. Easily grown and very hardy. 3 ½ ft. Pkt. 10c; ¼ oz. 50c.

3427 RUBRA MIXED. Produces an abundance of old rose and white flowers, from June to October. 2 ft. Pkt. 10c; ¼ oz. 30c.

Hardy Violets

Viola Odorata. Fragrant hardy English Violets. Require abundant moisture and partial shade. Seed may be sown in late fall, early spring and transplanted or sown in a cool shady place after cold weather is over.

3458 THE CZAR. Blue. Pkt. 15c; ¼ oz. 40c.

3459 SNOWFLAKE. White. Pkt. 15c; ¼ oz. 40c.

Wallflower, Cheiranthus

Well known, delightfully fragrant perennials, blooming in the spring with spikes of beautiful flowers in many colors. In the Northern states, they will need protection during the winter.

3462 TALL DOUBLE BRANCHING MIXED. Colors like the above, flowers double. Pkt. 15c; ¼ oz. 40c.

2734 ALLIONI, Siberian Wallflower. Bears an abundance of dazzling orange flowers during June and July. Excellent for Rock Gardens, growing only about one foot high. Treat as a biennial. Pkt. 10c; ¼ oz. 25c.

2735 LINIFOLIUS, Alpine Wallflower. A dwarf variety especially fine for bedding or Rock Garden use. Very free flowering from June to August. Lilac flowers in compact heads, 9 inches tall. Pkt. 10c; ¼ oz. 30c.

Two Fine Perennial Mixtures

3471 Tall Sorts Most desirable varieties for border planting or for cut-flowers. Most all grow 2 to 3 feet tall. Very interesting to grow. Pkt. 10c; ¼ oz. 35c; oz. \$1.00.

3472 For Rock Gardens This mixture includes the varieties that are best for Rock Garden use. All semi-dwarf and low growing and will thrive well in the rockery. Pkt. 20c; ¼ oz. 25c.

VEGETABLE PLANTING TABLE

If you are in doubt about how or when to sow the seed or plant the plants of certain vegetables, this table will give you the required information. Full cultural instructions are given for each vegetable on the page where it is listed. We are always interested in providing any information that will enable our customers to achieve the greatest possible success with their gardens. Caution: Don't cover the seed too deep. It will germinate more quickly if only a little soil is on the seed.

All-America Selections And Other 1936 Vegetable Novelties

Which We Especially Recommend

It is the new and special varieties that help to make your garden of more interest, more pleasure and more profit.

Vegetables for Your Own Table

There is no more satisfactory way of obtaining good fresh vegetables of the best quality for your own use than to grow them in your own garden, and gather them just as you need them. Vegetables begin to lose their tenderness and good flavor very soon after they have been gathered, and when they have lain in the market for a day or even several hours they have lost much of their best qualities. Consider also the convenience of being able to step into your garden and select a nice fresh lot of several varieties just when you are ready to prepare your dinner.

Templin-Bradley's Vegetable Seeds

One of the essentials of a good vegetable garden is good seed. In our selection of varieties and strains within varieties we are looking through the eyes of the planters of vegetable seeds, the home gardeners and commercial growers. Every possible care is taken to provide you gardeners with the finest vegetable seed obtainable.

All-America Have You Been Reading In The Magazines About The All-America Flower & Vegetable Selections?

For the past four years, the All-America Selections Committee of the American Seed Trade Association, have conducted trials of new introductions in ten widely scattered locations in the United States for the purpose of determining the usefulness of all new varieties of seeds offered in this country. Gold Medals, Awards of Merit and Honorable Mention have been distributed on the basis of merit by unbiased judges. All new varieties so honored in the past four years appear in this catalog with the indication of the exact award in the description. This will guide you in keeping your garden up to date on the really worthwhile new things. The purpose of this All-America Selection is to prove the worthiness of a new variety before offering it to you and is therefore directly in your interest.

3516 Bean-Tendergreen All-America Gold Medal 1933. Long round, tender, meaty, light green snap bean of finest flavor. Matures early and the vines are exceptionally strong and vigorous, a delicious Bean. Pkt. 5c; ¼ lb. 15c; lb. 40c; 3 lbs. \$1.00.

3578 Beet-Perfected Detroit All-America Award of Merit 1934. Considered the best strain of blood beet yet created. Early, round, dark red, no white rings. Produced by inbreeding and reselection over a period of 8 years. Pkt. 10c; oz. 25c; ¼ lb. 60c; lb. \$1.50.

3620 Cabbage-Just Right All-America Special Mention 1935. A first early Cabbage with flat-tish round heads and short stems. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25.

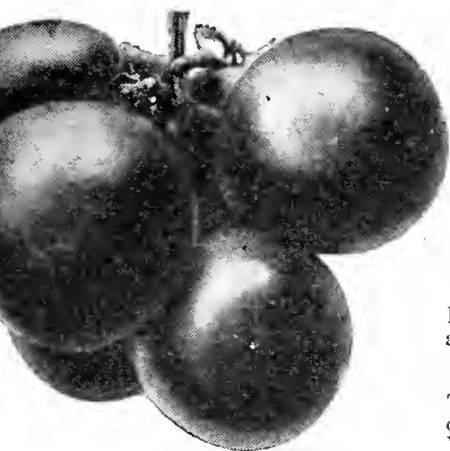

3631 Cabbage-Penn State Ballhead All-America Award of Merit 1934. A short stem dark bluish green Ballhead type, 12 inches high. Heads are extremely hard, heavy, uniformly globe-shaped and with small cores. Pkt. 10c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.35.

3673 Carrot Morse's Bunching All-America Gold Medal 1934. Roots almost cylindrical with rounded shoulders and well stumped, 2 inches in diameter and 9 inches long. Color deep red-orange, roots free from wrinkles. A fine bunching Carrot. Pkt. 8c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

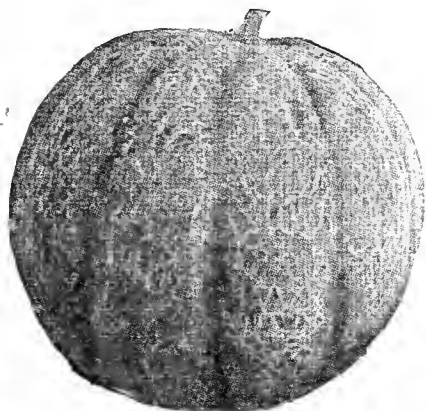

3715 Corn-Golden Colonel All-America 1936 Award of Merit. See Corn in natural color, page 51. A yellow companion to the ever popular Country Gentleman. Identically the same in height, 8 feet, length of ear, 7½ to 9 inches, diameter of ear, 3 to 3½ inches, cylindrical shape of ear, zig-zag, shoe-peg kernel. Golden Colonel was produced by crossing Golden Bantam with Country Gentleman. The results are the delicious flavor and golden color of Golden Bantam and the wonderful shape, size and quality of Country Gentleman. One of the greatest developments in vegetables in recent years. Pkt. 10c; ¼ lb. 25c; lb. 75c; 3 lbs. \$2.00.

3712 Corn-Kingcrost Bantam All-America Special Mention 1934. This is a double cross among four inbred strains. Early and uniform, 4½ to 5 feet tall, yellow grained ears 7½ inches long, 10 to 12 rows each. More uniform and better quality than Golden Bantam. Pkt. 5c. ¼ lb. 15c; lb. 40c; 3 lbs. \$1.00.

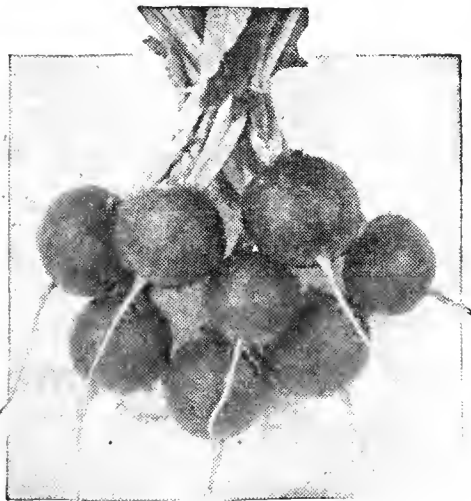

3876 Muskmelon-Imperial All-America Award of Merit 1935. A luscious new melon, orange flesh, excellent flavor. See page 55. Pkt. 10c; oz. 25c; ¼ lb. 70c; lb. \$2.00.

Tomato, Scarlet Dawn

Muskmelon Imperial

Radish, Glowing Ball

3766 Cucumber, Straight 8

All-America 1935 Gold Medal. The most outstanding variety of Cucumber developed during the past decade. Ideal in size, 8 inches long; shape, uniformly cylindrical; color, the desirable deep dark green. Extremely productive, attractive, superior quality. Pkt. 15c.

3854 Lettuce, Creamy Hearts

One of the easiest to head and best quality to eat of all the head lettuce. The heads are medium large, the leaves are thick and buttery yet crisp. Really a splendid home garden variety. Pkt. 5c; Oz. 15c.

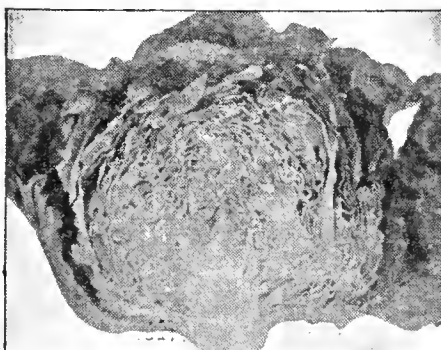

3940 Parsley, Paramount All-America 1936 Award of Merit. Unusually rich dark green, triple curled and the uniformity of plant is most striking. 12 inches high with 20 inch spread. Triangular frond, 4 to 5 inches at base. Pkt. 10c; Oz. 20c; ¼ lb. 50c.

3972 Peas, Giant Early Cropper

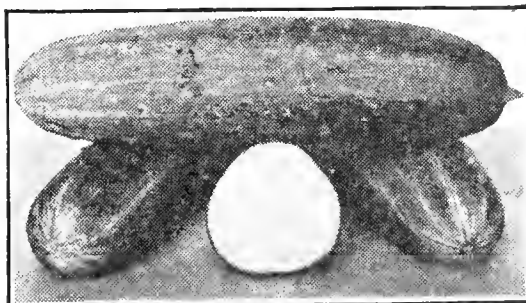

An extra early, very heavy cropping new variety of much merit. The pods are large, dark green, 4 inches long and contain usually 7 large, sweet, light-green peas. Earliness, heavy bearing and fine table quality make this a most desirable variety both as a home garden variety and for market growing. See illustration above. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

4012 Radish, Comet All-America 1936 Award of Merit. This wonderful new Radish is perfectly ball shaped, bright scarlet and with thin tap-roots. If left in the ground, Comet grows a larger size than other strains and still remains solid and crisp when other Radishes become pithy. Pkt. 10c; Oz. 20c.

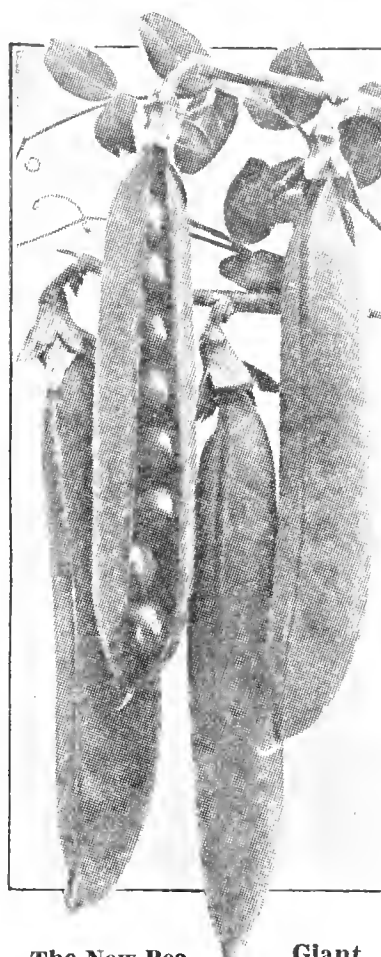

4010 Radish-Glowing Ball All-America Gold Medal 1934. Bright fiery scarlet with a suffusion of orange. Perfectly round, small top and a thread-like tap-root. Recommended by the Royal Horticultural Society. Pkt. 8c; oz. 15c; ¼ lb. 35c.

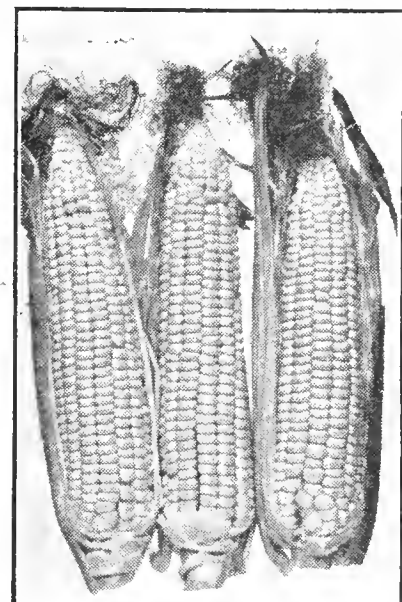

Lettuce, Creamy Hearts

Cucumber, Straight 8

The New Pea Giant Early Cropper

Corn, Kingcrest Bantam

4052 Spinach-Viking

All-America Award of Merit 1935. A meritorious variety, medium to dark green, longstanding, giant leaved. The leaves are smooth in summer but inclined to crinkle in cool weather. Pkt. 5c; Oz. 10c; ¼ lb. 25c; lb. 65c.

4072 Squash, Buttercup A new type of winter Squash. Buttercup is just the right size for the average family, fruits weigh 3 to 5 pounds. Outside color is dark green, the flesh is a rich orange, untinged with green. The texture of the flesh is smooth, the flavor mild like a sweet potato, cooks dry and mealy, without strings. Shape similar to small sugar pumpkin. Pkt. 8c; Oz. 20c.

4101 Tomato, Rutgers ant. An improvement over Marglobe. It was brought out by the New Jersey Experimental Station, where it was the heaviest yielding variety in that territory. Almost round in shape, ripens from the inside out, is bright red and of wonderful quality. You will like it. Pkt. 10c; ½ oz. 40c; Oz. 75c.

4094 Tomato-Scarlet Dawn All-America Gold Medal 1935. Wilt-Resistant, Rust-Resistant. Wonderful new Tomato of deep Marglobe red color, globe-shaped. Ranked second in the All-America trials. Pkt. 10c; ½ oz. 65c; oz. \$1.25.

On This Page Total Value \$1.54 for \$1.25

Beans

TO HAVE PLENTY OF BEANS THROUGHOUT THE SUMMER—A fine idea is to plant both early and late varieties every two weeks from early Spring through the Summer. As most beans are ready to eat in from 45 to 50 days, keep planting just as long as there is that much time left before frost. This will give you plenty of the luscious health-giving beans for your table and for canning from early Summer to late Fall.

CULTURE—Make your first planting as soon as the soil is warm and danger of frost is past. Plant in rows 2 feet apart, dropping the seed 3 to 4 inches apart and 2 inches deep. Cultivate thoroughly but not when the vines are wet.

QUANTITY OF SEED—One pound of beans (except Limas) should plant a 100 foot row, 90 pounds will be required for an acre of ground. Bush Lima beans—one pound will plant 75 hills and 40 pounds will plant an acre.

Dwarf Green Pod Beans

3516 Tendergreen

All-American Gold Medal 1933 (Round pod.) If you want a wonderfully delicious early snap Bean, plant **Tendergreen**. It is long, round, tender, meaty, light green and the finest flavor. Our customers friends tell us it is the best bean they ever ate. It matures early and the vines are exceptionally strong and vigorous. **Pkt. 5c; ¼ lb. 15c; 1 lb. 40c; 3 lbs. \$1.00.**

3510 Full Measure

(Round Pod). One of the best round podded varieties. Yields large quantities (even more than Tendergreen) of fine-grained, large, dark green tender pods. Very good table quality. **Pkt. 5c; ¼ lb. 15c; 1 lb. 40c; 3 lbs. \$1.00.**

Burpee's Stringless

Dwarf Wax Pod Beans

3521 Sure Crop Wax (Oval Round Pod). Certainly one of the best black seeded varieties as it is early, has attractive tender pods 5½ to 6½ inches long, nearly straight and is a "surecropper." **Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.**

3525 Univalled Wax (Oval Flat Pod). A new extra early bean of great value and well named. Long, slim almost transparent, nearly round, only slightly flattened, quite straight, a little curved at tip, very tender. **Pkt. 5c; ¼ lb. 15c; 1 lb. 40c; 3 lbs. \$1.00.**

3526 Wardwell's (Flat Pod). Yields heavy pickings of the finest looking, largest and best quality pods imaginable. Long, straight, broad and golden yellow, fleshy but brittle and fine-grained. Delicious flavor and tender. **Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.**

3530 Stringless White Wax (Flat Pod). Yields heavy pickings of the finest looking, largest and best quality pods imaginable. Long, straight, broad and golden yellow, fleshy but brittle and fine-grained. Delicious flavor and tender. **Pkt. 5c; ¼ lb. 15c; 1 lb. 40c; 3 lbs. \$1.00.**

3522 Webber or Cracker Jack Wax

(Flat Pod). Broad, flat, golden yellow, gracefully curved. In our experience, Webber is invariably ready to pick before any other wax bean and will yield more than any other except Sure Crop Wax. It is very vigorous, healthy and wonderfully productive. **Pkt. 5c; ¼ lb. 15c; 1 lb. 40c.**

3523 Improved Golden

(Flat Pod). Pods perfectly straight, very broad, flat, but thick through, fleshy and stringless. An early abundant cropper. It is a greatly improved strain of the old style Golden Wax. It will pay you to plant this strain of Golden Wax. **Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.**

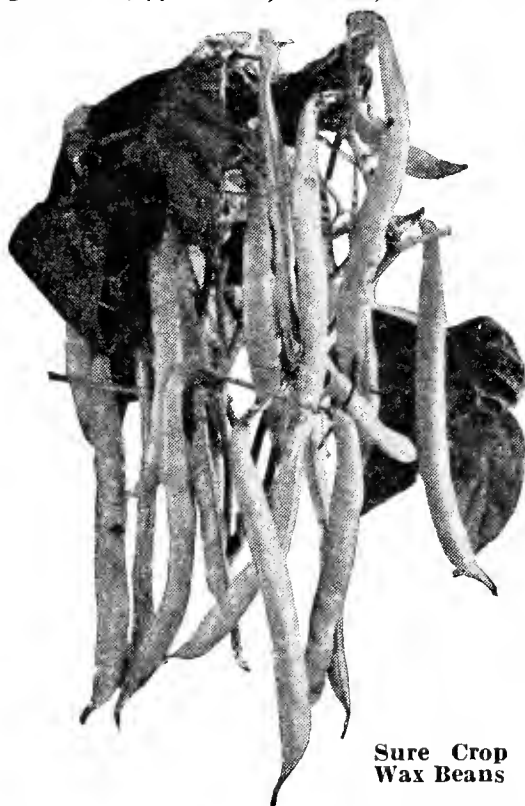

Webber

3507 Burpee's Stringless

(Round Pod). The most popular of the round podded varieties. Early, very productive—pods tender, fleshy and free from strings. Ready in 50 days. **Pkt. 5c; ¼ lb. 12c; 1 lb. 35c.**

3509 Giant Stringless (Round Pod). Similar to Burpee's Stringless, but pods are a trifle longer, straighter, and a shade lighter green. Exceedingly productive. **Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.**

3515 Early Red Valentine (Round Pod). An excellent and dependable early variety. Pods are round, fleshy, of medium green color and average 4½ to 5 inches long. **Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.**

Sure Crop Wax Beans

3527 Stringless Refugee Wax (Round Pod). Tender enough to melt in your mouth and absolutely stringless. Better in all ways than the old Refugee Wax. Early and productive. Round pods 5 inches long, very fleshy and curved. **Pkt. 5c; ¼ lb. 15c; 1 lb. 40c; 3 lbs. \$1.00.**

3528 Pencil Pod Black Wax (Round Pod). The best of the black-seeded wax varieties. Early. Pods large, round, 6½ to 7 inches long, straight and entirely stringless. **Pkt. 5c; ¼ lb. 15c; 1 lb. 40c; 3 lbs. \$1.00.**

3529 Round Pod Kidney Wax (Round Pod). Also called **Brittle Wax**. An excellent variety that deserves much attention. Produces handsome pods 5 to 6 inches long, bright, rich yellow in color and absolutely stringless. For table use this variety is hard to equal, its tender fleshy, yet brittle pods are of the finest quality and are freely produced. Seeds are white with brownish-black eye. **Pkt. 5c; ¼ lb. 15c; 1 lb. 40c; 3 lbs. \$1.00.**

Inoculate Your Beans with Nitragin see page 57

3508 Early Bountiful

(Flat Podded.) Best flat-podded stringless variety. Pods 6½ to 7 inches long, stout, flat and nearly stringless. Color light green. Very early, vigorous, hardy, productive. Fine quality. **Pkt. 5c; ¼ lb. 15c; 1 lb. 45c; 3 lbs. \$1.10.**

3514 Refugee Stringless (Round Pod). A very desirable stringless strain of the popular Refugee. Pods round, light green, stringless and of high quality. **Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.**

3513 Ruby Dwarf Horticultural A good variety for green shell beans, or can be used early as a green pod snap bean. Plants are productive and mature pods are broad five inches or more long, color yellow splashed with red. They are about equal to Limas in quality. **Pkt. 5c; ¼ lb. 15c; 1 lb. 40c; 3 lbs. \$1.00.**

Full Measure

Lima Beans

Two Fine Pole Limas

3546 King of the Garden A favorite with gardeners because of the great size of pods, which contain 4 to 5 very large fine quality green beans. The vines produce continually until killed by frost. An improved strain of Large White Lima. **Pkt. 5c; ¼ lb. 15c; 1 lb. 40c; 3 lbs. \$1.00.**

3547 Siebert's Early Pole Limas, vigorous and remarkably productive of large curved pods about 5 inches long. The beans are very easy to shell and of excellent quality. **Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.**

Dwarf or Bush Lima

3536 New Wonder or Burpee's Improved Bush Lima. The recognized standard of Bush Lima Bean quality. Large robust, compact, plants; productive. Pods uniformly large, produced in clusters and maturing in midseason. Large flat beans of superior quality. **Pkt. 5c; ¼ lb. 15c; 1 lb. 40c; 3 lbs. \$1.00.**

3537 Fordhook The plant is ideal for productivity and disease resistance, bearing the large pods in clusters of 4 to 6 well up above the ground. The pods and beans are of the Potato Lima type, large, thick and handsome. Early, being ready to eat in 75 to 80 days yet productive over a long period. **Pkt. 5c; ¼ lb. 15c; 1 lb. 40c; 3 lbs. \$1.00.**

3538 Henderson's Early The earliest of all Lima Beans—by planting it gardeners in even the northernmost States can enjoy Limas from their own gardens. Pods are small but borne so plentifully that the yield is large. Beans of excellent flavor. **Pkt. 5c; ¼ lb. 12c; 1 lb. 35c; 3 lbs. 90c.**

3501 Asparagus, Mary Washington

This is the best of the newly developed Rust Proof varieties, and is recommended by the U. S. Dept. of Agriculture. It is a selection from Martha Washington and produces large straight tender green stalks of excellent quality. **SEED.** Asparagus is not hard to grow. Start seed in early spring, covering an inch deep. Cultivate well during the summer, transplanting the roots to their permanent bed the following spring. One ounce should sow a 60 ft. row and produce 200 to 300 plants. **Pkt. 10c; Oz. 15c; ¼ lb. 30c; 1 lb. 75c.**

Field or Baking Beans

3552 New Robust The best white bean for baking. Also called "1000 to 1" Field Bean. The dry beans are the same shape and color as the popular Boston Pea Bean, but it has been proven by Experimental Stations that the New Robust out-yields all other white beans. **Pkt. 5c; ¼ lb. 10c; 1 lb. 30c; 3 lbs. 75c.**

3555 White Marrow Large, plump, oval-shaped, white beans for baking. Vigorous vines that are very productive of the highest quality beans. **Pkt. 5c; ¼ lb. 10c; 1 lb. 30c; 3 lbs. 75c.**

3553 White Kidney Also called **Royal Dwarf**. Produces large upright plants, bearing plenty of pods, which are dark green and about 6 inches long. Seed large, white, kidney-shaped and of excellent quality. Use as green, shelled or dry. **Pkt. 5c; ¼ lb. 10c; 1 lb. 30c; 3 lbs. 75c.**

3554 Red Kidney Quite like White Kidney except that the beans are deep red in color. **Pkt. 5c; ¼ lb. 10c; 1 lb. 30c; 3 lbs. 75c.**

Pole or Cornhill Beans

CULTURE—Same as bush lima beans except that they must be provided with something to climb upon. If planted in hills, poles will answer the purpose, or if planted in rows a continuous wire or heavy twine trellis is good. Pole Beans yield many more pods per plant than dwarf varieties. One pound will plant 100 hills.

3557 Kentucky Wonder or **Old Homestead.** The most satisfactory of all the green podded Pole Beans. Early, wonderfully prolific, bearing continually until frost. Long pods in clusters. May be planted with corn. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3563 Kentucky Wonder Wax One of the earliest and most productive of the wax Pole Beans. Pods 7½ to 8 inches long, thick, fleshy and brittle. Light yellow, seed chocolate brown. Pkt. 5c; ¼ lb. 15c; lb. 40c; 3 lbs. \$1.00.

3558 Golden Cluster Wax A splendid Wax Pole Bean. Pods 6 to 8 inches long, golden yellow, thick, fleshy and stringless. White seeded. Pkt. 5c; ¼ lb. 15c; lb. 40c; 3 lbs. \$1.00.

3559 Lazy Wife Popular for snaps, shell beans or for beans for winter use. The pods are borne in clusters, long, broad, thick, fleshy, green pods, white seed. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3561 Horticultural Cranberry Wren's Egg. Used for shell beans, either green or dry. Dry seed speckled. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3562 Yard Long Asparagus Bean. An interesting novelty from the old country. Long, slim, round pods, often 2 to 3 feet long. The pods are edible. Pkt. 10c.

Golden Cluster Wax Bean

Beets

GROW YOUR OWN BEETS—Root crops give more food value for the space occupied than any other vegetable. Beets are the most popular of all root crops. Beets may be stored for winter use. Best of all, the small beets pulled and used soon after, are much sweeter and more tender than any you could buy. Try some buttered tender baby beets from your own garden this year. Make at least two plantings of beets so that you have plenty for early use and for winter storage as well.

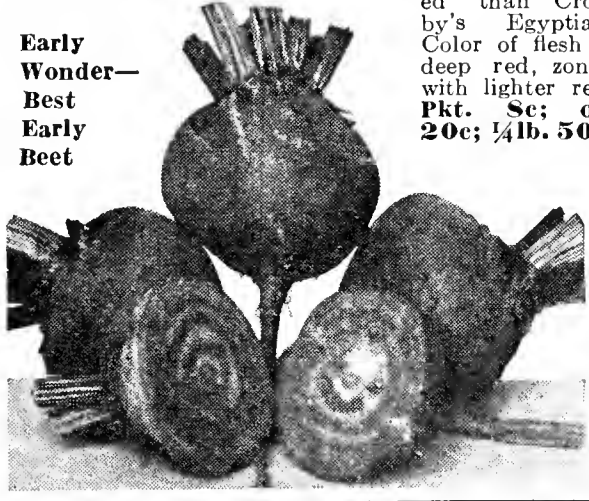

3576 Detroit Dark Red The most popular of all beets. Detroit makes a beautiful appearance served on the table or bunched for market, as it retains its deep red color. A big cropper with small upright tops, permitting close planting. The roots are globe shaped, see picture at left. Skin and flesh dark, blood red with very little lighter zoning. An excellent winter keeper. Pkt. 5c; oz. 20c; ¼ lb. 50c.

3578 Perfected Detroit All American 1934.

An improved strain with which we are coming close to perfection in uniformity of size and shape of roots and extreme depth of color. Pkt. 10c; oz. 25c; ¼ lb. 60c.

3571 Early Wonder A fine beet for extra early or very late planting as it produces edible roots quickly. Slightly more rounded than Crosby's Egyptian. Color of flesh is deep red, zoned with lighter red. Pkt. 5c; oz. 20c; ¼ lb. 50c.

Early Wonder—Best Early Beet

3579 Extra Early Egyptian One of the very earliest, especially valuable for forcing for early market. Tops small, roots distinctly flat and moderately thick. Flesh dark red with lighter zones. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.00.

3580 Edmand's Blood Turnip Roots round, dark red. Flesh purplish-red with very little zoning. Pkt. 5c; oz. 15c; ¼ lb. 40c.

3573 Crosby's Egyptian An improved strain of old Egyptian and now the standard for early market. The roots are flattened globe shaped (see picture below). Skin deep red, flesh slightly zoned. This strain of Crosby's Egyptian is suitable for the most critical market gardeners planting. Much extra work has been done on this to perfect uniformity in shape and color of roots. Pkt. 5c; oz. 15c; ¼ lb. 40c.

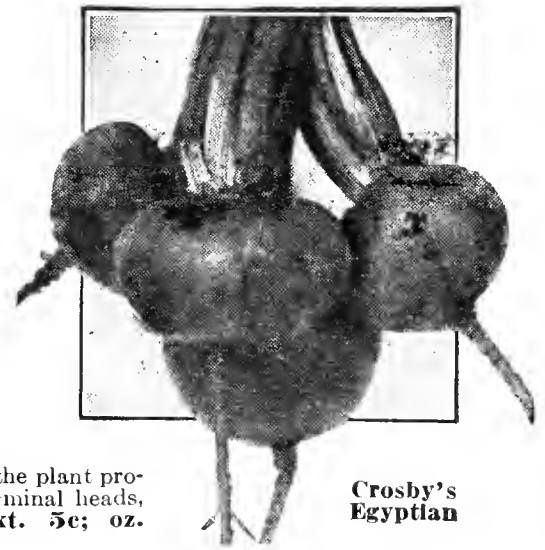

Broccoli, Hardy Cauliflower

3601 Large White Broccoli A vegetable very similar to Cauliflower, but harder and less particular of conditions. Produces large white compact heads, tender and of delicate cauliflower flavor. Grow like Cauliflower. Pkt. 10c; oz. 50c; ¼ lb. \$1.50.

Italian Green Broccoli

3602 Italian Green Sprouting A distinct variety and a vegetable that has become very popular. Served as Asparagus it is very tasty, some considering it better than Cauliflower, yet it is easier to grow than Cauliflower. Grows quickly producing a cauliflower-like bluish green head in about 90 days. After the head is removed the plant produces branches bearing smaller terminal heads, which may also be used. Pkt. 5c; oz. 40c; ¼ lb. \$1.25.

Crosby's Egyptian

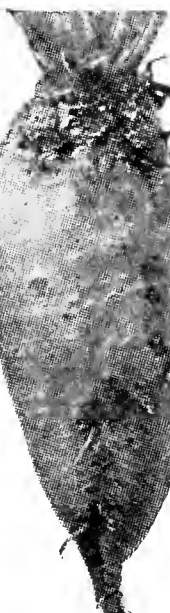

Mangel Beets for Poultry and Stock

QUANTITY OF SEED. One ounce should sow a 75 to 100 ft. row. 5 to 6 pounds an acre.

3586 Mammoth Long Red The heaviest yielding of all mangels, often 2½ ft. long and very heavy. Grows half out of ground, easy to harvest. Oz. 8c; ¼ lb. 20c; lb. 60c.

3589 Danish Sludstrup Produces large oval orange colored roots that grow more than half above ground. Flesh white tinged yellow and of extremely high sugar content. An unusually valuable dairy beet. Oz. 10c; ¼ lb. 25c; lb. 65c.

3588 Giant Half Sugar The richest of all mangels in sugar content and feeding value. Ready to harvest earlier than others. Skin rose colored; flesh white. Oz. 10c; ¼ lb. 25c; lb. 65c.

Sludstrup

Brussels Sprouts

3612 Long Island Improved

Small heads of delicious quality are abundantly produced along the stem, the plants growing about 2 ft. high. Cultivate same as late cabbage. Produces tender little heads from October to December. Pkt. 5c; oz. 25c; ¼ lb. 75c; lb. \$2.00.

Brussels Sprouts

Swiss Chard or Spinach Beet

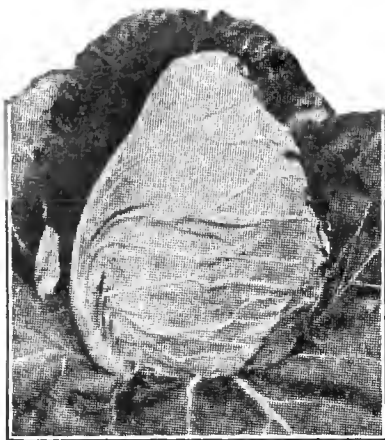

No other vegetable will produce more nutritious greens from a small space than Swiss Chard. It grows rapidly forming large leaves with broad flesh stems and mid-ribs. Sow the seed in April or May and thin the plants out to stand 1½ ft. apart.

3596 Lucullus Has very large heavily crumpled, thick leaves and creamy white stalks. Pkt. 5c; oz. 15c; ¼ lb. 35c.

3597 Large White Ribbed Dark Green. Has enormous leaves not quite as crumpled as Lucullus and pearly white stalks extremely thick and broad. Pkt. 5c; oz. 20c; ¼ lb. 45c.

Swiss Chard

Early Jersey Wakefield

leaves allows close planting so many heads can be grown in small space. Has a pleasing flavor, distinct from the round head varieties and we strongly recommend it for the home garden. Pkt. 5c; oz. 30c.

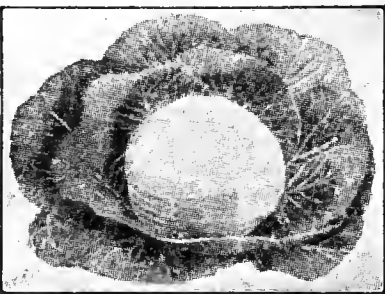

3616 Golden Acre The earliest round headed variety, forming a good solid round head one week earlier than Copenhagen market. Absence of large outer leaves permits close planting. Pkt. 5c; oz. 40c.

3620 Just Right All-American 1935 Special Mention. A first early, flat-tish round, short stemmed variety. See Page 45. Pkt. 10c; ½ oz. 25c; oz. 40c.

3631 Penn State Ballhead All-American 1934 Award of Merit. Short stemmed variety, large, hard, solid, blue-green flattened globe. See Page 45. Pkt. 10c; ½ oz. 25c; oz. 45c.

3619 Copenhagen Market The standard early round variety, only a few days later than Wakefield, but much larger and heavier. Heads averaging 8 to 10 lbs. each. Very compact in habit, with few outer leaves, which permit close planting. Earliness, compact growth, large heads and superior quality have made this cabbage very profitable. Pkt. 5c; oz. 25c.

3621 Glory of Enkhuisen A round, solid head and early but about one week later than Copenhagen Market. Matures in about 90 days. A very profitable cabbage both for the early market and for Fall use. Desirable variety for Kraut making. Heads medium sized, close leaved and very good keepers. Pkt. 5c; oz. 25c.

Copenhagen Market

Red Cabbages

3636 Red Delicious Early. This is the earliest of all red cabbages and yet it has hard, solid heads, round and very uniform. A delicious cabbage to eat and attractive in color. Pkt. 10c; ½ oz. 25c; oz. 45c.

3637 Mammoth Rock Red Late. The largest and surest heading late Red Cabbage. Deep red in color at the heart. Large, vigorous plant, very hardy with medium length stem. A favorite for coldslaw. Pkt. 5c; oz. 35c.

Chinese Cabbage

While not a true cabbage this vegetable is as easily grown as the true cabbage, and is considered by many superior in quality. It resembles celery to some extent in its habits of growth as well as in flavor. Much esteemed for salads. Sow either early for spring crop or in late summer for fall crop.

Chihli Cabbage

3648 Chihli Produces a long slender head 15 to 18 inches tall, solid and crisp. This is a self-folding variety and hearts are well blanched tender and sweet. Early and very sure heading. Superior to Pe-Tsai. Pkt. 5c; oz. 25c.

3647 Wong-Bok

Shorter and much thicker heads only 8 to 10 inches long, but firm and tightly folded. The thick hearts are full, crisp, and tender and of excellent quality. A self-folding variety. Much esteemed for salads. Pkt. 5c; oz. 25c.

Cabbage—Selected Strains

Many inferior strains of Cabbage are offered on the market at low prices because prices on the super-selected strains seem high. However, in Cabbage seed, the best is the cheapest in the long run. Therefore, we offer only the highest quality that it is possible to obtain from the most reliable growers.

CULTURE—Sow the seed of early varieties in hot beds or boxes indoors in February and March, transplanting to the open ground in April and May at which time seed of the mid-season varieties may be sown for later transplanting. Seed of the late varieties should be sown in good garden ground early in May and transplanted later. Cabbage should stand 18 to 24 inches apart in rows 30 to 36 inches apart. Cabbage should be thoroughly cultivated throughout the season.

QUANTITY OF SEED. An ounce should produce about 2,500 plants, ¼ lb. enough for one acre.

Early Cabbages

3617 Early Jersey Wakefield This is the most popular of the pointed heads. It forms an edible head very early, about the same as Golden Acre in season. The absence of large spreading outer leaves allows close planting.

Late Cabbages

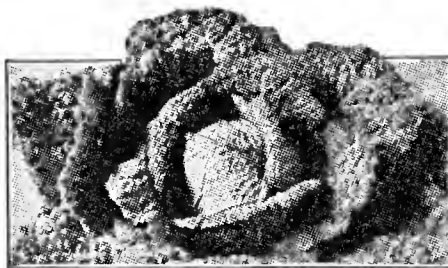

3626 Danish Ballhead For quality, no other winter cabbage equals Ballhead. It is a sure header, very heavy, solid and fine grained. Always brings the highest market prices. One of the best keepers, coming out of the pit in March or April fresh and solid. This is the short stemmed strain which is considered the most desirable. Pkt. 5c; oz. 35c.

3641 Drumhead Savoy Many consider Savoy the finest quality of all cabbages. The leaves are finely curled and the heads solid. If you have never grown Savoy Cabbage, try it this year, you'll like it immensely. Pkt. 5c; oz. 25c.

3630 Early Flat Dutch An early and especially fine Flat Dutch, 10 days to 2 weeks earlier than Premium Flat Dutch. Heads are round, flat and very solid and average a little smaller than the Premium Flat Dutch. It is a very good keeper. Stems are of medium length. Pkt. 5c; oz. 25c.

3628 Premium Late Flat Dutch Probably more than any other late variety, because everybody knows it is always reliable. Uniform, large flattened heads of fine quality and a good keeper. Largely, grown to supply Kraut factories. Beats all others in tonnage per acre. Pkt. 5c; oz. 25c.

3622 All Head Early As early as most of the early summer cabbages; the deep, flat heads are remarkably solid and uniform in color as well as in shape and size. Also makes a fine winter cabbage if planted late and a splendid sort for kraut-making. Pkt. 5c; oz. 20c.

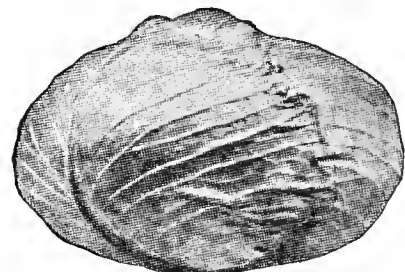

Drumhead Savoy

Disease Resistant Cabbage

In sections where Cabbage "Yellows" is damaging, it pays to plant strains bred for disease resistance. The seed of the two disease-resistant varieties listed below, is gathered from plants grown on diseased soil and which proved immune.

3623 Marion Market Early. This is the disease-resistant Copenhagen Market. It is a few days later but otherwise it has all the good points of that variety. Pkt. 10c; ½ oz. 30c; oz. 50c.

3629 Wisconsin No. 8 Hollander Late. A "Yellows" disease-resistant strain of the popular Hollander, being slightly larger and more leafy than the parent. The heads are round or somewhat flattened and more solid, with splendid keeping qualities. Especially valuable in sections where cabbage plants are effected by "Yellows" disease, as it is practically 100% immune. Pkt. 10c; ½ oz. 25c; oz. 45c.

Premium Late Flat Dutch

3742 Chives

Cauliflower

Many inferior strains of Cauliflower are offered on the market because prices of the best super-selected strains seem high. However in Cauliflower seed, the best is by far the cheapest in the long run and we offer you only the best that our growers can produce. We could have Cauliflower seed grown for us at half the prices but you would not get half as good results.

CULTURE—Cauliflower is grown much the same way as early Cabbage, the seeds started in hotbeds or boxes in February or early March. An extra transplanting into other boxes or cold frames before setting outdoors is beneficial. In these set 2 inches apart each way. When the heads begin to form gather the outer leaves and tie together to protect from the hot sun.

QUANTITY OF SEED. One ounce will produce 2000 plants, 5 ounces an acre.

3651 Early Snowball, "Super" Strain

Snowball is the earliest and best for the home gardener who has rich, moist soil, for market and for the greenhouse grower. The plants are compact, with closely growing outer leaves, heads solid, medium large and snowy white. Pkt. 15c; ¼ oz. 50c; ½ oz. \$1.50; 1 oz. \$2.75; 2 ozs. \$4.50; ¼ lb. \$8.00.

3652 Dry Weather or Danish Giant

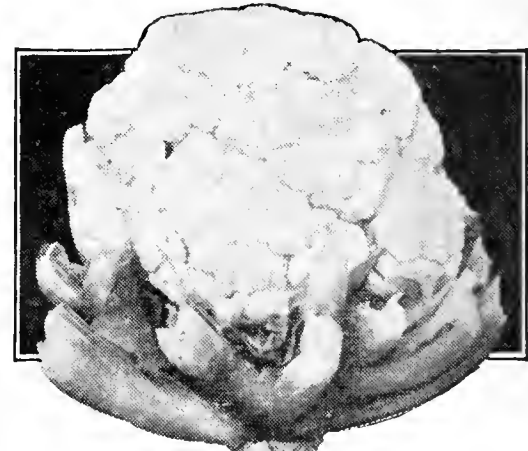

This is a valuable strain that possesses the quality of forming good heads on dry soil and during stretches of dry weather, when other varieties fail. The head is beautiful, large, snow white and is protected by large leaves making it easier to "whiten" than Snowball. Only a trifle later than Snowball, perhaps not quite as good for greenhouse growing, but a wonder for the open ground. A sure header. Pkt. 12c; ¼ oz. 40c; ½ oz. \$1.10; 1 oz. \$2.00; 2 ozs. \$3.50; ¼ lb. \$6.00.

A small perennial plant of the onion family, readily propagated from seed. The leaves have a delicate onion flavor and are much used in salads and for flavoring soups, stews, etc. Plant forms a small clump which produces an abundance of foliage for frequent cutting. Pkt. 8c; ¼ oz. 25c; oz. 75c.

"French Endive" or

3739 Witloof Chicory Grow your own Winter Salad.

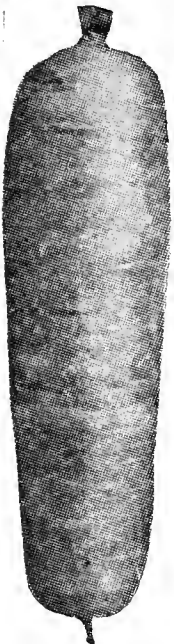

This French Endive or Witloof Chicory is a most delicious and appetizing salad and is easily grown. Sow the seed in the open June 1st and lift the roots in the fall. For forcing, pack the roots closely together in boxes and cover with 6 inches of sand or light earth, water and place near heater to keep warm. When sprouts break through the surface, they are ready for the table. Serve with French dressing. Pkt. 5c; oz. 30c; ¼ lb. 85c.

Early Snowball Cauliflower

Chantenay Carrot

Scarlet Nantes

Carrots

Grow Your Own and Enjoy Their Lusciousness

Carrots deserve a space in your garden. In fact make several plantings so that you can have some early, midseason and late.

CULTURE—For the earliest crop sow seed in April, as soon as the soil is in good workable condition. Later plantings can be made in May and June. The soil should not be heavily fertilized, especially with manure. Cover the seed about $\frac{1}{2}$ inch deep, spacing the rows 12 to 16 inches apart. It is important to thin the plants to stand not closer than 3 inches. Give frequent hoeing and cultivation. Carrots pulled just as soon as sizeable are at their best, without a hard core.

QUANTITY OF SEED. One ounce should sow a 200 ft. row, 2 to 3 lbs. an acre.

3666 Chantenay or Model The name suits this variety as it is a model all around carrot. The illustration is typical of its shape and it is smooth, fine grained, of very good eating quality. When fully developed the roots are about 6 inches long and $2\frac{1}{2}$ inches in diameter at the shoulder. Though a medium early variety the roots may be pulled while small so it gives you baby carrots with the earliest. An excellent fall and winter keeper. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c.

3670 Red Cored Chantenay

Also called "Coreless" Chantenay. A selection from the regular Chantenay with decidedly deeper orange color and with small, very tender cores of almost uniform color with the surrounding flesh, making it very desirable for salads or dicing. Size and shape very similar to the regular Chantenay and very uniform in size and appearance. Pkt. 8c; oz. 15c; $\frac{1}{4}$ lb. 40c.

3667 Scarlet Nantes

One of the best table carrots, tender and delicious. Nantes is half-long or stump rooted, but instead of tapering like Danvers it is cylindrical in shape and grows about 6 inches long, slender and fine looking. The flesh is orange red, fine grained and free from hard fibre or core. Pkt. 8c; oz. 15c; $\frac{1}{4}$ lb. 40c.

3671 Long Orange

An excellent, heavy producing, intermediate-season variety. Roots 10 to 12 inches long about $2\frac{1}{2}$ inches broad at the shoulder, tapering regularly to a point. Color deep orange. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00; 5 lbs. \$4.25.

3672 Imperator A beautiful Carrot of deep, rich orange. Long, and smooth with sloping shoulders and tapered to semi-blunt end. 7 to 8 inches long. The orange flesh is tender and with indistinct core. Of excellent table quality and with the attractiveness to make it a splendid market and shipping variety. The tops are strong enough for good bunching. Pkt. 8c; oz. 15c; $\frac{1}{4}$ lb. 40c.

All-American
Award of Merit
1933

3664 Oxheart or Guerande A splendid second early variety of short stocky shape two to three inches in diameter and with abrupt blunt tip making it an excellent variety for shallow or heavy soils. Keeps well in storage holding its quality well, and is a very heavy yielder often producing 15 to 20 tons per acre. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c.

3662 Danvers Half-Long The roots average $1\frac{1}{2}$ inches in diameter and 5 to 6 inches long, holding their thickness well to the point. A favorite with market gardeners for bunching as size, shape, color and sweetness are ideal. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c.

All-America Selections and
Vegetable Novelties Page 45

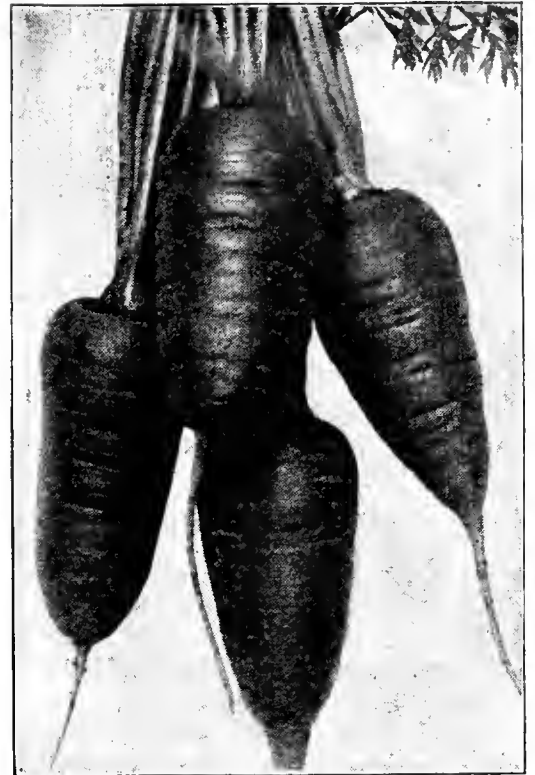

3668 Orange Coreless This is a beautiful carrot for the home garden and market. In shape it is quite like Nantes but a trifle more tapering, smooth, 7 to 8 inches long and $1\frac{3}{4}$ to 2 inches across at the shoulder. On real good deeply worked soil the roots are longer (10 to 12 inches). Color is orange red. This carrot is a remarkably good keeper, yet is tender, with a very small core (practically coreless). Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 55c.

3673 Morse's Bunching

All-American
Gold Medal
1934

A new type developed to fill a demand for a longer and better colored bunching Carrot. Roots are almost cylindrical with rounded shoulders and well stumped, 2 inches in diameter and 9 to 10 inches long. Color deep red-orange, roots free from wrinkles. Pkt. 8c; oz. 15c; $\frac{1}{4}$ lb. 40c.

3676 Mastodon or Giant White Best and largest stock and poultry feed Carrot grown, and wonderfully heavy yielder. It grows partly out of the ground, making it easy to harvest. Oz. 10c; $\frac{1}{4}$ lb. 30c; lb. 90c.

Danvers Half-Long Carrot

Orange Coreless Carrot

Celery

CULTURE—Sow seeds early in hotbed or cold frame. As soon as the plants are about 3 inches high, transplant to a nicely prepared bed in the border, or to boxes, setting them 4 to 5 inches apart. When about 8 inches high, and stocky, set them out 6 to 8 inches apart in rows 3 ft. apart and cultivate well during summer. Earth up for blanching in autumn, but never hoe or earth up when the foliage is moist or wet. The late crop may be set out in July.

QUANTITY OF SEED. One ounce should produce 5000 to 7500 plants, 4 ounces enough plants for an acre.

3686 Golden Detroit A selection from Dwarf Golden Self-Blanching which brings out the good points of that variety and eliminates the faults. Plants heavy, compact and full hearted. Especially valuable for shipping. Pkt. 10c; $\frac{1}{2}$ oz. 30c; oz. 50c.

3681 Golden Plume or Wonderful Golden Plume or Wonderful is really a wonderful new celery. It grows quickly, produces semi-dwarf, heavy stalks, thicker than Self-blanching, with a well blanched solid heart. The color is a beautiful golden, and the flavor is par excellence. Not a winter keeper or long shipper, but excellent for nearby markets and home garden. Pkt. 10c; $\frac{1}{2}$ oz. 35c; oz. 60c.

3682 Dwarf Golden Self-Blanching Original Strain. It is growth, with thick, heavily ribbed stalks, which blanch easily to a clear waxen yellow. More extensively grown for both home and market than any other variety. Original strain, best quality. Pkt. 8c; $\frac{1}{2}$ oz. 25c; oz. 40c.

3684 White Plume The earliest and most easily blanched celery in cultivation, hence its popularity. Foliage light green shading to nearly white at tips. Blanches silvery white. Pkt. 5c; oz. 25c.

3685 Giant Pascal A standard fall and winter variety of vigorous, compact growth. Stalks short, thick and broad. Excellent quality for home use, but too tender to stand shipping. Golden yellow heart, and fine nutty flavor. Pkt. 5c; oz. 25c.

3693 Celeriac, Large Smooth

Prague Turnip-rooted Celery. The large, solid, turnip-like roots are highly esteemed for serving like parsnips or turnips or flavoring soups, etc. For winter use store same as turnips. Pkt. 5c; oz. 25c.

Celery, Giant Pascal

Celery, Golden Plume

Celeriac

Cress

3749 Cress Curled or Pepper Grass. Grown extensively as a small salad plant. Sow thickly in rows 1 ft. apart. Ready for table in 30 days so make successive sowings. The leaves are finely cut and feathery with a very refreshing pungent flavor. Pkt. 8c; oz. 15c.

3750 Water Cress A hardy perennial water plant, the leaves of which are used for salads or garnishing. May be grown in a stream of water or small pond. Full directions are printed on each packet. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 40c.

3746 Corn Salad or Fetticus A delicious salad plant for late fall, winter or spring use. The plant somewhat resembles Spinach, and is just as easy to grow, being of quick growth and hardy. The leaves form a compact rosette. The leaves are made tender by frost. Serve as Lettuce, or cook like Spinach. One ounce will sow a 50 foot row. Pkt. 8c; oz. 20c; $\frac{1}{4}$ lb. 60c.

3781 Dandelion Improved Thickleaved

This sort is much better than the common cultivated Dandelions, being very thick in leaf and of a deep green color. Grows into an upright compact tuft of leaves, easy to bunch and tie for blanching. Pkt. 8c; oz. 50c; $\frac{1}{4}$ lb. \$1.50.

Early Mayflower

3712 Kingcross Golden Bantam See Novelty page 45. All-American 1934.

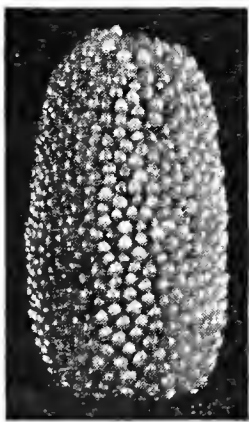

3700 Golden Bantam The good quality of Golden Bantam is too well known to need long description. Our sales of the past few years show it to be the most popular variety we list. Ears 6 inches long, with 8 rows of broad kernels as sweet as honey. Pkt. 5c; ¼ lb. 10c; lb. 30c; 3 lbs. 80c.

3708 Golden Giant This valuable Golden Sweet Corn was introduced to combine size and earliness. It is a cross between Golden Bantam and Howling Mob, producing heavy stalks, usually carrying two 12 to 14 rowed ears. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3697 Wonder Bantam A larger, more prolific type of the favorite Golden Bantam. Ears are 8 to 10 inches long and are borne higher on a sturdy stalk. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3710 Whipple's Early Yellow This variety is shown on the front cover. Ears large, 8 to 10 inches long having 14 to 16 rows of deep, tender kernels of very fine eating quality. Ready to use only a few days later than Golden Bantam—larger eared and more productive. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3719 Golden Evergreen The product of a cross between Golden Bantam and Stowell's Evergreen, this variety combines the fine flavor and quality of the Bantam with the size and uniformity of the Evergreen. Producing 7 to 8 inch ears of 12 to 14 rows of rich golden yellow kernels. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

Japanese Hulless

attractive ears, peculiar in form, being nearly as thick as long. The kernels are similar to the best strain of White Rice, only longer and slimmer and pearly white in color, but its crowning merit lies in its popping quality, fine flavor and absence of hull or shell. Pkt. 5c; ¼ lb. 10c; lb. 30c; 3 lbs. 75c.

3732 South American Mushroom Also called T.N.T. or Dynamite. A sensational new variety of Pop Corn, that has met with immediate popularity. Of vigorous growth, 6 to 8 feet tall producing two and often three ears, 8 to 9 inches long of deep orange kernels, smooth and round, which pop larger than any corn known, and of a rich creamy yellow, deliciously tasty. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 80c.

3734 Golden Baby Rice or Golden Hulless. An excellent small-kernelled variety of pop corn which pops entirely hullless, large and flaky. Of finest quality and flavor. Ears medium short and stocky with closely arranged kernels of a rich golden yellow color. Pkt. 5c; ¼ lb. 10c; lb. 25c; 3 lbs. 65c.

3728 Mammoth White Rice Standard white variety, early and heavy yielding but in quality, superseded by Japanese Hulless. Pkt. 5c; ¼ lb. 10c; lb. 30c; 3 lbs. 75c.

3730 Queen's Golden Standard yellow kernelled variety that pops out creamy white. Pkt. 5c; ¼ lb. 10c; lb. 30c; 3 lbs. 75c.

Sweet Corn

DO YOU KNOW WHY HOME GROWN SWEET CORN ALWAYS TASTES BEST? Because within a few hours after the tender ears are pulled off the stalk they begin to lose their sugar and they rapidly deteriorate in flavor. You can seldom buy absolutely fresh sweet corn—so unless you have grown your own, you probably do not realize how deliciously sweet it can be.

Culture. A constant supply of sweet corn may be had from your garden by planting a succession of early, midseason and late varieties and by planting each of the kinds every week or ten days. Plant after all danger of frost is past and the ground is warm, in rows 2 to 3 feet apart and 8 to 10 inches apart in the row. Corn likes frequent cultivation until the ears are formed.

Quantity of Seed. 1 lb. will plant about 300 hills or 400 to 500 feet of row. 12 to 15 lbs. will plant an acre.

3713 Bradley's Golden Early Market The earliest large true sweet corn of golden color. The ears are of good size, 12 rows, 7 to 8 inches long, well filled with broad butter-yellow kernels. Plenty of good qualities—early, yellow, large and delicious. Pkt. 5c; ¼ lb. 15c; 1 lb. 40c; 3 lbs. \$1.00.

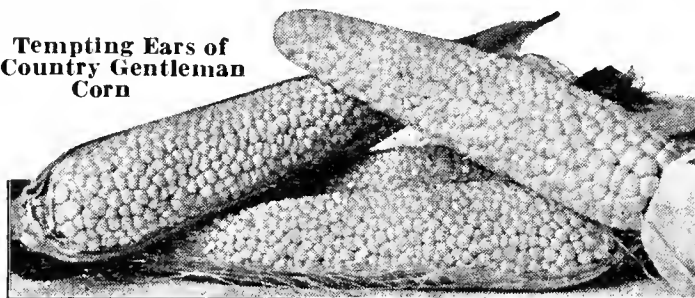

Yellow Varieties

3705 Golden Gem The earliest yellow or golden eared corn, being one week earlier than Sunshine, of more dwarf habit and producing a sweet, 8 rowed ear equal in size to Golden Bantam, although two weeks earlier. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3701 Early Golden Sunshine

Has good sized 12 rowed ears 7 to 8 inches long and is one week to 10 days earlier than Bantam. Sunshine was developed at North Dakota Experiment Station, where earliness and hardiness are necessary qualifications. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

Tempting Ears of Country Gentleman Corn

3715 All-America Sweet Corn
Asgrow Golden Colonel

Yellow Companion to Country Gentleman. See Listing on Novelty Page 45. Pkt. 10c; ¼ lb. 25c; 1 lb. 75c; 3 lbs. \$2.00.

Listing of Varieties. We have listed all the varieties of sweet corn in the order of earliness. Of course the length of time from planting to the edible stage varies with conditions, but the listing is as accurate as possible.

White Varieties

3696 Early Mayflower The ears are surprisingly

large for an early variety, averaging 10 rows of the tender sweet kernels and about 7 inches long. It is of excellent quality. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3698 Mammoth White Cory

The old favorite extra early sweet corn. Ears 10 to 12 rowed, 7 to 8 inches long, fairly sweet, tender and white. Stalks about 4 feet high, usually producing two nice ears on each stalk. Pkt. 5c; ¼ lb. 10c; lb. 30c; 3 lbs. 80c.

3709 Black Mexican By many considered the tenderest and sweetest of all. Cooks pure white while young and tender, turning to bluish-black when ripe. Ripens medium early. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3720 Early Evergreen A very desirable home and market garden sort about one week earlier than Stowell's Evergreen. Ears average 7½ to 8 inches long, with 14 to 16 rows of white kernels, deeper and slightly narrower than Stowell's. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3716 Country Gentleman Or "Shoe Peg." A well known variety which is par excellence when quality is desired. The kernels are so deep that there is little room left for cob. Market gardeners who supply hotels and high class restaurants depend on this for their main crop. The ears are 6 to 7 inches long, small white cob. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3718 Stowell's Evergreen Select Strain. The standard main crop variety, much used for the home garden, market and canning. It is very tender and sugary, remaining in condition a long time. Our stock is the true deep, broad kernelled strain. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

Egg Plant

CULTURE—Egg plant likes rich moist soil. Start seed early in hot beds or boxes and transplant once before setting out in the open ground, which should not be until the ground is thoroughly warm. In the garden the plants may be set 2 feet apart in the rows which are 2½ to 3 ft. apart.

QUANTITY OF SEED. One ounce should produce 1500 to 2000 plants, 4 ounces enough for an acre.

3784 New York Spineless The best main crop variety about 10 days later than Black Beauty, but larger and more prolific. Each plant often bears 8 to 10 nice "Eggs" of deep rich purple. Fruits perfectly spineless. Our strain of seed is of Superfine Quality. Pkt. 5c; ¼ oz. 18c; oz. 50c; ¼ lb. \$1.50.

3785 Black Beauty The earliest good variety, so best for the Northern States. A dwarf growing variety bearing fruits 2 to 3 lbs. in weight. Holds the dark purple color for a long time. About 10 days earlier than New York and not quite as large. Pkt. 5c; ¼ oz. 18c; oz. 50c; ¼ lb. \$1.50.

Extra Long Green Cucumber

Cucumbers

DO YOU LIKE SLICED CUCUMBERS IN HOT WEATHER? When you can go out in your garden and pick a few nice slicers just before meal time, they taste ever so much better than those purchased outside.

CULTURE—A light warm soil is best for Cucumbers, although they will do very well in most any good well drained garden soil. After all frost danger is past sow the seed in hills 4x4 or 4x6 feet apart. Cover ½ inch deep planting 8 to 10 seeds in each hill. Later when the danger of insects is over remove all but 3 or 4 of the strongest plants.

QUANTITY OF SEED. One ounce should plant about 50 hills, 2 lbs. an acre.

A Splendid Slicer

A Basket of Improved White Spine Cucumbers

Best Pickling Cucumbers

3780 National Pickling A superior strain of pickling cucumber developed by the Michigan Agricultural College under the supervision of the National Pickle Packers Assn. Fruits straight and symmetrical, 6 inches long when mature. Pkt. 5c; oz. 15c; ¼ lb. 50c.

3775 Jersey Pickle Very prolific and exceedingly popular. Largely planted for pickles. The fruits are short, smooth, light green and of excellent quality. We recommend Jersey Pickle for the home garden, as it is a good slicer as well as a pickler. Has tapering ends. Pkt. 5c; oz. 15c; ¼ lb. 50c.

3776 Chicago Pickle Meets the most exacting requirements of critical pickle makers. It is the right size, shape and color, and is a heavy yielder. Has square ends. Pkt. 5c; oz. 15c; ¼ lb. 50c.

3774 Express Pickler Express is the earliest picking cucumber, bearing a remarkable number of small uniform fruits. Only 3½ to 4 inches long when fully grown. Pkt. 5c; oz. 20c; ¼ lb. 60c.

3777 Boston Pickle Green Prolific. A short fairly smooth symmetrical variety, extremely early and productive. Pkt. 5c; oz. 15c; ¼ lb. 50c.

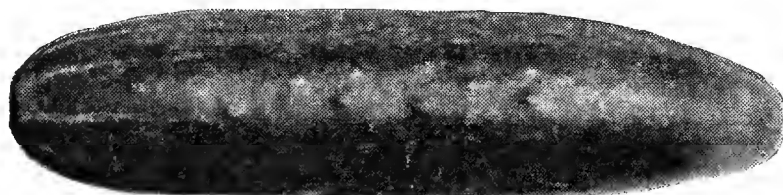

Standard Slicing Varieties

3756 Improved White Spine The standard and universally satisfactory variety more extensively grown than any other. Normal size 6 to 7 inches long and 2½ inches in diameter. Pkt. 5c; oz. 15c; ¼ lb. 50c.

3758 Davis Perfect Long, slim, smooth and especially attractive for its dark green color. Fruit 10 to 12 inches long and the tender, sparkling, white flesh makes it most desirable for slicing for the table. Pkt. 5c; oz. 15c; ¼ lb. 50c.

3761 Early Fortune The fruits are of good length, rich dark green, well shaped and with thick white flesh and small seed cavity. A great improvement over White Spine in length and color, retaining its color long after picking. Pkt. 5c; oz. 15c; ¼ lb. 50c.

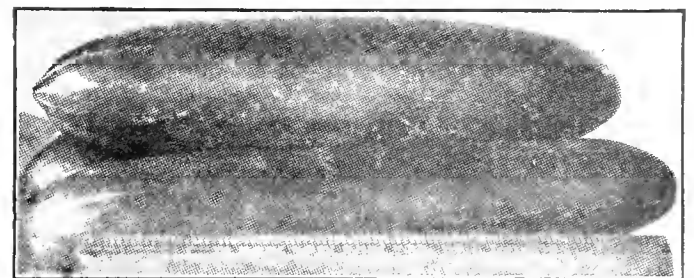

3762 Long Green Improved A model in size, form and color. Uniformly long and smooth, deep green in color. A money maker for the market gardener and a universal favorite for home use. Fruit 12 to 15 inches long, flesh solid and crisp with few seeds. Extensively planted as a pickling variety as well as a slicer. Pkt. 5c; oz. 20c; ¼ lb. 65c.

Hybrid White Spine

Chicago Pickle

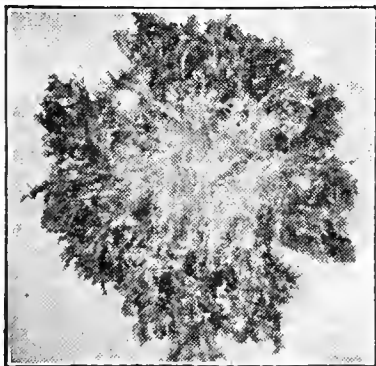

Cucumber Longfellow

Endive

3794 Green Curled The best known variety. Highly prized as a salad during autumn and early winter. Also may be served like Spinach. Seeds should be sown in July and transplanted in rows in last of August. For early summer use, sow seed in early spring. Blanching may be done by tying up the outer leaves or by covering with straw. Pkt. 5c; oz. 15c; ¼ lb. 45c.

3795 Batavian Broad Leaved Full Hearted. Escarole

Broad, deep green wavy leaves and thick creamy white midribs. Inner leaves form a cluster head which blanches white, crisp and tender. A distinctly improved type of Batavian with very compact full heart of fine quality. Pkt. 5c; oz. 20c; ¼ lb. 45c.

Green Curled Endive

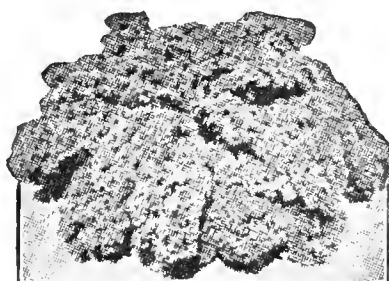

3766 All-America 1935 Gold Medal Cucumber, Straight Eight

Straight, symmetrical, almost cylindrical, rounded at ends, ideal dark green, almost devoid of striping and 8 inches long. Fine for market gardeners.

Also Listed on Novelty Page—Pkt. 15c.

Vegetable Seeds for Market Gardeners

See Page 6

Kale, Dwarf Green Curled

Kale or Borecole

3826 Dwarf Green Curled Quickly grows a mass of tender fleshy green leaves that are popular for boiling greens. The plant is quite hardy and freezing seems to improve the quality. The plants with their moss curled, rich green leaves are ornamental to the garden also. Start some seed in early spring and another planting in midsummer. Pkt. 5c; oz. 10c; ¼ lb. 25c.

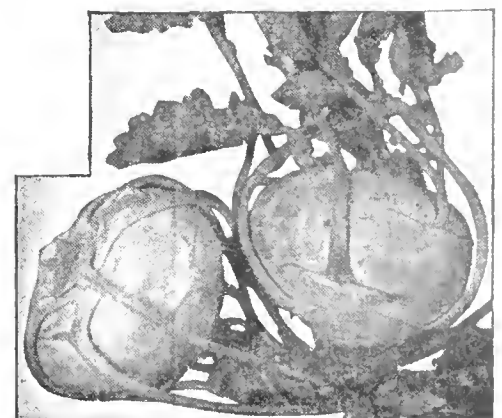

3827 Tall Green Curled Scotch Produces an abundance of dark green heavily curled and wrinkled leaves of excellent quality. Grows 24 to 30 inches tall. Pick the lower leaves as they mature allowing plant to grow on to furnish a continuous supply. Pkt. 5c; oz. 12c; ¼ lb. 30c.

Kohlrabi Turnip-Rooted Cabbage

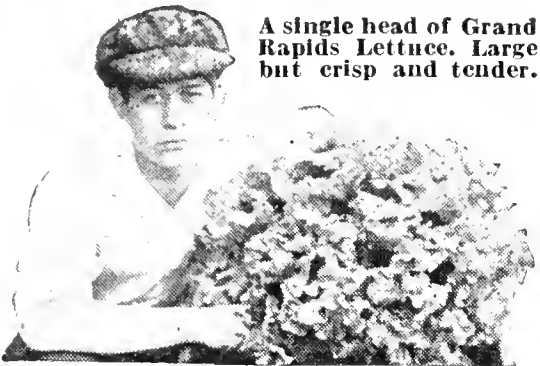

Forms turnip-like bulbs on the stem above the ground. These grow quickly and should be used while young and tender when they are very sweet and nutritious. Simply sow in rows covering ½ inch deep, and thin the plants to stand 6 or 8 inches apart.

3831 Early White Vienna The bulbs are very light green, early and tender, with small tops—a good forcing strain. Pkt. 5c; oz. 20c; ¼ lb. 70c.

3832 Early Purple Vienna The bulbs are purple on surface; the flesh light green. A few days later than white Vienna, a little larger and more heat resistant. Pkt. 5c; oz. 20c; ¼ lb. 70c.

Kohlrabi, White Vienna

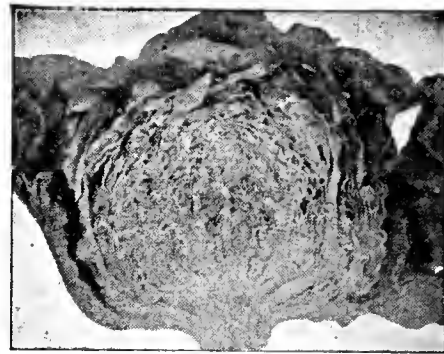

A single head of Grand Rapids Lettuce. Large but crisp and tender.

Lettuce

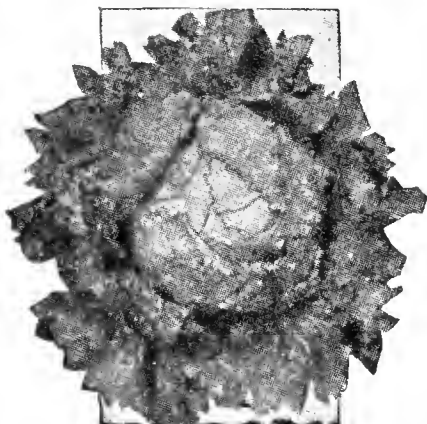

CULTURE—To be of best quality, Lettuce should be quickly grown. It likes plenty of moisture and fertility and will stand cool, even quite cold soil and weather. Sow seed thickly covering $\frac{1}{8}$ to $\frac{1}{4}$ inch deep in rows 12 to 16 inches apart, thin as soon as well started to stand 6 to 8 inches apart. Heading varieties need slightly more room and transplanting is beneficial. Plants for extra early may be started under glass or in a box in a sunny window. Any sunny corner of the garden may be prepared early and a little lettuce started.

QUANTITY OF SEED. One ounce should sow about a 125 ft. row and produce around 3000 plants, 3 lbs. will produce enough for an acre.

Curled or Loose Leafed Heading Lettuce

Creamy Hearts

New York or Wonderful Lettuce

Cos or Celery Lettuce

3839 Extra Select Grand Rapids

(Black Seed). In our trial grounds each season this is the first lettuce to reach edible or marketable stage. The big loose heads with bright green crinkled and curled leaves are very attractive, tender and crisp. Used almost exclusively for forcing during the winter, as well as for early crops outdoors. The heads remain fresh several days. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 50c.

3840 Early Prize Head "The Red Lettuce." (White Seed). One of the best of the thin-leaved varieties for the home garden. Leaves very large, curled or crimped, bright green, tinged with brownish-red at the edges, tender, crisp and sweet. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c.

3841 Early Curled Simpson

(White Seed). One of the most satisfactory varieties for early outdoor planting, forming large, loose heads of an attractive light yellowish green. The leaves are ruffled and curled, and always very tender. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c.

3842 Black Seeded Simpson A standard variety with bunching, non-heading, crisp, light yellowish green leaves. Grows quickly and is of fine quality. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c.

Crisp Heading Varieties

The varieties of this group have distinct brittle or crisp glossy texture in the leaves and the leaves usually have curled edges.

3849 New York (Los Angeles or Cabbage or Wonderful). White Seed. One of the largest varieties grown, forming im-

Cabbage or Butterhead Varieties
The varieties of this group have leaves of thick, buttery texture, with straight or plain edges.

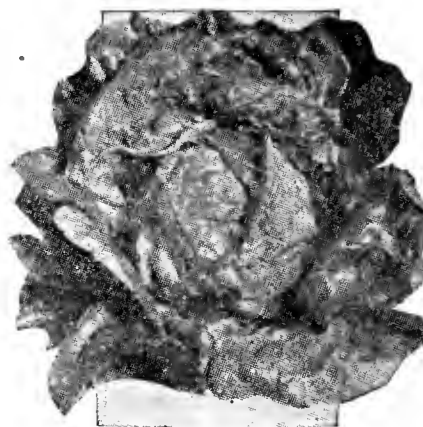

3854 Creamy Hearts Black Seed. A cabbage heading variety with thick, fleshy light but bright green leaves. Hearts golden yellow, crisp and buttery. Heads somewhat conical when young but large and round when mature. A fine producer and sure-header, very fine for home garden or market use. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c.

3847 Temley Evergood White Seed. Forms a head very quickly and has tender, golden yellow inner leaves and heart. It is certainly delicious to eat. The head is medium small but hard and compact. It heads well under almost all conditions. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c.

3848 Big Boston White Seed. A fine big, tender, cabbage-heading lettuce. Sure to please the most critical grower. The most popular of all head lettuces. The heads are medium large, finely shaped with a slight tinge of brown on the outer leaves. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c.

3852 California Cream Butter (Royal Summer Cabbage or German Butter.) (Black Seed.) A reliable heading variety. The heads are a rich, creamy yellow inside and of a tender buttery flavor. Outer leaves green, spotted brown. Stands hot dry weather remarkably well. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c.

3855 May King The earliest heading lettuce. A standard for greenhouse forcing and doing equally as well out of doors in early spring. Very compact heading, of light yellowish-green tinged reddish-brown and the heart blanching a rich golden yellow of excellent quality. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c.

Temley Evergood Lettuce

Big Boston Lettuce

Cos, Romaine or Celery Lettuce

An entirely distinct type of lettuce with stiffly upright leaves and prominent mid-ribs.

3857 Paris White or Trianon A medium large self-folding variety with smooth dark green leaves. Heads compact and solid with well blanching interior. Crisp, sweet and tender. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c.

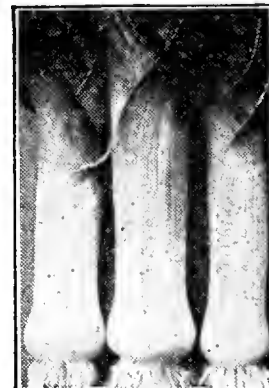

3909 Mustard Southern Giant Curled. This Mustard grows nearly 2 feet high and has fine curled leaves which are very tasty for salad. This is the variety that is so popular in the South for fall planting and is much used for winter and spring greens. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c.

3912 Mustard Spinach "Tendergreen"

A Japanese plant of the mustard family which has become popular with gardeners for its extremely quick production of edible crop of excellent, mild, tender, mustard-like greens. The large green leaves are ready for use in 4 weeks from planting of seed, and are prepared and used the same as Mustard or Spinach greens. A planting every three or four weeks will insure a continuous supply of greens throughout the season. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c.

3861 American Flag Leek

This vegetable belongs to the onion family and is a fine fall and winter substitute for green onion. The leaves are flat and the stems large and bulbous. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

Leek, American Flag

3860 Mixed Lettuce This is certainly a bargain packet and very interesting as well. Both loose leaf and heading varieties. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Aromatic & Pot Herbs

Most of the varieties of herbs thrive best in sandy soil and some are stronger and better flavored when grown on that which is rather poor.

Sow as early as the ground can be made ready, in drills sixteen to eighteen inches apart, taking pains that the soil is fine and pressed firmly over the seed, or they may be planted as a second crop—the seeds sown in beds in April and the plants set out in June. Most of them should be cut when in bloom, wilted in the sun and thoroughly dried in the shade.

3815 Mammoth Dill An annual herb of finely cut fern-like foliage growing to 2 or 2½ feet. Seeds are much used for seasoning. Most popular for making Dill pickles. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. 90c.

3811 ANISE. An annual. Seeds used medicinally and in cooling cordials.

3812 SWEET BASIL. An annual. The leaves and tender tips used in soups, stews and sauces.

3813 CARAWAY. A well known herb. Seeds used in confections, cakes and also medicinally.

3814 CORIANDER. A hardy annual. Seed used for flavoring confections and for garnishing.

3816 SWEET MAJORAM. The leaves and tender shoots used for flavoring either when green or dried.

3817 SAGE. A hardy perennial. Leaves used either green or dried for flavoring.

3818 SUMMER SAVORY. The young shoots, leaves and flowers are used for seasoning, especially with string beans. Price any above Herbs: Pkt. 10c; 4 pkts. 25c.

3810 A mixture of the most popular varieties of Herbs. Pkt. 10c.

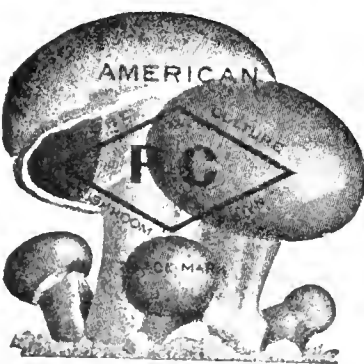

Dill

3911 Mushroom Spawn

American Spore Culture, Brick Form

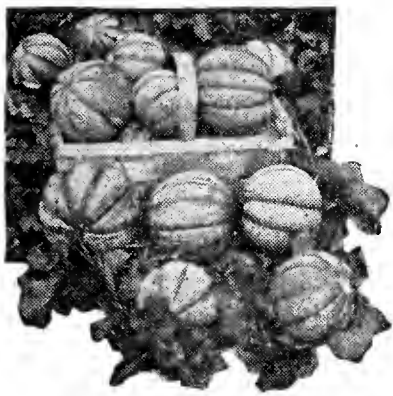

This spawn is produced from original spore culture under the French process which permits the indefinite reproduction of selected varieties without dilution of the strain, and free of any trace of parasitic disease. Each brick weighs 1¼ to 1½ lbs. and will spawn about 10 square feet of bed. Full cultural directions are supplied with each Brick. We offer the cream white variety which is the preferred. Prices: 1 brick 45c; 5 bricks \$2.00; 10 bricks \$3.50 postpaid.

Golden Champlain Melon

Muskmelons—Cantaloupes

CULTURE—Muskmelons delight in warm, rather rich soil, and it will pay you to dig in each hill a shovelful of well rotted manure. Do not start outside until the soil and weather are warm—so for extra early crops plant some seed in the hotbed or window box. When it is warm enough to plant outside make the hills 3x4 ft. apart. Put ten or a dozen seeds in each hill, covering about 1 inch, and when the plants are well up thin to three or four plants.

Melons left on the vines until they are dead ripe are immeasurably better than any you can buy in the stores. When ready the melons should be a little soft and they will part readily from the stem.

QUANTITY OF SEED. One ounce will plant about 60 hills, 2 to 3 lbs. an acre.

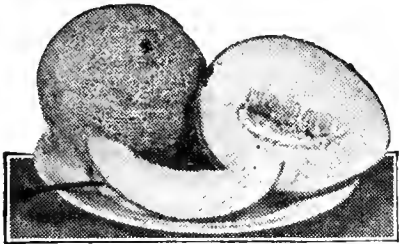

3864 Golden Lake Champlain

The Golden Lake Champlain is without question the earliest yellow fleshed melon on the market today. Its vigorous growth, productiveness, hardiness and good quality have been proved beyond any doubt. The flesh is golden

yellow, deep and so temptingly sweet. In shape nearly round—medium size and heavily netted. Pkt. 5c; oz. 15c; ¼ lb. 40c.

3865 Golden Hearts

Here is a melon to make your mouth water, the deep golden salmon flesh is so sweet. The melon is medium small, the size much in demand for the fancy hotel trade, averaging 5 to 6 inches in diameter, yet heavy because of the thick flesh and small seed cavity. It ripens right down to the rind. Often there will be as many as twelve melons to the vine. Pkt. 5c; oz. 15c; ¼ lb. 40c.

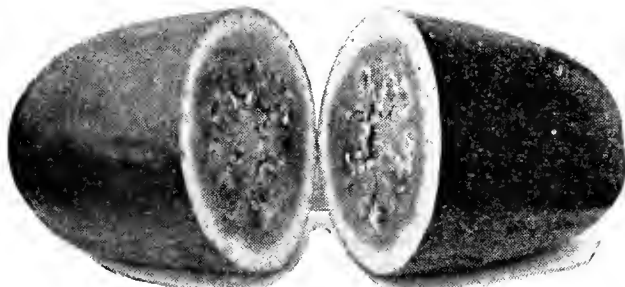

Golden Hearts
Just the right size for the table

3866 Emerald Gem Grows just the right size for your table, and is sweet as honey. The melon is not large, but very prolific and early. In shape it is round, slightly flattened at the ends. Skin emerald green under the netting. Flesh bright orange-yellow. Pkt. 5c; oz. 15c; ¼ lb. 40c.

3876 Imperial Muskmelon

All-American
Award of Merit
1935

A luscious new melon with orange flesh, netted yellow fruit of Rocky Ford size and of excellent flavor and texture. It can be vine-ripened and still keep indefinitely, making it a splendid melon for both home and market gardeners. Pkt. 10c; oz. 25c; ¼ lb. 70c.

Halbert's Honey Watermelon

3901 Wondermelon Improved Kleckley's Sweets. Best for general use. Shape and color of Kleckley's Sweets but larger, tougher, stronger rind and of unsurpassed sweetness and flavor. You will like it. Medium early. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

3902 Stone Mountain New, of finest quality, claimed to be sweetest of all large sized melons. Round, dark green, with medium thick rind and flesh of rich crimson, solid and free from stringiness. Prolific, matures in 90 days. Pkt. 5c; oz. 12c; ¼ lb. 35c; lb. \$1.00.

3895 Kleckley's Sweets A better melon than old type Kleckley's. Harder rind, suitable for short distance shipping or market and of uniformly large size. Exceptionally sweet and luscious, crisp and of bright scarlet color. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

3898 Halbert's Honey Medium large, oval, dark green, flesh bright crimson, sweet and melting, without trace of pulp. Rind very thin, flesh ripens uniformly throughout. White seeded. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

3900 Tom Watson One of the old favorite varieties but still retaining its popularity. Long green, heavy and of large size. Flesh light red and of fine quality. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

SLUG SHOT—lb. for 25c.
Will Destroy Melon and Cucumber Beetles.

3868 Osage or Miller's Cream

Sometimes called the Queen of Melons. One of the best known and most desirable melons to plant. Size medium, large, oval, deeply ribbed. Color dark green, with lighter bands between the ribs. Flesh very thick, orange salmon, and of superb quality. Pkt. 5c; oz. 15c; ¼ lb. 40c.

3870 Extra Early Osage Our own strain for the gardener who wants the top prices for the earliest Osage, or who wants the first Osage on his own table. A week earlier than Miller's Cream, a trifle smaller and just as good quality. Pkt. 5c; oz. 15c; ¼ lb. 40c.

Green Fleshed Muskmelons

3879 Ohio Sugar

Sweetest green fleshed Melon. Ohio Sugar is really a green fleshed Tip Top and the best to eat of any green fleshed melon in the market. The flesh is very thick, tender, yet firm and sugary. The melon is round or slightly oval, distinctly

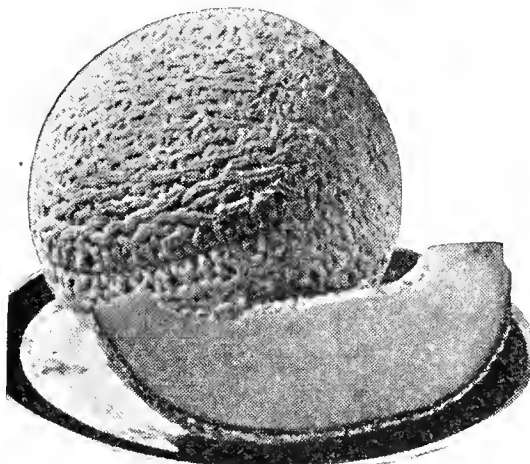

ribbed and netted. Pkt. 5c; oz. 15c; ¼ lb. 40c.

3878 Rocky Ford The best known green fleshed variety. Flesh rich green, thick, juicy and of delicious flavor. Our seed is Northern grown, insuring early maturing crops. Pkt. 5c; oz. 15c; ¼ lb. 40c.

3885 Honey Dew The Honey Dew is sometimes called a winter melon as it matures 3 to 4 weeks later than the other varieties and it will keep for quite some time in storage. It is not adapted to short seasons but where it can be grown to maturity it is certainly delicious. The fruit is quite large, 8 to 10 lbs., nearly round, smooth skin, color almost white turning to a light lemon-yellow as it ripens. Pkt. 5c; oz. 15c; ¼ lb. 40c.

3872 Sugar or Honey Rock

A well named melon with deep orange flesh of a delightful flavor that must be eaten to be fully appreciated. Fruits are oval, medium in size, not ribbed but finely netted. Flesh is deep and well colored to the rind. Rind is extremely tough and the flesh firm making it a very fine market melon and one that will hold well on the vines until fully ripe. Pkt. 8c; oz. 20c; ¼ lb. 50c.

Watermelons

Of late years some very early varieties have been introduced fully equal to the late ones in quality. Even in the northern states it is now possible to grow your own watermelons. Early varieties ripen in about 75 days.

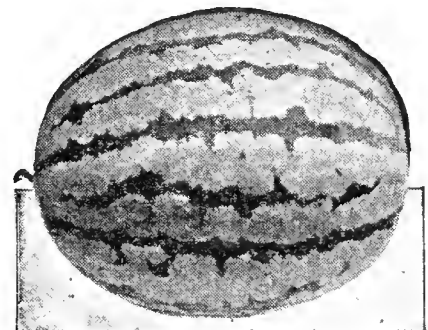

CULTURE—Watermelons are grown very much like Muskmelons, but the hills require more space, 6x6, or 6x8 ft. After the soil and weather is warm drop a dozen seeds in each hill, covering one inch deep and later thinning out to the three strongest plants. Cultivate as long as possible before the vines cover the ground.

See
the
Smile

Wondermelon

QUANTITY OF SEED: 1 ounce will plant about 30 hills.

Cole's Early Watermelon

3894 Cole's Extra Early Also called Harris Early. The best variety to grow where seasons are short as it is ready to eat 10 days earlier than the late varieties like Tom Watson. Very hardy and productive, of medium size and nearly round. Skin mottled dark and light green, flesh dark red and very sweet. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

3907 New Winter Round, pale yellow when ripening, bright red, sugar-sweet flesh. Take the melons from the garden before frost and store in a cool cellar and they will keep until Thanksgiving Day. Pkt. 5c; oz. 12c; ¼ lb. 35c; lb. \$1.00.

3908 Citron, Red Seeded Make delicious preserves. Cultural directions printed on packet. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

Peanuts

CULTURE—Plant the same time as corn, in rows 2½ ft. apart. Drop the shelled nuts 8-10 in. apart, cover 1 in. deep. When the plants are nearly full grown throw earth up to them. This will cause the nuts to form.

3948 Extra Early Spanish With this variety it is possible even in the North to mature a nice crop of peanuts. The nuts are not extremely large but are solid and sweet. Plant on light sandy soil in full sunshine. Pkt. 10c; ¼ lb. 20c; lb. 50c.

Melons direct from your Garden to your table are delicious.

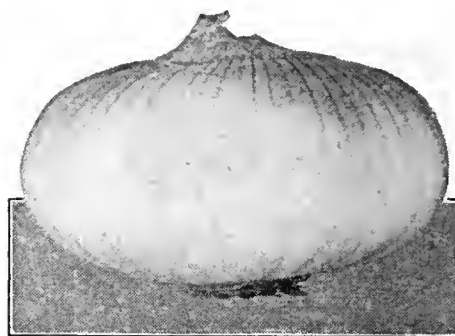

Prizetaker and Red Wethersfield

Onion Seed

DO YOU LIKE ONIONS? There is no reason why you cannot grow plenty for early bunching as green onions and the big bulbs for cooking in fall and winter also. A small space will yield lots of onions and they are easy to grow. The first requisite is good seed, and the second, early sowing. Get your onion seed in as soon as the soil is workable.

CULTURE—Onion seed should be sown as early in the spring as the ground can be worked as they will stand considerable cold weather. Cover in rows $\frac{1}{4}$ to $\frac{1}{2}$ inch deep, the rows 12 to 16 inches apart. Thin the young plants to stand about 2 inches apart or more, depending on the variety and the richness of the soil. Onions like a rich moist loam and will develop more and larger bulbs per foot on that kind of soil.

QUANTITY OF SEED. One ounce should sow a 150 ft. row, 4 to 5 lbs. per acre.

White Portugal

Yellow Varieties

3913 Sweet Spanish or Valencia

A variety that will grow immense bulbs in your own garden as tender and sweet as the Spanish Onions that are imported for you. This new onion is globe shaped with light yellow skin and pure white flesh, mild and sweet. A much better keeper than the original Spanish types. From seed planted directly outdoors you can grow bulbs of great size. You can also start the seed inside in flats. They transplant very easily. Pkt. 5c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

3914 Prizetaker A splendid large growing variety for fall markets or home use. With favorable conditions they may be grown from seed to weigh two pounds or more. Handsome straw-yellow skin, resembling the imported Spanish Onion. The flesh is mild and tender. Pkt. 5c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

3924 Ebenezer or Japanese An excellent variety for producing sets, exceptional keeping quality. The bulbs are deep but flattened and of medium size. Dark yellow skin, with firm flesh. Pkt. 5c; oz. 30c; $\frac{1}{4}$ lb. \$1.00.

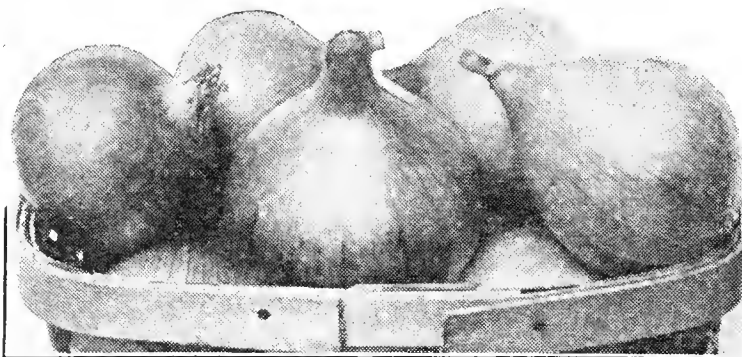

3927 Yellow Dutch or Strasburg The full grown onions are bright yellow bulbs, somewhat flattened, with mild, sweet flesh and fine keeping qualities. A most popular variety for growing yellow onion sets. Pkt. 5c; oz. 30c; $\frac{1}{4}$ lb. 85c.

Three Splendid Yellow Globe

3918 Yellow Globe Danvers This popular variety is very extensively grown for market, in the great onion growing sections. The bulbs are flattened, globe-shaped, of good size, and bright straw-yellow in color. Flesh is white, tinged yellow. Slightly earlier than Southport. Pkt. 5c; oz. 40c; $\frac{1}{4}$ lb. \$1.25.

3922 Ohio Yellow Globe This type is so named because it helped to make sections of Ohio famous for Onions. It is almost perfect globe sometimes slightly oblong in upper half and flattish at the bottom. The color is a pure deep yellow. Has firm hard flesh and excellent keeping qualities. This type is popular all over the country. It is identical with Michigan Yellow Globe. A trifle later than Danvers. Pkt. 5c; oz. 40c; $\frac{1}{4}$ lb. \$1.25.

3923 Southport Yellow Globe An excellent late or main crop variety similar in size and shape to the other Southports, but with bulbs of rich yellow. Flesh is white, of mild flavor and of very fine keeping quality. A very heavy producer of fine handsome bulbs. Pkt. 10c; oz. 45c; $\frac{1}{4}$ lb. \$1.35.

Southport Red Globe

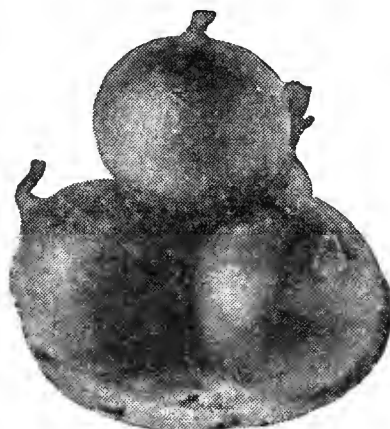

Red Varieties

3916 Red Wethersfield This is a popular variety for winter markets. The skin is deep purplish red; flesh white, sometimes slightly tinged pink; mild and sweet. Pkt. 5c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

3915 Southport Red Globe A beautiful large Red Onion for fall and winter markets, being an excellent keeper. Medium size, globe-shaped, slightly oblong, deep purplish red in color. Pkt. 5c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

Southport Globe Onions

The Southport Onions are excellent and dependable general purpose onions for the home or market garden. They are all of fine appearance, excellent quality and especially good keeping varieties.

Yellow Globe Danvers

White Varieties

3917 Southport White Globe

The most attractive white onion grown. Perfect globe shaped, and clear, transparent skin; flesh crisp, fine grained and mild in flavor. Pkt. 10c; oz. 45c; $\frac{1}{4}$ lb. \$1.35.

3921 White Portugal Or Silver-skin.

Of medium size, flattened and pure white and the most widely planted of the white varieties. Flesh fine grained, firm and hard, and long keeping. Much planted for sets. Pkt. 5c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

3925 White Welsh The best variety in all respects for early green Onions for bunching or home use, forming fine long white onions of excellent quality and of fine appearance when bunched, but forming no bulb. Pkt. 5c; oz. 30c; $\frac{1}{4}$ lb. 85c.

3929 Extra Early White Barletta

One of the earliest. Largely grown for pickling but also makes a good bunching onion. Bulbs small, almost round at pickling stage, becoming slightly flattened as they mature. Flesh white, mild and sweet. Skin silvery white. Pkt. 5c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

Onions For Sets

For those who wish to grow their own onion sets from seed, we would recommend the following varieties: Yellow Dutch or Strasburg, which produces, quickly, sets of exceptional uniformity. Ebenezer or Japanese, for smaller yellow sets or Yellow Globe Danvers.

Okra or Gumbo

A very easily grown vegetable that produces a large crop of fine healthful food. Okra needs a rich well drained soil to give the best results. Sow when apple trees are in bloom and thin to 10 to 12 inches apart. Okra is excellent either stewed or fried and when used for Gumbo soup is very delicious. An ounce of seed will sow 100 feet.

3933 White Velvet Bears long, slender, white, fleshy pods, which may be cooked like Asparagus or cut up into soups, stews, catsup, etc. The pods are in the best condition if used when 2 to 3 inches long. Pkt. 5c; oz. 12c; $\frac{1}{4}$ lb. 25c; lb. 70c.

Okra

Parsley

CULTURE—Parsley seed is slow to germinate and soaking a day before sowing will hasten growth. Cover only $\frac{1}{4}$ inch deep and do not let the soil crust over the surface. Thin the plants to stand 4 to 6 inches apart, and you can start cutting the leaves as soon as they are sizable. Make several sowings of Parsley seed to have a continual supply of fresh leaves.

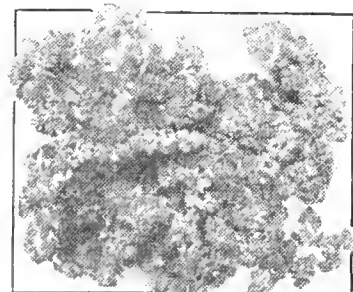

QUANTITY OF SEED. One ounce should sow a 150 ft. row. Our standard packets will contain $\frac{1}{8}$ to $\frac{1}{4}$ ounce of seed.

3936 Lincoln Green Parsley The finest curly strain of Parsley imaginable. The seed has been very carefully selected from exhibition plants. For an extra fine curled Parsley you should choose Lincoln Green. The plants are compact. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c.

3937 Champion Moss Curled The standard curled leaf variety for garnishing soups or stews. Our strain is extra nice fine curled. Pkt. 5c; oz. 12c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

3939 Plain Leaved The leaves are flat and deeply cut, but not curled, and of deep green color. Used for flavoring and drying. The plant is very hardy. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c.

3938 Turnip Rooted Forms an edible root resembling a small parsnip, which is used in flavoring soups, etc. The foliage is like the plain parsley. Pkt. 5c; oz. 12c; $\frac{1}{4}$ lb. 35c.

Parsley, Lincoln Green

3946 Paramount Parsley All-America 1936

Exceptional new Parsley, deep green, extra triple and finely curled. Pure strain selected for its dark green color and uniformity. Also offered on Novelty Page Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c.

Parsnip

CULTURE—Parsnips are easily grown though the seed is slow to germinate. The soil should be worked fine and the seed covered not more than $\frac{1}{2}$ inch. Keep the surface moist to prevent the soil crusting over the seed. It is a good thing to sow a little radish seed right in with the parsnip. These come up quickly breaking the soil and marking the row so that cultivating may begin. Thin out to stand 3 inches apart.

QUANTITY OF SEED. One ounce should sow a 150 ft. row, 5 to 6 lbs. an acre.

3944 Large Sugar Improved Hollow Crown or Guernsey. An improved strain of the well known Hollow Crown. Roots are not as long but of greater diameter. Very productive. Large white roots, tender and sweet. Generally considered the best. Then why should we confuse the buyer by listing 3 or 4 other varieties. Pkt. 5c; oz. 12c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

3945 Short Thick Decidedly distinct with short thick roots, only 6 to 8 inches long in the thickened part. Desirable for shallow soil and easy to pull. Flesh tender and sweet. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c.

1936 Vegetable Novelties See Page 45

Large Sugar Parsnips

Garden Peas

PEAS FROM YOUR OWN GARDEN picked only an hour or two before eating are twice as sweet as those you would purchase. Try them and you will be convinced.

CULTURE—A planting should be made every 10 days from earliest spring until hot weather. Another planting in late summer for fall often gives good results. The extra early smooth seeded varieties are hardy and may be planted as early as the soil can be worked, the wrinkled varieties a little later.

QUANTITY OF SEED. One pound should sow a 50 ft. row, 120 to 180 lbs. an acre.

Early Dwarf Varieties

THE LAXTONIAN GROUP

A group of varieties of comparatively recent introduction. They have very large pods for dwarf varieties and peas of supreme quality.

3953 Laxton's Progress

Perhaps the best of the Laxtonian group. It is a few days earlier than Hundredfold. Pods, 4 inches long, containing 7 to 9 peas. The pods are curved, pointed and of deep green color, 10 to 20 inches tall. This variety will give you edible peas in 8 to 9 weeks after planting. Pkt. 5c; ¼ lb. 15c; lb. 45c; 3 lbs. \$1.25.

3971 Hundredfold An early large podded dwarf variety, 18 to 20 inches tall. A strain of Laxtonian and to be preferred to Laxtonian or Blue Bantam. The pods are 4 inches long containing 6 to 8 large dark green peas of excellent quality. Ready for picking in about 60 days, only a few days later than Progress. Pkt. 5c; ¼ lb. 15c; lb. 45c; 3 lbs. \$1.25.

Laxtonian, Peter Pan and Blue Bantam

Extra Early Alaska

We have discontinued these varieties considering Laxton's Progress and Hundredfold the best of the group. If you have been growing either one of these three, you may safely shift to Progress or Hundredfold and you will be more than pleased.

3952 May Morn Plant as early as you would Alaska as the seed will stand cold, wet soil. It pods up quickly also, so it is possible to have May Morn in edible stage before any other large podded high quality pea, 15 to 18 inches tall, broad 4 inch pods. Pkt. 5c; ¼ lb. 15c; lb. 45c; 3 lbs. \$1.25.

3956 Little Marvel A very fine early dwarf wrinkled pea, with blunt very dark green, 3 inch pods, filled with good quality peas. Only 15 inches high. Pkt. 5c; ¼ lb. 15c; lb. 45c; 3 lbs. \$1.25.

3955 Nott's Excelsior The standard early dwarf wrinkled pea. A sure cropper, the pods are smaller than the Laxtonian group but are very freely produced and they bear well, even under adverse conditions. A very fine, highly bred variety of sturdy, compact, dwarf growth, 15 to 18 in. high. Pods chock-full of luscious peas of unusually sweet flavor. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

3957 Sutton's Excelsior Only a few days later than Nott's Excelsior, but larger podded and of greater total productiveness. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

Edible Podded Peas

3981 Mammoth Melting Sugar

Height 4 feet. Well deserves its name. Should be cooked and eaten pods and all, the same as wax beans. Gather the pods when half grown. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

3982 Dwarf Gray Sugar Height 30 inches. Similar to Melting Sugar but of dwarf growth, 2¾ to 3 inches in length. The seeds are round and gray. Pkt. 5c; ¼ lb. 10c; lb. 35c; 3 lbs. 90c.

Alderman

Early Tall Varieties

As the varieties in this group grow 2½ to 3½ feet tall, they are better when given supports on which to grow. As a rule they bear more pods over a larger period than the real dwarf varieties.

3972 Giant Early Cropper

A Fine New Pea. This is an exception to the rule that the larger podded varieties require a longer season as it is practically as early as Alaska, ready with edible pods in about 8 weeks. The seed is smooth and hardy and can be planted extra early. The pods are large, dark green, 4 inches long and usually contain 7 large, sweet, light-green peas. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

3970 Gradus An early variety of very fine quality, bearing very profusely pods averaging 4 inches in length, filled with 6 to 9 peas, exceedingly sweet and tender. Vines are vigorous, growing 3 to 3½ feet tall. Peas are ready to use in 55 to 60 days. Seed large and wrinkled. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

3969 World's Record An Improved Gradus from which it gets its superb quality, but it is a much heavier and surer yielder. Vines 2 to 2½ ft. tall, pods handsome dark green 3½ inches long. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

3968 Thomas Laxton The best quality and heaviest yielding of all early tall peas, only a few days later than Alaska, vines 2½ ft. tall. Pods long, broad, handsome, packed full of delicious sweet peas. You can pick enough for a nice meal in short order. Out yields the old Gradus by 25 per cent. Pkt. 5c; ¼ lb. 15c; lb. 45c; 3 lbs. \$1.25.

Two Smooth Seeded Extra Early

3966 Extra Early Alaska or Earliest of All. The hardiest of the extra-early varieties. Very productive. Peas smooth, bluish green, very fair quality. Height 2½ ft. Pkt. 5c; ¼ lb. 10c; lb. 35c; 3 lbs. 90c.

3967 First-in-Market Extra-early, smooth white seeded, height 2½ ft. Well filled pods 2 to 2½ inches long. Pkt. 5c; ¼ lb. 10c; lb. 35c; 3 lbs. 90c.

Main Crop and Late Peas

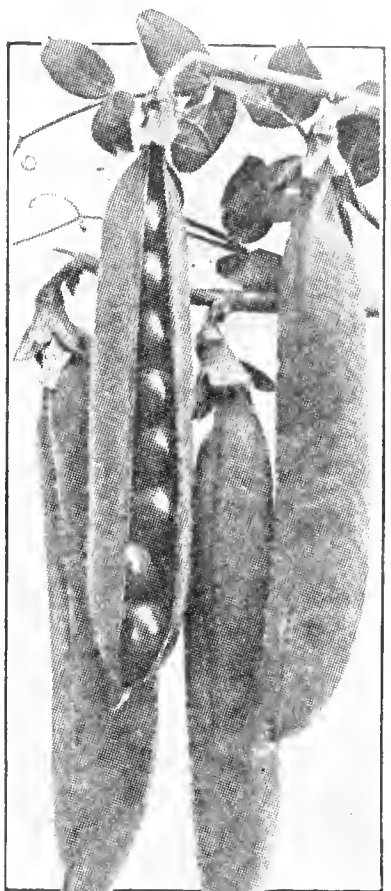

3978 Improved Stratagem Large pods of the Telephone type borne on sturdy vines about 2½ feet tall. An ideal late variety to follow the earlier ones. An excellent home garden and a profitable market variety. The long pointed pods average 4½ inches. Pkt. 5c; ¼ lb. 10c; lb. 35c; 3 lbs. 90c.

3975 Telephone The old favorite with very large light green pods which will measure 4 to 5 inches long and contain 8 to 10 very large peas of delicate light green color and very excellent quality. Vines 4 to 4½ feet tall, very vigorous and productive. A very fine second early variety. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

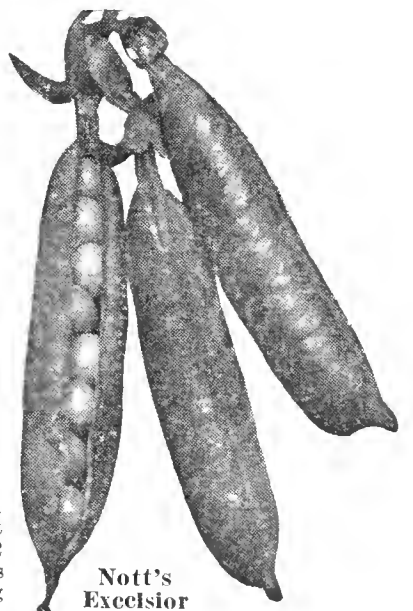

3977 Daisy or Dwarf Telephone

A dwarf variety ripening somewhat later than Telephone but quite similar in all respects except height of vine and maturing time. Vines about 2 feet tall, bearing an abundance of large full pods of large fine quality peas. Pods 4 to 4½ inches long containing 8 to 9 large dark green peas. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

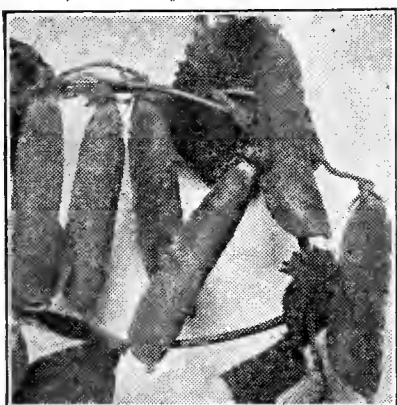

3974 Alderman, Best Tall Main Crop Height 3½ feet. Of the well known telephone type, but of a darker green color. Very robust and productive. Peas of large size and unsurpassed in quality. Best of the large main-crop varieties. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

The New Pea Giant Early Cropper

Nott's Excelsior

Hundredfold

Note the mass of nodules on the roots.

Inoculate your Peas, Beans and Sweet Peas

All Legumes-plants that bear their seed in pods form a partnership at the base of the roots with bacteria that are able to secrete nitrogen and give it to the plant.

Peas, Beans and Sweet Peas belong to the Legume family and therefore should be inoculated with **NITRAGIN** to stimulate the germs. The Bacteria will form on the roots like lumps or nodules, making more productive crops.

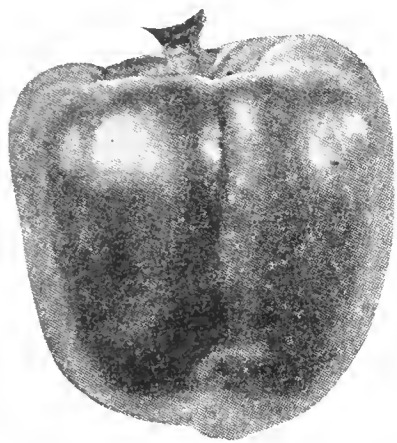

NITRAGIN is an old reliable Inoculator and is used by Agricultural Colleges. It is packed in a rich soil-like granular medium, easy to mix with your seed. Inoculate for Good Yield.

4340 Garden Package Plenty for a family garden 25c

Two Delicious New Peas

3973 New Giant Wonder A new variety of Pea of similar form and habit to Nott's Excelsior, though even better as it is not susceptible to wilt. Vines grow 15 to 18 inches tall. Pods are plump, straight, blunt-ended, 3 inches long and thickly filled with large round Peas, deliciously sweet and delicately flavored. Pkt. 5c; ¼ lb. 15c; lb. 45c; 3 lbs. \$1.25.

3979 Morse's Market We consider this to be the very best early mid-season Pea for home garden and market purposes. The vines are robust, grow 24 to 30 inches tall. Pods 5 to 5½ inches long and ¾ to 1 inch broad, straight, pointed, smooth, dark green and well filled with 8 to 11 Peas per pod. Received an Award of Merit from British Royal Horticultural Society. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

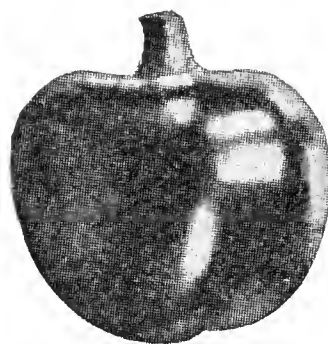

California Wonder Pepper

Perfection Pimento

Early Giant Pepper

Tomato Salad

Ruby King Pepper

Peppers

CULTURE—Pepper seed must be started early in the hot bed or boxes in the house. The plants cannot stand cold and so should not be planted out in the open until May 15th, or all frost danger is past. Space the plants 18 to 24 inches apart each way, and keep well cultivated. Any good garden soil if not too dry will grow peppers. Do not plant hot varieties next to sweet ones.

QUANTITY OF SEED. One ounce should produce 1500 plants, one packet enough for family garden.

3988 California Wonder The Pepper with the thickest flesh. Exceptionally thick flesh, usually $\frac{1}{4}$ inch and often $\frac{3}{8}$ inch thick. It is blocky in shape, square in cross section, 4 inches wide and $4\frac{1}{2}$ inches long. Some specimens weigh as much as a pound, deep green then changing to crimson. It reaches full growth with the late sorts, marketable size fruits are ready with the early sorts. A heavy bearer of fruits of fine quality, being free from pungency, sweet and tender. **Pkt. 10c; $\frac{1}{2}$ oz. 35c; oz. 65c.**

3995 Chinese Giant An early and prolific variety whose large shapely fruits are often 5 to 6 inches through and $4\frac{1}{2}$ to 5 inches deep. Fruits are bright green when young, maturing to a rich scarlet. **Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c; oz. 75c.**

3991 Hungarian Long Hot Wax An early hot variety much used for canning and pickling. A light yellow when young, turning to red when mature. The fruits are 2 to 3 inches in diameter and 6 to 7 inches long, with thick flesh. Sometimes called "Banana" pepper. **Pkt. 10c; $\frac{1}{4}$ oz. 25c; oz. 75c.**

3992 Small Hot Varieties A mixture of small fruited hot varieties, excellent for pickling peppers, sauce, etc. **Pkt. 5c; $\frac{1}{2}$ oz. 20c; oz. 40c.**

3989 Early Giant Harris' Early Giant. Not only very large but produces enormous fruits maturing earlier than others of the large varieties. A sweet pepper that will produce big crops even in the northern states where seasons are short. Peppers 5 inches high and $3\frac{1}{2}$ inches thick, deep green turning to brilliant red; flesh thick with sweet, pleasant flavor. Altogether a most valuable market or home garden variety. **Pkt. 5c; $\frac{1}{2}$ oz. 30c; oz. 55c.**

3990 Oshkosh A new and very fine yellow pepper, producing uniform, smooth, only slightly ribbed, heart-shaped fruits. Plants are of semi-dwarf growth but very productive. Fruits medium sized, rich bright green, maturing to a bright canary-yellow. This is one of the finest salad peppers grown. **Pkt. 5c; $\frac{1}{2}$ oz. 30c; oz. 55c.**

3985 Perfection Pimento When ripe the fruit is bright crimson, of medium size and shape, ideal for stuffing. The flesh is very thick; and the fruit is smooth. **Pkt. 5c; $\frac{1}{2}$ oz. 20c; oz. 35c.**

3993 Long Red Cayenne Large Type. Well known, early maturing. Fruits 4 inches long, $1\frac{1}{4}$ to $1\frac{1}{2}$ inches in diameter and tapering. **Pkt. 5c; $\frac{1}{2}$ oz. 25c; oz. 45c.**

3986 Ruby King We have an improved strain of this popular standard variety. It is a very heavy bearer, thick-meated, and of mild flavor. Fruits average about 5 inches long, dark green when young, turning to ruby red when mature. **Pkt. 5c; $\frac{1}{2}$ oz. 25c; oz. 45c.**

3987 Red Chili Grow bushy plants with numerous small, hot peppers of waxy yellowish green, changing to rich red. Fruits 2 to $2\frac{1}{2}$ inches long, $\frac{3}{8}$ to $\frac{1}{2}$ inch thick and tapering. **Pkt. 5c; $\frac{1}{2}$ oz. 30c; oz. 55c.**

3984 Tomato Salad, Sunnybrook This pepper is almost like a tomato in appearance, being smooth, nearly round and bright scarlet. It is exceptionally mild and sweet and very thick meated. **Pkt. 5c; $\frac{1}{2}$ oz. 25c; oz. 45c.**

3994 World Beater A fine variety in which is combined earliness and large size. The fruits are freely produced, and will measure 3 to $3\frac{1}{2}$ inches through by $4\frac{1}{2}$ to 5 inches in length. **Pkt. 5c; $\frac{1}{2}$ oz. 25c; oz. 45c.**

Pumpkins

Small Sugar Pie Pumpkin

CULTURE—Grow same as winter squash. One ounce should plant 25 hills, 8 seeds per hill; about 3 pounds an acre.

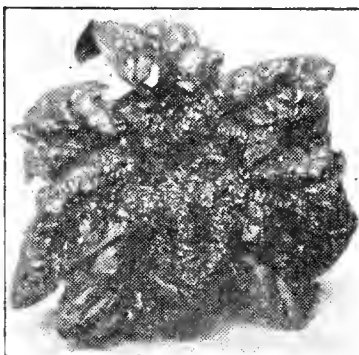

4000 Winter Luxury A very popular and satisfactory variety for the home garden, producing abundantly. The fruits are slightly oval in shape, 10 to 12 inches in diameter and weigh 8 to 10 pounds. The skin is golden russet and finely netted. Flesh is thick, sweet and rich creamy yellow. **Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 15c.**

3996 Small Sugar Pie Is so well known as the best pie pumpkin it requires little description. The fruit is small to medium, with solid fine grained flesh. **Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c.**

3998 Jumbo or King of Mammoths. Fruit enormous size—often 150 to 200 pounds. So grow a few for the county fair. Fair quality for pies and great for stock food. **Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 50c.**

3999 Connecticut Field or Big Tom The standard variety grown so often in corn fields to provide feed for cows. A fair pie pumpkin also. The vines bear well of large pumpkins with hard reddish orange shell. **Oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c.**

4753 GARDEN GUIDE. Fourth edition. A delightful book of 384 pages full of practical information. Chapters devoted to the Flower, the Vegetable, and the Fruit Gardens, also Bulbs, Trees, Lawns, Shrubs, and Water Plants. When and how to plant, prune, spray, harvest, etc. A gem of garden literature. Illustrated. Cloth \$1.60, Paper \$1.05.

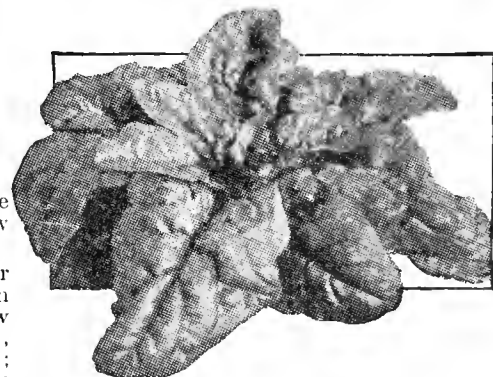

the rows. Spinach delights in cool, moist weather. **QUANTITY OF SEED**—One ounce should sow a 100 ft. row, 10 lbs. per acre.

Spinach

Selected Strains Eat Plenty of Spinach

There is no more healthful vegetable than Spinach and it is so easy to grow that everyone should plant it.

CULTURE—Sow the seed in April for spring use, in August for fall use and in September for wintering over. Sow thinly in rows 12 to 15 inches apart, covering the seed about one-half inch; thin the plants to four inches apart in the rows.

Selected Bloomsdale Savory Spinach

All-American
Award of Merit
1935

4052 Viking

A new Spinach of Outstanding Quality

This new Viking Spinach is a meritorious, medium to dark green, longstanding, giant leaved variety that promises to be far above the average in quality. It is comparable to Nobel Giant Leaved, though darker green and larger leaved. Smooth leaved in summer but inclined to crumple in cool weather. **Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c.**

4049 Reselected Bloomsdale Savoy

This is a very valuable variety, with vigorous, rapid growing, hardy plants, compact in growth. The leaves are large, thick, fleshy and savoyed or crumpled. It produces its first leaves quicker than any other variety of Spinach. Gives big crop in 6 weeks after early spring sowing outdoors. **Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c.**

4047 Long Standing Bloomsdale

Not quite as early as Reselected but stands without going to seed 2 to 3 weeks longer. Heat resistant and with dark foliage. **Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c.**

4045 Princess Juliana

Ten days later than Bloomsdale but a distinctly long standing variety, very slow to develop flower stalks. Large, crumpled, rich dark green leaves. Valuable for both spring and fall planting. **Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c.**

4050 Nobel Giant Leaved

The best smooth leaved variety for spring and summer sowing. Leaves extra large, smooth and of good texture. Its season is between Bloomsdale Savoy and Long Standing Bloomsdale. Round Seeded. **Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c. All American 1933.**

4048 New Zealand Tetragonia or Ever-bearing Spinach

The only variety that will give you good cuttings of spinach greens all summer. Of fine quality producing its tender leaves throughout the hottest weather without going to seed. This is an entirely distinct species, with smaller leaves, produced in very great abundance. **Pkt. 5c; oz. 12c; $\frac{1}{4}$ lb. 30c.**

4046 King of Denmark

As compared with Long Standing Bloomsdale, it is a trifle earlier and remains in condition for use longer. The plants are larger, flatter and more spreading in habit. **Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c.**

An Entirely New Vegetable 3912 Mustard Spinach "Tender-green"

A new vegetable of Japanese origin, related to the Mustard family. Has a most delicious flavor, combining the fine qualities of both Mustard and Spinach.

Chemical analysis of Mustard Spinach shows plenty of Protein, Mineral Matter, Lime and Iron. You'll like this new "greens" for its flavor and healthful qualities. **Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c.**

The Finest Radishes

CULTURE—Radishes are easily grown in nearly any soil but to be at their best they should grow quickly. For this purpose a light sandy loam is perhaps the best, rich but not recently fertilized with stable manure. A freshly manured soil produces ill shaped and often wormy roots. Sow as early as soil can be worked $\frac{1}{2}$ inch deep, the rows 12 to 16 inches apart.

QUANTITY OF SEED—One ounce should sow a 100 ft. row, 8 to 10 lbs. an acre.

4012 Radish "Comet" All-America 1936 See Page 45.

4005 Extra Select Scarlet Globe

A strain grown from transplanted roots, that is as near 100 percent perfection as it is possible to get. It has a fine scarlet color, sparkling white flesh, tops just large enough for bunching. This is a beautiful oval rooted type—you will be delighted with the uniformity of the roots as you pick them. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c.

Icicle Radishes

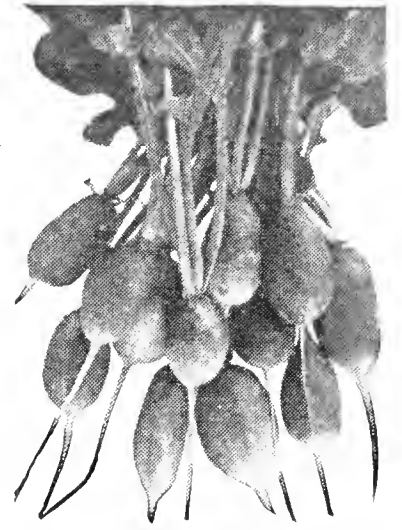

4010 Glowing Ball

This new forcing Radish is well named. It is a bright fiery scarlet-red with a suffusion of orange, making it an unusually brilliant color. It has a perfect round shape, a small top and a thread-like tap-root. Recommended by the Royal Horticultural Society of England. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c; All-American 1934.

4015 Brightest Long Scarlet

The standard long red or scarlet variety. Flesh pure white, crisp, tender and mild. Roots long slim bright scarlet with white tips, averaging about 6 inches in length. Small tops and quick maturing. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c.

4016 Long White Icicle The finest White Radish grown. Long slender roots which remain tender and crisp until grown. Matures early, has small top which permits close planting. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c.

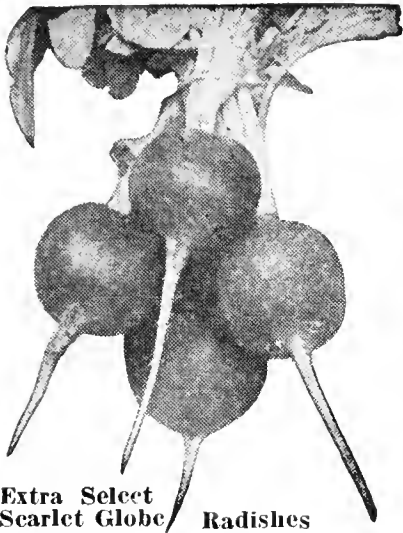

French Breakfast Radish

Fine Winter Radishes

It is possible for you to have delicious crisp, solid Radishes for winter and spring. They make tasty salads and can be used as a boiled vegetable. Just sow the seed in June or July. Thin out plants to stand 4 to 6 inches apart in the rows. Keep the Radishes in box of sand in cool place.

- 4024 China Rose.** Olive shaped, rose color skin, white flesh.
- 4026 Long Black Spanish.** Long shaped, black skin, white flesh.
- 4027 Round Black Spanish.** Black skin, white flesh, round.
- 4025 Celestial or Mammoth White China.** Very large.
- 4023 Mixed Winter Radishes.**

Prices on all above: Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

Extra Select Scarlet Globe Radishes

4006 French Breakfast A most beautiful Radish of true olive shape. Color bright carmine with clear white in the lower portion. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c.

4004 Earliest Scarlet Globe This is the most popular of the extra-early globe varieties. It is of rapid growth, brilliant scarlet in color. Regular strain. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c.

4003 Saxa Ready for the table very quickly, sometimes in 20 days from seed. The roots are bright scarlet, round as a marble, smooth, with very little tap root and a small top. Flesh crisp and juicy. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c.

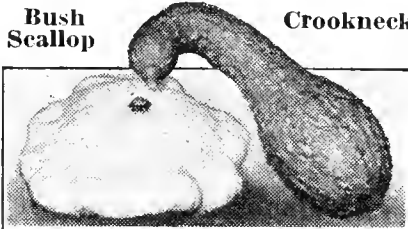

4007 Sparkler, White Tip A very early and attractive variety of the globe or turnip shaped class. Bright scarlet with a distinct white tip. Very popular for home and market. We have a strain that shows a very distinct white base, so that it is one of the prettiest radishes for bunching in existence. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c.

4008 Crimson Giant Globe also called Giant Butter. While Giant Globe is not ready quite as quickly as the other round varieties, it grows much larger often $1\frac{3}{4}$ to 2 inches in diameter, and yet still crisp and firm. These long standing qualities make it valuable for the home gardener or grower. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c.

Acorn, Squash Table Queen

Bush Scallop

Crookneck

Three Popular Squashes

Summer Varieties

4055 Cocomelle Italian Vegetable Marrow. This is the most delicious and fine flavored summer squash yet grown. It is a bush type of plant, without runners and the fruit is long and slender, marbled with light and dark green. Is best used when 6 to 8 inches long and can be cooked like other summer squashes or sliced and fried in butter. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c; lb. \$1.25.

4057 Giant Summer Crookneck

The largest and one of the earliest of the summer varieties. Very productive of large, deep, orange, warty fruits often 2 feet long. Flesh is thick, firm and tender. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c; lb. \$1.25.

4058 Yellow Bush Scallop Golden Custard. A mammoth strain of the Yellow Bush Scallop. Fruits are round and flat with scalloped edges, rich golden yellow and with thick tender flesh of finest quality. Very early. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c; lb. \$1.25.

4060 Giant Summer Straightneck This novel squash has the "crook" taken out of the neck, having all the good qualities without the defects of its parent, Golden Giant Summer Crookneck. It is much easier to pack. The native fruits measure 18 to 20 inches long, deep orange in color, thickly warted, with deeper flesh and thicker more meaty neck than the old "Crookneck" type. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c; lb. \$1.25.

4061 Early White Bush Scallop Patty Pan or Cymling. Very early, fruits flattened and scalloped about 8 inches in diameter, comparatively smooth on the surface and creamy white in color. Flesh white, tender and sweet. Pkt. 5c; oz. 12c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

Sparkler White Tip Radish

Squashes

QUANTITY OF SEED. Of the small bush varieties 1 oz. will plant about 40 hills—2 to 3 lbs. per acre. Of the large seed winter varieties like Hubbard, 1 oz. will plant 15 to 20 hills—3 to 4 lbs. per acre.

4072 Buttercup Squash
A new Type of Winter Squash
See Novelty Page 45 Pkt. 5c; oz. 20c

Favorite Winter Keeper

Improved Hubbard Squash

Winter Varieties

4056 Acorn, Table Queen D e s Moines, Queen Ann. The best little squash for "individual" baking or steaming. Dark green, 6 to 8 inches long and 5 to 6 inches in diameter, deeply ribbed, smooth hard shell. Just cut it in half, take out seeds, cook for 20 minutes and enjoy the delicious nutty flavor of this little "Table Queen." It stands ace high among the squashes. Try it, you'll like it. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.40.

4068 Chicago Warted Hubbard

A new type of Hubbard produced by careful selection of the large, dark green, warted specimens of good stock. Strong healthy vines, hard, warty, dark green fruit with flesh of rich golden yellow, fine grained and dry. Excellent for winter use. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c; lb. \$1.25.

4069 Blue Hubbard The size and shape of old warted Hubbard, but clear blue green in color. Excels the old Hubbard in flavor and dryness of the flesh. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.40.

4070 Improved Hubbard The most popular Winter Squash. Delicious for baking and rivaling the best pumpkin for pies. Has deep orange flesh. Our strain grows large, has dark green, moderately warted shell end and has been selected to give fruit of greater weight and food value than the ordinary Hubbard. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c; lb. \$1.25.

4071 Golden Hubbard Earlier and Smaller than our Improved Hubbard. Flesh thick, deep orange-yellow. Of splendid quality. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c; lb. \$1.25.

4038 Rhubarb, Victoria A few plants of Rhubarb in a corner of your garden will furnish a surprising amount of material for delicious pies and sauces. Rhubarb is very healthful and is easily grown from seed. Sow in early spring, transplanting in early fall to permanent location. Do not pull the stalks the first year after transplanting, thus allowing the plants to become well established. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

4077 Sunflower, Mammoth Russian The best egg-producing food known for poultry. Every farmer should plant some of the seed in any out-of-the-way place at any time in May or June. Single heads will often measure 15 to 18 inches across and contain an immense quantity of seed. Hang the heads in the poultry house, where the hens can reach them. Seed for planting, oz. pkt. 5c; $\frac{1}{4}$ lb. 10c; lb. 25c; 3 lbs. 60c.

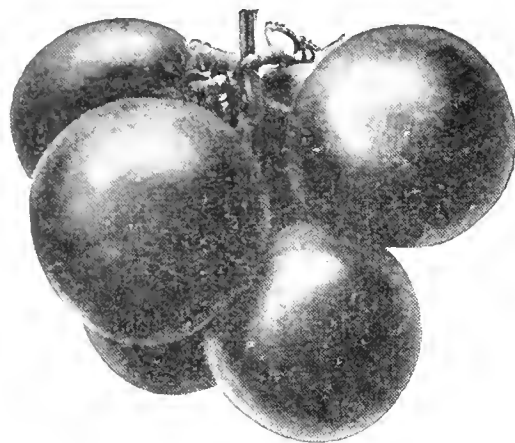

Salsify or Vegetable Oyster

CULTURE—Salsify is grown very much like Parsnip though the rows may be spaced a little closer. Do not plant in freshly manured soil as this has a tendency to produce ill shapen roots.

QUANTITY OF SEED. One ounce should show a 50 ft. row.

4041 Mammoth Sandwich Island It is one of the most delicious and nutritious vegetables. In soup it has a delicious oyster flavor. Also fine if fried in butter, or boiled and made into fritters. It is perfectly hardy and may remain in the garden for spring use. Dig early in the spring however before growth starts. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c.

Make several plantings of radishes and enjoy them all Summer.

Scarlet Dawn Tomato

Scarlet Fruited Tomatoes

4084 Special Strain Earliana Seed from **Crown** Fruits. This strain has been especially selected for depth, smoothness and uniformity of fruit and yet is earlier than the regular strain. **Order Special Strain Earliana Superfine Quality. Pkt. 10c; ½ oz. 30c; oz. 50c.**

4083 EARLIANA, REGULAR. Pkt. 5c; ½ oz. 25c; oz. 40c.

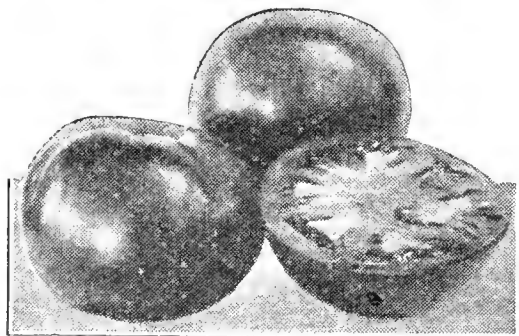

4081 Everbearer Valuable for its long bearing season. You can pick as early as Earliana, and yet keep on picking for a long season after. That is just how the Everbearer behaves. **Pkt. 5c; ½ oz. 25c; oz. 40c.**

4082 New Burbank Burbank is attractive with bright red fruits, medium size, smooth, well formed and ripening evenly all over. **Pkt. 5c; ½ oz. 25c; oz. 45c.**

4087 Red River An extra early with very firm flesh. This variety was developed at the North Dakota Experiment Station, where they find it one of the very earliest, and the most solid and meaty early sort ever on trial. At a Canadian Station it outyielded all other sorts. The fruits are slightly flattened, smooth, bright scarlet with solid meat of splendid flavor. **Pkt. 10c; ½ oz. 30c; oz. 55c.**

4089 Bonny Best In season this fine tomato is right after the first earlies, such as Earliana. One of the very best scarlet varieties for home garden or market. Fruits are round, smooth, medium size and ripen evenly. Flesh is firm, and vines very productive. **Pkt. 5c; ½ oz. 20c; oz. 35c.**

4097 New Stone King of the Reds. The standard main crop variety. The fruit is uniformly large size, smooth, and very solid, and of best table quality. Fine for canning. **Pkt. 5c; ½ oz. 20c; oz. 35c.**

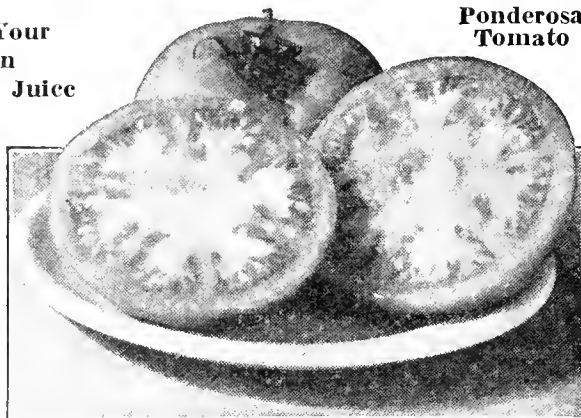

Everbearer Tomato

Tomatoes

CULTURE—Tomato seed should be started early, by March or at least early April in hot beds or in boxes or pots in the house. An extra transplanting into other pots or cold frames is beneficial for root development before finally setting outdoors, when it is warm. Do not crowd tomato plants. You want short stocky plants rather than tall spindly ones.

QUANTITY OF SEED. One ounce should produce 2500 to 3000 plants. If set 36x24 inches apart you will need about 7200 per acre.

Can Your

Tomato Juice

Ponderosa
Tomato

Disease Resistant Tomatoes

All-American
Gold Medal
1935

4094 Scarlet Dawn Wilt-resistant, rust-resistant. A wonderful new Tomato of the deep Marglobe red color, globe-shaped, earlier and rounder than Pritchard, Scarlet Topper. Received Honorable Mention at the Cornell and the Connecticut Experimental Station trials as well as ranking second in the regular All-American trials. **Pkt. 10c; ½ oz. 65c; oz. \$1.25.**

4095 Marglobe Disease Resistant. This variety was introduced by the U. S. Dept. of Agriculture for its resistance to "wilt" and "nail head rust." It is a scarlet fruited main crop variety; the result of a cross between Marvel and Globe, and has retained the best characteristics of each. **Pkt. 5c; ½ oz. 25c; oz. 45c.**

All-American
Gold Medal
1933

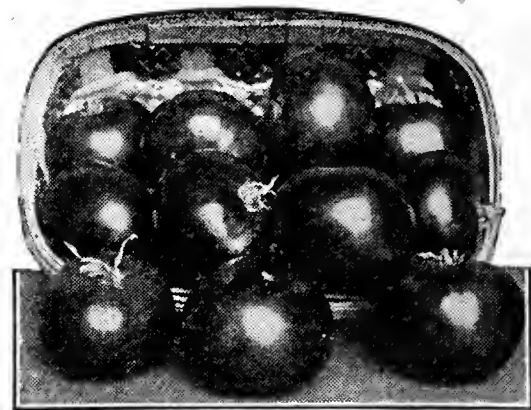

4091 Pritchard or **Scarlet Topper** A recently introduced disease resistant variety developed by the late Dr. Pritchard of the U. S. Dept. of Agriculture. The plant is comparatively small but branching and a true self top. The fruits are medium size, smooth, solid, heavy, globe shaped, rich dark red both outside and inside. Ripens only a few days later than Earliana. Superior tomato in yield and quality. **Pkt. 5c; ½ oz. 25c; oz. 45c.**

4101 Rutgers Disease Resistant. See Novelty Page 45.

4099 Break O'Day A new wilt-resistant Tomato produced by Dr. Pritchard of the U. S. Dept. of Agriculture. Of the same color, shape and size as Marglobe but somewhat earlier. Bright red, extra early and deep globe shaped. **Pkt. 5c; ½ oz. 30c; oz. 50c;**

Small Fruiting Tomatoes

4123 Small Preserving A mixture comprising Red and Yellow Cherry, Peach, Pear, Plum, Currant and Husk Tomatoes. Very desirable for preserves and canning. **Pkt. 5c; ½ oz. 25c; oz. 45c.**

Tomato, Acme

Purple-Pink Fruited Varieties

4103 Acme The popular purple variety, early ripening of medium size slightly oval and smooth. Acme is a reddish-purple with deep scarlet flesh which is very solid and meaty. **Pkt. 5c; ½ oz. 25c; oz. 40c.**

4111 Beauty A very popular purplish pink variety for medium early or main crop. Vines are vigorous and heavy bearing, while the fruits are medium to large, solid, very smooth and of excellent flavor, and they ripen up well around the stem. **Pkt. 5c; ½ oz. 25c; oz. 40c.**

4110 Livingston's Globe The most popular purple-pink sort for market and canning. A very vigorous grower and heavy producer of firm solid fruits. The fruits are very deep, large and heavy of a glossy pink tinged with purple. **Pkt. 5c; ½ oz. 25c; oz. 45c.**

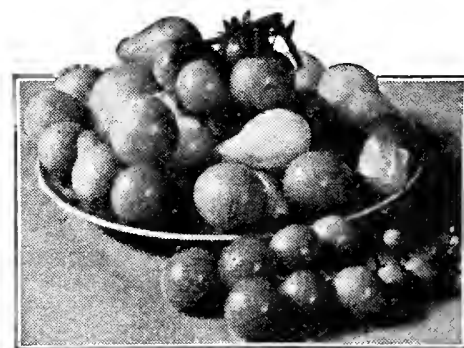

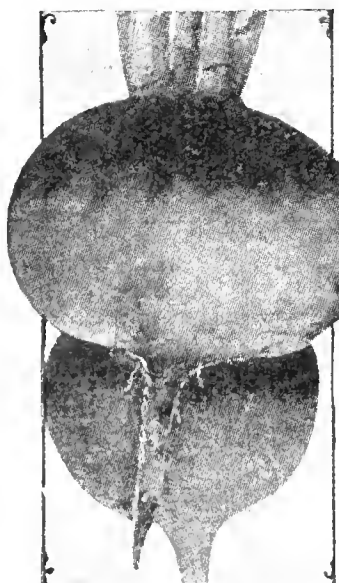

4108 Ponderosa This is not only the largest, but also the heaviest Tomato grown. Color glowing purple-crimson. Considered by many the best table variety. **Pkt. 5c; ½ oz. 40c; oz. 75c.**

4112 Oxheart Oxheart is very large and heavy with thick flesh and few seeds. Gardeners, who have tried it, say it is the best tomato they ever had in flavor and all around quality. **Pkt. 10c; ½ oz. 40c; oz. 75c.**

Yellow Fruited Tomatoes

4120 Yellow Oxheart Has all the qualities of the Oxheart with its big heavy meaty fruits. Color of flesh and skin is rich golden yellow. **Pkt. 10c; ½ oz. 40c; oz. 75c.**

4118 Golden Colossal The Best yellow tomato. You should see the great big delicious fruits of this variety. As large as Ponderosa and quite like it in every way except color, which is golden yellow. The flavor is very sweet. Fine for preserving. **Pkt. 10c; ½ oz. 35c; oz. 65c.**

Small Fruited Preserving Tomatoes
Grow your own Preserves

Purple Top White Globe

Turnips and Rutabagas

CULTURE—For the early crop sow as early as possible to prepare the soil, covering ½ inch deep in rows 8 inches apart, thinning when small to stand 6 inches apart. A continual supply of tender turnips may be had by sowing a few every two or three weeks until late spring. The seed for the main crop of winter turnips is started in July. Sow either in drills or broadcast.

QUANTITY OF SEED. One ounce should sow a 150 ft. row, 1 ½ lbs. an acre if drilled, 3 lbs. if broadcast.

4137 Purple Top White Globe This is one of the handsomest and most desirable varieties grown. Our strain has been selected for smoothness, depth of roots and uniformity. Flesh is fine grained and firm. It is best to eat before roots reach full size. **Pkt. 5c; oz. 10c; ¼ lb. 30c.**

4138 Extra Early White Ball The earliest turnip we have ever seen. Medium sized bulbs crisp and tender, pure white and almost perfectly round are produced in six weeks from seed. **Pkt. 5c; oz. 10c; ¼ lb. 25c.**

4135 Extra Early Purple Top Milan Flat, smooth, of medium size, with bright purple top and few leaves. Flesh white and sweet. The best for early spring planting, also suitable for fall planting. **Pkt. 5c; oz. 10c; ¼ lb. 30c.**

4136 Purple Top Strap-Leaf The standard for this part of the country. Superior for early or late planting. Flattened, good sized, small top with but few leaves; flesh very fine. **Pkt. 5c; oz. 10c; ¼ lb. 25c.**

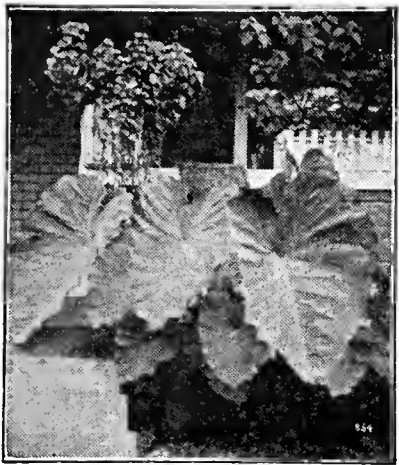

4139 Golden Ball or Orange Jelly One of the most delicate and sweetest of yellow-fleshed Turnips yet introduced. Medium in size. Uniformly smooth and solid. **Pkt. 5c; oz. 10c; ¼ lb. 30c.**

Two Rutabagas or Swede Turnips

Rutabagas have firm flesh and keep well as a winter vegetable. Pack in moist sand in cellar or in pits. Plant Seed in July for winter use.

4145 American Purple Top American Swede. Produces uniformly large, globe-shaped roots. Purple above ground and yellow below. Flesh very solid, rich yellow, fine-grained and very sweet. **Pkt. 5c; oz. 12c; ¼ lb. 35c.**

4147 Early Neckless A yellow purple top variety 15 to 20 days earlier than others. Of excellent quality and fine appearance, the roots are round slightly flattened and neckless. **Pkt. 5c; oz. 12c; ¼ lb. 35c.**

Elephant's Ear, Caladium

Summer Flowering Bulbs

Roots and Tubers

5085 Elephant's Ear, Caladium

Esculentum. One of the most effective tropical-like plants. Beautiful for lawn decoration, whether planted singly, in clumps, or for borders of subtropical groups. Especially nice when planted with Cannas. They like a rich deep soil and plenty of water. A single plant will often grow six feet tall with leaves four feet long and three feet wide. Each plant should have at least a pail of water every day that it does not rain. Plant Caladiums as a background for shorter growing annual flowers in your garden and you will like the effect. Each 20c; 3 for 50c; 12 for \$1.50.

5112 Tritoma Pfitzer Red Hot Poker.

Flame Flower or Torch Lily. Most handsome and showy plants for the border or for bedding. Surpassing all others in brilliancy of color, which is a rich orange-scarlet. Blooms continuously from July to October. The flower spikes are made up of a multitude of small tubular flowerettes and are borne on strong tall stems often 3 to 4 feet high. Unless in a very warm protected location where they may be mulched well they should be lifted in the late fall and packed in sand. Each 30c; 3 for 80c; 6 for \$1.50; 12 for \$2.50.

See Tritoma at right and Color Plate Page 83

Dazzling Cannas

What could be more charming than a nice bed of Cannas against a green lawn? These stately, dazzling colored, giant flowers, are so inexpensive that you can afford all you have room for. The luxuriant foliage would be worth the effort even if they bore no flowers. But they do bear flowers in profusion from July until frost. Perhaps it is the tropical effect which makes them such great favorites.

See Color Page 83

Easy to grow in any garden soil. Work the soil up well and keep them watered. Plant about 12 inches to 18 inches apart to allow plenty of room. We give you average height of each variety, color of flower and color of foliage. With this information, you can work out a color scheme which will suit your individual taste. Order your Canna Roots early so you can start them indoors for later transplanting.

5136 City of Portland Warm rose pink, holding its tone. The great, full-petaled trusses are borne very freely. Green foliage. Height 3½ ft.

5155 King Humbert Orange-scarlet. Orchid flowering. Its flowers measure six inches in diameter, gigantic trusses, a brilliant orange-scarlet with bright red markings, foliage rich coppery bronze. Height 4½ to 5 ft.

Prices of Any Above Cannas
Each 20c; 3 for 55c; 12 for \$1.50.

5163 Queen Helen The flowers of rich golden yellow, beautifully blotched red, form grand clusters of bloom of very attractive coloring. Green foliage. 4 ft. See Color Plate.

5160 The President "Fiery Cross" The most sensational largest flowering red Canna to date. The immense flowers 6 to 7 inches across in mammoth clusters are of the most intense penetrating fiery-scarlet. Green foliage. 4 to 5 ft. See Color Plate.

5178 Color Plate Cannas 60c.
1 each of 4 above varieties.

Hardy Garden Lillies

Everyone wants some of the Hardy Lillies in the garden. Their stately loveliness, rich colors, and delightful fragrance place them among the most popular of hardy garden flowers. They succeed best in the hardy border where the soil is well drained and where other foliage shades the soil from the hot sun of midsummer.

6377 Auratum The Golden Banded Lily of Japan. One of the most popular and undoubtedly the best Known Lily. Flowers are pure white, dotted with crimson spots, with a gold band through the center of each petal. Immense flowers, 6 inches across, of delicious fragrance. Plant 10 inches deep. Stem rooting, blooms July-August. Height 4 to 6 feet. Large bulbs. Each 50c; 3 for \$1.25; 6 for \$2.25; 12 for \$4.00.

6416 Cernum A rare and beautiful species from Northeast China, so is perfectly hardy. The stems are slender though wiry and the foliage is grass-like. This new Lily resembles Tenuifolium in type and habit, but the color is a pleasing shade of salmon, with orange shadings and occasionally, spotted with crimson. Deliciously fragrant, stem rooting, blooms June-July. Height 2 feet. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Chinese Regal Lily

6381 Chinese Regal Slender, flexible stems, covered with dense narrow foliage and crowned with a profusion of funnel-shaped blooms of creamy white. The outside of the flower is streaked with brown and shading off to pink, inside is flushed yellow. This Chinese Lily is the most popular garden Lily today. It is stem rooting and should be planted 9 inches deep.

6428 Set of 8 Above Hardy Garden Lilies. Total Value \$2.65 for Only \$2.25

5077 Amaryllis Giant Hybrids

These are the finest of all the Amaryllis for pot growing. They come in many rich colors from rose and white to deep maroon both self colors and variegations. The largely lily-like flowers are very beautiful. We cannot separate the colors, so if a variety is wanted the more you order the greater variety you will get. They give universal satisfaction when their requirements are understood. Strong bulbs Each 35c; 3 for 90c; 6 for \$1.60.

Culture—Pot Amaryllis in 6 or 7 inch pots filled with good garden soil. Add a bit of bone meal. Keep in a dark, warm place 4 to 5 weeks for rooting. Then to a sunny window for flowering period. Give plenty of water from the beginning.

Amaryllis

5116 Double Dwarf Pearl Tuberose

One of the most delightfully fragrant and beautiful of the summer flowering bulbs. A long succession of bloom may be secured by starting them in pots early in the greenhouse or hot bed and setting them in the garden as soon as weather permits and also planting other bulbs directly in the garden at the same time. The Pearl is a distinct type of dwarf habit and much larger flowers. It is of strong growth with dark broad foliage. Each bulb produces a spike of beautiful waxy white flowers. If planted in the garden in May they will produce their delightful bloom in August and September. Strong bulbs, 3 for 25c; 6 for 10c; 12 for 75c.

Japanese Irises

Finest of all the Iris family. The flowers are of immense size, from 6 to 8 inches, in diameter, and of the most beautiful, delicate shades. Are perfectly hardy and will flower in profusion during June or July. These plants prefer a moist, cool place, but do well in most any location.

6316 SKY NO RYO. Double blue and white.

6317 ASTARTE. Double Dark Violet.

6318 EUMEE. Single dark violet.

6319 GEKK NO NAMI.

Glistening pure white with creamy stigmas.

6320 HERCULE. Double, clear lilac-blue. Prices on the above Japan Iris. Each 35c; 3 for 90c; 6 for \$1.60; 12 for \$2.80.

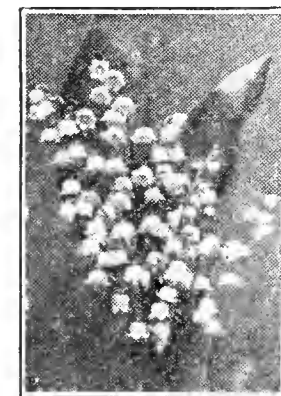

6321 Set of 5 Japan Iris Only \$1.25

Double Tuberose

6398 Lily-of-the-Valley

Universally admired for their dainty little pure white bell shaped flowers and exquisite fragrance. Easily grown, perfectly hardy everywhere, preferring a moist shady location. Give bed a liberal top-dressing of well decayed manure in fall or early spring, to increase size, number and vigor of the flowers. Clumps, each 35c; 3 for 90c; 6 for \$1.60; 12 for \$2.80.

Templin-Bradley's Famous Gladiolus

A Rainbow of Color for Your Garden

"Rainbow," because it is probably true that no other family of flowers offers so wide a range of colors, shades and markings as Gladiolus. They are so easy to grow that special skill and training are not necessary for success. They will thrive in any fairly good garden soil.

You will get pleasure from your Glads, both in the garden and in the house, where they are very long-lasting as cut flowers. Long-lasting, too in the heat of summer when many flowers would wilt down rapidly in the house.

It was in 1915 that we started producing our own Gladiolus bulbs for our trade. In the 21 years since, we have watched closely the trend of popularity and have kept right up to the minute with the latest introductions, so that in this list we offer you only the best of the large flowering varieties. This is important to you whether a beginner or an old hand at it. Order from this page and you will have the best in your garden next summer. If you attended any of the major Gladiolus Shows in 1935, you doubtless saw these varieties featured there by exhibitors.

Color Plate Gladiolus, See Page 69

CULTURE: Plant the bulbs or "corms" as they are called, in trenches or in holes about six inches deep and from six to eight inches apart, covering them with loose fine earth, pressing it down well around the bulb. Gladiolus bulbs do well in any good, well drained garden soil, providing it is in a sunny location. Plant the first bulbs right after the last frost in the spring, plant more every two weeks until July 1st and you will have flowers from mid-July until the first frost next Fall.

5533 Betty Nuthall Slightly ruffled flowers of warm coral-pink with orange throat and light featherings of carmine. One of the best of the late introductions. **Each 7c; 3 for 18c; 12 for 60c.**

5548 Charles Dickens A purple-violet of great richness and depth of color. Blooms are freely produced on long tall spikes, often 5 feet or more tall. A very popular variety of attractive color and form. **Each 7c; 3 for 18c; 12 for 60c.**

5632 Golden Dream A pure golden yellow flower, of Golden Measure form but of better and richer color. The deep throat is slightly striped wine and the anthers carry a wine stripe. The best yellow to date. **Each 5c; 3 for 12c; 12 for 40c.**

5726 Mr. W. H. Phipps A delicate La France pink over-laid with salmon-rose. Lower petals lightly striped and splashed ruby. Large flowers, long spikes. **Each 7c; 3 for 18c; 12 for 60c.**

5986 Color Plate Gladioli Collection

5732 Mary Frey A delicate lavender-pink almost a lilac tone, soft and pleasing. An excellent cut flower and a good garden variety. **Each 7c; 3 for 18c; 12 for 60c.**

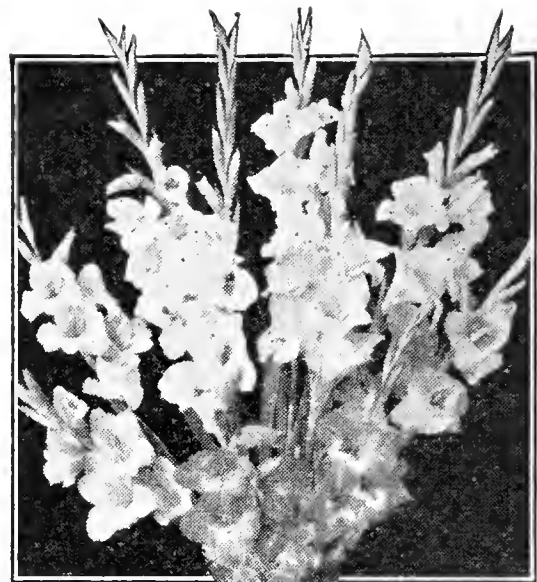

5734 Mrs. P. W. Sisson A clear light pink with just a suggestion of creamy tint. Flowers of large size well arranged on tall spikes. **Each 5c; 3 for 12c; 12 for 40c.**

5783 Pfitzer's Triumph One of the best Gladiolus ever introduced. Very large wide open flowers of a deep orange-salmon overcast scarlet with small velvet red marking in throat. **Each 7c; 3 for 18c; 12 for 60c.**

5984 Veilchenblau A large flowered Gladiolus of richest Iris blue coloring. An exceptionally vigorous grower. **Each 12c; 3 for 30c; 12 for 95c.**

1 Bulb each of 8 varieties shown on color Page 69

Total Value 57c, Only 40c

Four New Gladiolus

5582 Early Dawn Rich geranium-pink and as beautiful as its name. Early and of excellent quality. Large individual blooms on tall spikes. A most colorful flower for cut-flower work. **Each 25c; 3 for 65c; 12 for \$1.50.**

5595 Excellence A conspicuous and attractive Glad in deep orange-vermilion. It is self colored in effect, but has faint throat markings of a deeper hue. Strong, large, wide-open flowers. **Each 12c; 3 for 35c; 12 for \$1.00.**

5718 Maid of Orleans The novelty white of this season. Splendid new milky-white with a distinctive cream hue in the throat. Tall spike with eight to ten large, well arranged, open flowers. **Each 25c; 3 for 65c.**

5920 Wurtembergia A lovely scarlet with a broad blotch of soft cream. Good substance, well shaped and a fine Glad in every way. **Each 25c; 3 for 65c; 12 for \$1.50.**

5995 Set of 4 New Glads,
Value 87c, only 60c

Eight Lovely Gladiolus

5558 Commander Koehl The wing petals form a triangle $6\frac{1}{2}$ inches across. Dark red, warm shade of glowing brilliancy. **Each 12c; 3 for 30c; 12 for 85c.**

5642 Heavenly Blue Clear, delicate lavender-blue of dainty refinement. A heavenly shade and a large flower that will make choice cut-flowers. **Each 12c; 3 for 30c; 6 for 50c; 12 for 85c.**

5725 Moravian A charming flower of dainty lavender, attractively ruffled. This variety often produces several spikes of flowers from one bulb. **Each 12c; 3 for 30c; 6 for 50c.**

5723 Morocco The darkest of all the dark red Glads. Well formed large blossoms of beautiful deep velvety dark red, almost black, without any other shade. Flowers are well set on long, straight spikes. A real beauty. **Each 12c; 3 for 30c; 6 for 50c; 12 for 85c.**

5996 Set of 8 Lovely Gladiolus Total Value \$1.22 for \$1.00

5800 Picardy Sensational flower of delicate apricot-pink. Florets extremely large, slightly ruffled. **Each 12c; 3 for 30c.**

5826 Red Phipps Tall fine spikes of soft, rich red. Eight or more large florets open at one time. A very fine new variety of charming beauty. **Each 25c; 3 for 65c; 6 for \$1.00; 12 for \$1.50.**

5848 Schwaben Girl Pure pink, without any other shade or blotch. A fine self-color. Huge spike, 8 to 10 big open flowers with round petals. One of the earliest Glads. **Each 25c; 3 for 65c; 12 for \$1.50.**

5930 Yvonne A very lovely soft rose shade, with blotch of lilac. An unusual combination of tones. Large, well placed flowers. **Each 12c; 3 for 30c; 6 for 50c; 12 for 85c.**

100 Gladiolus Bulbs for only \$2.00

10 Each of 10 Leading New Varieties. No Changes.

Postpaid. Each variety separately labeled.

The most valuable assortment you can buy.

5531 Bertie Snow Large flowers of soft lavender with a slight tinge of pink. Excellent substance and well spaced on a good spike. Eight or more open at once. A flower of unusual delicate beauty.

5542 Caruso The earliest of all red Glads. Produces a large flower of orange-red on a fine spike with stiff stem. Originated in Holland and is one of the finest bright reds. You'll like its color.

5571 Dr. F. E. Bennett A very striking Glad. A large flower of peach-red overlaid with flame-scarlet. Throat speckled ruby and white. An outstanding variety that will give you gay color for the garden and house. Tall heavy spike.

5645 Helen Wills Large clear white, shading to cream on lower petals. Fine substance, vigorous, straight spikes, fine placement of florets. A Blue Ribbon winner in 1935.

5715 Marmora A most intriguing gladiolus. It is large, stately, and most unusual in colors which are lavender-gray with petunia colored blotch. Heavy substance and perfect placement. 8 flowers open at once.

5737 Mrs. Leon Douglas Begonia-rose striped with flame and brilliant scarlet and speckled with ruby-red. Extra strong spikes with many flowers open at a time.

5733 Mrs. Frank Pendleton Deep rose-pink, shading to pale pink. Throat of bright rose with crimson blotch. A striking Glad and one of the choicest blotched varieties ever produced.

5739 Mrs. Von Konynenburg Good blue Glads are extremely scarce and this new Holland variety is most welcome. It is a beautiful lilac-blue, large, good substance, splendid spike and good form.

5802 Primrose Princess A Royal Princess. Its names cannot do it justice. It is of a rich, deep yellow, just the color for cut-flowers, where artistic beauty is desired. Excellent large flowers on long, stiff stems.

5838 Ruth Huntington Beautiful violet-blue with deeper lilac markings on lower petals. Large flowers on tall, strong spikes. A lovely flower of dainty color.

You are offered in this Collection, the leading show winning varieties of carefully grown, clean, healthy, blooming size bulbs. Not sold separately.

5991 10 Bulbs each above 10 kinds for only \$2.00.

Gladiolus Mixtures

Each year we received many letters telling of the great pleasure and satisfaction our customers have had from our Gladiolus Mixtures. These letters praise the very high quality and splendid assortment, the health, vigor and free blooming of the Gladiolus bulbs. We are justly proud of the mixtures we offer you here.

Templin-Bradley's Glory Mixture

A fine mixture of selected varieties of recent origin which have proven themselves most desirable and satisfactory for general garden use. This Glory Mixture has brought immense pleasure to thousands of our customers during the past few years. You will like these for cut-flowers.

5981 Templin-Bradley's Glory Mixture. 12 for 50c; 25 for 90c; 50 for \$1.75; 100 for \$3.00.

Superfine Gladiolus Mixture

This excellent mixture is made from the popular well known varieties. They are all large blooming size bulbs equal to those in the above mixture, except that the varieties are not quite as new.

5983 Superfine Gladiolus Mixture. 12 for 40c; 25 for 75c; 50 for \$1.35; 100 for \$2.50.

Garden Beautiful Mixture

This mixture is made for those who wish the very best available in Gladiolus Mixtures. The color array will please you and you will be delighted with the varieties we give you. If sold separately by name, you would have to pay many times the price we ask in mixture.

5985 Garden Beautiful Mixture. 12 for 70c; 25 for \$1.25; 50 for \$2.25; 100 for \$4.00.

Tuberous Begonias

Single and Double in Many Colors
For The Garden or Window Boxes

If you long for a beautifully colored flower which is different from any other class. Tuberous Rooted Begonias will please you. There are two classes—singles which often grow six inches or more across and doubles up to five inches.

The rich, velvety, crinkled foliage is prettier than any other begonia. They do best when direct sun does not hit them from ten to three in mid-summer. But they should not be grown in total shade. Colors are variations in pink, yellow, orange, red, crimson and white. You will seldom find two of exactly the same shade if you plant a hundred bulbs, so the more you plant the more interesting they become.

LONG LIFE

Every year, customers tell us of having kept their Begonia bulbs for many years by digging them in the fall and storing them in fruit or potato cellars.

EASY TO GROW

Tuberous Begonias are easy for the home gardener to handle and florists make big money in growing them. I start mine in shallow boxes of soil in the house about a month before time to set them out in the garden. This permits about three leaves to get fully formed by the time danger from frost has passed. I should hate to have to do without Tuberous Begonias and I know you will feel the same way after you have tried them. You can plant them in the garden or in porch and window boxes.

Single Begonias

We have seen many flowers over 6 inches in diameter. The texture of the petals is not like any other Begonia flower, waxy, yet looks like velvet.

5001 Pure White 5004 Orange, Salmon
5002 Rose or Pink 5005 Red and Scarlet
5003 Shades of Yellow 5006 Dark Crimson

Plant Hardy Native Ferns

Hardy Native Ferns are rapidly growing in popularity as their value is becoming better known. They are easily grown, and so well adapted for shady locations where little else will succeed. There are usually nooks and corners around the home grounds where the sun seldom strikes, just the place for assorted clumps of Hardy Ferns. The illustration below is from an assorted planting in front of a north porch. Our plants come from northern New England where the temperature often registers away below zero, a guarantee of their hardiness.

Hayscented
or
Gossamer
Fern

6165 Ostrich Plume Fern (Onoclea) R. G. Very handsome fern, as graceful as a palm, and one of the most satisfactory to grow. Makes a most effective background for other ferns. The fronds reach a height of two to three feet, with a width of six to eight inches. Sometimes called "The Palm of the North." In the illustration below the tall ferns in the background are of this variety. One of the most satisfactory ferns for the amateur to grow, always giving satisfaction. Grows in beautiful crowns, requiring considerable room. For a background plant two feet apart, or as single specimens, in partial shade.

6155 Evergreen Wood Fern

(Aspidium Marignale) R. G. A desirable evergreen variety. Its large green fronds have a bluish tinge and are very durable. Cut fronds will keep a long time. It is easily grown and can be adapted to varying conditions. A desirable variety for general use.

6153 Christmas or Dagger Fern

(Polystichum) R. G. A widely known evergreen species, the fronds being largely used by florists. One of the easiest to grow and about the best evergreen, hardy fern we know. Fine for forming an undergrowth among shrubbery. A good fern to plant with other varieties.

Christmas
or
Dagger
Fern

Price of all Ferns, Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60

6158 Hayscented or Gossamer Fern

(Dicksonia) R. G. One of the varieties that will grow in either sun or shade. It propagates itself by underground root stalks, and if planted in rich, porous soil, will soon form masses. This is the best variety to plant where a mass of from 15 to 18 inches high is desired.

Soil for Ferns

Ferns succeed best in a rich, light, loose, fibrous soil, with good drainage. If the soil is inclined to be soggy, raise the fern bed two or three inches above the surrounding surface. Before planting make the soil fine, and if possible incorporate some leaf mould from the woods. Peat Moss or soil from around some old building, but never use fresh manure of any kind.

A touch of the woods, right at your door step.

Beautiful Dahlias

Mrs. I. De Ver Warner

It is not many years since the only dahlias were comparatively small and quite uniform in type. By careful breeding, new forms, giant size and remarkable colorings have made the old types obsolete and today there are hundreds of splendid varieties, worthy of a place in any flower show. Dahlia lovers have formed strong Dahlia Societies in almost every state as well as the American Dahlia Society of national scope. These organizations encourage the introduction of new kinds and grade them according to merit. We offer you the following varieties at moderate prices. They have been carefully grown to bring out the best in each variety. Instructions for growing, packed with each order, free.

5328 Jersey's Beauty The most beautiful pink Dahlia in existence. It is a rich rose-pink, shaded old gold. Tall, vigorous, profuse bloomer. Each 25c; 3 for 70c.

5382 Margaret Woodrow Wilson Opal-pink, face of petals creamy white, reverse of petals phlox-pink. Large flower. Each 25c; 3 for 70c.

5318 Pride of Stratford Large, two-toned orange variety with a very deep reverse. Most gorgeous orange, bronze, old-gold shadings. Each 25c; 3 for 70c.

5354 Thomas A. Edison Huge royal purple with staghorn petal formation. Thrifty growing habits one of the finest Dahlias ever grown. Each 50c; 3 for \$1.25.

5465 Set of Above 4 Decorative Dahlias \$1.00

Millionaire

A Fine Combination

Here is a beginner's collection of our fine, dahlias of striking colors, all large flowering, no two alike which will include the four leading types of Show, Peony-Flowered, Decorative and Cactus. These are all desirable and popular varieties which we do not name. Each tuber is worth much more than the 12½c represented in one-fourth the collection price. Every year we sell great numbers of this famous collection because our customers have confidence that we will give them their money's worth and more. **5473—4 Dahlias for 50c.**

Dollar Box

This Dollar Box will contain ten good dahlias which would cost you much more if you bought them separately. This is the collection which enables us to balance our stock of a great many varieties grown in large quantities. Many choice types and colors will be included. One of these collections planted in your garden will give you plenty of cut flowers for your house and a show in your garden from early August until frost. **5472 Ten Fine Unnamed Dahlias Only \$1.00**

Five Giant Flowering Dahlias

5362 Bashful Giant F. D.—One of the largest Dahlias ever introduced; a great attractive exhibition flower. Color, apricot with golden suffusion and shading, with the flower slightly drooping. Each 25c; 3 for 70c.

5325 Mrs. I. de ver Warner A beautifully formed flower of glowing mauve pink. The flowers are freely produced on good upright stems and are ideally fitted for a cut flower. Flowers are large, uniform and of excellent substance. Each 20c; 3 for 55c

5319 Jersey's Beacon A universal favorite. Chinese scarlet with a paler reverse, giving it a two-toned effect. Large, globular flowers. Each 25c; 3 for 70c.

5350 Mrs. Ethel F. T. Smith Creamy white, shading to lemon at the center. A tall, robust grower, large flowered. A beautiful Dahlia for use in cut-flower displays or exhibition work. Each 20c; 3 for 55c.

5394 Venus Creamy white, tinted lavender. Medium sized flower on good stems, dwarf growth, free and profuse bloomer throughout the Dahlia season. Each 20c; 3 for 55c.

5466 Set of 5 Giant Dahlias, Value \$1.10 for 75c.

Six Attractive Dahlias

5356 Cleopatra A duplex or peony type of bright red and gold, a very showy combination. Fine size, early and free flowering. Each 35c; 3 for \$1.00.

5331 Jane Cowl An unusual combination of bronze buff orange and salmon. A flower of such distinction both in form and color that it immediately attracts the admiration of everyone. Each 50c; 3 for \$1.35.

5370 Judge Alton B. Parker F. D.—Coppery-salmon with golden hue. A large perfect flower the entire season drooping slightly on good stems. A good all purpose dahlia. Each 30c; 3 for 80c.

5336 Millionaire An immense flower of dainty lavender, with a pink sheen overcast, and shading to white in the center. Free bloomer. Each 30c; 3 for 80c.

5366 Pride of California See Color Plate, page 69. Very large, vivid scarlet. One of the best Dahlias for cutting. Each 35c; 3 for \$1.00.

5392 Snowdrift Decorative. Giant deep blooms of pure white with waxy petals. Each 25c; 3 for 60c.

5462 Set of 6 Attractive Dahlias \$2.05
Value for \$1.50

Dahlia Don'ts Don't condemn a small tuber. Don't plant too early. Don't unwrap tubers until ready to plant. Don't store in light, hot or dry room. Don't plant over 6" deep.

Winedot Phlox

Phlox Subulata, Moss Pink

Fine for Rock Gardens

A dwarf creeping variety of Phlox with pretty moss-like foliage which remains green nearly the whole year through. Its bloom which is produced in early spring fairly covers the plants with a blanket of color. They are excellent for edging or rock garden.

6553 Alba A beautiful variety of pure white bloom and clean rich green foliage, which make a combination that is indeed refreshing.

6559 Atropurpurea Rich satiny Anaranth red with a darker eye. Striking color, deepest red of all the Subulata Phlox.

6560 Blue Hill Uniform compact grower. Beautiful deep blue. Early and late crop of flowers. You'll like it.

6556 G. F. Wilson A very desirable variety of soft lavender. Free bloomer and lovely spring color. Combines well with other Subulata and other Rock Garden plants.

6562 Rosea Charming rose-pink. Fine for covering banks, thrives in hot, dry situations and blooms profusely.

6563 Vivid Bright pink with fiery red eye. Said to be the finest free-flowering dwarf Phlox in existence.

Prices on Subulata Phlox. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6564 Set of 6 Subulata Phlox 85c.

Hardy Phlox

One of the most useful flowers for summer decorations. Exceedingly hardy. Once planted, they require no further attention for several years, but it is advisable to renew them about every fifth year. They flower from early July to middle of September and 1 to 4 ft. tall.

6541 Admiral Very large trusses of reddish pink.

6523 Betty Lou Without question the outstanding salmon-pink.

6543 Colonial Extra large light blue. Blooms over a long period. Strong grower, unique color.

6525 Electra Brilliant red, blooms July to September.

6542 Feurbrand (Fireglow.) New, brilliant orange-scarlet, almost vermilion. Flowers freely throughout entire season.

6545 L'Innocence Pure snow-white, large and very tall.

6546 Mrs. Milly Van Hoboken Fine soft pink, suffused with mauve. No eye markings.

6547 Nicholas Flammel Beautiful new variety of carmine lake red with crimson eye.

6544 Painted Lady Delicate and very pleasing silvery-pink with salmon shadings and cherry red eye.

6548 Special French Lovely shade of glowing pink, salmon eye.

6549 Mrs. W. G. Harding A most wonderful shade of salmon-red. Unusual color in Phlox.

6550 Winedot Similar to the old Phlox Bridesmaid. White with crimson eye, which is encircled with a pleasing tone of mauve.

Prices on above Hardy Phlox. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6551 Set of 12 Hardy Phlox \$2.00.

Peonies

6474 Baroness Schroeder White, shading to flesh. One of the finest rose-type Peonies. Immense size, very fragrant. Each 40c.

6515 Karl Rosenfeld Rich, velvety crimson, brilliant and striking flower. Semi-rose type. Mid-season. Tall and stately habit. Each 50c; 3 for \$1.25; 6 for \$2.25.

6519 Mons Jules Elie King of all Peonies. Immense, globular flowers of glossy lilac-pink, shading to deep rose. Overlaid with silver. Each 40c; 3 for \$1.00.

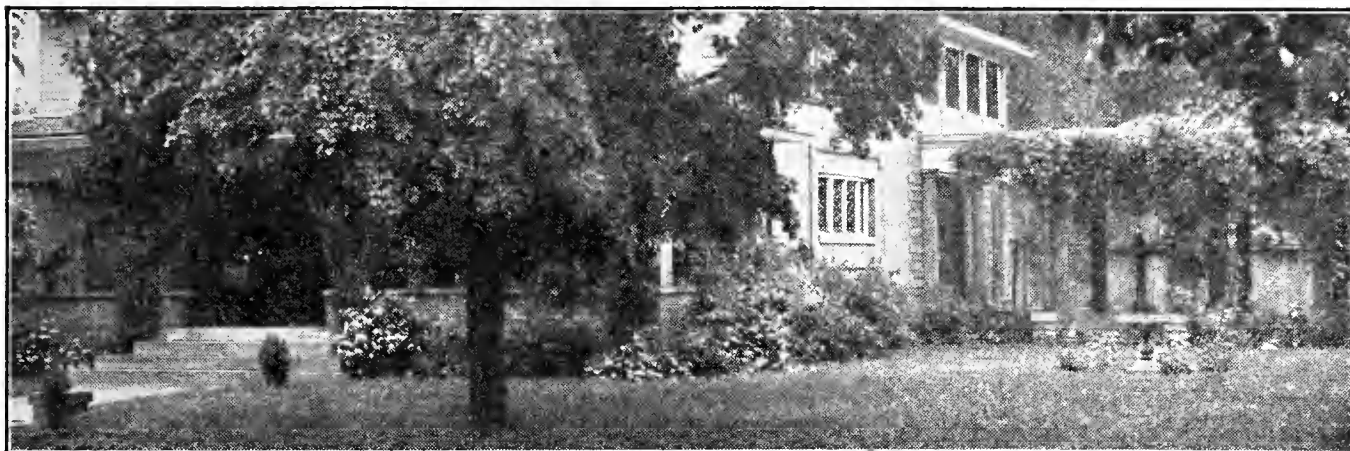

6520 Pres. Roosevelt Deep, rich, brilliant red. A grand Peony. Mid-season, semi-rose type. Each 50c; 3 for \$1.25.

6522 Primevere "Springtime." Large, full petals sulphur-white, center petals sulphur-yellow. The nearest approach to a yellow Peony. Mid-season bloom. Each \$1.00; 3 for \$2.50; 6 for \$4.50.

6487 Water Lily Peony Semi-double, cup-shaped white flowers. Profuse bloomer. Each 40c.

6515 Set of 6 Peonies
Total Value \$3.20 for \$2.50.

Hardy Flowering Shrubs

Add Beauty To Your Home

Permanent and increasingly beautiful results are more easily obtained from plantings of hardy flowering shrubs and vines than from any other sort. The small cost in time and money necessary, is well spent in securing a well-kept and attractive home grounds, adding to the beauty and comfort of home and increasing the value of property. Plantings of hardy shrubs once established become an established part of your property almost as permanent as your house and lend that beauty and harmony to the house and surrounding landscape necessary to produce the complete picture of beauty and comfort, interesting and inviting to all who pass by.

Quick results and low cost are two features of the shrubs that we list in the following pages. Strong, healthy roots direct from our nursery that will quickly grow into plants of beauty and at a price that is only possible because of the great number of them that we grow and sell. Just a small amount invested in hardy flowering shrubs, vines or hedge plants will give you results far beyond your expectations and add more in beauty and satisfying comfort to your home than any investment of equal amount. To start right, buy the best.

Double Althea

Altheas, Rose of Sharon

Very attractive hardy shrubs or small trees, very easily grown and forming very symmetrical plants whether grown as a shrub or to tree form. The Altheas are a very fine hedge subject and with their large gay flowers from July to October are very attractive.

6701 Double White (Jeanne de Arc). The best of the pure white double flowering Altheas and very fine for any location. **1 year size. Each 20c; 3 for 50c; 6 for 90c.**

6702 Double Red (Boule de Feu). Very beautiful, and the freest blooming of all the double Altheas. Excellent for hedge or group use. **1 year size. Each 20c; 3 for 50c; 6 for 90c.**

6708 Set of Two Altheas One each of Double White and Double Red for **35c.**

6740 Buddleia or Butterfly Bush Variabilis Magnifica

One of the most desirable summer flowering shrubs, beginning to bloom in July, it continues until cut by severe frost. The flowers are of a pleasing shade of violet mauve. Succeeds everywhere and blooms freely the first season. In the North it dies down to the ground in winter, forming a new bush each year, 5 to 6 ft. high. In August and September every branch carries a beautiful spike of fragrant flowers that attracts many butterflies, hence the name "Butterfly Bush." See Color Plate Page 52.

6740 Strong blooming size plants. Each 30c; 3 for 75c; 6 for \$1.35.

6739 "Ile de France" New Improved Buddleia

This wonderful new French introduction is a thrilling beauty with its brilliant, rich, rosy-purple flowers of such fragrance that it attracts hives of beautiful Butterflies. The plant grows 3 or 4 feet in height, forming a symmetrical, bushy shrub, every growth of which is terminated by a graceful spike of the lovely flowers, 9 to 12 inches long. Blooms from late July to the end of autumn. Strong blooming size plants. **Each 35c; 3 for 90c. See Color Plate Page 69.**

7056 Cornus, Florida Rubra

Flowering Dogwood. This very desirable variety of flowering Dogwood bears a mass of deep pink blooms in early Spring before the foliage appears. The foliage throughout the Summer is a very handsome rich green, in the Autumn turning to a bright crimson. They grow into tree form reaching the height of 20 to 30 feet with very graceful and attractive branches. Their bright flowers, handsome foliage and crimson coloring in the Autumn make them very ornamental and attractive throughout a long season. They are an especially attractive tree for the lawn or yard creating much attention. The Cornus likes a moist but well drained soil and does well in either sun or semi-shade. We are offering them this year at very reasonable prices. **Strong. Each \$1.00; 3 for \$2.50; 6 for \$4.50.**

Calycanthus, Sweet Scented Shrub

A universal favorite for a hundred years or more. Also called "Spice Bush" as the bark is quite fragrant. Blooms in June and intermittently throughout the Summer. Delightfully fragrant, chocolate-brown flowers. Height 5 to 6 feet.

7042 2 year, well branched, 15 to 18 inch. Each 40c; 3 for \$1.00; 6 for \$1.80.

7016 Hardy Chinese Azalea Mollis

See Azalea Mollis in Color on Page 52

The Azaleas are one of the most beautiful and popular families of hardy flowering shrubs in cultivation, and the Chinese Mollis is perhaps the most satisfactory and most easily grown of all. Their great charm is in their wonderful array of color, they vary from light yellow to salmon and dark orange, scarcely two plants exactly alike in color. For best effect we suggest planting in groups as the yellow, orange and salmon blend beautifully together. They are perfectly hardy thriving under ordinary garden conditions but do best in a protected location where they will be in partial shade. For best success, prepare the soil to the depth of 15 to 18 inches, using 50 per cent of well rotted leaf-mold from the woods or decayed peat from a swamp or both. Be careful that there is no lime in the soil. Water freely. The plants we offer are strong healthy plants that will give you lovely flowers the following spring.

7016 Strong 12 to 15 inch size. Each \$1.25; 3 for \$3.15; 6 for \$5.75.

7022 New Red Barberry

See This Barberry in Full Color on Page 52

The foliage is rich bronzy reddish, purple. This new Barberry will form neat, symmetrical clumps that will be an ornament to any lawn. To produce the most brilliant colors it should be planted in full sunshine. As autumn approaches, it becomes more brilliant in color. Perfectly hardy and easy to grow.

Price 2 year, 12 to 18 inch, each 35c; 3 for 90c; 6 for \$1.60.

Japanese Barberry

Berberis Thunbergi. One of the most useful and desirable of all shrubs. Equally as well adapted to border or group planting either mixed with other shrubs or by themselves. And especially valuable as a hedge subject. Their thick luxuriant foliage graceful and informal and the bright red berries carried through the winter make this a very attractive shrub.

7020 JAPANESE BARBERRY. 12 to 18 inch. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60; 25 or more at 12c each.

7021 JAPANESE BARBERRY. 18 to 24 inch. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.10; 25 or more at 18c each.

7014 Double Pink Flowering Almond

Amygdalus. Very desirable and attractive. Extra early flowering shrubs of rather dwarf habit. Usually 3 to 4 ft. in height. The branches are completely covered with pretty little double pink flowers in early spring before the leaves appear. This is an unusually valuable shrub but not grown as widely as it should be. Adapts itself well to any location but is probably best as a single specimen in a position where it may develop to its fullest beauty. See Color Plate Page 52.

7014, 2 yr. 2 to 3 ft. Each 50c; 3 for \$1.25; 6 for \$2.25.

7029 Bechtel's Double Flowering Crab

This is not a shrub, but rather develops into a small tree. It is perfectly hardy everywhere, succeeding nicely in all soils and climates. It would be difficult to describe its wonderful beauty when in bloom, the branches bending under a profusion of delicate pink delightfully fragrant rose-like flowers. The only sweet scented double flowering crab. It will require a little more room than the ordinary flowering shrubs on account of its tree-like habit of growth, and its full beauty can only be known and appreciated when it has plenty of room to develop. It is very often used as a single specimen plant for lawn planting and in this location during its blooming period in May and June presents one of the most gorgeous sights imaginable. See Color Plate Page 52.

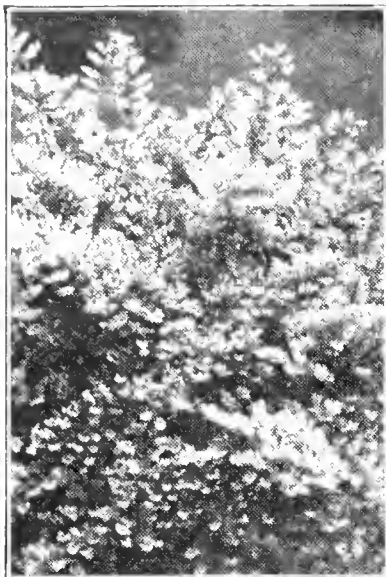

Our price, 2 year, only 60c; 3 for \$1.50.

Chinese Azalea, Mollis

We will be glad to quote special prices on larger quantities of shrubs.

Deutzia, Pride of Rochester

Hardy Flowering Shrubs, Cont. Bush Honeysuckle, Lonicera

See Honeysuckle in Color Plate Page 52.

The upright Honeysuckles have bright pretty flowers followed by showy berries that last through the fall. Make very desirable bushy screening hedges, and the nucleus of tall shrub groups. These shrubs are not particular as to soil or conditions. They always seem to do well. They will also do well in the shade.

Tatarica Rosea 6-8 feet. This is very attractive when in blossom, being one of the few early pink-flowering shrubs, followed by bright red berries that stay on all summer.

6737 1 year size, Each 20c; 3 for 50c; 6 for 90c.

7037 2 year size, Each 35c; 3 for 90c; 6 for \$1.60.

Deutzia, Pride of Rochester

The Deutzia is a fine showy shrub of great ornamental value coming to us from Japan. Their luxuriant foliage and profusion of attractive flowers have given them a front rank among flowering shrubs. Pride of Rochester is a very profuse bloomer bearing pretty double flowers of pinkish white. The flowers are produced in May and June and frequently to a smaller extent at later intervals.

7065 Heavy 2 year, Each 30c; 3 for 75c; 6 for \$1.35.

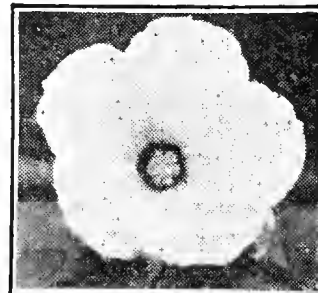

Bush Honeysuckle

7108 Hypericum, Goldflower Moserianum A very desirable shrubby perennial for the border or lawn, producing long, slender, much branched stems, which are of free, graceful and pendulous habit. The flowers are borne freely from July to late September and are a rich golden yellow, 2 inches or more in diameter, resembling immense single buttercups. The numerous yellow stamens and crimson anthers add much to the attractiveness of the flowers. Of very easy culture and especially useful and desirable for a sunny location. Hypericum is herbaceous dying to the ground each year. 2½ ft. tall. One year, 12 to 18 inches. Each 30c; 3 for 75c; 6 for \$1.35.

Scarlet Japanese Quince

Cydonia Japonica Very popular and desirable shrub completely covered with dazzling scarlet flowers in early spring, May, before the leaves appear, followed by small fruits which are quite fragrant when ripe. The plants have protecting thorns and are very desirable grown as hedges, producing a most brilliant effect when in bloom. The plants grow to a height of 5 to 6 ft. The foliage is dark glossy green. One very nice feature of this shrub is the fact that the branches can be cut any time after the first of the year and brought indoors for forcing into bloom.

7193 1 year, heavy plants, Each 30c; 3 for 75c.

Hardy Hibiscus

Hardy Hibiscus Mallow Marvels

The most valuable acquisition in hardy herbaceous plants introduced in recent years. Forms large plants or clumps 5 to 6 feet high, and 3 to 4 feet across which produce their many large blooms in the most beautiful colors from white through various shades of pink and red to brilliant crimson. We cannot offer in separate colors.

7103 Strong 2 year plants, 18 to 24 inch. Each 25c; 3 for 65c; 6 for \$1.15.

Hydrangeas

These magnificent hardy American shrubs are of outstanding merit among all flowering shrubs. Their beautiful luxuriant foliage and their attractive massive clusters of bloom, their ease of culture and their adaptability to any use are only part of their valuable characteristics.

Japanese Rose-Flowering Cherries

Tokio presented Mrs. Taft with 3,000 of these beautiful trees which bloom each spring on the banks of the Potomac in Washington.

The fame of these Flowering Cherries has spread all over our country and we know you will be glad to see that we have listed three of the best varieties here and at a price which makes it possible for you to plant several of them and make your home grounds attractive like Japan and Washington in "Cherry Time."

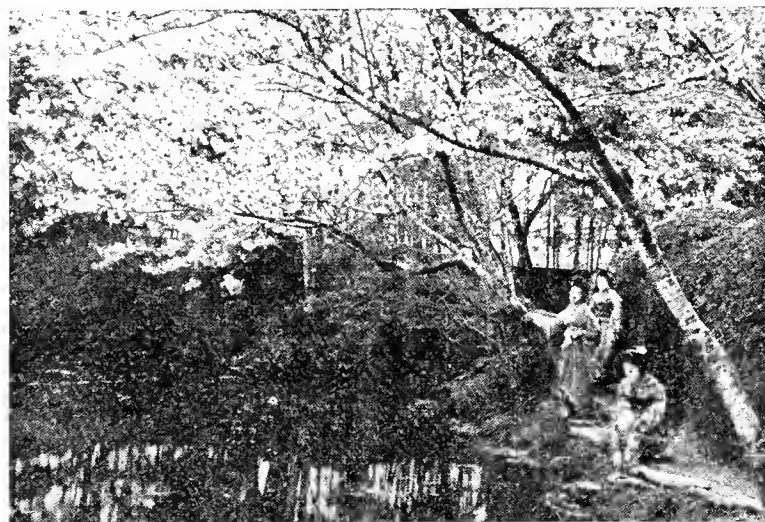

7260 Hisakura Double deep, pink. apple - blossom

7261 New Red Fine double, deep rose.

7262 Shirofugen Double, soft pale pink.

Prices on Japan Flowering Cherries. Each \$1.00; 3 for \$2.50.

7264 Set of 3 Cherries for \$2.50.

Japan in "Cherry Time"

You, too, can have a lovely Japanese Garden if you'll plant some Flowering Cherries.

Forsythia or Golden Bells

An upright growing shrub, often reaching eight feet, with deep green foliage and pendulous trumpet shaped flowers of bright clear yellow. A strong grower and profuse bloomer with long and gracefully arching branches. Blooming in April or early May before foliage has appeared the branches are veritable masses of golden flowers, brightening up the border or garden very attractively long before any other shrubs are ready to bloom. Forsythias are easy to grow, thriving in most any soil, in sun or shade.

7087 Heavy 2 year, Each 40c; 3 for \$1.00; 6 for \$1.80.

New Double French Lilac

Here is an opportunity to procure some of these wonderful Hybrid French Double Lilacs for your home. They are quite distinct from our common single Lilacs, being of dwarf, compact growth, and producing their large clusters of perfectly double flowers when only 2 or 3 feet high. Often blooming the second year after planting. They are absolutely sure to bloom freely every year. See Color Plate Page 52.

6846 Madam Casimir Perier Large compact panicles of pure white, double, very fragrant flowers.

6847 Michael Buchner Dwarf, stocky growth and delicately beautiful trusses of fragrant lilac-blue flowers.

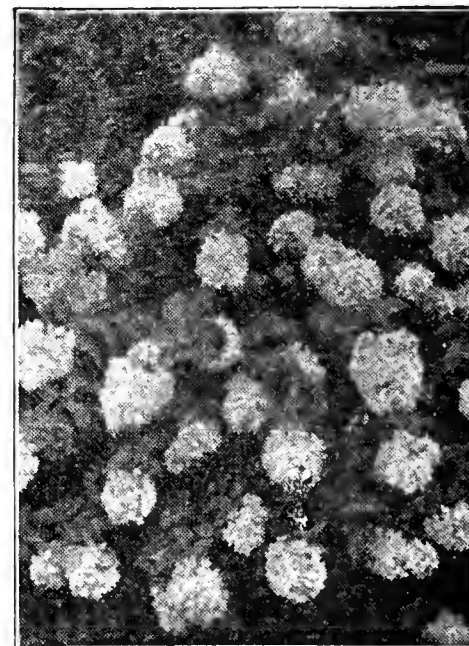

6845 Pres. Grevy Very large panicles often 8 to 10 inches long of beautiful double rich blue flowers.

Price any variety, Strong 1 year, Each 50c; 3 for \$1.25; 6 for \$2.25.

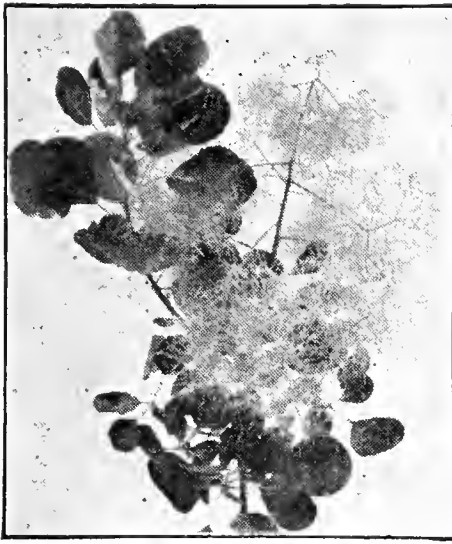

6848 Set of 3 Double Lilacs, One of each variety for \$1.25.

Bechtel's Flowering Crab

Hydrangea, Panicle

Rhus, Smoketree

Hardy Flowering Shrubs, Cont.

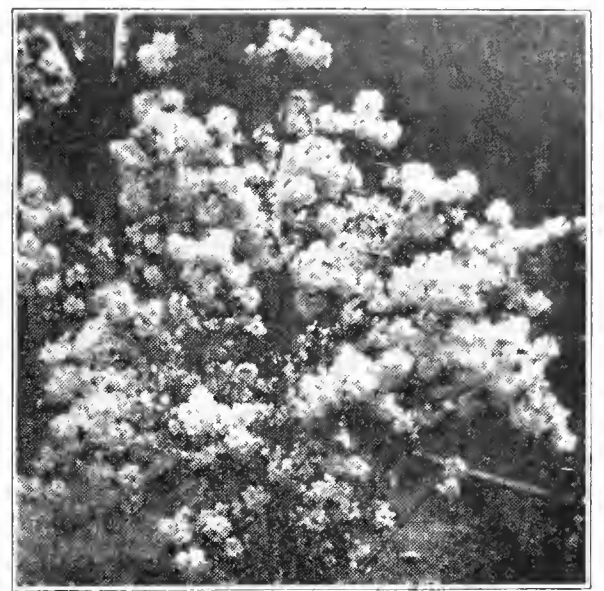

Rhus, Purple Smoketree

Purple Fringe. A curious large growing shrub forming a broad round-headed bush. Delicate fringe like or feathered flowers in early summer very freely produced. Leaves are a bright pea-green. When in full bloom the appearance is like a cloud of smoke. Very novel and decorative.
6896 One year. Each 30c; 3 for 75c; 6 for \$1.35.

Kolkwitzia or Beautybush

Amabilis. A handsome new shrub which has been introduced to American gardens from China, becoming at once most popular. Will grow 5 to 7 feet tall, very dense and bushy with long arching branches which are densely covered in May with the beautiful lively pink bell shaped flowers. Has all the merits of one of the best decorative ornamentals, excellent form and habits, beautiful profusion of bloom and finest foliage. Will succeed in nearly any location.

6831 Strong plants. Each 50c; 3 for \$1.25.

Mock Orange, Philadelphus Virginalis

Snowberry Symphoricarpos Racemosus

3 to 4 ft. Neat shrubs of slender, graceful medium growth, having pretty small pink flowers in June or July, followed by large clusters of waxy-like snow white berries throughout the late summer, autumn and early winter. A very effective shrub for masses in the shrub border, or for foundation planting. Does well under most soil conditions and stands the smoke and dirt of cities.

7215 Two year, 2 to 3 ft. Each 35c; 3 for 90c; 6 for \$1.60.

Coral Berry Indian Currant

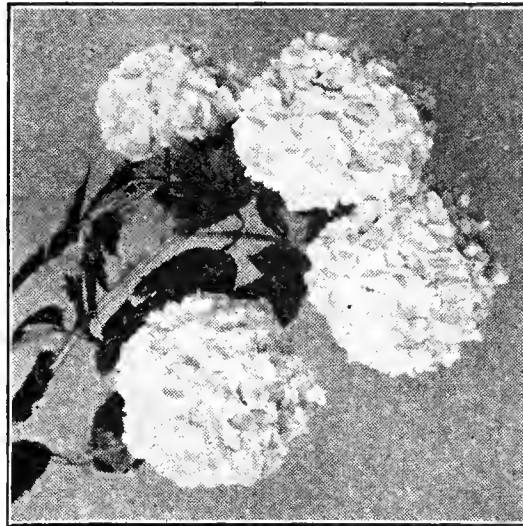

Although related to Snowberry and similar to it in many ways, Coral Berry is not so upright in growth, and the branches sweep gracefully to the ground, almost trailing in habit. An excellent subject for planting on dry terraces and banks where it thrives in spite of dry and adverse conditions. It also makes a pretty hedge or border. Grows about 4 ft. tall and bears pink flowers in July. The beauty, however, is in the racemes of currant-like scarlet berries which follow the flowers during the fall and winter.

7055 Two year heavy, 2 to 3 feet. Each 30c; 3 for 75c.

African Tamarix

Strong slender shrubs, growing to a height of 8 to 10 feet. Sprays of delicate pink flowers appear in early spring, April and May, before the leaves appear. Blooms at intervals throughout the summer. The foliage is light green, fine and feathery. Very attractive. Excellent in masses with tall shrubs.

6942 One year strong plants, 12 to 18 inch. Each 25c; 3 for 65c.

Snowball, Viburnum

Snowball or Viburnum

Opulus Sterilis. The well known and always popular snowball or sometimes called the Guelder Rose. Its large globular clusters of snow white flowers in May and June and its rich dark green foliage have made it one of the most attractive and conspicuous shrubs in the gardens for many generations. They do well in nearly any location even in very dry soil, sun or semi-shade and will often develop to 8 to 10 feet in height and very symmetrical in shape.

7213 Strong Two Year, Each 50c; 3 for \$1.25.

7253 Vitex Large Leaved Chaste Tree

Macrophylla. An interesting flowering shrub. Forms graceful, shapely attractive plants 3 to 4 feet high with nicely divided foliage with aromatic odor. The pretty lavender-blue flowers on long terminal spikes or racemes, begin blooming in July, continuing without interruption until frost.

If you want a really pretty shrub that your neighbors do not have, try this, as we feel sure you will like it. The shrub will bloom better if the tops are cut back to within about 6 inches of the ground each spring.

Price, Strong 2 year Plants 50c; 3 for \$1.25.

How to Landscape Send 25c for a copy of our Garden How Book. It will help you.

Weigela Rosea

Free Cultural
Instructions
packed with all nursery orders.

French Pussy Willow

Salix Capre. A cultivated variety of Pussy Willow that is becoming quite popular. Cut the branches during the winter months, place in a vase in a warm room and watch them develop. The buds will begin to unfold and disclose the pretty catkins and in a few days more they will be loaded with a golden pollen. Very easily grown. They delight in a moist soil.

6890 Price extra strong plants, 3 to 4 ft. cut back. Each 25c; 3 for 65c.

See Shrubs in Colors
on Page 69 and 52.

Daphne Garland Flower

An Evergreen Shrub of Great Beauty

6760 Daphne Cneorum. This wonderful little Hardy Ever Green Shrub is too beautiful to express in words. You just must see its charming beauty to fully appreciate it.

The nature of Daphne is a dwarf, bushy, spreading plant, not over 10 to 12 inches tall, covered with dark green leaves, each branch tipped with a dense cluster of delicately perfumed rose-pink blossoms.

Daphne blooms in the spring and again in the fall, unusual because most shrubs flower only once each year, making it an ideal shrub for edging, in front of Evergreens or for the Rock Garden. Its color is exquisite and the flowers are profuse.

CULTURE. Daphne likes a sunny place, well drained, sandy soil and a little protection with straw during the coldest months. Will withstand zero weather but the protection keeps the evergreen foliage in better condition. Water sparingly in summer. Each 50c; 3 for \$1.25; 6 for \$2.25.

French Pussy Willow

Heather, Erica

One outstanding memory in the minds of all of us who have lived in or traveled through Scotland, is the memory of the beautiful Scotch Heather that grows so profusely there.

The delicate coloring and the abundance of the tiny blooms, give the beautiful hills of Scotland, a gray-mauve, almost mist-like appearance, one we never forget.

Why not plant some of this Heather and bring a bit of Scotland to your own home grounds. We offer you here three varieties. You will like all of them.

6801 VULGARIS The true "Scotch Heather." Pretty bell-shaped flowers of rosy-lavender. Dense erect branches, covered with short, close-growing leaves. 10 inches tall.

6802 NANA COMPACTA. Vulgaris. Prostrate and compact growth, dull, rich green little evergreen plant, fine for Rock Gardens. Pink blooms. Plant 9 inches high.

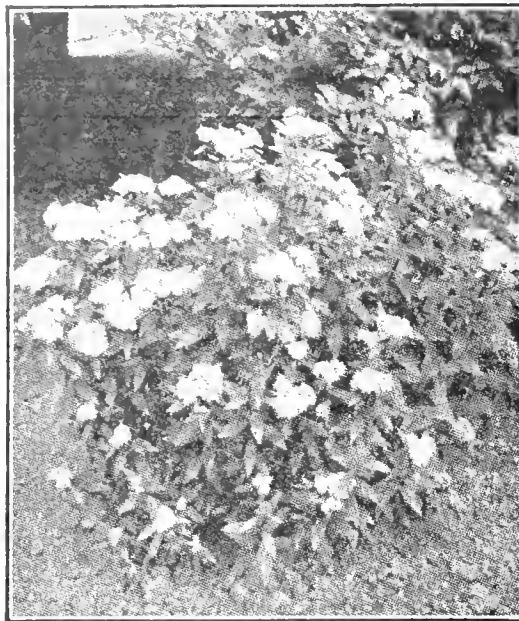

6803 HAMMONDI PINK. A magnificent pink variety which grows strong, making large bushy plant, 10 inches tall.

Price on any above Heather.
Each 50c; 3 for \$1.25; 6 for \$2.25.

Snowberry

We will be glad to quote special prices on larger quantities of shrubs.

Anthony Waterer Spirea

Hardy Flowering Shrubs, Cont.—Spireas

The Spireas are among our most useful and popular shrubs. They are all perfectly hardy and do well under any fair condition. You will find them satisfactory for specimen planting or massing. We offer several of the best varieties as described below.

Van Houtte Bridal Wreath. 4 to 8 ft. White, May. This is the most useful hardy shrub. The flowers are in flat clusters, usually an inch or more across, produced on spreading, pendent branches often drooping to the ground. In full bloom they are a mass of white and never fail to attract attention. See Color Plate Page 52.
6937 One year, Each 20c; 3 for 50c; 6 for 90c.
7237 Two year, heavy. Each 40c; 3 for \$1.00; 6 for \$1.80.

Anthony Waterer Desirable dwarf growing, pro-fuse blooming shrub, forming neat, round bushes two feet high. Large, flat sprays of rosy crimson flowers from June to September. Useful for bordering porches or clumps of large shrubs.
6921 One year, Each 25c; 3 for 65c; 6 for \$1.15.
7221 Two year, Each 35c; 3 for 90c; 6 for \$1.60.

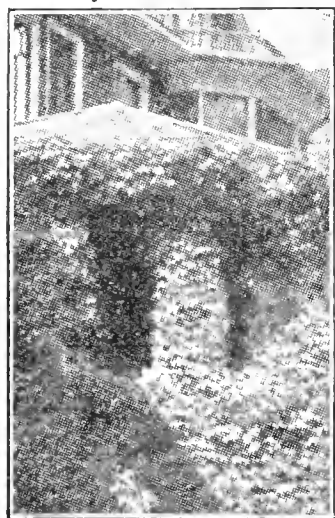

Spirea Van Houtte or Bridal Wreath

Hardy Climbing Vines

The attractive beauty that may be added to a home by planting a few hardy climbing vines around the porch or on a trellis, arbor or fence is unsurpassed by any other plantings. Their usefulness in covering unsightly fences and buildings and turning them into objects of beauty is far in excess of their small cost. They fit in and grow well in locations where no other plants will grow with success. Every home should have a few, and our list includes only those which will succeed in nearly any location.

8003 Boston Ivy Annelopsis Veitchii

Once it is established it grows rapidly and will stay indefinitely needing only an occasional trimming to keep it within bounds. It is not attacked by disease or insects and the foliage is not injured by smoke and dirt of cities. The glossy leaves turn to a brilliant orange scarlet in the fall. Its greatest value is in its clinging to any brick or stone wall, and will completely cover any house or other building even to the height of 30 to 40 ft. or more. Two year size 35c; 3 for 90c; 6 for \$1.60.

Boston Ivy

7907 Bignonia Radicans

A robust climbing vine. Its orange scarlet trumpet-shaped flowers cluster at the tip of branches. Produces an abundance of beautiful dark green foliage which makes it very desirable for covering summer houses, arbors or rustic fences. It clings tightly with its twining tendrils, which are borne at intervals along the branches. Easily established and grows luxuriantly. Grows to a height of 15 to 20 ft. Strong one year plants 30c; 3 for 75c; 6 for \$1.35.

Scarlet Trumpet Vine

Honeysuckle, Lonicera

A very popular hardy deciduous climbing vine unsurpassed for use in shading porches or on arbors. They quickly cover any unsightly object over which they may climb. The flowers are delightfully fragrant.

8030 Hall's Japan This is a very rapid climber and very popular. Produces an abundance of rich green foliage, which in mild locations is evergreen. Its creamy-white flowers are produced from June to August and are very fragrant. Each 25c; 3 for 65c; 12 for \$2.00.

8031 Coral A distinct variety which produces large trumpet shaped flowers in clusters. The flowers are a coral scarlet of mild fragrance and very showy. The foliage is rich and glaucous, making a beautiful covering wherever used. Strong, 2 year plants each 30c; 3 for 75c; 6 for \$1.35.

8033 Set of 2 Varieties, 1 root each for 50c.

Hall's Japan Honeysuckle

7966 Silver Lace Vine

Polygonum Auberti One of the most desirable and valuable rapid climbing, hardy vines introduced in many years. The plant is a quick growing vine of twining habit, often attaining a height of 25 to 30 ft. in a season, producing more flowers than any other hardy vine we know, throughout the summer and fall months, literally covered with silvery-white foamy sprays. The illustration from a photograph gives a very good idea of the great beauty. If you have a place for a beautiful permanent hardy vine, you will be delighted with this variety. Strong vines 50c; 3 for \$1.25.

Climbing Bitter-Sweet

8009 Celastrus Scandens Handsome glossy foliage and large clusters of beautiful orange crimson fruits retained all winter. Its graceful sprays of berries make charming winter house decorations. A popular vine for covering rough fences, or other unsightly places. 2 year roots. Each 25c; 3 for 65c; 12 for \$2.00.

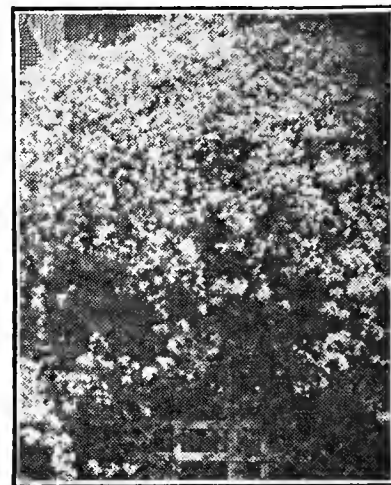

"Garden Magic" will show you how to plant, prune and will help you with all your gardening **\$3.50** See Page 81

Clematis

8014 Paniculata or Snowbank

Sweet-scented Japanese Clematis. Completely covered in September with a mantle of pure-snow-white fragrant flowers. Strong Plants, each 25c; 3 for 65c; 6 for \$1.15.

7911 Coral Coccinea An interesting rapid climbing species producing very ball-shaped, coral-red flowers from early June until late fall. Strong roots, each 35c; 3 for 90c; 12 for \$2.80.

Clematis, Paniculata

Large Flowering Clematis

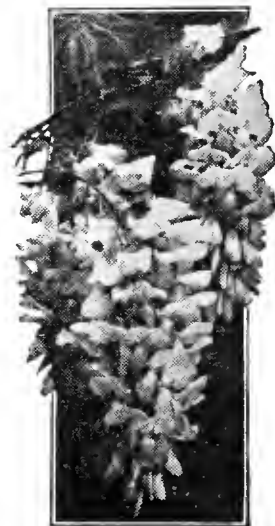

These desirable large flowering Clematis require more careful culture than the small flowered varieties. They require rich deep soil, good drainage, and an abundance of water. They should be planted with the crown 2 to 3 inches below the surface and spread the roots out horizontally.

8012 Jackmanii The best of the purple flowered varieties. Flowers large 4 to 5 inches across and of rich velvety purple, produced more or less through July to September. Each 75c; 3 for \$1.90.

8013 Madame Ed. Andre Large flowers of rich crimson. Each 75c; 3 for \$1.90.

Chinese Wisteria Large pendulous clusters of pea-shaped blossoms of rich purple, which fairly laden the vine in May and early June. They are most beautiful when covering the porch or a large arbor where they will climb higher and higher seemingly with no limit. We are offering grafted roots from blooming vines which are much quicker to establish themselves and bloom than seedling plants.

7975 Strong plants. Each 40c; 3 for \$1.00; 6 or \$1.80.

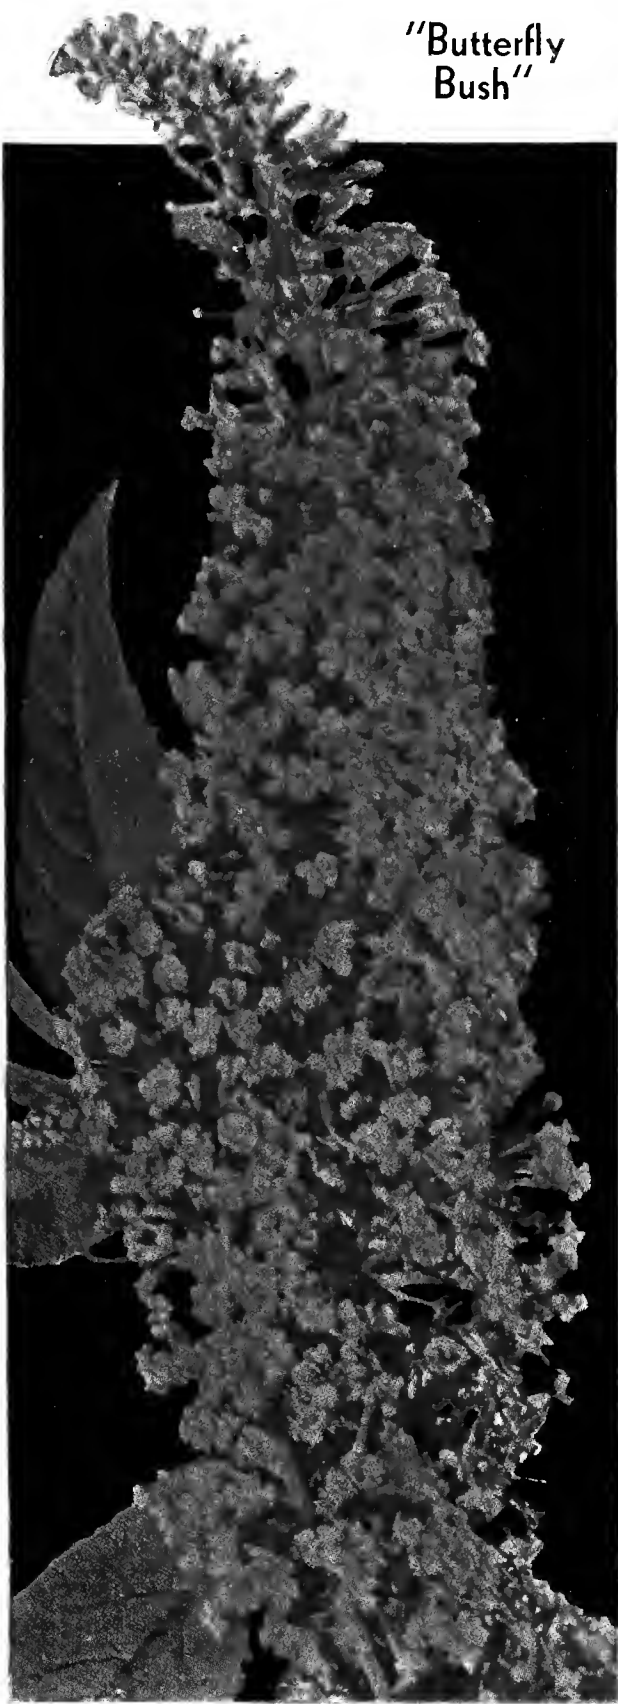

Wisteria

Beautiful effect obtained with Silver Lace Vines.

Woodstown, New Jersey
November 29, 1935.The Templin-Bradley Co.,
5700 Detroit Avenue,
Cleveland, Ohio.
Gentlemen:

I want to thank you for the remarkable Nasturtiums which we raised this summer from seed we bought of you. They were the admiration of the neighborhood. We had the most beautiful colors I have ever seen in Nasturtiums and they bloomed steadily from late June until killed by the frost the middle of November.

We planted one package of the tall climbing variety and one of the assorted colors of the Double Sweet-Scented. We enjoy the garden we grow from Templin-Bradley seed more than we can say.

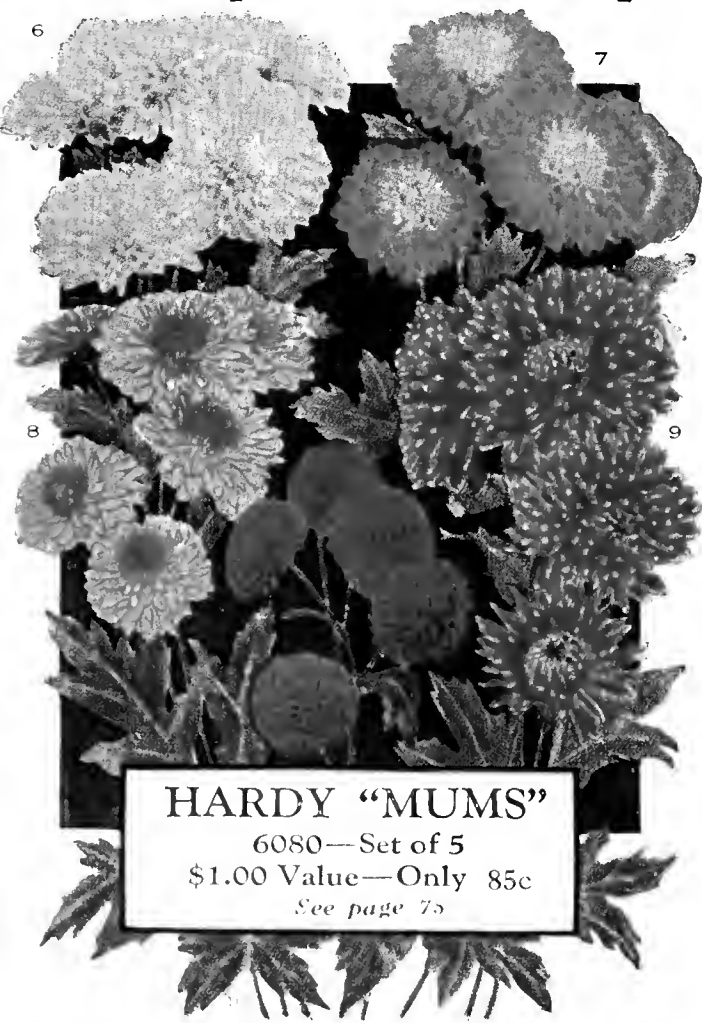

Sincerely yours,
Mrs. Francis H. Smith.

1440 Nasturtiums **GLEAM HYBRIDS** Double Sweet-Scented Pkt. 10c; oz. 30c. *Gleam Nasturtiums offered in Separate colors. See pages 9 and 24*

Hardy Perennial Plants

In talking and writing to us, a great many people each year, say something like this—"I want flowers in my garden but I don't want to have to replant completely every year." That must be why our Hardy Perennial Plant Department has grown so large and remained large even during the depression years.

A garden of Hardy Perennial Plants may be added to from year to year. Plant enough this spring to make a reasonable showing, then round out the planting as time goes on. No home is complete without a well selected assortment of Hardy Perennial Plants. They require little attention, get bigger and better as time goes on and provide an abundance of color in your garden and cut-flowers for your home. They fit into borders, make nice beds by themselves, look well along the foundation of your house, are a necessity for Rock Gardens and round out plantings of flowering shrubbery and roses. Our Hardy Perennial Plants have been carefully grown for you by our own skilled nurserymen. Prices are so low that you cannot afford to omit what you need when you send us your order. Remember, these prices include delivery.

Hardy Perennial Plants such as we produce for you, are the types which will do well under the widest range of climatic and soil conditions.

Study carefully the five pages devoted to these Hardy Perennial Plants. Remember, the index in the front of this catalog gives both the common and the botanical names of all plants, so that you can easily locate varieties.

Note! Rock Garden Plants, "RG"

Not every plant is suitable for rock gardens. Some are too large, others require a better foot-hold than the small amount of soil between the rocks or over them provides. For this reason and to help you in making your selection if you have a Rock Garden, those Hardy Perennial Plants in the following five pages, which are suitable for Rock Gardens, are indicated by the letters, 'RG' after the name. We were just about the first firm in this country to encourage the making of Rock Gardens and you will find our assortment for this purpose is unexcelled.

6003 Achillea Rosy Milfoil. R. G. Millefolium Roseum

Easy to grow, useful for the perennial border, rock garden, wild garden and for cut-flowers. This Achillea Millefolium Roseum has finely cut foliage, pink flowers in dense heads and blooms practically all summer. 12 inches high. Will succeed in any good soil in sunny place. Each 25c; 3 for 65c.

6007 Aconitum FISCHERI. (Monkshood)

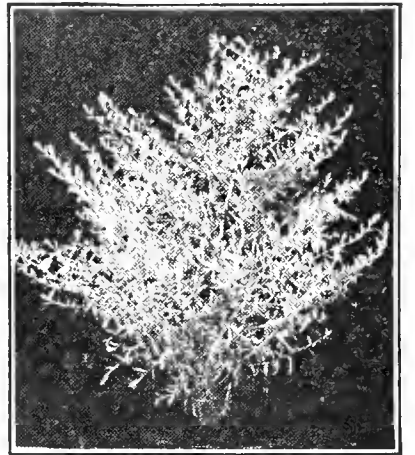

This beautiful perennial should be in every garden. Its blue flowers and dark glossy foliage will add attraction and charm to any part of your garden. They bloom at a time when color is needed and continue for a long period. They will succeed in any good garden soil. A dwarf variety, growing to 30 inches high, producing very large pale blue flowers in September and October. Foliage is very decorative. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Aconitum Napellus

Artemisia Silver King

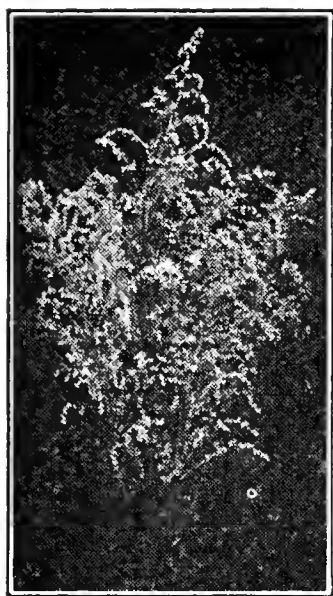

Makes Attractive Winter Bouquets

Artemisia—Silver King

6012 Anemone, Windflower

Pulsatilla Rubra. Grows from 9 to 12 inches high and produces reddish-purple flowers during April and May. Very beautiful for mass planting or as a specimen plant in the Rock Garden. Especially fine for borders. Anemones quickly adapt themselves to any locality. Each 20c; 3 for 50c; 6 for 90c.

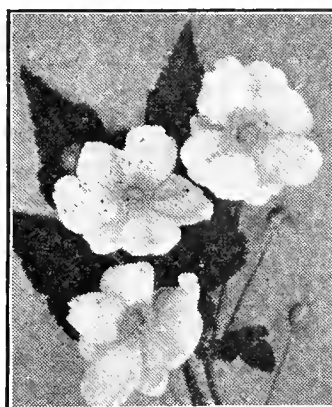

Artemisia Lactiflora

Hardy Astilbe
See Color Page 69

6008 Alyssum ARGENTEUM. R. G. (Rock Madwort). For early and continuous bloom the Alyssum is near the head of the list. Their beautiful foliage and plant form adapts them to use in any part of the garden. An especially fine form for the Rock Garden or edging. Lovely yellow flowers in clustered heads produced all summer. Foliage is silvery beneath. 12 to 15 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6009 Anchusa MYOSOTIDIFLORA. R. G. The dwarf Anchusa is indeed a charming plant and very useful in any mixed planting, harmonizing well with any of the other perennials. The most dwarf of this family, producing clusters of beautiful blue Forget-Me-Not like flowers during May and June. 12 inches. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Anemone Windflower

Perennial Chart

On Page 35

Color, Height, Blooming Season and other details to help you.

6183 Hardy Ageratum Eupatorium, R. G. Resembles the Annual Ageratum in flower and plant form. This species produces in August and September lovely lavender blue flowers on plants 1½ to 2 feet tall. The foliage is very bright and ornamental throughout the entire season. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Note Both common and Botanical names of all seeds and plants appear in the Index on page 80.

6028 Anthemis-Chamomile Thnc-toria. A choice perennial and one that will provide you with an abundance of large golden, daisy-like flowers for house and garden all summer. Foliage is finely cut and attractive. Does well in poorest soil. Each 25c; 3 for 65c; 6 for \$1.15.

6042 Aster Alpinus Goliath R. G. Dwarf, compact growth, 6 to 10 inches high. Indispensable for the rockery or the edge of hardy borders. Bears large, showy bluish-purple flowers in May and June. Does best in full sun. Each 35c; 3 for \$1.00; 6 for \$1.75.

Perennial Seeds

We offer a complete assortment of the world's best perennial seeds on pages 36 to 43.

Artemisia

See Color Plate, Page 52

As beautiful decorative foliage plants for the hardy border or perennial garden, the Artemisias are without equal. They produce an abundance of light airy foliage that is equally as fine for bouquet use as it is decorative in the garden. Useful as winter bouquets when dried. They will succeed in any good garden soil that is well drained.

6015 Silver King A most beautiful silvery white foliage is produced in long slender sprays, making Silver King the most decorative plant in the entire garden list. When combined with cut flowers it adds a beauty to the bouquet that is amazing. Wherever Silver King is grown it at once makes many enthusiastic friends, you too will like it. Grows to 24 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6016 Lactiflora A most desirable and effective hardy plant for the border, or to plant among shrubbery. Of strong, free growth, with erect stems 3 to 4 feet high, terminated with great panicles of fragrant, creamy-white flowers from late August to October. Quite distinct and desirable. This variety is not hard to grow, thriving best in moist rather rich soil and full sun. Water the plants freely. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6045 Set of 2 Artemisias Only 35c.

Is Your Garden Going to the Dogs?

If so, spray with **DOGZOFF** Season's Supply 69c.

Hardy Astilbes

Herbaceous Spirea
See Color Page 69.

They succeed best in a rich, deep, moist soil and should be watered freely during their growing season. They will form large clumps, increasing in size and beauty from year to year. They are all very desirable for the garden among other perennials.

6029 GRANDIS ROSEA. Large graceful plumes of light lilac rose. A very fine variety. 4 to 6 feet. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

6031 KRIEMHILDE. Strong vigorous habit producing large plumes of delicate salmon pink. 4 to 6 feet. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

6033 QUEEN OF HOLLAND. A new variety of large and strong growth. Very fine pure white plumes 4 to 6 feet. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

6027 SET OF THREE ABOVE ASTILBES. Good strong roots. A total value of 90c, will be sent for only 75c.

The following three are of dwarf habit and besides being exceptionally fine for the garden are fine for forcing in pots indoors where they produce lovely blooms. They may later be transferred to the garden.

6021 AMERICA. Delicate light lavender-pink. One of the most popular varieties, 18 to 24 inches. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

6024 GLORIA. A new and beautiful variety. Dense feathery spikes of deep pink. 18 to 24 inches. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

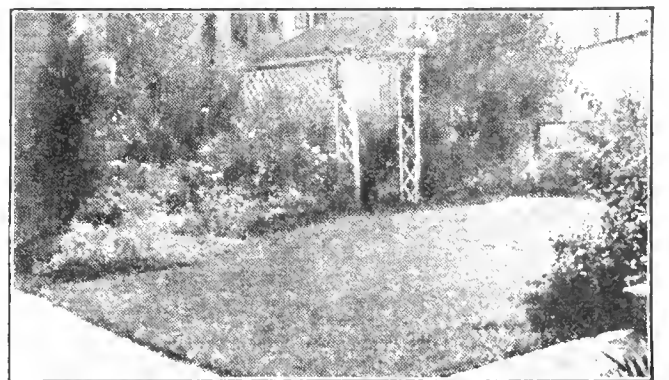

6026 PEACH BLOSSOM. Soft delicate peach blossom pink. One of the most popular. 18 to 24 inches. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

6036 SET OF THREE ABOVE ASTILBES. Value 90c, for only 75c.

6184 Hardy Aster Michaelmas Daisy.

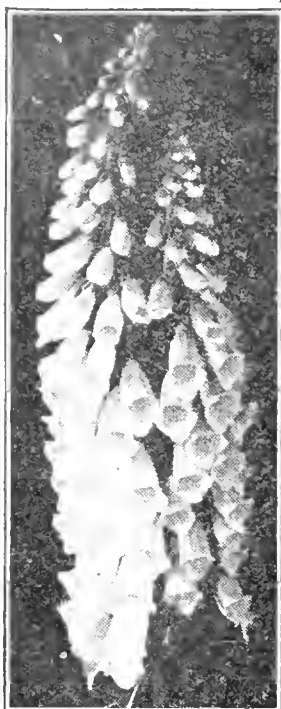

These are among the showiest of our late flowering hardy plants, producing an abundance of flowers during September and October, when most other hardy flowers are past. They grow freely in any soil and require very little care.

Sold only in sets of three colors; white, pink, lavender. Set of 3 for 40c; 3 sets for \$1.00.

Perennial plants are useful in odd corners.

All Hardy Plants will be shipped direct from our Painesville Nursery at planting time.

Digitalis, Foxglove

Long Spurred Aquilegia

Perennial Chart
See Page 35.

Delphinium, Hardy Larkspur

Without doubt the finest and most popular hardy perennial plant known to our garden today. Every garden should have a number of these plants with their beautiful blue flowers.

6106 BELLADONNA. The beautiful "Belladonna" with its large spikes of clear sky-blue flowers always attracts attention. They bloom continually from July to frost, in delicacy and beauty. Perfectly hardy everywhere. **1 year blooming size 20c; 3 for 50c; 6 for 90c; doz. \$1.60.**

6107 BELLAMOSUM. This is a dark blue form of the popular light blue Belladonna, with which it is identical in habit of growth, freedom of bloom and other good qualities, but with intensely rich, deep blue flowers. **1 year blooming size 20c; 3 for 50c; 6 for 90c; doz. \$1.60.**

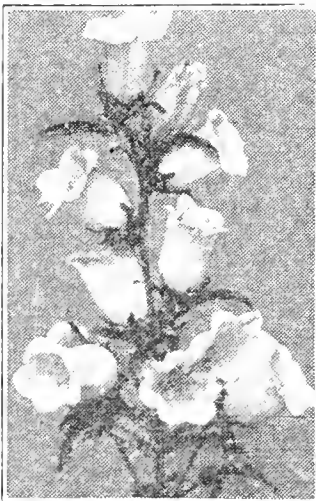

6108 Blackmore & Langdon's GOLD MEDAL HYBRIDS. Unquestionably the finest strain of mixed hybrids offered. The plants are of strong, vigorous habit, with large flowers on spikes two feet and over long; a grand assortment of colors from delicate sky-blue to deep purple. **1 year blooming size 25c; 3 for 65c; 6 for \$1.15; doz. \$2.00.**

6128 Set of 3 Delphiniums, 50c; 2 Sets 90c.

Campanula, Canterbury Bells

These beautiful hardy plants are a beautiful addition to the garden and add much color and charm to the border in late June and July with their masses of beautifully colored bell-shaped flowers.

6056 CAMPANULA BLUE. A beautiful blue.

Campanula

6057 CAMPANULA PINK. Delicate pink.

Either color. Each **25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.**

6058 SET OF TWO CANTERBURY BELLS FOR 45c.

6076 Coreopsis

Auriculata Superba. Perennial Novelty. Produces large yellow flowers, with dark blotch all summer. Each **25c; 3 for 65c; 6 for \$1.15.**

Burbanks Shasta Daisy

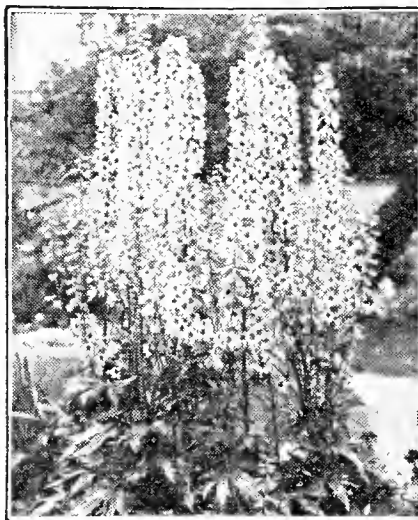

Hardy Perennials

6019 Aquilegia Long Spurred Columbine. Mrs. Scott Elliott Hybrids. A greatly improved strain of the popular old-fashioned Columbines of our grandmothers garden. These Hybrids are the best Aquilegia or Columbine grown. The colors are marvelous and the long graceful spurs add charm to the flowers. The vigorous plants produce large quantities of blooms for a long season. They grow 2½ feet tall. Each **20c; 3 for 50c; 6 for 90c; 12 for \$1.60.**

6050 Boltonia Latisquama. Among the showiest hardy plants with large single Aster-like flowers. The plant is in bloom from July through September, with its thousands of flowers open at one time, producing a very striking effect. The flowers are a pleasing shade of pink. Clumps of Boltonia are effective in the rear of the hardy border, as they reach up to a height of 4 to 5 ft. They are excellent also for cutting. Each **20c; 3 for 50c; 6 for 90c; 12 for \$1.60.**

6087 Carnation Crimson King R. G. Beautiful rich red, valuable for cut-flowers and unequalled for color for the perennial border and for the Rock Garden. Will produce double flowers of excellent quality throughout the summer. Each **20c; 3 for 50c; 6 for 90c.**

6085 Daisy Double White Swan. Wonderful new variety, without question, the finest Double Daisy grown. Stems 18 to 24 inches long, blooms Decoration Day in normal spring. Makes adorable bouquets. Each **50c; 3 for \$1.25.**

Hardy Larkspur, Delphinium

6090 Chinese Lantern Plant

Physalis Franchetti. A very delightful and popular hardy perennial useful for its bright colored seed pods which are produced in the fall and with the first frosts turn to a brilliant orange red. These pods are quite freely produced at intervals along the branches and when colored resemble a string of fantastic Chinese Lanterns. The stems with the seed pods on can be dried and kept for winter decorations by cutting them after they have turned color and hanging them to dry in a cool airy place that is not too light. As winter decorative bouquets they are unexcelled; they mix well with any of the other dried flowers. Plants grow to 3 feet and should be planted in a location somewhat sheltered from wind. Each **20c; 3 for 50c; 6 for 90c; 12 for \$1.60.**

Chinese Lantern

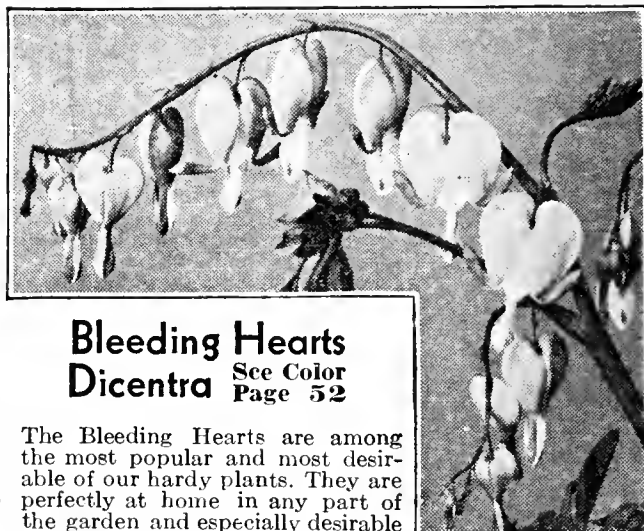

6100 Digitalis, Foxglove
SHIRLEY. A grand display of thimble-shaped flowers in immense spikes during June and July. Tall growing with large rough foliage. Very showy in the garden. They are of extraordinary size and vigor, growing 5 to 6 ft. tall. The flower heads are over 3 feet long crowded with big, bell shaped blossoms. Colors range from white and shell-pink to deepest rose, many attractively dotted with crimson or chocolate. Each **20c; 3 for 50c; 6 for 90c; 12 for \$1.60.**

Daisies, Chrysanthemum Maximum

The Daisies are always welcome additions to the garden; their decorative effect in the garden is pronounced because of their free flowering habits and good foliage, and as cut flowers they are always useful.

6053 BURBANKS SHASTA. An improved type, having immense single glistening pure white flowers 3 to 4 inches across on tall stems. Hardy and of easy culture. A wonderfully profuse bloomer, giving you great quantities of good long stemmed flowers. Starts to flower in June and continues more or less freely all summer and fall. 2 to 2½ feet tall. Each **20c; 3 for 50c; 6 for 90c; 12 for \$1.60.**

6122 KOREAN DAISY. A lovely new daisy from Korea, bearing large white flowers with golden centers somewhat resembling a glorified Shasta. Extremely hardy, blooming from early October to December. 30 inches. Each **20c; 3 for 50c; 6 for 90c; 12 for \$1.60.**

Bleeding Hearts Dicentra See Color Page 52

The Bleeding Hearts are among the most popular and most desirable of our hardy plants. They are perfectly at home in any part of the garden and especially desirable in partial shade. They like a well drained soil.

Bleeding Heart

6017 SPECTABILIS. The old fashioned garden favorite of our grandmothers gardens. Its long graceful racemes of heart shaped flowers of beautiful pink and white are very attractive in April and May. The foliage is fern like and very decorative. This variety is used for forcing in pots with good success. 2 to 3 feet. Each **50c. 3 for \$1.25; 6 for \$2.25; 12 for \$4.00.**

6102 EXIMA (Plumy Bleeding Heart.) Somewhat more dwarf with more finely cut foliage. Produces an abundance of pink and white heart shaped flowers in graceful racemes in April and May and often at intervals throughout the season. 1½ to 2 feet. Each **25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.**

6103 SET OF TWO BLEEDING HEARTS—For only 50c.

Rock Garden Plants All of these Perennial Plants suitable for your Rock Garden are marked "R. G."

6096 Double Buttercup RANUNCULUS R. G.

The double yellow buttercup seems to enjoy a location in the garden and produces its lovely fully double golden yellow blooms in great profusion. They are very effective in the hardy border or among the medium height plants in the rock garden. They are very beautiful and graceful as a cut flower. They bloom from July to September growing about 18 inches tall. Each **20c; 3 for 50c; 6 for 90c; 12 for \$1.60.**

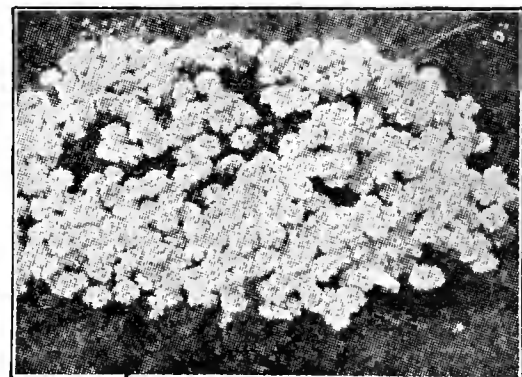

Ranunculus, Buttercup Daisy

6088 Chinese Corydalis CHEILANTHIFOLIA. R. G.

A lovely little plant with beautiful fern-like foliage bearing long racemes of rich yellow blooms somewhat resembling the bleeding heart. Of Chinese origin this plant is very hardy and of easy culture in any well drained soil. Each **25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.**

6357 Hardy Candytuft Iberis, Gibraltaria. R. G.

Desirable dwarf plants 8 to 10 inches high with evergreen foliage that is completely covered with dense heads of white flowers in early spring. The hardy Candytufts are very useful and pretty plants for edging the hardy border or for use in the rockery. They are fine also for carpeting among shrubs, tulips or any other similar location. Each **25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.**

12 Cut-Flower Perennials for \$2.25 Total Value \$2.55

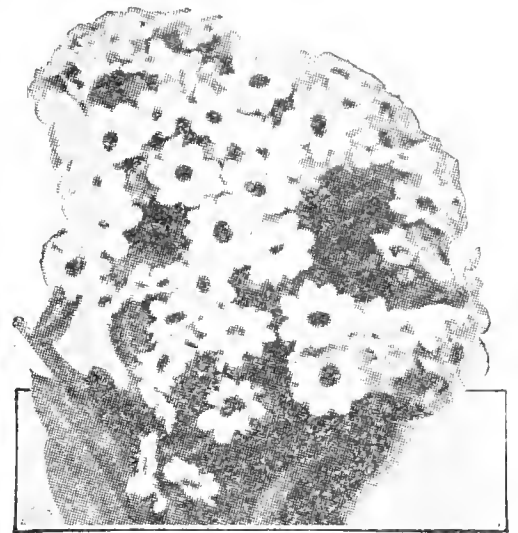

Doronicum

6130 Doronicum (Leopardbane) Excelsum.

This beautiful perennial produces large bright yellow daisy-like flowers in early Spring. Flowers are often 2½ to 3 inches across. A very fine border or garden plant and one of the very earliest good cut flowers. 30 inches. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

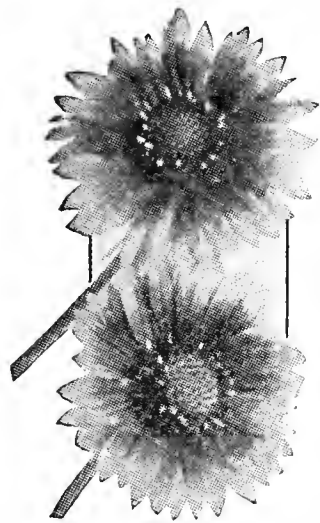

Gypsophila paniculata

Hardy Forget-Me-Not

Gaillardia, Blanket Flower

Gaillardia grandiflora

6176 Grandiflora. One of the showiest hardy plants growing about 2 ft. high and beginning to flower in June, they continue the entire season. The large flowers are of gorgeous coloring. The center is dark red-brown, while the petals are marked with rings of brilliant crimson, orange and vermilion. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6183 See Page 71
Eupatorium
Listed under
Hardy Ageratum

Geum, Avens

The Geums are very delightful and ornamental plants that are too little known in American gardens. Fine plant form, pretty foliage and brilliantly colored blooms. They enjoy a loamy soil and plenty of moisture during blooming season. Bloom nearly all summer.

6177 LADY STRATHEDEN. Similar to Mrs. Bradshaw except in color which is a rich golden yellow. See Color Plate Page 51.

6178 MRS. BRADSHAW. A splendid variety with large double flowers of a rich fiery red. See Color Plate Page 51.

Price either variety. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6175 SET OF TWO GEUMS FOR 40c.

6169 Heuchera The Shirley R. G. Beautiful plants, producing clusters of bright foliage and slender fairy-like spikes of bright red flowers. Bloom in July and August and make very attractive cut-flowers. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

Gay Feather

Kansas Gay Feather Liatris, Blazing Star

6371 Pycnostachya Gay, perfectly hardy perennial which will attract much attention, fill a big place in your border and make exquisite cut-flowers for a tall vase. Rich purple spikes 1 foot long on plants 6 feet tall. Blooms July and August.

6372 Scariosa September blooming type of Kansas Gay Feather. Large, showy purple heads, very imposing form. 4 to 5 feet tall.

Prices on both varieties. Each 25c; 3 for 65c; 6 for \$1.15.

CULTURE—Both varieties thrive well in any good garden soil, in sun or in shade and look best if planted in groups of three or more. May be grown by the pool for an effective color scheme. Bees love their unusual sweetness.

Hardy Gypsophila

A class of hardy plants that is almost indispensable to the garden from which cut flowers are gathered. Gypsophila is one of the finest bouquet trims, being equally good with any flowers.

6181 PANICULATA. (Baby's Breath). Perhaps the best of the hardy Gypsophilas for producing that "mist" effect when used in bouquets. Its numerous tiny white flowers are produced in light feathery panicles with delicate foliage from July to September. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6182 BRISTOL FAIRY. A double flowered form of this beautiful flower, with greater vigor and more continuous blooming habit. The tiny double white flowers are produced almost continuously as cut. These are grafted plants and will give you the best results. Each 40c; 3 for \$1.00; 6 for \$1.80; 12 for \$3.20.

6174 SET OF 2 GYPSOPHILAS ONLY 50c.

Dianthus, Allwoodi

Suitable for the Rock Garden

Perfectly hardy and perfectly lovely little perennials that provide dainty bouquets of delicate beauty. No garden is complete without these popular old Dianthus or Garden Pinks and we offer you here the improved Allwoodi type.

6122 Allwoodi JEAN. White, with crimson center.
6123 Allwoodi MARY. Rose-pink, maroon center.
6124 Allwoodi ROBERT. Old rose, maroon center.
Price of any above. Each 30c; 3 for 75c; 6 for \$1.25.

A rock garden may be large or it may be small and there are perennials to fit

All Plants suitable for Rock Gardens have "R. G." after the name.

Hardy Perennial Plants

A Clump of Lupines

Lupines

Polyphyllus. One of the most attractive and beautiful hardy perennial plants we know is the Hardy Lupine. They form large clumps 2 feet across, often having 20 to 30 beautiful spikes open at one time. They are at their best in May and June.

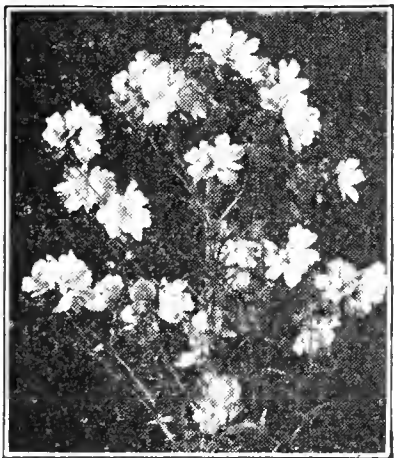

6431 BLUE 6432 ROSE 6430 WHITE
Price any of Above: Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.
6129 SET OF 3 LUPINES FOR ONLY 50c.

6438 Mertensia Virginia Blue Bells

An early spring-flowering plant, growing about 1 to 1½ feet high, with drooping panicles of handsome light blue flowers, fading to clear pink, one of the most interesting of our native spring flowers. May and June. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6441 Monarda, Bergamot

Brilliant flowers of crimson scarlet produced on showy plants growing 2 to 3 feet high, and succeeding in any soil or location. The whole plant is aromatic. The bloom is produced throughout July and August. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Sidalcea—Rose Queen

Statice

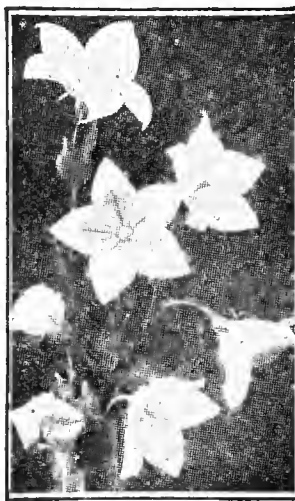

Statice, Sea Lavender

6591 LATIFOLIA. Low clumps of thick leathery foliage forming a rosette from which rise the flower stems to a height of 15 to 18 inches bearing large loose panicles of pretty little purplish blue flowers. Fine for bouquet use or for drying. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6595 DUMOSA. A new variety forming bushy plants and bearing large heads or closely arranged silvery gray flowers. The finest for drying. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Oenothera

Platycodon

Oenothera, Evening Primrose

The Evening Primroses are among the most interesting plants for the garden. They are especially fine in a sunny location where their brilliant yellows glisten in the sun light with a brilliancy of gold.

6156 MISSOURIENSIS. R. G. A delightful variety of dwarf habit producing rich yellow flowers often 3 to 4 inches across from early June to August. 8 to 10 inches. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Penstemon Beard's Tongue

Oriental Poppy

6619
100 Rock Garden Plants
our selection, all from this list. A well balanced Rock Garden.
For ONLY \$10.00

6588 Sidalcea, Rose Queen

A desirable hardy perennial that is very little known. Well worth a place in every garden. Produces spikes 2½ to 3 ft. in height, densely covered from July to September with pretty single rosy-pink flowers. Each flower about an inch across. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6460 Pachysandra Terminalis

Japanese Spurge. Low trailing plants growing 6 to 8 inches high and forming dense mats of practically evergreen foliage. A very desirable ground cover. Pachysandra thrives under trees, under shrubs, even in the densest shade it produces an abundance of its bright glossy green foliage. **Strong 2 year field grown plants.** Each 20c; 6 for 90c; 12 for \$1.60; 50 for \$5.00; 100 for \$8.00; 1000 for \$60.00.

Penstemon, Beards-Tongue

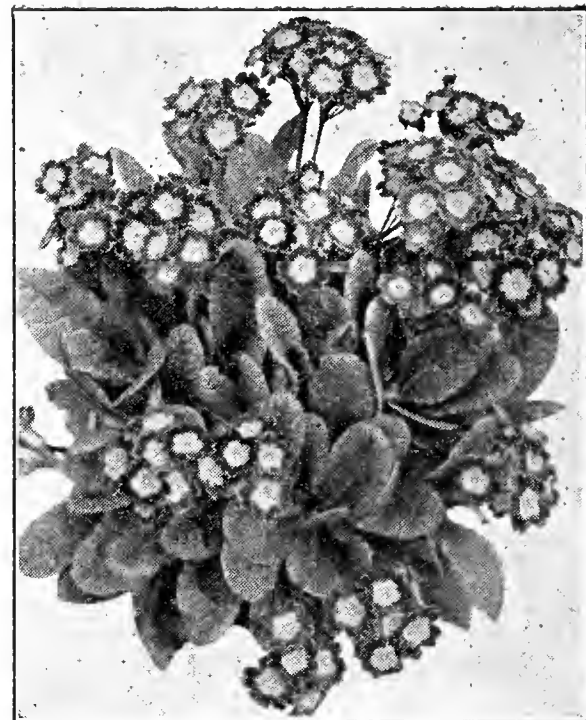

Beautiful border plants with bright attractive foliage and brilliant showy blooms. Very hardy and free-blooming adding much color to the perennial border planting during mid-summer. The tall slender spikes bear many trumpet shaped blooms with hairy-throat, hence the name.

6151 SHELL PINK. Flowers of a delicate shell pink on tall graceful spikes. Very beautiful and bright colored. 30 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6593 Hardy Sweet Peas See Cut Next Page

Lathyrus Latifolius. Hardy perpetual blooming Sweet Peas, fine for covering old stumps, fences, etc. They are perfectly hardy, increasing in beauty each year. Valuable for cutting. Three colors. **White Pearl, Pink Beauty, and Splendens Red.** Sold only in sets of three varieties.

SET OF THREE NOT SEPARATELY LABELLED FOR ONLY 50c; 3 sets for \$1.25.

Hardy Primrose, Perfection

Oriental Poppy

Papaver Orientale. These are the royal representatives of this popular genus, growing about 3 feet high and far surpassing in magnificence of bloom all the other types.

For a display of brilliant coloring nothing equals them during their time of flowering, May and June, whether planted singly or in masses. Almost any kind of soil suits them.

6458 ORIENTAL SCARLET. Large cup shaped blooms of brightest crimson-scarlet with large purplish-black blotch at base of petals.

6468 ORIENTAL MRS. PERRY. A very fine variety of orange-apricot.

6467 SET OF TWO ORIENTAL POPPIES FOR 45c.

Prices on Oriental Poppies. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6465 Platycodon, Chinese Bellflower

Balloon Flower. A splendid hardy perennial, having tuberous roots and forming bushes 2 feet high, with profusion of pretty five petaled bell-shaped, star-like flowers, 1½ to 2 inches across. The flower buds before opening resemble small balloons. A very desirable plant for every garden. The color varies from dark blue to white. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6466 Plumbago Larpentae R. G.

One of the most desirable border and rock plants, and a very persistent bloomer from July until freezing weather. It grows 6 to 8 inches high and of very spreading habit. During blooming season it is fairly covered with lovely dark blue flowers. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Hardy Primrose, Primula Elatior

While the Primulas are among the most beautiful and interesting of all early blooming plants for the border and rock garden they are still little known and appreciated in American gardens. Give them partial shade and a moist but well drained soil.

6567 MUNSTEAD RED. R. G. Rich mahogany-red flowers often gold laced and borne in clustered heads.

6568 MUNSTEAD YELLOW. R. G. Beautiful large flowered yellow shading darker. Very good bloomer.

6470 POLYANTHUS PERFECTION. R. G. The pretty flowers of yellow, crimson, red and brown are borne in clusters 8 to 10 inches above the fine foliage. In a sunny spot they are among the first to bloom in spring.

Price any of above Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6582 Set of 3 above Primulas Only 60c.

6469 Pyrethrum, Painted Daisy

Of low compact growth with feathery fernlike foliage of bright green. During June and July they bear multitudes of long stemmed daisy-like flowers in shades of pink, rose and white. Excellent subjects for the hardy border or for bedding. 15 to 18 inches. This is the plant from which many insecticides derive their most important ingredient. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Pachysandra Terminalis

Hardy Perennials

Trollius, Globe Flower

6588 Sidalcea, Rose Queen

A desirable hardy perennial that is very little known. Well worth a place in every garden. Produces spikes 2½ to 3 ft. in height, densely covered from July to September with pretty single rosy-pink flowers. Each flower about an inch across. **Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.**

6593 Hardy Sweet Peas

Lathyrus Latifolius. Hardy perpetual blooming Sweet Peas, fine for covering old stumps, fences, etc. They are perfectly hardy, increasing in beauty each year. Valuable for cutting. Three colors: **White Pearl, Pink Beauty, and Splendens Red.** Sold only in sets of three varieties.

SET OF THREE NOT SEPARATELY LABELLED FOR ONLY 50c; 3 sets for \$1.25.

Trollius, Globe Flower

The large richly colored Globe Flowers are indeed beautiful and charming. When in full bloom, a group of them with their large nodding heads in rich yellows and orange is a wonderful sight. They grow to 2 feet, begin blooming in May and continue until August. Their foliage is a beautiful dark green with palm-like leaves making very attractive plants for the garden even when out of bloom. Trollius seems to delight in a moist but well drained soil blooming more profusely and continuously with a regular supply of moisture. They are lovely in the Rock Garden where their height is not too great. We are offering five of the finest colors.

6604 SALAMANDER. Large richly colored flowers of a lively rich orange. Very free flowering.

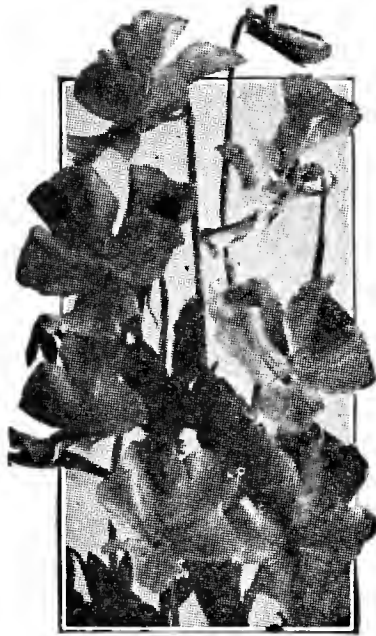

6605 METEOR. Heavy dark orange, several shades darker than Salamander. The richest color of all.

6606 EMPIRE DAY. A lighter shade of orange of great lustre. A very popular and beautiful variety.

6607 GOLDQUELLA. A very rich yellow-orange. Bright and clear. This variety was recently voted an Award of Merit by the R. H. S. of England.

6608 EUROPIUS SUPERBUS. A light lemon yellow, soft and pleasing. Europius Superbus was also voted an award of Merit by the R. H. S. of England. **Price Any of Above Trollius. Each 40c; 3 for \$1; 6 for \$1.80; 12 for \$3.20.**

6609 Set of 5 Above Trollius for \$1.75.

Viola—Jersey Gem

Viola Cornutas

6616 JERSEY GEM. R. G. Not only a gem for the Rock Garden, but also one of the most valuable hardy bedding plants of recent introductions. The plant is of compact sturdy habit, forming neat clumps. It is in bloom continually from May to October. The flowers are pure violet-purple, and borne on stems 5 to 6 inches long. **Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.**

6618 APRICOT. R. G. The plants are small and of compact growth but very colorful with their large blossoms of various shades of apricot-yellow. They bloom almost continuously from May until frosts. **Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.**

6619 SET OF TWO VIOLAS FOR 35c.

6620 Myrtle, Vinca or Periwinkle

Minor. R. G. A beautiful and useful trailing evergreen plant, excellent for carpeting the ground under shrubs or trees, on a terrace or embankment or in any location where it is not desirable to maintain a mown lawn. Especially well adapted to cemetery use, and in Rock Gardens about the larger rocks. The flowers are blue and produced at intervals throughout the season. Strong nursery grown clumps. **Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60; 25 for \$2.65.**

Hardy Chrysanthemums

PRICES these 10 Kinds **Each 20c; 3 for 55c; 6 for \$1.00; 12 for \$1.90.**

6070 Old Homestead (No. 1 on Color Plate.) A very fine large flowered decorative type of lively whitish or buff-pink with reverse of petals a deeper pink or light purple which reflects into the entire color tone of the flower.

6078 White Doty (No. 2 on Color Plate.) A very splendid pure white of finest quality and habits. An upright grower with strong stems and vigorous plant. The long petals are somewhat pointed and slightly inclined to quill.

6068 Indian (No. 3 on Color Plate.) A well named variety of rich coppery-red tone, a somewhat unusual color among outdoor Chrysanthemums. A medium tall vigorous plant producing its beautiful fully double blooms very freely.

6063 Autumn Glow (No. 4 on Color Plate.) A very beautiful variety of rosy-crimson, which might almost be called a light purple. Plants are hardy and vigorous and heavy producers of large fully double blooms.

6074 Skibo (No. 5 on Color Plate.) A button type, producing great clusters of miniature golden yellow buttons. A very fine cut flower variety.

6079 Set of above 5 only 85c.

6067 Golden Queen (No. 6 on Color Plate.) Plentiful bloom of a rich Strontian-yellow with just a touch of pale orange at the base of petals. Flowers are large and of fine substance keeping a long time when cut.

6061 Adironda (No. 7 on Color Plate.) A medium sized flower of unusual attraction, its color is the most pleasing bronze, a combination of orange, old gold and yellow, that is very beautiful and attractive.

6064 Fred Peele (No. 8 on Color Plate.) The petals are a rich yellow with crimson reverse, the opened center showing full crimson producing a beautiful crimson and gold effect.

6062 L'Argentilis (No. 9 on Color Plate.) A dull velvety crimson with petals quilled and tipped golden. The reverse of petal is yellow which, with the curling of the long petals flashes here and there in the face of the flower.

6069 Little Bob (No. 10 on Color Plate.) A late free flowering variety producing immense clusters of pretty bronze button type flowers.

6080 Set of above 5 only 85c.

6083 Set 10 Mums Value \$2.00 for only \$1.50.

Hardy Chrysanthemums

The well-known autumn flowers of our grandmothers' gardens that produce such an abundance of beautiful flowers at a time when they are most appreciated.

In the following we have selected varieties that have proven hardy in the North with slight protection. An assortment of the hardy "Mums" certainly should be in your garden, they give such a wealth of bloom in

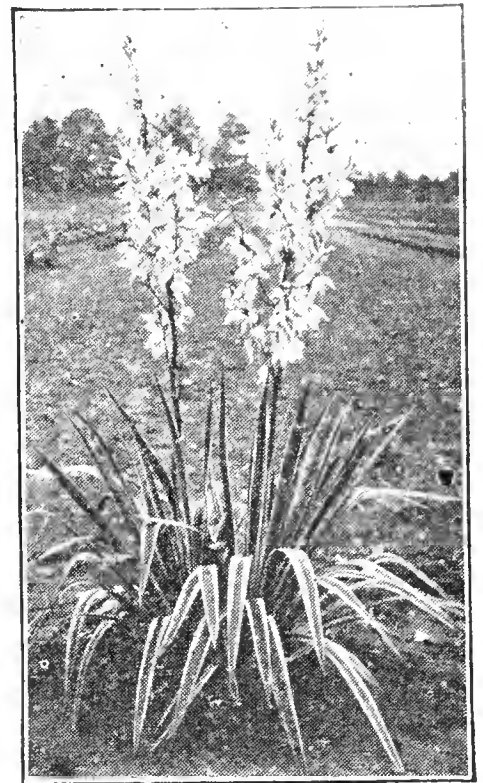

the fall when flowers are scarce. Bring bouquets into the home where they will keep fresh for a week or more.

Beautiful New Hardy Mum

See color plate on page 70

6065 Aladdin A new, extra early, very hardy Chrysanthemum of gleaming, burnished copper and gold. Awarded two gold medals and many certificates of merit. This wonderful new Mum sold for \$1.00 per plant, two years ago. Now, by producing them in large quantities in our own greenhouse by our method, we are able to offer them for the very low price of **Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.**

All Plants suitable for Rock Gardens have "R. G." after the name.

Variegated Yucca

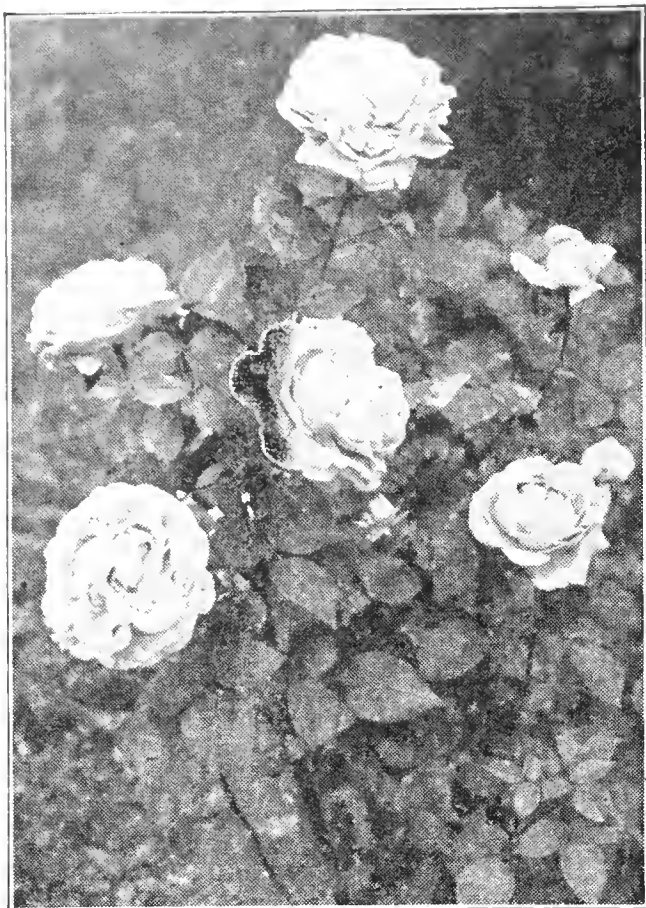

6641 New Variegated Yucca

Adam's Needle. Among stately hardy ornamental foliage and flowering plants, there is nothing more effective and striking for isolated positions on the lawn than this splendid type of YUCCA. Its broad sword-like evergreen foliage and immense branching spike of drooping, creamy-white flowers during June and July make an attractive plant for any position. This valuable new variety is identical with the popular old variety, except that each sword-like leaf is broadly margined creamy white, adding much to its beauty. **EXTRA STRONG PLANTS, Each 40c; 3 for \$1.00; 6 for \$1.80.**

For ONLY \$10.00

Hardy Sweet Peas

Frau Karl Druschki Rose

Hardy Hybrid Perpetual Roses

The plants we offer are all strong, healthy, two year old, field grown, budded stock.

These are the beautiful "June Roses" so universally popular. They are the largest and richest in colors of all Roses, and are perfectly hardy everywhere. In accordance with our established policy, we have selected only six of the best varieties.

8211 Frau Karl Druschki (P. Lambert 1900.) A recent referendum among the members of the American Rose Society brought out the information that this is the most popular Rose in America. Its pure, snowy-white, unshaded blooms are of immense size, sometimes reaching almost 6 inches in diameter and they are of lasting quality, on fine stems, though without fragrance. In addition to its abundant bloom in June, will, if kept growing, produce many flowers throughout the summer and in the autumn. No substitute for "Druschki" has yet appeared.

8213 General Jacqueminot A rich velvety crimson, changing to a scarlet-crimson. This is the best known of all hybrid perpetuals, and is without rival in fragrance and richness of color. Blooms freely.

8221 Magna Charta Flowers are very large and double, of bright pink, suffused with carmine. Deliciously fragrant, growth is strong and erect, foliage good.

8222 Mrs. John Laing Large flowers of clear pink, cup-shaped, fragrant and double. Strong growth, healthy foliage and free flowering. One of the best Hybrid Perpetual Roses, giving some flowers in the autumn.

8230 Paul Neyron The largest Rose in cultivation, sometimes called the Peony Rose. Color bright, fresh clear pink. Flowers are very double and full, delightfully fragrant. Blooms almost continuously June to October.

8243 Ulrich Brunner Large, full flowers of cherry-red, very fragrant. Strong, erect growth, large foliage. Flowers freely in early summer. An old and well known variety, almost thornless.

Prices on the above Hardy Perpetual Roses. Each 60c; 3 for \$1.50; 6 for \$2.70.

8248 Rose Collection
6 Roses 1 each of above
6 Hybrid Perpetual
Total Value \$3.60 for \$2.75

Everblooming Hybrid Tea Roses

The Hybrid Tea or Monthly Roses produce their beautiful bloom almost continuously from June until frost. They are the popular roses so much used for bedding and as cut flowers. Our list below includes some of the finest varieties known.

See page S4. The big number after the name refers to the color plate. These are all hardy, field-grown right here in Northern Ohio and number one grade, which is the finest rose produced. Do not confuse this with cheap, department store roses which are largely produced in the south and not strong enough to stand our Northern winters. They are well worth the price we ask for you cannot buy better roses anywhere, at any price.

8261 Columbia Lively Pink. Large, fully double. Shades darker at maturity. Fragrant and free blooming. Each 75c; 3 for \$1.90.

8263 Dame Edith Helen (12) Clear Pink. Blooms are very large, pure glowing pink, intensely fragrant and lasting. Each 75c; 3 for \$1.90.

8266 Duchess of Wellington (4) Yellow. Opens a rich orange yellow and turns to red-dish-gold and lemon. Each 65c; 3 for \$1.65.

8275 Gruss an Teplitz Crimson. Blooms from early June until frost in great clusters. Each 75c; 3 for \$1.90.

8318 Herbert Hoover (9) Pink and Yellow. Beautiful pointed buds opening to large flowers of cerise pink, flame, scarlet and yellow. The most dazzling color effect. Each 65c; 3 for \$1.65.

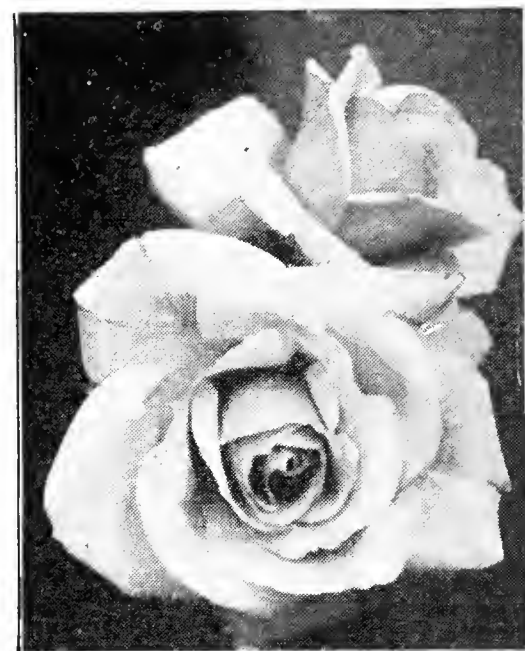

8280 Hollywood Rich rose-red with darker veining. An adorable rose of medium size, long pointed, double, very long lasting and extremely fragrant. A real addition to your rose collection. Each 75c; 3 for \$1.90.

8288 Joanna Hill Indian-yellow. Very double rose with beautiful indian-yellow center, surrounded by bold buff petals. A most gorgeous color combination and shading. Each 75c; 3 for \$1.90.

8299 Los Angeles (5) Coral Pink. Produces continuous bloom on long-stemmed, luminous flame-pink flowers toned with coral and shaded translucent gold. Each 65c; 3 for \$1.65.

8302 Madame Butterfly (10) Light Pink. A symphony of bright pink, apricot, gold and white. Full-petalled, prolific and great color-appeal. Each 65c; 3 for \$1.65.

8304 Mme. Edouard Herriot (13) Coral Red. A beautiful variety. Large flowers of coral red, shaded with yellow and bright, rosy-scarlet. Large, long, pointed buds. Each 75c; 3 for \$1.90.

Mrs. Aaron Ward Rose

8306 Mrs. Aaron Ward Orange-yellow. Long, shapely buds opening into semi-double, cup-shaped flowers of deep Indian yellow, varied and shaded. Each 75c; 3 for \$1.90.

8311 Norman Lambert Coppery Orange. A very lovely delightfully fragrant rose of medium size and wonderful quality. Each 75c; 3 for \$1.90.

8326 Red Radiance (8) Crimson. Blooms globe shaped, very full and almost continuously. Each 65c; 3 for \$1.65.

8330 Souv. de Claudius Pernet Clear yellow. A clear, untinted, sunflower yellow. Holds color well in bud and full bloom in brightest sun. Each 75c; 3 for \$1.90.

8333 Talisman (11) Coppery Yellow. Richly colored flowers, extremely fragrant, of golden yellow and copper. One of the most popular of the new roses. Each 75c; 3 for \$1.90.

8339 Wilhelm Kordes Long pointed buds of oriental red and gold. Fully double, high-centered blooms are of rich golden-salmon tinged with copper. A sensational new variety. Each 75c; 3 for \$1.90.

8352 Color Collection
9 Hybrid Tea Roses See Color Back Cover.
Total Value \$6.25 for Only \$5.00

Beautiful Hardy Climbing Roses

No other class of Roses is so easily grown and adds so much to the beauty of the home grounds. Whether it be on a trellis or arbor or at a porch pillar they so quickly make a fine growth and give such a great quantity of delightful bloom, that the place is transformed to a spot of beauty. Our list below includes only those that we know will give you the best results and the greatest beauty.

8505 Climbing American Beauty Color rosy crimson similar to its popular parent, and with same exquisite fragrance, a quality rarely found in climbing roses. Strong growth. Flowers from 3 to 4 inches in diameter, of fine form, and produced in great profusion in May and June. Each 40c; 3 for \$1.00; 6 for \$1.80.

8523 Gardenia Hardy Marechal Niel. A delightfully beautiful variety of very vigorous growth and with rich dark green foliage. Produces an abundance of fine flowers which are a bright yellow in the bud opening to a creamy white with a yellow center. Each 40c; 3 for \$1.00; 6 for \$1.80.

8526 Mary Wallace Introduced by the late Dr. Van Fleet and highly indorsed by The American Rose Society. A strong rapid climber of the Pillar-rose type, and a wonderfully free bloomer. Beautiful pointed buds, and large semi-double flowers 4 inches across. Color clear bright rose pink. Each 40c; 3 for \$1.00; 6 for \$1.80.

8535 Silver Moon Different from all other Roses with beautiful semi-double flowers, pure white in color, petals of great substance and beautifully cupped. The large bunch of yellow stamens in the center add to its attractiveness. Each 40c; 3 for \$1.00; 6 for \$1.80.

8508 Doctor Van Fleet A climber which combines absolute hardiness with flowers large as the tender sorts of Tea and Noisette classes. This variety shows a mass of beautiful clustered buds, which open out into large, shapely flowers delicate flesh white. Fine for cutting, stems 12 to 18 inches long. Each 40c; 3 for \$1.00; 6 for \$1.80.

8528 Mme. Gregoire Staechelin A new climbing rose of very vigorous habit. Flowers are very large moderately fragrant and of a delicate pink with attractively curled petals and, borne on long strong stems. The vigorous foliage of this new variety makes it a very fine subject for trellis or arbor. Each 50c; 3 for \$1.25; 6 for \$2.25.

The Climbing American Beauty

8504 **BLAZE** New Hardy Climbing **ROSE**

See Its Dazzling Beauty on Back Cover

The most dazzling, blazing, vivid scarlet Climbing Rose ever grown. It blooms frequently, (practically everblooming) produces quantities of Roses, is a vigorous grower, perfectly hardy and gives a wealth of beauty to any garden. Plant one of these startlingly beautiful **Blaze Roses** on your favorite garden wall, trellis or porch and enjoy its wonderful gay flowers in the house or garden. **Blaze Rose** can be pruned low for bedding, medium high for shrub use or allowed to grow into a trailing Rose as a climber.

8504 **BLAZE ROSE** for Only \$1.25

8310 **NIGRETTE** "The Black Rose"

Unusual and Beautiful, See Back Cover

Nigrette is known as "The Black Rose of Sangerhausen." The flowers are of medium size, deep maroon-black with blackish velvet sheen, giving it the appearance of a black flower. It is the darkest of all Roses, is deliciously fragrant, and is continuously in bloom.

If you want to have an up-to-date Rose Garden, you must plant one of these **Nigrette Roses**. Nigrette is the sensation of the Rose world today.

8310 **NIGRETTE ROSE**. Each \$2.00

A Dazzling Beauty Hardy Climbing Rose

8530 **Paul's Scarlet** Most dazzling scarlet rose ever grown. Winner of the gold medal at the National Rose Society Exhibition. Semi-double flowers, in clusters of 3 to 20 Roses each. Perfectly hardy, continues to bloom long after many other Roses have disappeared. Startlingly attractive. Each 40c; 3 for \$1.00.

Hardy Rugosa Roses Eskimo Beauties

This valuable new type of Hardy Rugosa Rose called "Eskimo Beauties" is becoming very popular. They have perfectly double flowers and bloom at intervals throughout the entire season. They are absolutely hardy and are not susceptible to many of the diseases and insects that attack other roses, keeping their foliage clean and fresh through the season. All the pruning you need to do is to trim out dead and superfluous wood. The plants bloom intermittently through the summer.

8551 **Agnes** A fine Rugosa Rose with fragrant yellow flowers and fine crinkled foliage of rich dark green. The flowers appear at intervals along the branches making it very attractive. Each 50c; 3 for \$1.25; 6 for \$2.25.

8555 **F. J. Grootendorst** Bearing many bright red flowers with fringed petals, this variety is a mass of color when in bloom. A sturdy and healthy plant, one of the best of the Rugosas. Bears its bright flowers more or less all Summer. Each 35c; 3 for 90c; 6 for \$1.60.

8561 **Hansa** A quite distinct color among Rugosa Roses. Large showy flowers very double of a reddish violet, very freely produced on a strong typical Rugosa plant. Very hardy and dependable. Makes a splendid hedge. Each 35c; 3 for 90c; 6 for \$1.60.

8565 **New Century** Considered by many as the best Rugosa yet introduced. Splendid, very large fully double flowers of clear flesh pink with light red center and each petal bordered with creamy white. Very fragrant. Erect strong growing plants with tough foliage. Each 35c; 3 for 90c; 6 for \$1.60.

8569 **Sir Thomas Lipton** Snowy white flowers of good size and unusual quality borne in utmost profusion in spring and to some extent throughout the summer and fall. The plant is large and vigorous making an excellent specimen plant or massing variety. Each 35c; 3 for 90c; 6 for \$1.60.

8554 **Dr. E. M. Mills** Light primrose with pink suffusion which becomes more pronounced in the later blooms. Cup shaped flowers, semi-double. It flowers along the stem like Hollyhocks. Each 35c; 3 for 90c; 6 for \$1.60.

8574 Set of 6 Rugosas only \$1.50

Everblooming Hardy Cluster Rose

8578 **Baby**

Rambler Entirely distinct from all other Roses. Neat, dwarf, compact habit, in bloom continually from June until frost. Pretty, little perfectly double flowers in large clusters. Color brilliant crimson. Perfectly hardy, retaining its glossy green foliage all summer. Grows about 18 inches high. One of the finest ever introduced. 2 year field grown plant. Don't confuse this with the Climbing Ramblers. We have seen a number of beautiful hedges of this variety. Each 35c; 3 for 90c; 6 for \$1.60.

Baby Rambler

Each 35c; 3 for 90c; 6 for \$1.60.

4 Grape Vines Only 80¢

Concord

Agawam

Niagara

Worden

No item in this catalog will give you greater satisfaction than this splendid set of Hardy Grape Vines. Every home, if only on a city lot, will provide room to plant them.

8601 **Agawam** A rich, deep red, almost maroon. The large, meaty berries are borne in huge bunches. An excellent grape; you'll like it.

8603 **Concord** The best known and the most popular grape. Its large blue-black berries are most delicious and of finest quality.

8611 **Niagara** This large amber-white grape is the finest of all the white grapes.

The clusters are very compact and the berries sweet and juicy. It ripens at the same time as the Concord.

8618 **Worden** Similar to Concord but slightly darker, sweeter, and ripens about ten days earlier. A fine variety for the home garden.

Price Above Vines Each 30c; 3 for 75c; 12 for \$2.40

Write for Quantity Prices for Larger Plantings

8619 Set of 4 Strong, Well Rooted, 1 year old Grape Vines illustrated above Only 80c.

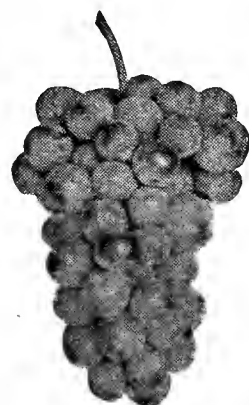

Three New Hardy Hybrid Grapes

See Color Plate on Page 52

8602 **Caco (Red)** The berries are unusually large, bunches of good size, compact and of good form. Very strong, vigorous growers, hardy, healthy, and prolific. A cross of the two well-known grapes, Catawaba and Concord, has all the good qualities of both without the defects of either. Ripens in September. Price, strong well rooted vines, Each 40c; 3 for \$1.00; doz. \$3.20.

8606 **Frédonia** A new early blue developed by the New York State Experiment Station. Heavy bearer, good shipper, picks as late as Concord. Big, compact bunches. Each 50c; 3 for \$1.25; 12 for \$4.00.

8614 **Portland** A new extra early white, also developed at Geneva. Very sweet. Not a good shipper but fine for home table. Each 50c; 3 for \$1.25; 12 for \$4.00.

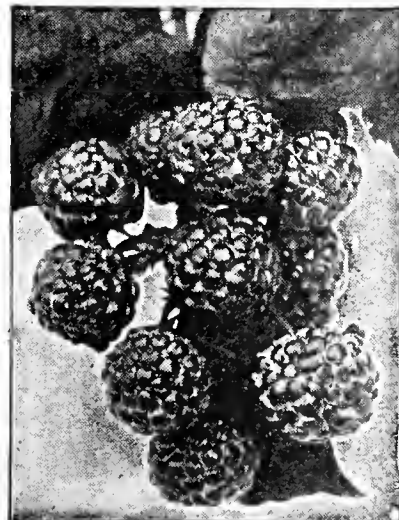

The New Caco Grape

Berry Plants

8646 **Early King Raspberry** This is an extra early red Raspberry. The berries are very large bright-red, firm and easily picked. The canes are strong and perfectly hardy. As a market variety it is a money maker as you get the early market ahead of other varieties. Price: 6 for 45c; 12 for 80c; 25 for \$1.50.

8656 **St. Regis Everbearing Raspberry** A splendid new early Red Raspberry that is well worthy of a place in every garden. It produces an abundant main crop like the common varieties. Remove old canes 1st of August to make room for young canes, which are already ripening fruit, continuing until October. Berries large, bright red and of excellent quality. Strong well-rooted plants, Price: 6 for 50c; 12 for 90c; 25 for \$1.75.

Cumberland Raspberry

8644 **Cumberland** Black Raspberry

The "BUSINESS BLACK CAP." The best black Raspberry grown. Very hardy everywhere. Heaviest bearing variety in cultivation. Fruit is extra large, jet black, and of superior quality. Ripens medium early. Price: 6 for 45c; 12 for 80c; 25 for \$1.50.

8664 **Eldorado Blackberry** This popular hardy Blackberry is known everywhere and more largely grown than any other because of its extreme hardiness and dependability. Eldorado can always be depended on for an abundant crop. It is the Blackberry for every fruit grower. Large, sweet and free from core. Price: 6 for 60c; 12 for \$1.10; 25 for \$2.00.

8653 **Latham Red Raspberry** Large size, fine red color, firmness and good quality make the Latham a favorite with growers, merchants and consumers. The plants we offer are absolutely free from "Mosaic Disease," the great enemy of raspberry growers. Price: 6 for 50c; doz. 90c; 25 for \$1.75; 100 for \$5.50; 1000 for \$50.00.

Eldorado Blackberry

Grapes are going to be worth real money again. We recommend that you plant plenty.

Lawn Seeds To Beautify Your Home Grounds

Your lawn is the foundation for all of your other plantings. The trees, shrubs and flowers that you have planted around your home cannot produce the perfect picture of beauty that you desire without the foreground of well-kept lawn. A good lawn is not difficult to produce.

Templin - Bradley's Fine Lawn Mixtures

Any one variety of grass alone will not make a completely satisfactory lawn, as each variety has its peculiar advantage. Thus when several varieties are blended in the proper proportions the advantages of all are combined in your lawn. We have spent years of experimental work in securing the proper varieties and proportions to use in each mixture for very best results. One pound of our lawn mixtures will sow 200 to 250 sq. ft. of new lawn. For filling in an old lawn use one-half that amount.

Full directions for planting and the care of your lawn will be sent with every 5 lbs. or larger package of seed or will be sent free on request.

4201 Ideal, Our Best Regular Mixture

For a fine permanent lawn. It is a carefully blended mixture of the following varieties of hardy grasses best suited to growing a compact durable evergreen sod: Kentucky Blue Grass, Red Top, Fescues, White Clover and Bent Grass, a combination that insures a fine velvety lawn that will withstand the heat of summer and the cold of winter. Lb. 50c; 3 lbs. \$1.25; 5 lbs. \$2.25; 10 lbs. \$4.25; 25 lbs. \$10.00, delivered.

4202 Shady Nook Mixture, Best for Shade

A special mixture containing varieties that naturally grow in shaded places. Suitable for sowing under shade trees and in shady corners, where the ordinary mixture will not do. The shady lawn must have special care as well as the right kind of seed. Our Lawn Leaflet explains what is necessary. 1/2 lb. 30c; lb. 55c; 3 lbs. \$1.60; 5 lbs. \$2.50; 10 lbs. \$4.75; 25 lbs. \$11.25, delivered.

4203 Quick Growth Mixture Makes a good lawn quickly. While not composed of as fine or expensive grasses as Ideal, nevertheless Quick Growth contains enough of these grasses to insure a good lawn after the biennial varieties have run out. Contains white clover. Compares favorably with many of the "best" mixtures on the market. Lb. 40c; 3 lbs. \$1.15; 5 lbs. \$1.75; 10 lbs. \$3.25; 25 lbs. \$7.50, delivered.

4204 Superfine Bent or "Golf Turf" Mixture We highly recommend the use of this mixture as it is made up of the best strains of fine leaved grasses suitable for the "Putting Green" or Lawn. It contains a liberal proportion of Bent Grass as well as other varieties to secure a fine velvety sod throughout the season from early spring until late fall. Lb. 80c; 3 lbs. \$2.35; 5 lbs. \$3.75; 10 lbs. \$7.00, delivered.

4235 Pure White Clover Many prefer to add more Clover when sowing a new lawn or for filling in an old lawn. White Clover flourishes well in almost any soil. Best Quality. 1/4 lb. 20c; 1/2 lb. 35c; lb. 65c; 5 lbs. \$3.00; 10 lbs. \$5.50, delivered.

Make Your Lawn as Beautiful as This Golf Green

4227 Poa Trivialis Rough-Stalked Meadow Grass. One of the few grasses that will succeed in the shade and maintain a good turf under this condition. This grass is a quick grower and preserves its bright green color from early spring until late autumn. An excellent grass to fill out thin spots under trees, etc. Lb. 70c; 5 lbs. \$3.10; 10 lbs. \$6.00, delivered.

4224 German Bent Grass This is produced and imported from Europe as German Mixed Bent and is a natural mixture of several varieties of this type of grass. Contains a certain percentage of the true carpet or creeping Bent, the balance being other closely related varieties. Ask for prices.

4228 Astoria Bent A very fine variety of Bent grass that is being produced in Oregon. This is perhaps the best variety for those who wish to install a Bent lawn by seeding. Astoria Bent produces a lawn of very fine texture, good color and uniform growth, preserving its quality and fine appearance without excessive maintenance. Growth is dwarf and compact, spreading by runners close to the ground. We offer a very select strain. Lb. \$1.35; 5 lbs. \$6.50; 10 lbs. \$12.50, delivered.

4229 Seaside Bent (Coos County Strain). A close heavy turfing grass especially well fitted for putting greens or fine lawns. It is quick growing, spreading by runners or stolens which quickly cover the ground and maintain a thick turf of fine, even texture. Lb. \$1.50; 5 lbs. \$7.25; 10 lbs. \$14.00, delivered.

4230 Rhode Island Bent A native American variety that produces a thick fine turf of good color and texture. Quite hardy, enjoying plenty of moisture and tolerant of rather poor soils. The seed is scarce. Ask for prices.

About Bent Grass Lawns

We will be glad to send on your request our special leaflet on the making and maintenance of Bent Lawns.

Will Solve Your House Plant Problems You Feed Your Pets--Don't Starve Your Plants Easy To Apply and the Results Will Please You

Potted plants and ferns soon use up the food in the soil given them when potting, and unless more food is supplied to them when this is exhausted, they merely stand still or gradually decline.

With small applications of Watch-em-Grow at regular intervals, applied according to prescribed directions, these plants will continue luxuriant, healthy, new growth and produce their beautiful bloom regularly as nature intended.

Watch-em-Grow is a clean odorless powder that quickly dissolves in water and is applied just as you water the plants. No trouble, no bother and no mess.

When potting plants a teaspoonful of Watch-em-Grow mixed with a gallon of soil will supply sufficient food for the plants for six or eight months.

On rose bushes or other choice plants in the garden Watch-em-Grow is extremely beneficial.

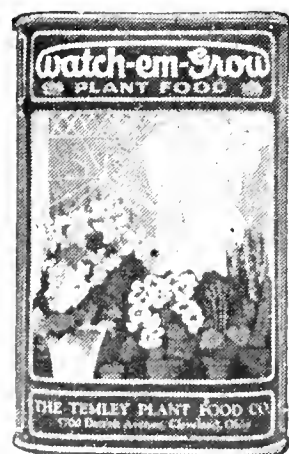

The Proof in the Photograph

The plant on the left was started with regular potting soil and some fertilizer. The plant on the right in addition was treated with a small amount of "Watch-em-Grow." These two Cineraria plants were started at the same time under exactly the same conditions, with the single exception of the "Watch-em-Grow." Looks almost too good, doesn't it?

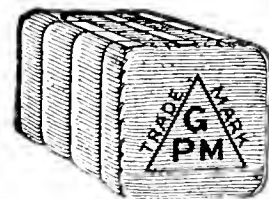

8 oz. Can, 50c.

The Plant on Right Had Watch-em-Grow

The 50-cent Can

See Watch-em-Grow in Color, Page 34

Peat Moss Improved Granulated

An organic material that contributes humus content to the soil. It assures moisture to the soil, is capable of absorbing 12 times its weight in moisture. Peat Moss lightens heavy clay soil, binds sandy soil, is free from weed seeds or fungus growth of any kind. It is clean, odorless and pleasant to work with. Make fine winter mulch, is fine medium for packing and storing dahlias and other tubers, roots and fruit. Economical to use. One large bale will spread 300 sq. ft. Splendid for lawn top dressing.

Peat Moss Prices
F. O. B. Cleveland by Freight or Express
Small Bale, 2 bushels, 18 lbs. Ea. \$1.25.
Large Bale, 20 bushels, 180 lbs. Ea. \$4.00.

Have Every Feature You Want in a Garden Glove

All-Leather—DIRT PROOF—Durable
SOFT—Comfortable—WASHABLE

Easy on the hands and easy to wear!

Economical, too—outwear 6 pairs of ordinary fabric gloves, are washable and can be used the year round for garden, housework, yard, painting, furnace, garage, etc. You'll like them.

Sizes for Women (small, medium, large) for Men (small, medium, large). Price, 75 cents a pair, postpaid (2 pr. \$1.40.)

Antrol

Kill Ants in the Nest!

Antrol is the simplest method for getting rid of Ants. It kills them in the nest, destroying the queen and the entire colony. It is easy to use, controls the sweet and the grease eating Ants, is safe to use and is the most economical and permanent Ant protection to your home. **Price Antrol Sets, 4 glass containers and one 4 oz. bottle of Antrol Syrup for \$5c.**

Antrol Syrup Separately. 4 oz. Bottle 40c; Pint 95c.

Antrol Powder. Shaker twist-top can, Each 2½ oz. can 30c; 3 cans for 75c.

Insecticides and Fungicides

Our Prices Include Delivery To Your Door

EVERGREEN

Non-poisonous Insecticide

New Ever Green Spray will protect the beauty of your garden. It will kill chewing and sucking insects, is approved by noted scientists and is used by leading florists.

Ever Green contains pyrethrum which is fatal to destructive insects but is not injurious to man, pets and birds.

Price 1 oz. 40c; 6 oz. \$1.10; 1 qt. \$2.15; 1 gal. \$11.50.

SELOCIDE

Kills Red Spider

Selocide kills 90% to 100% of Red Spiders in just one application. It also kills the eggs and does not harm the tender plants when properly used.

Selocide contains Selenium, the only material yet found that is a sure kill for Red Spider.

Selocide contains a spreader and is to be sprayed thoroughly on upper and lower sides of the leaves to kill Red Spider only. **Price 1 qt. \$1.40; 1 gal. \$3.50.**

FLORAGARD

Fungous diseases should be prevented as they are very difficult to control when once started. Black spot, mildew and canker on roses must be prevented first if they are to be controlled.

Floragard dusted on the plants regularly throughout the season will control these disease attacks as well as a sure kill for leaf-eating insects. **1 lb. can 50c; 5 lbs. \$1.75.**

FISH-OIL SOAP

The best and most efficient soap to be mixed with other insecticides and fungicides as a spreading and penetrating agent. **1 lb. 40c; 5 lbs. \$1.60.**

FRAIN'S

Tree Dressing
Will Save Your Trees

Treatment of cuts and injuries are far more important than the use of fertilizers on trees.

Use Frain's Tree Dressing and give your trees a chance to live their normal life. A tree's bark is to it the same as the skin to the human body. Save this bark with Frain's Tree Dressing. **Price 1 qt. 60c; 1 gal. \$1.75.**

SLUG SHOT

A well known all purpose insecticide and fungicide to be used as a dust. Can be used on vegetable crops without fear of harm to humans. Especially recommended for cabbage worms, currant worms and bean beetles. **1 lb. can 30c; 5 lbs. \$1.10.**

NITRAGIN

Inoculator

See Page 57

Inoculate your Garden Peas, Beans, Sweet Peas and Lupines with Nitragin. They need Bacteria Fertilizer. Nitragin is an old reliable Inoculator, well known and widely used by Agricultural Colleges. It is highly recommended for Lupine seed and for use in watering the soil around the roots of Hardy Lupines. **Price Garden Pkg. 25c; Large size 50c.**

ROSE AID

The most efficient dusting compound ever developed for the control of Black Spot, Mildew and Chewing Insects.

Rose Aid is a combination of fine Sulphur, Dry Lime, Sulphur-Bentonite and Arsenate of Calcium. **2 lb. can 60c.**

ROSE AID (With Rotenone)

The same product as the above except that rotenone has been added. Rotenone is a powerful insecticide against practically all insects. **1 lb. can 50c.**

SEMESAN

A Superior Disinfectant

Authorities stress the importance of planting clean seeds, free from disease and infection. Semesan is highly recommended as a disinfectant and can be used as a DUST or in LIQUID form.

Why not lay the foundation for a heavy-yielding, healthy and profitable crop this year by using Semesan on all seeds, bulbs, roots and potatoes?

SEMESAN comes under three formulas and we list them as follows:

SEMESAN Regular, for Vegetable Seeds. Price 2 oz. 55c; 1 lb. \$2.60; 5 lbs. \$12.00.

SEMESAN JR. for Seed Corn. Price 4 oz. 40c; 1 lb. \$1.15; 5 lbs. \$5.00.

SEMESAN BEL, for Seed Potatoes. Price 4 oz. 55c; 1 lb. \$1.75; 5 lbs. \$7.25.

SPRA-MULSION

A miscible oil emulsion recommended for use as a dormant spray for fruit trees, shade trees and ornamental shrubs. It will control San Jose, Oyster shell and many other scale insects. **1 Qt. 55c; 1 Gal. \$1.10.**

TREE TANGLEFOOT

Safe, Dependable,
Long Lasting

Tree Tanglefoot is a sticky material for applying in bands around the trunks of trees and vines to combat the climbing and creeping type of destructive insect pests. It remains three to four months, outlasting ten to twenty times any other material. **Price 1 lb. can 70c; 5 lbs. \$2.95; 10 lbs. \$5.60.**

TRI-GEN

In the past, Mildew and Black Spot have been most difficult to combat. However, these diseases are now easily controlled with the Tri-ogen Spray Treatment, which gives COMPLETE protection against all diseases and insect pests. It is easily applied and also acts as a plant stimulant—producing vigor in growth with resultant luxurious blooms, heretofore considered impossible. The Tri-ogen Spray Treatment applied weekly, from early season until late frost, makes it possible for the amateur to achieve the success, in many cases, comparable to the professional grower.

A. Small Kit (makes 16 quarts) **\$1.50**
B. Medium Kit (makes 64 quarts) **4.00**
C. Large Kit (makes 32 gallons) **6.00**

VOLCK A Powerful Spray

for Insect Pests

Volck is a spray for Scale Insects, Mealy Bugs, White Flies, Red Spiders, Rust Mites and similar insects. It is suitable for all kinds of plants, flowers, vegetables, berries, shrubs, ornamental trees, deciduous and citrus fruits. **Price ½ pt. 40c; pt. 60c; qt. 90c; gal. \$2.50.**

New Improved CERESAN for Wheat, Oats, Barley

If your seed is smutty, treat it with Ceresan to control the smut, if it is clean, treat it anyway and increase the yield. **One-Half Ounce Treats a Bushel. Price 1 lb. can 85c; 5 lb. can \$3.25.**

"DOGZOFF"

If you are bothered with dogs, cats or rabbits, "Dogzoff" is the spray you need. A most efficient animal repellent, non-poisonous to plants and animals and not offensive to humans.

"Dogzoff" is applied with any small insect sprayer and one application lasts three to four weeks. It will save its cost many times over around the garden and home.

Price for Season's Supply 69c

DUTOX

The best control for striped cucumber beetle, Mexican bean beetle, cabbage worm, Aster beetle and codling moth.

In practically every vegetable and fruit producing area in this country Dutox has become established among important growers as a control of many beetles and leaf-eating insects. Can be applied as a dust or liquid. **1 pound can 45c; 6 lb. bag \$1.40.**

The collage consists of numerous overlapping magazine covers, each dedicated to a specific aspect of gardening or home improvement. The covers are arranged in a dense, overlapping manner, creating a rich visual texture. The titles are prominently displayed at the top of each cover, often in large, bold, sans-serif fonts. The illustrations are detailed and varied, showing people engaged in different activities, such as planting, pruning, or working on a garden. Some covers include diagrams or charts, while others feature photographs of plants or garden scenes. The overall color scheme is monochromatic, with the covers appearing in shades of gray. The collage is a comprehensive representation of the diverse topics covered in the original image.
